***Poznámka autora :** RT provedla druhý, větší zápis papíru RAND, „Avoiding the Long War“. Četl jsem originál, ale projít a vytáhnout citáty vyžaduje tolik úsilí, že jednoduše komentovat tento díl je mnohem jednodušší.*

Dříve: Think Tank RAND říká, že válka na Ukrajině již není pro židovskou „dvojí anální agendu“ přínosem

RAND vystoupit a říct, že USA už prohrály válku na Ukrajině a měly by se prostě vzdát, je v podstatě to největší, co se od invaze stalo.

Od té doby, co USA/NATO na rovinu řekly, že v březnu 2022 nikdy nebudou žádná jednání, tak trochu jen sledujeme strojový proces, kde nikdo ve skutečnosti nedělá žádná rozhodnutí. Všechno to byl jen tempomat. Špičkový válečný think-tank, který říká „dobře, pojďme to zabalit a jdeme dál“, vytváří situaci, kdy by se konečně mohlo něco skutečně stát.

Faktem je, že „potřebujeme tyto zdroje pro válku s Číňany“ je argument, který bude ve skutečnosti rezonovat u mnoha lidí ve Washingtonu.

RT :

RAND Corporation, vysoce vlivný elitní think tank pro národní bezpečnost financovaný přímo Pentagonem, zveřejnil přelomovou zprávu, v níž uvádí, že prodlužování zástupné války aktivně poškozuje USA a jejich spojence a varuje Washington, že by se měl vyvarovat „vleklého konfliktu“ v USA. Ukrajina.

Zpráva má jednoznačný název „Vyhýbání se dlouhé válce: politika USA a trajektorie rusko-ukrajinského konfliktu“, což je jasným náznakem jejího obsahu.

Začíná konstatováním, že boje představují „nejvýznamnější mezistátní konflikt za desítky let a jeho vývoj bude mít velké důsledky“ pro Washington, což zahrnuje **aktivně poškozované „zájmy“ USA. Zpráva velmi jasně uvádí, že zatímco Ukrajinci bojovali a jejich města byla „srovnána se zemí“ a „decimována ekonomika“, tyto „zájmy“ „nejsou synonymem“ Kyjeva.**

Urychlené ukončení finanční, humanitární a zejména vojenské podpory ze strany USA by způsobilo úplný kolaps Ukrajiny a RAND uvádí několik důvodů, proč by to bylo rozumné, v neposlední řadě proto, že ukrajinské vítězství je považováno za „nepravděpodobné“ a „nepravděpodobné“. k ruskému „odhodlání“ a jeho vojenské mobilizaci, která „napravila nedostatek pracovních sil, který umožnil Ukrajině úspěch v charkovské protiofenzívě“.

Je tak legrační, jak to nejvyšší myslitelé Pentagonu říkají tak věcně, zatímco celá americká média – která také zastupují americkou vládu – říkají pravý opak. Stále doslova říkají, že Rusko prohrává (protože volají po nahození nekonečných zbraní na Ukrajinu, aby se zabránilo zhroucení anální židovské falešné země).

Americká média se o této zprávě RAND vůbec nezmiňují. Je to vlastně strašidelné, způsob, jakým lze tyto věci jednoduše vynechat. Zatímco Daily Stormer a další publikace založené na realitě hovoří o zprávě RAND, hlavní ukrajinský článek v New York Times hovoří o dalších hloupých blábolech o tom, jak se Rusko hroutí.

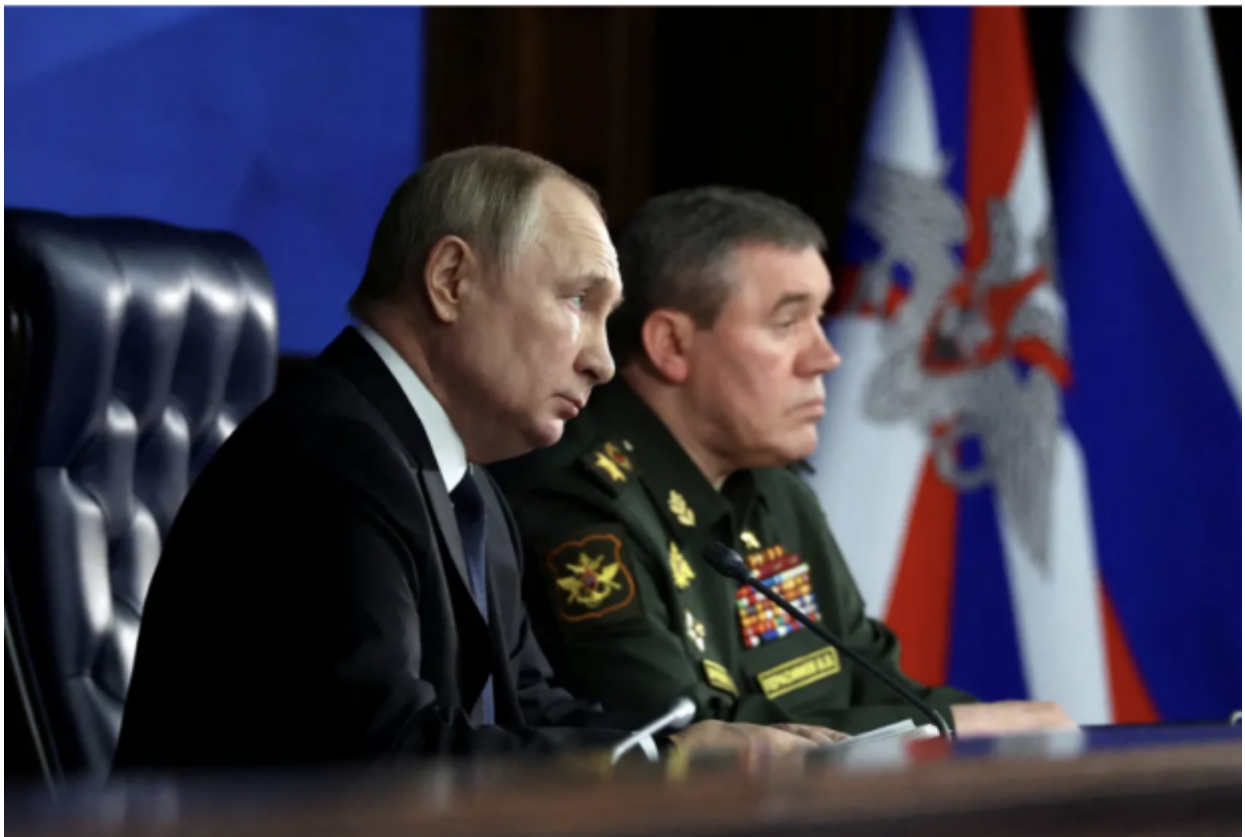

To Fix Its Problems in Ukraine, Russia Turns to the Architect of the War

President Vladimir V. Putin is on his third overall commander in Ukraine. But his military's fundamental issues have not been addressed, Western officials say.

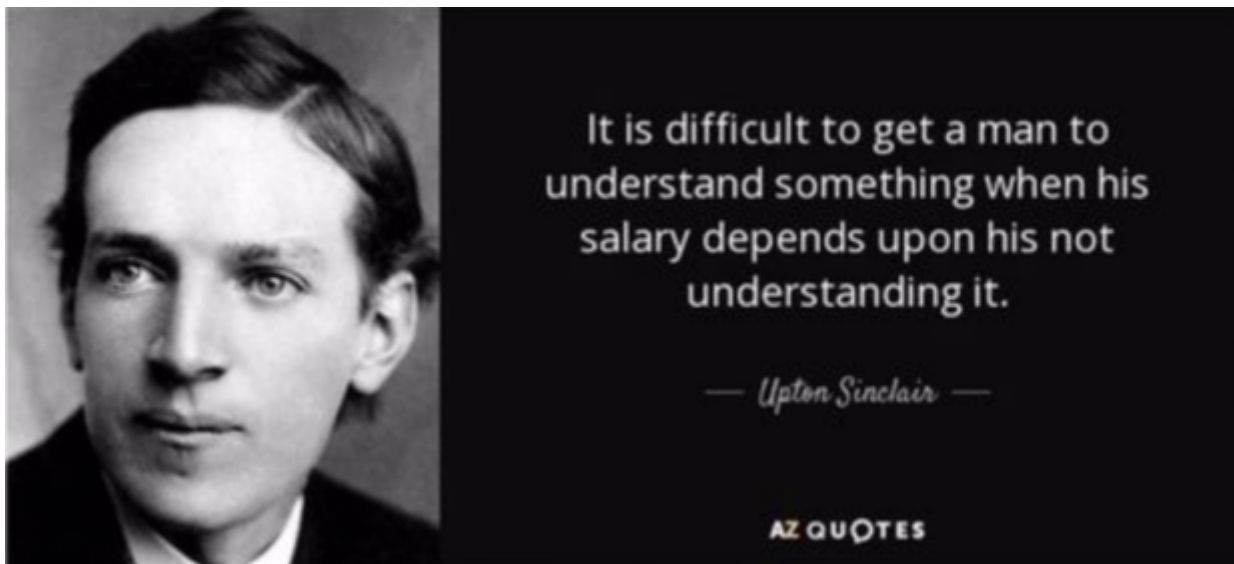

Give this article

Zajímalo by mě, jestli tito novináři věří této dršťce?

Uvěřit jejich vlastním lžím by jim jistě hodně usnadnilo práci.

Podle mých zkušeností jsou to velmi hloupí lidé. Jako, šokující hloupost. Méně schopný sledovat tok myšlenek než automechanik. Ale jak by si nemohli být vědomi této zprávy RAND?

Pokud bude kapitulace USA pro novináře překvapením, vezmou to s nadhledem, jako když zjistili, že vax není ani bezpečný, ani účinný.

Z pohledu amerických „zájmů“ RAND varuje, že ačkoli Kreml nepohrozil použitím jaderných zbraní, existuje „několik problémů, které činí ruské použití jaderných zbraní jak věrohodnou nahodilostí, kterou musí Washington zohlednit, a nesmírně důležitým faktorem v určení budoucí trajektorie konfliktu.“

Think tank věří, že Bidenova administrativa „má dostatek důvodů k tomu, aby prevence ruského použití jaderných zbraní byla prvořadou prioritou“. Zejména by se měla snažit vyhnout „přímé jaderné výměně“ s Moskvou, „přímému konfliktu s Ruskem“ nebo širší „válce NATO-Rusko“.

To je, zatímco Petraeus tam venku žertuje o jaderných zbraních a říká, že to opravdu není velký problém, když Rusko shodí pár jaderných zbraní.

Celá Bidenova administrativa říká, že Putin je blázen, je na drogách a chystá se zemřít, ale že je příliš rozumný na to, aby kdy použil atomovku.

Pokud jde o druhý bod, RAND se obává, že požadavek amerického generála Marka Milleyho, aby konflikt zůstal „uvnitř geografických hranic Ukrajiny“, je na pokraji nerespektování, protože „rozsah nepřímého zapojení spojenců NATO do války je svým rozsahem dechberoucí.“, včetně „zbraní a další pomoci v hodnotě desítek miliard dolarů“ a „taktické zpravodajské, sledovací a průzkumné podpory“ spolu s „miliardami dolarů měsíčně v přímé rozpočtové podpoře Kyjevu“.

Taková velkorysost by mohla podle předpovědí RAND přimět Moskvu k „potrestání členů NATO... s cílem ukončit spojeneckou podporu Ukrajině; udeřit preventivně NATO, pokud Rusko pochopí, že se blíží intervence NATO na Ukrajině; zakázat převoz zbraní na Ukrajinu; provést odvetu proti NATO za domnělou podporu vnitřních nepokojů v Rusku,“ pokud Kreml dospěje k závěru, že národní bezpečnost země je „vážně ohrožena“.

S touto částí moc nesouhlasím. Rusko nechce eskalovat válku mimo Ukrajinu. Pokud by to udělali, pravděpodobně by skočili rovnou k atomovkám.

Na druhou stranu USA se k tomu stavěly nenuceně. Ukrajina zaútočila na Polsko, Bělorusko, Moldavsko a samotné Rusko. USA také zaútočily na Německo bombardováním těchto trubek a aktivně se snaží vyvolat nějakou věc v Kosovu.

Pokud by došlo k oficiální eskalaci ukrajinského konfliktu, USA by provedly ruský útok pod falešnou vlajkou na Polsko (možná něco jiného jako Finsko, ale nejspíš Polsko).

Tyto výsledky nejsou „v žádném případě nevyhnutelné“, ale stále představují „zvýšené“ riziko, zejména ve světle incidentů, jako je ukrajinská raketa protivzdušné obrany zasáhla polské území v listopadu 2022 – situaci zhoršil ukrajinský prezident Vladimír Zelenskij, který nepravdivě tvrdil, že byla úmyslný ruský úder. **I když se tato událost „nevymkla kontrole, ukázala, že boje se mohou neúmyslně přenést na území sousedních spojenců USA“.**

Vidíte, oni vědí. Nemohou prostě používat jazyk typu „falešná vlajka“, ale každý, kdo je dostatečně informovaný na to, aby četl noviny RAND, rozumí, o čem mluví.

Další podobný incident by mohl znamenat, že „americká armáda by se okamžitě zapojila do horké války se zemí, která má největší jaderný arzenál na světě“. Tomuto, stejně jako konvenčnímu konfliktu mezi NATO a Ruskem, by se Washington měl za každou cenu vyhnout, tvrdí RAND.

Jasným důsledkem je, že USA by takový konflikt mohly prohrát, přičemž jedním z klíčových důvodů je, jak zdůrazňuje RAND, že „intenzita vojenské pomoci“, kterou Ukrajině poskytují její západní podporovatelé, se již blíží „neudržitelné“ úrovni, přičemž USA a evropské zásoby zbraní „docházejí“. To následně znamená, že delší válka se rovná více ukrajinskému území znovu sjednocenému s Ruskem.

Pokud jde o územní ztráty, RAND není pohnut argumenty, že by se Ukrajina měla pokusit získat zpět vše, co od roku 2014 ztratila, protože „větší územní kontrola přímo nesouvisí s větší ekonomickou prosperitou“ nebo „větší bezpečností“.

Haha.

To je to, co říkám od roku 2014: obsazení Krymu (nebo nyní Donbasu) by nijak nezlepšilo životy průměrného hoholu a neposílilo by to postavení Ukrajiny jako země. Celá tato úvaha je falešná, zcela založená na touze USA ublížit Rusku. „Hranice jsou posvátné“ je ideologická pozice, o kterou USA nikdy nestály.

Pozemek, který od září zabral Kyjev, znamená, že „Rusko uvalilo na zemi jako celek mnohem větší ekonomické náklady“.

RAND rovněž považuje argumenty, že by měla být zajištěna „větší ukrajinská teritoriální kontrola“, „pro posílení mezinárodních norem a pro podporu budoucího hospodářského růstu Ukrajiny“, za „sporné“, protože i v „nepravděpodobné“ události Kyjev tlačí „za hranice“. linii kontroly před únorem 2022 a podaří se mu znovu dobýt oblasti, které Rusko okupovalo od roku 2014,“ „vypuknou“ rizika eskalace z Moskvy, včetně „použití jaderných zbraní nebo útoku na NATO“.

To vše je jen základní zdravý rozum.

Ale od začátku tohoto debaklu šokujícím způsobem chybí na diskuzi ve Washingtonu.

„Kreml by pravděpodobně považoval potenciální ztrátu Krymu za mnohem závažnější hrozbu pro národní bezpečnost i stabilitu režimu,“ varuje zpráva.

Všechny tyto faktory činí „vyhnutí se dlouhé válce... nejvyšší prioritou po minimalizaci rizik eskalace“, takže RAND doporučuje USA „podniknout kroky, které učiní ukončení konfliktu ve střednědobém horizontu pravděpodobnější“, včetně „vydání ujištění o **neutralitě země**.“, o co Moskva žádala před vypuknutím konfliktu, k hluchým uším, stejně jako „zmírnění sankcí pro Rusko“.

Ano, volají po splnění Putinových požadavků, tj. požadují kapitulaci.

Samozřejmě je důležité porozumět kontextu: tito lidé se mnohem více zajímají o Čínu než o Rusko, protože Čína je skutečnou supervelmocí ohrožující západní/židovskou dominanci.

Rusko, které převzalo celé NATO, se dokázalo udržet. Není šance, že by se Rusko v dohledné době zhroutilo. Někteří lidé ve Washingtonu si zřejmě mysleli, že to bude snadné vítězství, a nebylo (většinou kvůli schopnosti Ruska procházet sankcemi a skutečně zvýšit velikost své ekonomiky, spíše než kvůli jejich výkonu na bojišti), takže logické teď by bylo snížit jejich ztráty a soustředit se na Čínu.

Lidé budou vypadat hloupě

Proces nyní začal. Výzva byla učiněna, a jak říkám minimálně od dubna, USA jednoduše spalují zdroje bez potenciálu jakéhokoli přínosu, zatímco Rusko vydělává dostatek peněz z ekonomického blahobytu amerických sankcí, aby pokračovalo v tom, co dělají. dělá léta.

Polovičatý závazek ohledně tanků ukazuje, že to již začalo ovlivňovat politiku.

Lidé, kteří propagovali tuto válku nebo tvrdili, že Ukrajina vyhraje, nebo se posmívali Rusku, že nesvrhlo celé NATO do tří dnů, budou velmi trapní. Možná nebudou, protože jsou to doslova stejní lidé, kteří propagovali vax, a zjevně se opravdu nemohou cítit trapně.

Pokud jde o mě, mohl bych jít do toho a trochu se posmívat. Během posledních několika měsíců na mě údajní pravicoví lidé přišli s tím, že Rusko prohrává.

Tato obrovská spamová kampaň na Twitteru bude vypadat velmi smutně, až dojde k realizaci. Pokud jde o to: Myslím, že bude velmi těžké znovu vytvořit tento druh spamu ministerstva zahraničí na sociálních sítích. Tito lidé to zkusí, až začnou válku s Čínou, ale lidé si to podruhé nekoupí.

To by mělo být velkým posílením morálky těch, kdo stojí proti ZOG – ještě větší než vítězství Talibanu.

Každý, kdo ví o jediném okamžiku, kdy neoconi (v podstatě ZOG) někdy řekli, že se mýlili, zjevně žádný neexistuje. Jejich nekonečné selhání je nezajímá, protože vědí, že se za něj nikdy nebudou zodpovídat, navíc Židé Rusko opravdu nenávidí, takže se nad tím nezastaví. Buď je zničen ZOG nebo je zničen svět, z toho nevedou žádné jiné cesty.

Hello!

I can't understand why the USA would go after China, when they can't even sustain a proxy war with Russia and are supposedly running low on weapons.

China has 1.5 billion people and they will fight even more fanatically than the Russian people do right now. And if Russia isn't on its knees by the time a war with China starts, they will pump resources and weapons to support the Chinese.

Wouldn't Iran be a more manageable target for a next confrontation? Even if they have alliances and support from Russia and China. This way maybe the USA can stop the drift from the petrodollar from Saudi Arabia.

| What Next?

We all laugh at the Biden crime family for getting suckered so badly.

All his rivals in DC are losing their sides. Can't believe he never caught on.

| I wonder if these journalists believe this tripe?

Journalists are impressively stupid, yes. Partially it's so they don't get any bright ideas, and largely it's because anyone with a modicum of Machiavellian intelligence realizes journalism is downstream of everything – and everyone is shitting in the water.

| This entire reasoning is fake, based totally on the US desire to hurt Russia.

Based on a desperate desire to maintain global hegemony, you mean.

Finally, a piece of good news coming out of the Rand Corporation. What it means to me is that our news media will slow but steady start to inform us that the Donbas is not really important to Kiev and that a settlement is actually a win or a stalemate....you get to choose. Remember that when we crawled out of Afghanistan on our hands and knees shooting Afghan kids on the way out was somehow a victory. So giving up the Donbas will be an easy sell.

the u.s. doesn't surrender, they just change the narrative. i don't buy their tough guy act with china, after having their ass so thoroughly handed to them by the russians, they wouldn't dare directly confront the chinese. they are more likely to pick a war with iran through the nutteryahoo, last night's drone attack on an iranian munitions plant, combined with the recurring strikes on syria and a possible intifada rising in gaza, the middle east may well be their next quagmire. remember they "accidentally" left \$85 billion of equipment behind in afghanistan, so many wars, so little time...

‘The fact is, “we need these resources for a war with the Chinese” is an argument that is actually going to resonate with a lot of people in Washington.’ — Andrew Anglin

No doubt. And that’s supposed to be a morale booster for us? That a medium-sized European war winds down, so that we can embark on a much bigger war in Asia?

War pigs gonna war pig. Now they want to go for all the marbles.

For those of us who believe that war with China is unnecessary and avoidable, RAND Corp’s cautionary noises about Ukraine are just an insider’s stepping stone to something far uglier.

What makes RAND so sure that a conflict with China would turn out so different than this present debacle going on in Ukraine? How many of the Taiwanese would actually take up arms against China. Taiwan is very intertwined with China as it is economically. It would be a conflict that would involve the US military much more directly, than using the bodies of Ukrainian men as cannon fodder. Would our allies in the East -most notably Japan, Land of the Rising Old Farts, be ready to take part in such a conflict? I doubt it. The Global Zionist Cabal are doing what they do best, double down. RAND, not for the most moral of reasons, is trying to tell them that they are pissing on their own leg and should bring this horror show to an end. As far as NATO goes, 2 things need to happen. Germany needs to tell the US to shag off (but the US knows they have no balls) and the Turks have to say we're out of NATO -see ya.

After admitting defeat of their proxy army at the Bay of Pigs, the CIA and the regime decided to cancel Cuba for the next 60 years (Cold War 1.0 ongoing).

If they declare a ceasefire line in Ukraine now, they have an excuse for Cold War 2.0. They'll cite 'unfinished business' with Russia as a reason to tighten the grip at home and keep tensions burning.

They'll always be at odds with Russia, and anyone who doesn't stand with the US-led Cold War will be declared a Russian sympathizer and subversive. The occupation of Europe will continue indefinitely. Win for the neocons.

[Note to mods: This is a temporary ‘nom’ for this single issue, thanks in advance for your tolerance.]

OT! – but comes back like a boomerang, to the ‘main problem.’

I’m on my yearly ski-holiday, main purpose to enhance my fitness, while having some ‘icy fun.’

I need an easy start, so I chose the Gifhitli lift for my condition building runs.

Shock-horror! The lift is running at what seems like half-speed! Creeping ever so slowly up the hill is akin to torture! Upon querying some ‘people who might be in the know,’ I find that it’s on purpose, ‘to save energy.’

I ‘enrolled’ in twitter and made a thread which documents this problem:

@zermatt_tourism Title: Breach of contract, cheating by service-reduction, same high ticket price = huge rip-off!

For 2023, Zermatt lifts have a surprise for you – some lifts are deliberately being run slow, i.e. what last year was a ~5min trip up GiftHitli, now is a ~10min trip.

— gryftli ufnerespur (@gryftli) January 26, 2023

I forwarded the thread to:

@KonsumSchutz

@swissinfo

@TCS_Schweiz

@20min

So far with no reply.

Now, to the boomerang: These 'slow lifts' is a 'storm in a teacup;' after all, who cares if those who wish to and can afford CH-skiing lose a few [actually, a lot of] minutes? Some opinions heard range from a) enjoy yourself anyway, to b) [the worst] "Ukro-soldiers are dying in their trenches!"

i.e. no sympathy; all I spoke to do not seem to appreciate what is really going on, namely that US with EU 'help' is deliberately running an aggressive war against Russia via proxy-Ukraine, and their stupid sanctions against Russia are 'killing' the EU economy and inflicting great pain on their own EU citizens, and stupid CH is 'going along' with this idiocy.

The worst of it is that most citizens of so-called democracies do not even seem to realise that they are being subject to lying propaganda and so do not realise how truly ***shithouse*** the situation is.

| Either ZOG is destroyed or the world is destroyed, there are no other paths out of this.

yes, but hopefully it doesn't have to be all at once

unlike with the Coalition of the Willing', (nations bribed and bullied into Dubya's Iraq war), that had a spattering of nations internationally, including South America and Asia, the Middle East and Africa,

today's attempts to bully and bribe have only worked on the (((Five Eyes))) nations and those other Rothschild conquered vassal satraps in Western Europe.

it's becoming more difficult to order everybody around like a dog.

People and governments the world over are starting to tell ZOG to fuck off.

ZOG's transgender anal army with Brandon as Commander in Chief, just isn't as menacing as it once was.

But what it all really hinges on is the dollar, and that is fast losing its power.

<https://schiffgold.com/key-gold-news/petrodollar-on-shaky-ground-saudi-arabia-willing-to-discuss-selling-oil-in-other-currencies/>

better to see ZOG die a slow and humiliating death, than for a more stringent solution to what ails the planet.

God speed to Putin.

The Deep State of the Anglo-Zionist Empire always lies and always acts as if it never made a stupid mistake, much less should be tried for crimes against humanity. And its leaders will always bleat on about how everybody else is evil and needs to face consequences: Anglo-Zionism is forever ignoring the beams in its own eyes while demanding to destroy the world in order to pluck the motes from the eyes of non-Anglo-Zionists.

That was true when the Anglo Deep State had very few Jews even close to its inner most circle of power, and it will remain true as long as a WASP nation survives, regardless of the number of Jews left in it.

They will always want to conquer Russia for reasons that are fully explained by the Makinder Heartland thesis and try Crimean War, as well as The Great Game. I say that the Anglo desire to 'get even' with Russia goes back to the time of Ivan IV, when Russian officials discovered that English merchants were violating trade treaties in order to try to securely map the Russian east, near and across the Ural Mountains, in order to bypass Russian officials and steal from Russia.

And then there is the Jewish hatred of Russia, which in origin is about Cossacks in the Ukraine leading the rebellion against the Polish Empire. The Poles had allowed Jews to become the empires main tax farmers/collectors, and Jews were virtually 100% of such tax men in areas where there were Russian Orthodox. So the rebellion against Polish rule included hatred of Jews as thieving taxmen. So Jews in return hatred Russia and Russians for costing many Jews cushy jobs that made them filthy rich.

So both parts of Anglo-Zionism want Russia destroyed and its natural resources stolen, and both will always present that desire for massive theft as bringing peace and freedom.

I wonder if these journalists believe this tripe? In my experience, they are very dumb people. Like, shockingly dumb. Less capable of following a train of thought than an auto mechanic.

Why insult auto mechanics? You have to be pretty smart to fix a complex machine like an auto (at least in the old days, now they just hook the engine up to a computer like everything else today).

Never gets old:

“The press is a gang of cruel faggots. Journalism is not a profession or a trade. It is a cheap catch-all for fuckoffs and misfits—a false doorway to the backside of life, a filthy piss-ridden little hole nailed off by the building inspector, but just deep enough for a wino to curl up from the sidewalk and masturbate like a chimp in a zoo-cage.”

On the subject of territorial losses, RAND is unmoved by arguments Ukraine should attempt to recapture all that it has lost since 2014, as "greater territorial control is not directly correlated with greater economic prosperity" or "greater security."

Which is just an excuse to explain why surrendering is not a problem, in fact super easy, barely an inconvenience. (*)

It's nonsense, of course, both for Ukraine (Russia now has the parts that produce most of the GDP) and the US as well (open borders do not equal economic prosperity, at least for real Americans). But it's a nice way to make The Biden(TM) eat its words.

Anyone know of a single time that neocons (basically ZOG) ever said they were wrong, obviously there is none.

I clearly remember soyboy Lindsey Graham in early March saying Putin does not get an off ramp. So serious was his demeanor. I knew he never needed one because he's gonna blow up all ramps and every think else in Ukiestan. I'm hearing more and more reality from the idiots who started this. Pompeo was interviewed on a YouTube channel saying he is confident that an agreement will sooner rather than later be reached acceptable to both Ukraine and Russia. Yeah Russia will get what they want and Ukraine will be happy with what Washington says they should be happy with.

When this is over I wonder how furious the average Ukrainian will be with their Washington controlled regime. Maybe enough to help Russia find all the neo nazis who wrecked their country and dispense with them. Maybe they'll kick out all westerners and ally with Russia the only country in the world that can truly protect them and provide some sliver of economic security.

I don't think many people know the true cost in Ukrainian men this conflict caused.

The legend on the second graphic fails to mention the genius-level strategem employed by the ever-reliable fellator-of-dying-empires – the Australian political class.

Russian (and Belorussian) tennis players were represented by a WHITE FLAG during the telecast of the Australian Open. Oddly, the Armed Forces of the Russian Federation refused to adopt that flag, and cleared Soledar while the global media was doing a Virtue-signalling circle-jerk.

And **NoVaxx** Djokovic won. Meanwhile: **nobody** remembers the name of the Australian politician who signed the papers to prevent **NoVaxx** from winning the Open last year.

It got pretty stupid during this year's Open: apart from the puerile flag schtick, **NoVaxx**'s Dad had his site pass revoked because he stood with some people who had a flag with Putin on it.

It's all getting a bit silly now: the Narrative Masters have to rely on mush-brained housewives.

Mush-brained housewives used to be a reliable 'vector' because of a confluence of two factors:

- they are cognitive feebs, and
- they cannot suppress their impulse to browbeat their menfolk.

It seems that they've lost the second key factor, because they were the Commissars of COVID, and **literally everyone** now recognises that they got literally everything back-asswards and they're all shitting themselves about the Epidemic of *Suddenly*.

Not saying that the Mass Man is gonna slap his bitch up, but there's gonna be an increase in the supply of single-parent households over the next half-decade – partly from *Suddenly*, and partly from menfolk starting to get on their hind legs and realising that *Happy Wife, Happy Life* is too big an ask.

It's funny. Expect something like this to hot your newsfeeds in 2023...

While well intending citizens lined up, did the right thing, and received their COVID19 vaccinations, now known to do more harm than good, their unvaccinated friends and family stood by and let them do it. While not all members of the Judeo-Satanic globalist elite are Jews, Jews certainly set the agenda, which is why, in my view, it deserves to be called the Judeo-Satanic globalist elite. That having been said, it seems clear that Jews do not all agree with one another. Some Jews—this being primarily the “neocons”—wish to destroy Russia as vengeance for the acts of the tsars but also for Stalin getting the best of them and having a great many Jewish bolsheviks executed. Others—namely “conservative” Jews—think preventing China from overtaking their North American plantation should be the top priority. Then there are the Israel-Firsters who most of all wish to attack Iran. Others care most for making the North American plantation a hell on earth as soon as possible, so they prioritize things like pro-crime policies, open borders, “gender”, and attacks on the energy and agricultural sectors. Whichever one of those factions prevail, or whether two or more of them find a compromise, the agenda of the globalist elite will be set by the Synagogue of Satan.

Zelensky's days are numbered. He's going to realize his usefulness to the US is fading out and that he was a chump for them all along. He'll threaten to expose some of the inner workings of what's taken place in an effort to keep being propped up which will hasten his demise. Look for him to die in a CIA plane crash which will be blamed on the Russians, natch.

Whites hate russia more.

They have been obsessed with destroying russia for centuries longer than some jews have had some dumb grudge against russia. Everywhere you look it's nothing but europeans and amerifats screaming for russian blood, cancelling culturing them and dumping weapons on the ukraine.

The world was always going to be destroyed at some point, just because all those white trash there can't control their urge to start wars on russia.

Kiev and D.C. will eventually accept “the new reality” but the boys of Azov and Right Sector are not going to be so easy to persuade. And you can bet that every type of hand held weapon that we sent over to Ukraine is held in abundance by these same good fellas. I’m thinking that the current Winston Churchill of Ukraine is not going to be visiting Kiev very often after the war is over. Same with Vicky.....if she wants one more visit she should start planning now.

The next move in the war is all Russias, Ukraine has no choice but to abandon East Ukraine or lose all its troops and equipment “Skynet” in the East has been smashed.

The Russians then have control of the rail network and will be able to amass its troops South for another tilt at Kherson and then Odesa, that drags Ukrainian forces south into a bottleneck.

Rand has run the scenarios and can see all moves now lead to a complete Russian victory...these think tanks aren’t altruistic they are cool calculating types, when they talk negotiating it means they hold a losing hand.

The Russkies are the Randall Tex Cobb of Eurasia; the Russkies can take a punch and deliver plenty of their own.

Taco Von Ribbentrop thinks the American Empire goons who cooked up this Ukraine proxy war against the Russkies really don't much care for the Middle American Radical(MAR) European Christian ancestral core of the USA.

Watching this Russian recruitment video, it's easy to see why the same people who want to nuke Russia also want Middle Americans dead and dispossessed. From the beginning, ruining Russia has served as a mental proxy for killing unreconstructed Americans.

The continue to do evil because they have an ancient judaic “workaround” for karmic blowback. You know the type that keeps our own behavior in check because we know “what comes around, goes around”. Why does it not apply to this little coven of politicians who love to rub elbows with Israel? Because they understand how blood rituals work. You know the jewish Kapaot where they say a prayer to transfer their sin onto a chicken then beat it to death on Yom Kippur? Well the occultists in our own govt sacrifice “chickens” for the same reason all the time, except the chickens are not actually chickens,. It’s an ancient judaic practice.

I've met enough mediocre jews that I believe much of their success comes from intense ethnocentrism and tribal cohesiveness. They promote one another, hire from within, and project their own cronyism and nepotism onto everyone else. Whites should have been more tribal and cohesive, but the Chinese won't have that problem. In a perfect world, gentile Whites would join with the Russians and Chinese, because all three have the same enemy.

They are still literally saying that Russia is losing (as they call for infinity weapons to be dumped into the Ukraine to stop the anal Jewish fake country from collapsing).

Given the media and government officials constantly telling us that Ukraine is “winning,” I have to wonder why it’s so important for the US to send that country its top tanks and fighters. Isn’t Russia almost beaten? (Ha!)

Just getting the equipment there (a year off for the tanks) would be the “easy” part. Such equipment requires *long* training so it can be used properly. Even if someone is already a fighter pilot or tanker, he isn’t qualified on *this* equipment and that takes time, and there must be training on how the equipment fits into and coordinates with the wider force structure.

On top of that, such equipment needs support and maintenance units to keep it operational, plus legions of skilled technicians who know what they’re doing, as well as dedicated supply lines of replacement parts, oils, tools, etc.

Unless the US plans to set up US military or contractor support units next door in Poland to take care of all these logistical needs, I don’t see how this would even begin to work. Even then it probably wouldn’t work.

USA is imposing semiconductor and semi equipment sanctions (see ASML Japan agree sanctions China) on China. And what has been the China response? have they hinted at a cessation of shipping food containers, Pharma, antibiotics, PPE etc to USA? So far , not a peep I concede that there are reports that perhaps China may be able to develop 65 nm soon, so maybe the semi tech equipment sanctions dont matter. But China has not felt strong enough yet to retaliate

Actually this war is 30 years late. This is the Soviet/Russian civil war which should have been fought upon the break-up of the Soviet Union, and in some other border regions too, sice the USSR was broken along administrative lines. The fact that these artificial borders were recognised by a traitorous Russian regime at the time doesn't make them legitimate.

You're correct. Auto repair was never a job for the simple-minded. And it's even less so now with a myriad of complex systems in every car. Stopped doing my own repairs 25 years ago due to this reality.

Mr. Anglin owes auto techs an apology. One of his worst takes.

The rest of the article was spot on.
