Generál David H. Berger ve středu ráno vyslal dvě čety námořní pěchoty do Union Parish v Louisianě, kde twistery minulou noc zdecimovaly domy a zanechaly nejméně tři mrtvé a desítky zraněných. Mariňáci tam nebudou, aby utěšovali chodící zraněné nebo poskytovali úkryt. Generál spíše doufá, že jejich přítomnost přiměje loupeživé agenty FEMA si dvakrát rozmyslet, než budou vysmívat, okrádat a mučit vysídlené obyvatele, jako tomu bylo na Floridě loni v říjnu a v Metairie v Louisianě v září 2021. V druhém případě FEMA zadržela pohotovost ustanovení, dokud občané nebudou souhlasit s očkováním Covidem.

Zdroj z generálovy kanceláře řekl Real Raw News, že generál Berger nedovolí opakování představení, že jeho cílem je chránit občany před agenturou, která odmítá hlídat své vlastní.

"Pokud se FEMA nebude zabývat jejich kriminálním živlem, uděláme to za ně," řekl náš zdroj. "Přísaháme, že budeme bránit národ proti všem nepřátelům, cizím i domácím."

Dvě čety 247. ^{námořní} pěchoty, Camp Lejeune, zamířily ve středu časně ráno na jih do Louisiany. Mariňáci, dodal náš zdroj, mají dostatečnou palebnou sílu, aby odrazili invazi FEMA, i když to není jejich cíl.

"Nikdo tady nehledá přestřelku." Doufáme, že naše přítomnost udrží FEMA na nejlepší chování. Z dřívějších hádek vědí, že v případě potřeby zasáhneme, abychom ochránili životy a majetek lidí v oblasti. Krveprolití není to, co hledáme," řekl náš zdroj.

Nicméně mariňáci jsou hrdí na připravenost – schopnost improvizovat, přizpůsobit se a překonat a vědět, že FEMA má za sebou historii přinášení zbraní, uzamčených a nabitých, na takzvané mise na pomoc při katastrofách. FEMA má sklon nosit automatické zbraně a bedny s municí místo jídla, balené vody a dočasného úkrytu.

Loni v říjnu dostali obyvatelé jihozápadní Floridy, jejichž životy byly vykořeněny v důsledku hurikánu Ian, místo jídla a vody masky N-95 a posilovače Covid.

Námořní pěchota, řekl náš zdroj, opustila Camp Lejeune s náhradními MRE, ale jen tolik, aby nasýtila několik desítek lidí na týden.

„Máme omezené zdroje. Uděláme, co bude v našich silách. Ale naším úkolem je držet FEMA pod kontrolou. Doufáme, že naše síly dorazí do Union Parish dříve, než to udělá většina FEMA,“ řekl náš zdroj.

Včera v noci mluvčí FEMA Alexandra Travisová uvedla, že Federální agentura pro mimořádné události posílá do Louisiany zaměstnance, aby vyhodnotili škody způsobené bouří. Stejně prohlášení učinila v říjnu, poté začala z poškozených domů v Neapoli na Floridě mizet hotovost, zlato a zbraně.

Poznámka: Nezahlcujte prosím sekci komentářů „A co Nancy“. Její soud probíhá od dnešního rána. Do závěru nebudu mít zprávu, a to může, ale nemusí být dnes. Děkuji.

It looks like this battle is turning around in the patriots favor. It seems as though the eye wall of the storm has passed.

Last edited 11 hours ago by Patriot

My Companion mother makes 50 bucks an hour on the PC(Personal Computer). She has been out of work for quite some time however last month her check was 11,500 bucks only working on the PC(Personal Computer) for 9 hours per day. For more detail visit this article..<https://smartbucks1.blogspot.com/>

Last edited 10 hours ago by Mondexmomma

Don't reply to this deep state goon. Your just throwing gas on the fire and Mr. Baxter has to take the time to police these rotten cocksukkers...

Exactly. That foul frau's had more than enough attention in her 800 yrs on the planet. Perhaps we'll find out she was a potted "plant" for the white hats, & in fact IS an intelligent, considerate human being who loves her country....& no, I won't be taking any bets at all on that~ not a dang one. Stranger things have happened, however.

More tornadoes are expected to hit the SE today. The clouds are moving fast from all directions. I'm a little scared but got out emergency lighting an am going to cook dinner early. If FEMA has to come this way it won't turn out well for them. We are armed to the teeth, too.

Was just saying the same thing to my hubs. Louisiana is armed to the teeth as well. We don't play around.

It breaks my heart that people have to suffer natural disasters, then have to defend themselves against FEMA which should be there to help. I'm proud of the Marines for going to help. I'm a little partial to Marines. My father fought on Iwo Jima in WWII.

I wouldn't call them natural anymore. cloud seeding and harrp is man made mayhem.

No thanks to Johnson endorsing weather manipulation . "He whole controls the weather controls the world," he said. He liked to play God.

First he helps take out a patriot president (JFK), then ramps up the war for profits, and prior to that he steals an election in 1948, then in 1954, he creates a tax section where the preachers have to submit to the government their preachings. VILE MAN.

This Johnson person was a wicked vile man, he did a lot of damage to our country and to the Christian Pastors. However, he did not lived long enough, he died at the age of 65 years old. I could only imagine where he is right now along with a many other wicked people.

Yes, one has famous quotes paraphrased, " I had more women by accident than JFK did on purpose"!!

They are raining nanobots, which can be triggered to aggregate and take any shape to replace anyone they want.

Who was awarded that contract SERCO?

Perhaps we should stop awarding contracts to other countries. All of the members of the Pilgrims Society should be rounded up and hauled to GITMO they are our enemies foreign and domestic.

Can you and do you read? He said as soon as he has information on her tribunal he will report on it.

Do you really think he did not know that? He did it simply to piss off Michael Baxter. He might not be paid to do it but he is just another stupid troll trying to destroy the comment section.

Turns out the Covid boosters are not going away, FEMA, along with the rest of the dep State, wants us dead.

The minute they took her inside Gitmo, they took away her makeup kit, the rest of her clothes including her \$10,000 Mega-Bra and made her put on that traditional Orange with diapers on,...all the same shit that you'll be wearing some day soon.

This morning her eyebrows had that sad look, and by noon they looked surprised like she needed to walk past a fire hydrant to piss on it.

They also took away her likker and now has to drink WATER! Oh the dread.....,plus she can't brag about her supposedly big saggy hooters any mo.....I can imagine that she had to be gagged, from all of the outbursts and expletive bombs too..She will do the limp body routine, like the Hildabeast did, going to the gallos and her last words will be....

She'll be dead and gone soon.....one way or another. She's has enough heists under her belt, don't you think? We need to see her hang in a public setting, though. Someone has to be the example of the death penalty for others to learn by.

As a former Louisiana resident of 30 years, my thoughts and prayers are with the citizenry of Union Parish. As a person desperately looking for truth, if any RRN subscribers are in the affected area, this article should be easy to verify.

As a former LA resident, would you know if the "Pitbulls and Parolees" dogs are safe or are they in the storm's way? They've got some 400 dogs there.

Good thought. I certainly hope the dogs are fine. For the person who gave your article a -1...**Pitbulls and Paroles** is a TV show.,,,real life.

Even if someone is there and contradicts MB, no one at RRN will believe him, so it's a futile exercise. Believe in RRN more than your eyes!

Good for Berger. He is an amazing man. I know you will report on Nancy's Tribunal when you can!

Ah yes surely this will finally be the time RRN posts a video after two years of never having any video or photo evidence of anything

You are a lucky duck that I am not the moderator of this website. Your ass would be gone.

Well,....they tried their best to provoke the demons in her to come out to play so they can perform an exorcist, but apparently she might not have any inside her, and that she is a demon.

Sorry for being repetitive but I submit that military tribunals for the elite White House, Deep State, Congress and Big Tech members was over before it started. This is according to Q's post 3673 dated 12/2019.

Here it is in parts. The leverage is perfectly planned out.

- they had to sign a confession
 - they had to confess of their crimes on video
 - allow their social media to be taken over
 - were implanted with a tracking device
 - DONE if Trump team is harmed
 - told to play a specific "role"
 - told they could go to jail if the entire plan works
- Otherwise original sentence happens

Now you've heard the rest of the story.

Ever notice how accurate the Qposts are. That's because the events have already happened and then Q makes their Posts. They aren't making predictions. They are posting coded comms for the people to read, learn, and wake up from. Most all of the major deep state elites were gone by 2019 for example.

I hope they throw the book at her, let her hang. They should have put Miguel Cardona away for life. Those are our children, and they need to be protected. Wonder if they will send out a notice to all the Schools he contacted and threaten them with arrest if they implement his agenda...Or do something to stop them, the schools, from implementing that horrific agenda.

The good news is that we know the outcome! And yes, Nancy. We know just who you are!

As you seem to be MBs favorite, can you please ask for some videos? He may listen to you.

Thanks for the update and thank you to the marines! Did I miss Avril tribunal? What happened after her arrest?

I looked for it and you are right there is no follow up report on her. Michael Baxter makes reports when he receives them from the military. I guess they left her tribunal out to report on something more pressing at the time.

Previous article shows the blonde villain was executed for taking our taxpayer funds to give to a Ukrainian general under Zelensky and "fucking Trump over."

FEMA needs to be defunded. I did my part. Paid off the house 10yrs early to avoid the flood insurance that was set artificially and arbitrarily high to capture my property in a flood zone at the highest insurance rate possible. Two 500 yr storms back to back and only had a few carp swimming in my yard. More government theft made possible by the banksters

My uncle once gave me a great recipe for carp. First, you nail it to a piece of plywood and put it in a 350 degree oven for 10 minutes. Then you take it out of the oven, remove the carp... and eat the plywood.

Hope they are successfully. I hear that people in Mayfield KY that was level last Christmas by tornados, probably created by harrp and the cabal cloud seeding. Will only get \$1000 per family ,of that nearly \$50 million donate by people in three states. It was stated by KY little asshole Just saying. And just a fyi KY is in lots of crap. Luville KY is going to build another tunnel from its fair grounds to down town said to make it easyer. Kidde's go into the fair don't come out. Hope the military watching that shit.

I'm just going to say. Northern KY, southern IN were big military complex's for many years. Civil war, WWI&II, Korea, veitnam's era's. And old sewage line that go 50 plus feet deep for miles can be converted. What's in your towns?

Thank you so much Michael for what you do. And if you get a chance pass the thanks on to General Berger. I live in Louisiana although the tornadoes seen in my area seem to have passed through with minimal damage. Praying for our troops and those fighting for and standing for righteousness daily.

Tagging on... Yes, Thank you Michael for your well-written and interesting reports and many thanks in all of our hearts for the difficult work and risk and sacrifice of our white hat military and General(s) Berger and Crandall et all!

Last edited 11 hours ago by whateverfloatsyourboat

Sending prayers too all those effected by this. Where can I give blood too. That it won't go too the red cross. My Dad who is a Korean war veteran had nothing good too say about the Red Cross. I've seen others Comment about how others like my dad didn't like the red Cross. I heard years ago that the head of the red Cross made more

money than the president. I'm going to have to reach this. Anyway God bless us all amen. Be the change for the better world universe. It can start locally. Listen too coast to coast Am radio last note. George Nooray Dr guest said he got the covid shot it amazes me how Dr don't resaserch this. I liked his other stuff. I hope they go after people who suppressed the truth and go after them too. Well as always please look in too taking out Lori Lightfoot and her boss Pigster...

Have you yet become aware that the "vax" is actually a bioweapon and it transfers from the feckless idiots who volunteer to be jabbed to anyone in their vicinity who hasn't... sort of like water reaching its own level is the impression I have. We have a lot to learn about what we ALL have to do to protect our own bloodstream from this transference and how to cope with the effects of the accumulating damaged platelets in our own blood so as to not develop severe consequences from the ever greater likelihood of our blood to clot... even micro-clots tear down our health.

Now we ALL have to take measures to get this time bomb out of our blood.

Last edited 11 hours ago by whateverfloatsyourboat

That means never again associating with the vaxxed, even if they are family and friends. That means permanent separation from them. Too much life-and-death risk to ourselves. No more proximity, ever.

I did not get vaxxed and yet I still have no life because of "vaccine" shedding. I still am very conscious of that. I am retired and single so its a lot easier than if I was employed but it still is not life. Unless something changes I have totally removed myself from my brother and his family. I have no choice. Unfortunatel Xena I agree with your comment 100%

Sorry about your brother. I really hope the natural cures and medicines not mRNA-related plus the medbeds undo this damage. I hate it when families split up, but I hate genocide even more.

I was aware of all that and am concerned about Christmas. There will be 10 adults jabbed and 3 kids jabbed. None for me...in a house. Contemplating whether or not to go. I was hospitalized for 3 wks with C19 pneumonia, and my husband was in for one month... followed by rehab. This was in January 2022. Thoughts?

Last edited 8 hours ago by PatriotGal

I've been fine except for my arthritis. I'm presently considering an N95 mask, but not sure yet. Thanks for your reply.

Try eating pineapple, wunce a day and your arthritis will disappear, along with any body aches. Big pharma makes most of their arthritis shit from re-synthesized pineapple and charges 2K % markup.....The main chemical in pineapple is Bromeliad acid..

They are useless with regards to the bio weapon and the vax spike protein. Like a chain link trying to stop a sandstorm! Yes... N95 as well as the cheap disposable kind!

Not all the vaccinated are sheep, Miss Whatevershitsyourpants.

I got the va x, not willingly. At the time my son was in the hospital. He had liver failure after a prescribed medicine almost killed him. We were not allowed to see him, nor was his wife or two year old son. When he finally got out, I got the shots because my wife and my son's family insisted.

It was a sacrifice any adult would make for a son. People who make assumptions are just making an ass of themselves.

I'm sorry you had no choice but to get the shot. I know that's your son and you must see him, but no genocidal jab is worth losing your life over that. I ABSOLUTELY HATE WHAT THE ILLUMINATI HAS DONE TO THE WORLD AND OUR FAMILIES WITH THIS KILLER SHOT. They all deserve Nuremberg 2.0 for lysing to us like that. NO EXCEPTIONS.

People who assume that the 'vax' is safe & effective....are just making asses of themselves.

You might just be around to enjoy them... and that is a distinct possibility I'm sorry to say! That's exactly how they want you to feel.. the pro-jab folks!

Unless you have been on a strict daily regimen of supplements to support your immune system, DO NOT GO!! 'Shedding' is very real, believe me. I just got over my second bout with Covid and this time, it was all MY fault. I allowed myself to run out of Zinc and put off getting more for about two weeks thinking that the other supplements would keep me from getting infected. I was around a person who had the four shots and booster so I knew better. Luckily, I did not get a severe case & I had some Ivermectin in the freezer. BTW, it works GREAT!!

No strict diet regimen. I just started taking Zinc about a month ago, but I've been taking Vits. C and D3 for years. How did you get a hold of Ivermectin? All I know is I don't want to be hospitalized again.....with the max amt of O2 as last Jan. What about if I wore a N95 mask?

Good! Get some more Ivermectin and tell those bastards you're NOT giving in to the them. Your health matters more. Make some homemade quinine or HCQ or Star Anise tea with the Quercetin if you have to, but DO NOT CAPITULATE!!

Praying for you Patriot and I sincerely enjoin others on this site to do same. There is strength in numbers for God said: where two or three are gathered in my name there am I in their midst. Blessings,

If the Covid goo sheds to another person by flying serum through the skin gases somehow, then so do standard flu shots, shingle shots, diptheria shots, rabies shots and ant-venom shots.....I think not... Covid poison, might be able to transfer to another human through body fluids, maybe..

The RC was founded and backed (behind the scene) by none other than the Rothschilds. They have been sucking \$\$\$\$ from RC since inception. That is where the money goes.

I read that of all the hundreds of thousands of dollars collected by the Red Cross for Haiti relief, only 6 houses were built and the rest funded the Clinton Foundation's efforts to steal the children.

Fellow Texan, the amount was in the millions but regardless, the donations went to the wrong hands and the poor Haitians continue to suffer probably to this date. Blessings,

Just like when Rockefeller formed The American Cancer Society when it was getting out that his petroleum-based drugs were causing cancer!! They had to control the narrative and control med schools' curriculum ! It's all in black and white!

I'm really happy that the marines will have boots on the ground there to begin with so it will be harder for FEMA to start their usual evil without being held in check. People are already hurting enough without being preyed upon by these evil FEMA bastards.

Great news to hear that good old Nancy is finally in a "squeeze play" at Gitmo. We will be delighted to hear about Nancy when you report it, Michael. Hope nobody goes bonkers and tries to harass you about details when you simply don't have them yet. Thanks for letting us know about it.

Last edited 11 hours ago by Andi Kay

Thank God for the White Hats in our Marines! . Gen. Berger is my Hero more and more. Trump and he are really looking out for us all. I pray no loss of life occurs. And having gone through Hurricane Michael and it's aftermath for 14 months, my heart goes out to the Louisiannians. They deal with flooding and now this. Please pray for them. It's right at Christmas, too

FEMA sounds like an apt acronym for those whose primary goal is to Filch, Embezzle, Maraud, and Appropriate.

The red cross does the same thing...they take all the donations and don't distribute to the ones that need the help. They will take the donations from anyone that brings in goods to distribute, even churches, and the red cross never distributes as they should. They hoard it for themselves...the red cross is a deep state organization...Rothschild's have their dirty hands all over it.

FEMA needs to be shut down!! What a disgrace to our Country. People scared and in need of desperate aid are being robbed by this disgusting agency. Thank you Marines. I love you!

What would make a great Christmas present would be to see video of the convicted criminals last moments on earth or the rightful president sworn into office.

Thanks MB. I laughed when I read your addendum to this report because before opening the site I had reminded myself that a story on NP is not possible until after the event.

I still have the image of that arrogant b-tch as it/she tore up the State of the Union address. I hope that President Trump is at her highly-probable execution and tears up some document pertaining to her attempts at defense right before they throw the hood over her face and release the trap door.

(Also All of her "doubles" should do extended jail time so that people know that there is no profit in impersonating a traitor.)

I disagree. I thoroughly believe that they also are fully guilty of TREASON. They know why they are doing what they are doing. They should have to swing right beside her.

The doubles should also do life, they need to be held as examples and accountable as they have also committed treason. Maybe that way it maybe stop anyone else from impersonating for or as traitors.

Allow me to share what I've read from a well sourced truther. There is a list of arrests and executions put early 2022. The deal they got was that if they gave information that was useful, they could have a better death or a jail cell for life.

BHO gave up Michelle, then breach his warrant so he got one behind the back of his head. Michelle chosen lethal injection.

Others were just executed.

The doubles and AI clones were activated and the DS now work for DJT. We the people won with DECLASS. The show is just for the sleepers to reveal the hidden players. Hope this helps. Blessings,

Thank you Michael! I am so glad to hear that Nancy's tribunal is underway and the witch will soon be dealt with.

What I wouldn't give for a photo of that witch sitting in the courtroom!! ROFL just thinking about it.

Fucking cunt-whore-murderous-witch, Nancy.

Hanging waay too good for her.

. . bury in sand, neck up.

Scalp her.

Smear face and hair in feces from her own cell. .

Unleash big, fat, hungry, Cuban cock roaches. .

Let simmer for 12 hours. .

Light match and hit record.

No, the best termination for her is place her in a room an introduce a black hat bred Dogman to the room. It would be a two stage death; A- the sheer fright from this thing would scare her half to death and B-and the other half for the dogman would rip her to shreds and have Paul Pelosi clean up the mess.....a more fitting termination

A couple of years ago I really expected to see FEMA and the UN on the highways stopping people to see if they had been clot shotted and if not sending us to their FEMA camps for reeducation and Pol Pot videos. So there's been substantial progress catching up with and passing these evil ones.

That was the original Phase 1 plan, if Hillary won. The black hats were going to stage a fake space invasion using bio-engineered "Dogman" as the space invader monsters, but that did not happen, because Trump blocked that party.

Phase II was to set off explosions in ocean trenches and create killer tsunamis, but that got scratched, because the black hats knew it would cause too much trouble and did not get implemented.

Phase III was going to be a scam-demic, but would take huge amounts of cash to bribe off politicians and whistleblowers and they didn't figure that the money would be cut off, either

The main black hat stagers: Rockefellers and Rothchilds crime families and these non-humans have no empathy towards humans, whatsoever, but they are also inbred, so they are not that smart, either, but clever though...

You must be referring to the 16 year plan by the DS that BHO started for 8 years with HRC had she won, doing the next 8 years. Thanks God she lost and that was a total shocker to the DS. They never thought she'd lose the 2016 election because it was rigged for her.

But patriots in the intelligence community loyal to DJT knew better than to let the DS steal the election. The swing state of Pennsylvania comes to mind that made the difference in DJT's favor. Even Q alluded to it in one of its early drops/posts. And the rest is history.

Blessings,

Yes we must be mindful and grateful for the protections and blessings that have protected us thus far. So many of which we likely do not even realize including those where patriot lives were lost or impeded. I literally thank God several times a day for the known and more often unknown ways in which we have been uplifted and

protected. To those military and civilians who have participated in this (which though clandestine in retrospect will probably be regarded as the Great War of our time) I am humbled and blessed for your sacrifice and am searching for ways to best support you including by participation.

MB enjoy reading your work, which takes painstaking time and effort.

Respectfully in realm of journalism, paragraph #7 “Last October” versus *Past October.

Last October construable as 2021.

Keep up the good work, Best Wishes.

Last edited 11 hours ago by John .S

I hope they get there before FEMA does too. It is time to get rid of FEMA along with all the other liberal demon agencies. Such Satanic actionsevil FEMA run by democrats who hate Americans and America. Our prayers are needed for the people in Louisiana who were affected by these tornadoes. God knows what they are in need of. Many blessings for the White Hats and Donald J. Trump. Keep the faith people....God is still in control.

BAX1 is correct. Stick to this topic until the next one is posted.

No OWD doesn't like FEMA.

Here is where neighboring communities really shine, they will help this community with food and donations where they can. And they will open shelters if none are left in the area hit so hard.

If you choose to donate to the community, make sure it is to the community and not bullshit charities (not) like the RED CROSS.

To the General; may I recommend removing all military weapons from the FEMA arrivals. They do not need guns to help give people food and water. Removing the weapons keeps the Marines and citizens safe and prevents a risk of gun fire from citizens protecting their homes. Citizens have a right to have guns in their community and so do the Marines. The presence of guns in FEMA hands regardless of illegal laws passed is ILLEGAL!

FEMA should not be allowed to bring COVID Clot shots into the area because time and again they have been proven toxic. If they do not have the “vaccine” they cannot use is it in their bartering program.

You could also establish locations where they can set up operations and where they may not leave to roam about. If they do not bring food and water they have no business being there. To be honest I would not trust anything they bring.

MREs are beyond my military experience, but I hear they are good and provide basic nutrition. In a situation like this they would be welcome and appreciated.

If you do not have the budget for such events, turn to the American people to donate funds for domestic tragedies like this to help pay for food and MREs or blankets.

We are willing to give and tired of seeing donations stolen or water down by greed.

WE REALLY ARE HERE TO HELP.

WWG1WGA

Viet Vet Spc Ops, still able and ready to serve

Dr John, let's hope and pray no one from within has tipped off FEMA of the presence of The Few, The Proud, The Marines. Speaking of being tipped off, I wait for a follow up report on the ambush of our marines in Colorado and DC lest we forget. Blessings

Child abuse is worse, Tyranny is worse. War is worse, but I agree, in politics treason is top of list shit baba...

Thank you for your service Dr John. My favorite Uncle was a Navy Vet in Nam. He died of Brain cancer about 10 years ago. Much love for all our troops.

Sorry about that. Your fave Uncle may have been exposed to the defoliant agent orange extensively used in Nam. A very good friend of mine died of leukemia and was attributed to his exposure to agent orange during his Nam tour. May your Uncle be present in God's eternal banquet. Blessings,

Thank you Sonshineandain and Delavic for responding. Vietnam was a tragedy for many men exposed to Agent Orange. I consider myself lucky only dealing with PTSD, Diabetes and Nephropathy.

After 50 years I have concurred all three with methods to control them at decent levels. The later two were caused by Agent Orange. Luckily I did not get the worst of it and end up with cancer.

I met too many with cancer from it and there was nothing anyone could really do for them. My DNA was permanently modified so that my cell walls are thicker making it harder to absorb sucrose in my blood which is what creates the diabetes.

That is the same impact on the trees. The defoliant made the leaves cell walls thicker causing them to lack nutrients to survive. We are closer to plant life that we realize and what can happen to them can happen to us.

Wars are ugly all by themselves without needless untested toxins being sprayed.

I was not anywhere near active spraying, but was where it had been sprayed at one time. It was in the soil, the water and the food, that is how potent it is.

HERE IS THE KICKER. Guess what is in Round Up under a new name. People now getting diabetes more than ever is not due to eating habits, but eating GMO based foods. They did not stop making it, just changed the name and added it to pesticides, like the ones people put on the lawn where the kids play.

And no one tells you this. My DNA can't be reversed, if they made my cell walls too thin (if it could even be done) I would become a hemophiliac and could bleed to death.

I now have a solution that keeps my blood sugar normal despite the thicker cell walls and I can maintain normal number without insulin or and pharmaceuticals. I refuse them at all times. Two products offered to me 10 years ago are now off the market because they were killing people. I was told if I did not take them I would be dead in 2 years. Well I hear today because I read the ingredients and side effects. I can look up the chemicals and figure out what they can do. But not everyone does that and in this case more GI's ended up dead because of VA medical treatment.

More people, all people need to think more about pesticides and what is in foods and medicines. They are not as good as you assume and are often toxic.

MRE's are sometimes referred to as: "Meals, Rejected by Everyone", taste great, but require heated fluids must be added using water activated reactants to heat the meals, as "C" rations were just as good in 'Nam. All one had to do is use a included P-38 can opener. We'd "lift" a couple boxes of them to be used as munchies after smoking a couple of cannabis joints and stale beer...

We need a mass roundup and quick end to all bad actors- CT is full of traitors. Capstone FEMA Exercise, anyone\$?

It seems our government agencies are made up of nothing but thugs. We are no better than any South American country run by criminal gangs. Thank God for the White Hat military. God bless the Marines.

When this war is all over, we can never go back to the way it was. We need an entirely new system. I check this website every day for new info. If it weren't for the information from Michael Baxter, I would have lost all hope a long time ago.

Michael, do you know when the White Hats will be stopping these vaccine mandates at universities in CA? If Newsom & Pelosi were already sent to gitmo, then who is forcing these mandates upon the students?!?

Glad to see the Marines being proactive in this situation. Hopefully the creeps from FEMA won't try anything stupid. Thanks, MB.

Reminds me of that one time in Cozumel..military guy jumps out of back of truck and drops rifle to the ground as it's pointing at me on my scooter. Clickity Clack.

Why not just tell people from LA to ignore FEMA and to arm themselves against them! Enough civility. Plus, people from LA will not Tahoe their crap! They hate the government!

Yeah especially the gator hunters, who obtw have a lot of experience with weapons.

“Last October, southwest Florida residents whose lives got uprooted in the aftermath of Hurricane Ian were offered N-95 masks and Covid boosters instead of food and water.”

Even in the midst of devastation, the depopulation plans on the part of the Rothschilds, the NWO, and the WEF does not abate. **YOU WILL BE TAKEN DOWN, DEEP STATE!!**

Excellent article, Michael. Please continue.

Here you go folks, all wrapped up in a nut shell. Video a few years old, must watch in knowing our enemy.

Attention peanut gallery, hold disgruntled comments concerning video host.

youtu.be/NhbGCQLNxUQ

Thanks for the info about Nancy, she deserves everything the tribunal charges give her and more!!

Marines are the best of the best. We will disband FEMA as it presently is, & find people who genuinely care about other human beings. Anyone in Louisiana in trouble, look me up. I will take in a family in California.

Hey anybody/everyone... Has anyone seen the class action suit on The propaganda box (tv) about Camp Lejeune water contamination? It has been on massive repeat on so called commercials in Minnesota at least the twin cities area. They have been programming this is the sheeps minds here now for about a month or so.

I just found that extremely interesting since the GOOD GUYS are coming from that camp to help the victims.

Things that make ya go hmmm.

So the putrid MSM has a problem with Camp Lejeune....

Thoughts????....

My grandson's step dad a marine whom was at Camp Lejeune in the late 80's died of cancer in 2014

Fema needs to be shut down. The only way thats going to happen is if Trump officially returns which I believe is soon. This has to stop.

Other alphabet agencies need to be abolished such as Bureau of Land Management hence Bundy Ranch situation.

BLM in actually are cattle rustlers, in seizure of Bundy livestock, holding for ransom, operating extortion racket.

Days of yesteryear, cattle rustlers and horse thieves faced justice in town square, high noon.

Love to hear Gitmo performed an ol'e school horseback lynching.
Gosh-darn, don't think there's a large tree to string a rope, neither
stable with horses.
