Speciální síly Spojených států ve čtvrtek zabily bývalého vědce zabývajícího se klonováním režimu během mise, která ho měla zatknout v jeho rezidenci v Cambridge ve státě Massachusetts, řekl zdroj z kanceláře generála Erica M. Smithe Real Raw News.

Dr. Eric Lander sloužil jako ředitel Úřadu pro politiku vědy a technologie pod vedením zločince Josepha R. Bidena mezi 2. červnem 2021 – 18. únorem 2022. Během své kariéry Lander pracoval na lidských genetických variacích, evoluci genomu a podle k White Hats, řešení fyzických a psychických rozdílů mezi lidskými klony a jejich hostiteli. Učil také na Harvardu a MIT.

Údajně rezignoval v únoru 2022 poté, co se objevila obvinění, že se dopustil šikany a hrubého jednání namířeného proti svým podřízeným a dalším představitelům režimu. White Hats však řekl, že Deep State je frustrovaný Landerovým „falšováním“ a zbavil ho svých klonovacích snah.

Náš zdroj řekl, že Landerovo jméno se objevilo v dokumentech, které speciální jednotky získaly při dřívějších náletech na klonovací laboratoře v Missouri a na Aljašce.

V jednom dokumentu, který se čte jako záznam v deníku, Lander naříká, že je nucen pracovat 14 hodin denně, když se snaží vyřešit to, co popisuje jako nepřekonatelný úkol: prodloužit životnost vyzrálého klonu na více než tři roky. Jeho vědecký žargon je mimo rozsah této webové stránky, ale jeho spisy vykreslují obraz šíleného vědce, který se tlačí až do vyčerpání. Diskutuje o neschopnosti napravit nedbalou práci svého předchůdce a předchůdce jeho předchůdce a doporučuje vrátit celou operaci klonování zpět do „první fáze“. Jeho posledním příspěvkem je šílený potěr, který kritizuje své manipulátory: „Chtějí výsledky přes noc; takhle věda nefunguje. Podívejme se, jak dělají to, co já. Ve srovnání se mnou jsou to pitomí, krátkozrací pitomci, kterým arogance a záliba v bezprostřednosti ublíží. Proč mě neposlouchají? Proč nevidí, že nemůžete vrátit desítky let špinavé práce ve dnech, týdnech nebo měsících? Ne, takhle to nefunguje. Víc pomoci ani nepošlou. Potřebuji pomoc, skutečnou pomoc.“

White Hats věřil, že Lander mohl pomoci najít další klonovací vědce a další klonovací laboratoře ve Spojených státech.

V úterý 30. května generál Smith a velitel 5. skupiny speciálních sil plukovník Brent Lindemen provedli dohled na Landerův dům poté, co se dozvěděli, že jeho manželka Lori bude několik dní pryč na umělecké výstavě v Chicagu.

Ve čtvrtek časně ráno speciální jednotky pronikly do domu a našly Landera sedět u stolu a psát do notebooku. Popadl něco, co vypadalo jako přívěsek na klíče, a řekl, že je to rozbuška, která rozstřelí dům (a je) na kusy, pokud ji spustí. Myslel si, že Deep State poslal speciální jednotky, aby ho zabily.

„Kdo tě poslal? [Merrick] Garland? Obama?“ prý řekl.

Zvláštní jednotky ho se zvednutými zbraněmi ujistily, že nejsou Deep Staters, ale jsou tam, aby ho zadrželi. Řekli Landerovi, že chtějí jeho spolupráci a že ho ochrání před Deep State, pokud odhodí přívěsek a vzdá se.

Znepokojený Lander pohnul palcem směrem k tlačítku.

Velitel speciálních sil vklouzl prstem na zahnutou spoušť své karabiny M4A1 a použil 5,5 libry tlaku potřebného k vymáčknutí náboje. Jediná kulka .556 zasáhla střed Landera a on upustil přívěsek. Zhroutil se na podlahu a lapal po dechu, když se mu na hrudi hromadila krev. Speciální jednotky přiložily na sací ránu na hrudi bojovou gázu, ale jejich snaha zachránit ho byla marná. Lander vypršel několik minut po výstřelu.

Speciální jednotky nenašly v domě žádné výbušniny. Fob byl jen fob pro Landerův Lexus.

"Bohužel jsme ho nedostali živého," řekl náš zdroj. "Zdálo se, že pohrdá a bojí se Deep State, a mohli jsme se nějak dohodnout." Ne všechny operace probíhají podle plánu, a to ani s těmi nejzkušenějšími vojáky."

Maybe he is not really dead and it is a cover story. Don't want the mice running especially if they think they are still safe—just a thought

What comes to mind is **Lethal Weapon when Sgt Murtaugh (Glover) tell the little kid that he'd shoot the guy in the leg or something just to stop him (looking at Riggs [gibson])... Of course we know the story.**

Why didn't he try to shoot his wrist with fob...??

Split second thinking was to eliminate. Can't blame him really...

What a shame....

This was the top cloning scientist of all and you shoot him dead? He could have told you everything. Bring that Special Forces Leader in and keep him in. Until he talks. It was done on purpose, of course, to kill the top cloning scientist out there before he can spill the beans on EVERYTHING. Where the centers are, where the scientists are, where the clones are. This is not good news, it is bad news. Do not let this Special Forces Leader walk free.

@WindTalker — Yeah, you're either full of air or you've not read Michael Baxter's articles on German cloner "Harald Kraus" who lives at GITMO and far beyond cloning experience than "Eric Lander."

Men are sequential thinkers, very logical ... Lander didn't think logically when he picked up the car fob to pretend it was a remote control to explode his house while facing armed Military! Most common sensed people freeze their bodies to avert being shot ... Lander, a knuckle-head in the news, dared Military to shoot him ... he "over-thought" the situation and now his widow sorts out the matters with Military. Ain't that special....

A nice trip to the morgue for that one... The good news is that the cloning problems are more pervasive than one would imagine and that means they pushed the science too fast before stabilizing the copies... Find every lab and destroy all of the clones and take away their ability to crank out these maniacs.

Wow, you should bring in that Special Forces Leader. Did he not think to shoot the guy's legs off and then bring him in for questioning? I don't buy the remote detonator story of the stupid scientist, and I also don't think the Special Forces Leader had to shoot to kill. He says he panicked no doubt, but is that a much needed cover story? Did they not receive training? Why not shoot to maim and bring him in for questioning? They have been trying and trying and trying to get cloning information, haven't they? I had been thinking just how much this bastard could have told them about

cloning. I question the shooter and I think HIS background should be looked at closely. He should be detained. God, why would you let a talker like this one go????

Oh my how I LOVE this site! It's the best for finding out what's going on even if we don't see it on the Mockingbird broadcasts. Proud supporter of RRN.com, money well spent

I wonder why didn't they shoot his leg instead?

I'm not an expert in shooting combat, I'm just asking.

Not the leg but the hand or arm that held the fob, leg shot would make him pull the trigger, blow his hand off at the wrist and he would not have the muscle reflex to pull the trigger even if his hand was still attached.

Although I do agree a chest or head shot was stupid. If they felt they where in that much danger, they could have proven they where more on his side than the deep state by just backing out the door.

@Snoppy — Lander exhibited insanity on-the-job, and wifey took flight to shop for "wall art" many states away from hubby.

If I wore a Military uniform and threatened to be blown up by remote control, I, too, would've shot Lander because there are many behavioral red flags in the article to make such a determination. So, I completely support Military's decisive action.

Because a man with a bullet in his leg can still push a button with his thumb. A dead man, not so much. My amazement is that they didn't shoot him in the head which would have been safer for the troops, as that's a better spot to stop someone from carrying out an intention...

Well now all of them will be brandishing car remotes at Jag and saying "I'll blow you up!"

The skull is the hardest bone material, so bullets ricochet off-course allowing a human to still function. The same holds true with animals.

Unfortunately the best plans of mice and men go awry. Lander's capture would have been a plus if he hadn't taunted the men sent to arrest him. His faux pas cost him his life. I guess when you're messing with the likes of Obama, Rothschilds' and the Rockefeller's you learn very quickly their intent to have complete control over you and everything that surrounds you. You are a slave to the Elites.

@Marta Limberg — Military executed Soetoro-Obamas years ago, and I think I read that all Rothchilds and Rockefellers are now dead, too. Read execution lists at AMG-news . com

Maybe our bad boy got killed as reported and maybe not. Disinformation is useful right? If they took him alive and now had leads on other top scientists it wouldn't be sensible to tip them off would it? They would certainly notice his absence but now we reassure them that they don't need to go to ground.

Good thinking actually makes sense.

We all know the deep state is reading this site. I think this site and many more are in the sights of the Disinformation Governance board soon to be established.

Good point! Milk the sick son of a bitch for everything he knows.

However,

his temperament sounds pretty radical, maybe he was shot. I'd have thought they would at least use a taser to keep him alive for later.

Ayy Lisa19 is back! Guess you finally realized this stuff is all bullshit, huh Lisa. Hope you've been well!

My husband is a shooting instructor for police and civilians. He tells his students never to try to maim someone threatening you. It's too risky; criminals must be rendered unable to make an unexpected comeback.

Center of mass and a kill shot to keep him down.
Never leave a wounded enemy to come at you again.

My father, who was a gun expert, said the same thing. If you are going to put a gun in your hand, be prepared to shoot to kill. Seeing all the gunshot wounds I have seen in my life as an RN, I have never even wanted to hold one. I support the 2A, but just not for me.

It happens. I hope you are never in a position where you are watching the innocent being murdered, and you, wishing you had the means to stop it.

It is an honor of Americans, that carry, to be willing to defend innocence, at the risk of our own lives, if need be.

I guess you hadda be there...

Come to think of it, hurt mad scientists are more likely to meticulously document EVERYTHING so they can revisit their many grievances and marvel at their own majesty. I bet we now have a gold mine of intel without the inconvenience of another mouth to feed!

“Hurt mad scientists are more likely to meticulously document EVERYTHING.”

And you know this how? From the movies?

Scientists probably do keep really good documentation.

Trying to remember everything you did and didn't do in past experiments as well as everything other people did and didn't do would probably get confusing, especially with something as complex as cloning humans.

So, Yea he probably did keep meticulous documentation with something as complex as human cloning.

You're so funny, Will. No, not from movies. My assumption is based on the pathological patterns of individuals who are high intelligence but also intensely neurotic. This personality type tends to value their own thoughts, feelings, and thinking process to an exaggerated degree. This article hints as much by reference to the subject's bitterness about his genius not being appropriately appreciated by his inept superiors. I am an anthropologist. We like to research societal patterns and individual traits. Does this make sense to you? Best to you.

No, Will, not the movies. A) A scientist relies on meticulous documentation to replicate experiments and avoid mistakes, and B) patterns of behavior associated with high intelligence and high neuroticism frequently reveals individuals that tend to exaggerate their own thought process and value their own methodologies as sacrosanct. The article suggested as much by the reference to the subject's consuming bitterness that his genius was not appropriately appreciated by his inept superiors.

Does this make sense to you?

The sheer number of sick and depraved people in this world, never ceases to leave me breathless. Of course they're all highly educated most often with Harvard degrees.....there's something so wrong about that university, so wrong.

I do lose some sleep over how many more there are like him. We're overrun with Dr Frankensteins

People are dying. Not just the DS but those who took the Jab, families left behind unable to support themselves financially. I know people who are now full of cancer. I see grocery lines increasing because many are not left to bag for you. MASSIVE nursing shortage. Workers who collect OUR garbage on the side walks are diminishing and we depend on them for their service. Lawns are not being mowed because people have become so sick it hurts. And truthers leaving the body prematurely. If you can see what's not scrubbed from the internet look into the Deagal/ Deagle reports.

Just got through with a pediatric patient of 12 years, male, presently with cough, shortness of breath and lower abdominal pain absent trauma.

His chest xray looks like ALL the rest who have taken the clotshot. Right lung abnormal lung markings appearing fibrotic and chronic. A 50 year old pathologist presented the same way. The dyspnea has yet not resolved heretofore.

Every surgeon, cardiologist and radiologist is at least double clotshotted leaving too few procedural pros for the infirm in the near future.

That's a surprise to hear about the MD's you mentioned, I would have thought of that genre, none of them would have taken the shot or at least taken the sugary one. From what I can see, if we had that many of these so called 'professionals' taken in by the covid/vax

scam, they weren't anything but snake salesman anyway, hence no real loss to have them gone. The whole medical framework has been bred into us for decades and its all been smoke & mirrors all the way.

Dear God, this is sick. This is global genocide. This is what Hilary & Co have been trying to do with the Rothschilds since 2017 had she been elected. THANK GOD DONALD TRUMP GOT IN THE WAY.

I was just going to ask you more about your comment above, "Wiki leaks DEAGLE. Julian Assange", ' What are you saying about Deagle? I knew the Deagle report of a couple of years ago forecasted the population decreases in major countries by 2025 (or 2030?) Was hoping you'd elaborate.

My suggestion would be to read the Deagle report again and again and think about what is happening now and how it cannot be stopped. The DS may be crumbling before your eyes but the damage has already been done.

Since they are fully aware of the vulgar machines called clones (which have no right to life), they must also be aware of the vile scum called reptilians. Those freaks are everywhere and must be eliminated on the spot. Have the white hats figured out how to remove their disguise?? I would like to know how. Is it a frequency that we can put out ourselves during their speaking events?? I want to help with exposing the invaders that should NEVER have been allowed to invade. We have been polluted, we need people with integrity who cannot be tempted and duped by financial gain or promises of better & more advanced technology by beings that need stay on their own planets. I don't know any details, and I don't believe most of the nonsense coming out of people today, but Thoth spoke about them thousands of years ago in his Emerald Tablets and I have seen the slip-ups and evidence being caught on camera. This is a problem that needs to be exterminated.

Have you considered psychiatric medication? I think that might help with your alien reptile problem.

Last edited 7 hours ago by Will Caulfield

You must've gone off your Caulfield. The reptilian thing is more real than most of us who live in Disney World have any idea. I look forward to the day when they're revealed and dis-believers like yourself have your world ROCKED.

You live in Disney World? That sounds just awful.

Last edited 3 hours ago by Will Caulfield

Yes the Reptilians are amongst us....If you want some proof what they look like check out Walensky, Whitmer, Newsom, Hochule, the list is endless. Any in a high position in any of our federal govt and possibly states, are no doubt members of that breed. I was totally FOOLED by FL's DeSantis but he has shown his true nature lately by who he associates with. Check out that DHS Secretary Mayorkas, if that creep isn't a reptile, I don't know who is

Last edited 3 hours ago by Jim Panner

Thank you, I'm glad you believe too. There's a guy on YT, JW TV, who's been showing some very interesting and peculiar clips of people showing some signs of possibly being one of those creatures too. I read that they have always sought out positions in authority. There are way too many deviant level agendas happening.

I'm glad the marine acted swiftly and protected his team I'm tired of seeing them be killed for stupid reasons they would not have gotten much out of this man this man was a paranoid lunatic who probably would have committed suicide in the cell anyway

All the US needs is one waco, one ruby ridge and it is go time! To all the govt fucks reading this, you are in way over your heads here mates.

ONE WACO and the USA goes richter You think you can deny millions of ANGRY gun owners from interstate travel when this shit goes???? Cut the electronics. Cut the banks. Cut the food production. Black flag.

Bring. It.

Last edited 8 hours ago by Julie

We've already had one Ruby Ridge and one Waco. Didn't seem to accomplish much of anything.

I suspect the slowness of what we're seeing is to keep what you hope for from happening. Civil war and anarchy would not be a good experience even though I hunger for a major correction but the country would be in such a disarray, it wouldn't work. Certain elements in China WANT us in a CIVIL WAR, so China could move in. Not for me thank you.

Wow, that could have been a goldmine of information. If only he would have listened instead of threatening to blow up the place. The officer who shot him had no choice. Oh well, I guess his paranoia stemmed from knowing too much and he was waiting for the demons to take him out before he could tell the White Hats anything. It was probably hard to live with all of that. Good job by the White Hats. Thank you Lord for protecting our country, DJT, the White Hats and all patriots. Thank you for Michael and his reporting of all these events....in Jesus Holy Name.

Not being there the only other option could be to blow off his fob hand and that would be risky as it might set the fob off. A no win situation created by a very unstable person who didn't care about dying.

Lmao this shit rules. Tell us more about the clone labs MB, did aliens build them?

Actually some were built by aliens now that you mention it. It was aliens that showed the deepstate how to clone.

A secret invisible log that no one will ever see just like all of the imaginary evidence from these stories

how about that super invisible song you've got in your repertoire Kurt Cobaine? Did you finish the video to "RAPE ME"?

A bluff is a bluff, no matter how rough. In future operations, lasers, mounted on weapons, could be used in house arrests. Targeting lasers are very accurate, when installed and operated correctly. A small red or green dot on the fob would have allowed the soldiers to disarm their target. All that aside, it is easily understandable how massive fear plays a role in any White Hat operation. Timing is always critical in a standoff. Now the search for more cloning labs must continue. Using the hologram generator's frequency of operation to detect holograms would be a good tool in the search.

Myself if Special Forces would look for safety deposit box keys.

Would relentlessly recommend to torch the house, burn to the ground with scientist inside, first with his teeth removed, torching Dave Chipman style.

Don't want potential stash research data falling into wrong hands. No doubt wife knows where it is.

Lander's wife would go nuts getting house burning news, and maybe tickled pink her husband is dead.

That wanna be headdick of the Gaytf, chipman, needs a GOOD ass kicking. He's a transgender child killer occultist little dick prick.

I'd fight him myself, fucking white trash piece of shit Chipman

Myself referenced "Chipman" known as: Flame Thrower Man, aka, arsonist extraordinaire, unfortunately you couldn't read into that, ensuing Chipman rant.

Evidently, you cannot help yourself to evaluate what others write, and your off-the cuff – knee jerk response is the litmus test of your intellect.

Suspect you've been watching the View for a long period of time, inadvertently groomed in their thought process.

Whose your favorite personality? Whoopi Goldberg, Joy Behar, Sunny Hostin, Sara Haines, Alyssa Farah Griffin or Ana Navarro?

Wrong, I'm spot on with my writings in paragraph #2, in quoting DJT: "your a sick puppy" no matter what side of the isle your on.

So when the wife comes home, what is being said to her?? How does this play out?

Keep telling yourself that, fucktard. It's obviously the only way you can cope with the impending doom of the Deep State...

#CirclingTheDrain

What impending doom? MB has been writing this garbage for over 3 years and nothing has changed and nothing he's ever written has been proven real. He wrote that Trump was going to be back in office like 3 years ago dude

True we don't get videos but if you'll notice the 'folks' that are apprehended, don't seem to be around anymore.....that's all I care about.....until the MOCKING BIRD MEDIA is extinguished, we will never know for sure but I've been twisting in the wind for 3 yrs with MB and I'm totally into his reporting as the best we can do for now.

Bro what the fuck are you talking about, all of them are still around. MB just calls them clones and shit. They're all still here

Because I am fascinated and entertained by you people who do believe all the ridiculous garbage you read on the internet. It blows my mind that you guys actually believe this secret Alaska clone lab bullshit is real

Wow...You know the guy's rant sounded very "rational" in a sick way to me. I mean the rant against his Deep State bosses.

Yes, I agree his rants did make sense, too bad he had to die he could have provide much information to the White Hats.

No big loss. Better dead than continue to clone for money
. Mad science ends like the Frankenstein stories. 😊

After our two White Hats were murdered via a clone bomb one cannot take any chances...got to do what you have to do.....good job!!

Yes and I remember the Marines that were killed by that truck that was pulled over outside Colo Springs last year. I was sorry as hell the guys got ambushed they simply weren't expecting live combatants inside.

One more thing. In your unnecessarily detailed account of the M4A1, you neglected to describe the weapon's finish, the alloy of which the barrel and bolt were manufactured, the port pressure of the recoil mechanism, and complete description of the stock. Those can also be found on Wikipedia.

yea, you're a total know nothing when it comes to weapons' systems.

i prefer the curved trigger to the flat one. It seems my finger goes right where it should every time.

5.5lbs is heavy. I've got a 3lbs trigger on one rifle and full auto on the 4lbs one.

Michael your productivity is ON FIRE. Of course, no one has ever heard of this guy, so to quote Winston Wolfe when asked about the late Marvin, "No one who will be missed." Strained analogy but appropriate.

It is beyond easy to make a new account on here on the rare occasion that MB uses the ol banhammer

I recently got banned on RT News because I kept commenting on Ukrainian child torture and trafficking, Adrenochrome production, drug running, money laundering virus labs etc

Keep doing that precious commenting on any & every website you can—people are still so helplessly deluded. Every little bit of truth helps. 😊

You've got to be kidding with me, RT is not like Tass, Pravda or CNN.

Michaels are more comforting and conform better to the world as you want it to be. A natural human reaction

Wrong. I have met Eric a few times at MIT. My ex-wife was a Ph.D. candidate at the time applying to his lab. He has been a founding member of a few BioTech's in Cambridge, MA; a brilliant person.

To Eric's credit, he mapped out the entire rat and mouse genomes under budget and with months to spare for each project when the human genome project was just getting going. With the knowledge he gained from those two projects, he jumped onto the human genome project and mapped more than any other lab out there even though he came to the party late. Tech companies gave his lab their equipment for free and his team rewrote the software to get the information that they needed, not what the tech companies thought labs needed. Look up his CV, his peer reviewed papers, the man is a genius.

”

Correction: “the man WAS a genius” — and the Present Tense it is “he’s a DEAD GENIUS” and since he no longer IS an IS, the Future Tense reads, “he will be kindling in Lucifer’s Bondfire of Luciferian Vanities.”

Technically, we were not there as witnesses, so we don't know if he is dead or alive. Maybe he made a deal with Special Forces and this story is a cover.

However it went down, I hope it is beneficial for our side.

Thanks for info MB. Hope your ailments are getting better daily.

Sending you prayers for a speedy recovery.

Smart people do stupid things, stupid people do smart things.

Depends on who and what else is involved. There are beings all around us and hear everything. Angels, demons, AI tech, voice to skull tech. Facing a gun, this is how he acted, he lied.

He had no idea who was in front of him and what might happen? It's possible to read the intention of the person with a gun in front of someone, possible to read it wrong also get no reading at all.

Actually, I think I have. I didn't remember the right name but I recognize his face. Eons ago when I was in college studying biochemistry I vaguely remember some kind of genetics lecture he threw on campus with another professor from another Ivy League type University.

No, I did not suddenly remember him. I revered Dr. Lander as did my ex-wife. I met him and was in his lab a few times when he was at the Whitehead Institute. MIT is a small community when ones spouse is a Ph.D. candidate. The Department of Biology at MIT is not fragmented like it is at Harvard where the departments are basically separate entities.

All Department of Biology Professors during IAP give an one hour lecture about their research to the Ph.D. candidates to help them with the direction they want to go, and the labs they want to court based on the research. My ex-wife wanted to be in Dr. Lander's lab. I wanted her to be Dr. Lander's lab as his research was cutting edge. Unfortunately, Eric decided not to take on a Ph.D. candidate that year.

Mr. Baxter, I am very glad to know that the trigger was curved. Now, on to other matters. May we have another Governor? A mayor? A state senator? A manager of a local TV station? These are corners that **WE** must clean up anyway. We must know if they have been tended to, or perhaps given a clean bill of health, or perhaps waiting their turn. Crooked people never had a real work ethic. That's why they turned crooked. We will find these C.V.'s, resumes, and biographies were mostly "cooked up." We need to elect normal people and for that we must abolish the "signatures requirement" of primary elections. **THAT** is the **KEY** to freedom.

How's that foot?

What difference does it make? A clone will hit the ground running without missing a beat for anyone of consequence who is apprehended and there will be no discernible difference in how the government operates.

Quick question, if our elections are always being stolen by the Deep State with no accountability, how can we elect the good people you mentioned?

Abolish the signatures requirement. In the Indiana Code this is under IC 3-8-4 and 6. Only a political party has the aparatchiks to knock on 25-thousand doors if you might wish to present yourself for consideration in the election for governor. The target is the most important thing. More important than your aim. The signatures requirement is the bullseye in every state.

Apparently, if enough MAGA are out to vote, a landslide happens, their cheating won't matter. On the other hand, if one more election is rigged to the point that Trump doesn't win, there will be a whole lot of hell to pay because MAGA will accept no more of what we have now.

Go outside WrongWay, get some air or spend time with your grandkids or something. You are devoting your whole life to obsessing over fictional stories of governors being arrested and replaced by clones

If anyone needed arresting it was that witch Whitmer. I am on happy feet hearing that bitch was taken down.

Unfortunate. Insane and fidgety, not a good combination when being arrested under the best circumstances.

Keep after 'em White Hats!

Thank You for the article Michael Baxter.

Lookin forward to "Hangin' with Baxter" tonight!

The idea of cloning is wild beyond my imagination. The only people to create clones seem like they have something to hide from we that are forced to support them financially. I don't know about anyone else, but, my soul is not on this orb to be a unit of cash for anyone at all other than myself. Every species on the planet, except modern day man, kills the unstable amongst their groups. When will humans come back to life?

“They” have given us a little sneak peek into the reality of cloning in an interesting movie “Swan Song.”
