Demokrat požaduje obžalobu Bidena kvůli nekonečné válce proti Rusku

Mé shrnutí: Ukrajina a NATO stále rozhodně prohrávají a Rusko stále rozhodně vítězí. To platí od začátku března 2022 dodnes. Rusko nemůže tuto válku v žádném případě prohrát a Ukrajina a NATO ji nemohou vyhrát. <https://t.co/qIopRD1cR5>

— Geoffrey M. Young (@GeoffYoung4KY) 11. ledna 2023

Demokrat, který je proti válce Anal Apocalypse War, je lepší než Republikán, který ji podporuje.

Není však jasné, že by měl guvernér skutečně velký dopad na válečnou agendu.

RT :

Geoffrey Young, který kandiduje na guvernéra v americkém státě Kentucky, obvinil Joea Bidena ze spáchání válečných zločinů na Ukrajině a v dalších zemích a prohlásil, že prezident by měl být obviněn z vedení nezákonného zástupného boje proti Rusku v bývalé sovětské republice.

" Myslím, že Joe Biden (válečný zločinec D) by měl být okamžitě obviněn z válečných zločinů na Ukrajině, v Jemenu, Sýrii, Iráku atd. ," uvedl Young na Twitteru . „Také za pokračování nelegální proxy války proti Rusku na Ukrajině. Všichni američtí prezidenti od roku 1945 = váleční zločinci (včetně Trumpa),“ dodal.

Myslím, že Joe Biden (D-War Criminal) by měl být okamžitě obžalován za válečné zločiny na Ukrajině, v Jemenu, Sýrii, Iráku atd.

Také za pokračování nelegální proxy války proti Rusku na Ukrajině.

Všichni prezidenti USA od roku 1945 = VÁLEČNÍ ZLOČINCI (včetně Trumpa).

— Geoffrey M. Young (@GeoffYoung4KY) 13. ledna 2023

Young, ekonom vystudovaný na MIT, který pracoval jako environmentální inženýr ve státní vládě, udělal vlny v loňském roce poté, co vyhrál nominaci Demokratické strany na křeslo v Kongresu v okrese Kentucky 6. Během kampaně slíbil, že pomůže předejít jaderné válce s Ruskem tím, že bude s Moskvou usilovat o „rozumný“ mírový plán. Nazval také kyjevský režim „nacistickou loutkovou vládou“ a řekl, že CIA by měla být odstraněna , protože je to „nejhorší teroristická organizace na světě“.

Ano!

Jak to, že ještě máme CIA? Jak hloupá je veřejnost, že to nechá dál a dál, bez ohledu na to, kolik nás to stojí?

Poté, co Young v květnu vyhrál demokratické primárky v Kentucky, jeho strana ho odmítla podpořit v listopadových všeobecných volbách proti úřadujícímu republikánskému kongresmanovi Andymu Barrovi. **Stranické vůdce si odcizil svými protichůdnými názory, jako je obvinění Bidena z bezohledného provokování Číny, nezákonného rozmístění jednotek v Sýrii a Iráku a zranitelnosti USA vůči útoku tím, že se staly „spolubojovníkem“ s Ukrajinou proti Rusku.**

Ano, demokraté jsou válečná strana.

Samozřejmě, že republikáni jsou také válečná strana.

Války proti muslimům byly v podstatě republikánské války podporované demokraty. Nyní máme válku za gay anus, což je válka demokratů podporovaná republikány.

Jednoduše nemůžeme mít tyto Židy pod kontrolou naší politiky. Všechno ničí záměrně.

Merkel advisor German General admits UKRAINE WAR IS LOST

– General Erich Vad, top advisor to Angela Merkel, had been involved in arming Ukraine during the 2010s, but now admits the anti-Russia war has failed, and that even the US military agrees with this

– German Generals are also now worried, just like in 1944 under Hitler, that Germany itself will be destroyed if the war continues

General Vad said: “We cannot resolve [the Ukraine war] militarily,” adding, “this is also the opinion of American Chief of Staff General Mark Milley ... A war of attrition did not work military 1914-18 – and will not do so today.”

General Vad also said, “Military experts, those who know what is going on among secret services – are largely excluded from public debate.” He warned that the war menaces to destroy Germany, “an endangered nation” now. “The key to a solution to the war lies in Washington and Moscow,” before “Ukraine is razed to the ground”.

General Vad says many in the German military and German business quietly agree with him – the US and Pentagon should negotiate a war end, Donbass and Crimea remaining Russian, security guarantees for all.

Too bad nobody reads history anymore. Russia has a history of starting wars very poorly, and ending up on the winning side.

– Napoleon beat every Russian army on the way to Moscow, took it when the Russians burned and abandoned it, and then lost 9 of every 11 men he came with to get home to France.

– Russia actually lost WWI, but the prevailing Allies repudiated the separate treaty the Russians made with Germany to put Russia on the winning side. So they won by default.

– Russia invaded Finland in late 1939 and spent months humiliated by the smaller Finnish army, and only prevailed in the spring by sheer weight of numbers.

– Russia of course took all the blows in 1941 and was pushed to the suburbs of Moscow. Stalin even considered fleeing the capital. 3 1/2 years later the Russian army was burning down Berlin.

My point is don't count these guys out off a slow start.

Basically, the wars against the Moslems were Republican wars supported by the Democrats. Now we have the war for gay anus,

The “war on terror” is basically no different to the war for homosexuality today, both are about spreading far left liberalism onto the entire world. Bush and all the other neocons were never against Muslims (they were all for them for mass migrating into Europe after all) they just wanted Muslims to become good little goyim serving ZOG, a good example of this is the current Mayor of London Sadiq Khan.

Why should Young stay with the Dems? Is it that difficult for American politicians to run as independents? I realize that they won't have access to party campaign funds, but, in the internet age, is that such a big deal? First a congressperson, then a governor, state delegates, etc. I don't expect a senator to be indy, though, since they are elected by the states.

OTOH, I realize that Young is grandstanding. But even a stopped clock is right twice a day.

OK fine.

But in my opinion, the big priority is that Biden and Harris and Mayorkas and Soros and Gates and Bezos etc. should be put on trial for treason, for enabling an invasion of OUR nation.

The number of third world refugees entering is now at least twice the number of native births. Roughly, that's like the rich forcing Americans to have six kids each or more. That's a doubling time of about 20 years. No industrial nation has kept any measure of prosperity with these kinds of numbers. If this pressure is maintained in 20 years half the country could be descended from the third-world refugees that started with the Biden-Soros administration. And while in principle a United States with 700 million people could still be prosperous, that can only happen with MASSIVE investments in developing new resources and infrastructure- which is simply not occurring. It doesn't matter if these investments MIGHT occur in a parallel universe where Spock is evil and has a beard, they are not being made NOW.

The ultimate goal, the *real* goal, is starting a war with China to destroy China and East Asia. In the last few years there has been a major U.S. government hiring of East Asian-Americans in the State Department and civilian employment in the Dept. of Defense and in intelligence agencies with the sole purpose of war with China/East Asia. Kind of weird it's East Asians proud of their heritage (with degrees in Japanese and Chinese and East Asians studies) who will be assisting the West destroy China and the East.

That part of the country has peoples with a cohesive and very cool culture. In terms of the book Albion's Seed, they're crackers, that ancient and honourable English pejorative. These are the guys who hanged the regulators and did Shay's Rebellion and the Whiskey Rebellion. There's a guy with a very similar platform who ran for Congress in Asheville. This, the nascent Appalachian Democratic Peoples' Republic of East Bumfuck, shall be the successor state to the USA.

What Young could do is execute the Rome Statute verbatim in KY law. Then beltway vermin would be subject to prosecution or extradition for their universal jurisdiction crimes against humanity or peace. That would be fun as shit.

You're not some chump stuck in a US state, you're a captive nation of the US impunity regime. If a state or region wants to secede, all they got to do is notify the UN they're accepting responsibility: acceding to the UN Charter, the ICCPR, the ICESCR, and the Rome Statute (without reservations, to show up their US occupiers,) and accepting the UDHR as law.* Then you've nailed the prerequisites for sovereignty. Your full integration into the international community is just a mater of friendly relations and recognition. And maybe a quick Slovenian switcheroo.

* The UDHR is already state and federal common law, under The Paquete Habana decision, and the ICCPR is equivalent to federal statute, so when you want to make government bureaucrats lose their shit, pointing that out is a great way to do it. They will actually back off their chickenshit administrative oppression to avoid the hopeless can o' worms of blowing off universal instruments in public. This commenter has done it. Everybody should fuckin do it.

I'll not only NOT take that to the bank, but my bet is that Biden's days are numbered. With all the latest revelations of Biden's pilfering secret documents (funny how it came out after the recent election, when it was known all along), Biden's future as president seems tenuous at best. The powers-that-be in the democrat party will ensure, one way or another, that an old White racist with dementia will NOT be their nominee in 2024. If he agrees to bow out and not seek re-election, they might let him finish his term. If not, he'll be hounded out of office.

For once, Republicans will have some pit bulls heading House committees. And heads are gonna roll. They know that, if they again do nothing with their (slim) majority, their party is finished.

The Democrat Party is the tool of the Ruling Class and the Managerial State. Elements of the Ruling Class are beginning to realize what we've known since mid-year 2022, that the West is not able to stop Russia from achieving its aims in Ukraine, lacking both the military and economic power.

The Ruling Class must engineer an exit from Gramps' Ukraine Adventure (GUA) in order to preserve the electoral prospects of its tool.

Negotiation with Russia is not an alternative. Russia has learned that the US and the West are not "agreement-capable", as evidenced by the Minsk and Minsk 2 agreements where the West reached signed agreements which they immediately violated. Merkel and Hollande both have publicly said that both Minsk agreements were shams intended to give the West time to fortify Ukraine.

A KY Democrat gubernatorial candidate matters is not a power player, but the Ruling Class should take a hint. Let the Freedom Caucus Republicans ally themselves with AOC's Broad Squad to defund the GUA. Or at least have a up-or-down vote on a short term (6 month) standalone funding package. And then have an identical vote every six months including one last one in October 2024.

Then the Ruling Class can have the US do an Afghanistan-style exit and the press can drop the whole grim slaughter down the memory hole. And the Democrat Party can blame the disaster on the Republicans.

And then the Neocons can execute their plans for China, but at least bleeding Ukraine can begin to heal. And perhaps Europe can reestablish pre-GUA relations with Russia to avoid freezing

this winter and next.

That's no different from the past. Go down the rabbit hole of the Russo-Finnish war of 1939-1940. Churchill was considering helping the Finns, along with tons of heroic propaganda about how the Finns were winning so big and just needed some Allied weaponry and troops to keep up the winning. Luckily (or perhaps not depending on your point of view) Finland was not helped by the allies and was left to eventually concede territory to Russia. Had Britain openly fought Russia over Finland – perhaps Germany doesn't invade Russia a year later. One of those “what-if's” of history.

Well America has a lot of cleaning up to do in a lot of areas, I would start with the electoral system.

The establishment decried any suggestion that Biden wasn't elected legitimately but as the last midterms show...the establishment meddles and influences elections.

If information is deliberately withheld that would influence a voters decision by showing the incumbents as hypocrits then that is meddling.

The midterm election in marginal seats should now be rerun after Bidens document fiasco.

{*A Democrat who is opposed to the Anal Apocalypse War is better than **a Republican** who supports it.*}

Republicans are gutless weasels.

Democrats are the Devil, but they don't give a S____t: based on nothing or outright lies they themselves manufactured, they dragged Trump thru the mud and went so far as to Impeach him on bogus charges.

Dementia Joe can be legally Impeached on half a dozen charges, #1 being him opening US border to anyone who wants to illegally enter the US. #1 responsibility of the POTUS is the defense of the country and the country's borders.

But ChickenS_____t Republicans will waste 2 years on useless "hearings".

It is understood that the Senate would never convict Biden. But Democrats also knew that the Senate would never convict Trump, yet they went ahead with circus.

If Republicans were real — which they aren't — they'd keep impeaching Dementia Joe until the end of his term.

Curmudgeon, re 20, fortunately there are UN agencies and UN agencies. The US wrecked the Secretariat at the outset (Shirley Hazzard's Countenance of Truth tells all about it) but the UNGA, UNESCO, UNCTAD, and the treaty bodies give US assholes fits. UNTOC got written under the auspices of two of the least-perverted agencies, ECOSOC and the UNGA, so it turned out to be a useful tool for countering CIA crime.

The UNSC gave the P5 impunity with Article 27§3 but the UNGA is chipping away at that (e.g. the Small Five initiative.) In that case, for instance, the US squelched the Small Five, but only with double-secret crooked intervention by the CIA spooks infesting their captive Secretariat.

It's constant, pitched battle but the CIA regime gives you Idiocracy-level indoctrination, armies riding dinosaurs fighting the UN (the shaved apes in Langley probably do pronounce it "un.") There's a lot going on, and it gets more traction as the CIA regime decays to shit.

<https://archive.globalpolicy.org/reform/topics.htm>

<https://centerforunreform.org/search-hub/main/>

Wherever the UN is fucked up, you can be sure the US fucked it up to make it easier to push around. And the civilized world is patiently patching it up. When CIA loses this world war it started, the member nations are going to rebuild the UN from scratch to make it USA-proof. They've been planning for that since the 70s. They'll put the HQ in Jerusalem, capital of Palestine, on the nuked bones on Zionazi cocksuckers.

I wouldn't mind posts like this except the ignore list only has 50 entries and I keep filling it up.

Can I get a not-ignore list instead? 50 names that aren't automatically blocked?

@American Citizen

Too bad nobody reads history anymore. Russia has a history of starting wars very poorly, and ending up on the winning side.

Except when they don't like the Russo-Japanese war where they lost their navy in a single battle due to the Tsar's arrogance and total failure at researching the enemy. Sounds awfully familiar.

Napoleon beat every Russian army on the way to Moscow, took it when the Russians burned and abandoned it, and then lost 9 of every 11 men he came with to get home to France.

Yet he wasn't defeated until Waterloo. The Russians used their winter to weaken him and a multi-national alliance defeated him.

Russia actually lost WWI, but the prevailing Allies repudiated the separate treaty the Russians made with Germany to put Russia on the winning side. So they won by default.

Having Communists make a deal with Germany to take over the country and abandon territory is not a win by default.

The Tsar certainly did not win as he and his family were murdered by Communists.

Russia invaded Finland in late 1939 and spent months humiliated by the smaller Finnish army, and only prevailed in the spring by sheer weight of numbers.

They originally planned on taking the entire country and then changed their goal to taking a small slice after getting their asses kicked by Finns on skis.

Sounds awfully familiar.

Oh and they lost to the much smaller Polish army after WW1. No slices of Poland, just a total ass kicking.

Of course they don't like talking about that war.

Russia of course took all the blows in 1941 and was pushed to the suburbs of Moscow. Stalin even considered fleeing the capital. 3 1/2 years later the Russian army was burning down Berlin.

With Stalin admitting that they barely won and only did so with Allied help.

My point is don't count these guys out off a slow start.

Or they start slow and still lose like the Afghan war.

The clear lesson of Russian history is to expect an insecure Tsar or Communist dictator to eventually start a needless war that is really tied to his pathetic ego. Sometimes they win, sometimes they lose.

@Avery

Russians have been picking radio chatter between troops at various battlefronts for months in foreign languages: American English, British English, French, Polish, Romanian,....who knows what else.

Those are volunteer forces. They make GoPro videos and post them on youtube.

It's not a conspiracy.

It's not news to Russians that NATO is fully in, in Ukraine.

If NATO was fully in then airstrikes would destroy the remaining prisoner and forced conscript battalions within 24 hours.

I have no doubt the NATO eye in the sky is feeding intel to Ukraine. We don't even know the capabilities of NATO satellites. They could have every prisoner tagged and tracked by computers. Hitler said when you start a war you open a door and you don't know what is on the other side. You don't know the full capability of the enemy until you start the war.

NATO is not fully in nor are they committing forces. Ukraine hasn't even asked for volunteers. They want heavy weapons.

@John Johnson

I'm really not sure what your point is with these scattering of arguments.

Generally when someone points out the role of Lend Lease it's either a European with parents or grandparents wringing their fist about Germany losing because of it, or an American trying to take credit for the copious Russian blood spilled defeating Nazis.

I liked the reference to Russia losing its Baltic fleet to Japan. The British and possibly American (first stirrings of Jewish New York money really!) trickery in sponsoring the Imperial Japanese Navy wasn't all that impressive. Fleets get zapped regularly. Blowback was a humiliating bitch at Singapore and Pearl Harbor. The Russian war with Japan was precipitated by the completion of the Transsiberian railway that linked St Petersburg and Vladivostok. That the Russians had a strategic presence in the Pacific North is itself one of the remarkable stories of the 19th century and the 20th. Hong Kong and Singapore are no longer British possessions. Although of course Australia and New Zealand sort of are. Here's this embattled colony of Russia that's had its ups and downs but it's more Russian than Marseilles is French or Birmingham is English. The city is an impressive example of the tenacity of the Russians. Or if you prefer the Muscovites.

<https://en.wikipedia.org/wiki/Vladivostok>

Around 600,000 people in the city 92% ethnic Russian.

The Japanese won some spectacular battles against Russia early on in the war, but they were smart enough to know there was no way they could win a war of attrition against them, so they took the opportunity for a peace settlement when it was presented.

Russians were very eager to give it back to Japan in WWII, and declared war against Japan after the conclusion of hostilities in Europe; they captured Manchuria, but before they could really muster their forces against Japan, Japanese Generals wisely surrendered to America, inviting Americans to occupy immediately.

BTW, Japanese victory in 1904 would have been nullified but for two things: English support for Japan, and the 1905 revolts against the Czar. Now, where did these two originate, I wonder.

The target has always been Russia, since 1848. And it had always eluded the net somehow. And this time it is even aware there is a net trawling for it. Lets see.

Meet Another ratfuckt Jew doing Fraud™

In today's episode of filthy Jews doing Fraud™, meet this piece of shit: Professor Stanley Cohen of Stanford University, where one can graduate with multiple degrees in how to Fraud™ like Elizabeth Holmes or its **president** Marc Tessier-Lavigne over allegations that papers on which he is a co-author were Fraudulent;

Not to mention filthy ratfuckt Jew SBF was born on campus and his parents were **tax and ethics** attorneys and professors, one of whom was secretly and quietly funneling money to democrats besides the ukraine money her son was washing through FTX.

Cohen, 87, bamboozled almost \$30 Million dollars from his "friend" by lying about a drug he invented that the FDA banned back in 1976 because it caused people to lose their limbs and death, but which Cohen said was a miracle **cure** for Huntington's. This asshole worked at Genentech and Regeneron.

This adds to my pet theory that the American model of Business is Fraud™.

Fraud™ till you get caught,because IBG YBG.

at this point though one has to wonder wtf is going on at Stanford which is famous not for academic greatness but for being a kind of start-up incubator where idiots like Holmes and professors like Cohen, are nothing but whores who don't so much seek knowledge in the pursuit of truth as much as they do Fraud™ in the pursuit of money.

Johnson rather walked into that leading with his chin. Over 45 years of conflict with Japan the Russians more than held their own and were in control by 1945 necessitating a Japanese flip to US vassal status. Which is something they don't, deep down, like very much.

The war with Russia is about the military/industrial/intelligence apparatus and its need for an enemy. They'll complain about China but the Chinese are collaborators with our corporate elite and the CCP and our overlords have both gotten rich from the relationship. Furthermore, we are economically dependent on China, so a war with China is not in the cards. That leaves Russia.

Our proxy war against Russia was lost from day 1. Half of the people in D.C. aren't smart enough to realize that and the other half don't care because, for them, the only goal of the proxy war is to weaken Russia. How do we weaken Russia? By keeping the war going as long as possible. And as long as Ukraine can field an army the United States will send the money to pay for it and Zelinsky will ship his cannon fodder into battle. I'm surprised that Z has been able to replenish the army given the huge number of casualties but they keep coming. I'd love to be a fly on the wall to be able to listen to family conversations around kitchen tables in Ukraine. Hard for me to believe Ukrainians hold Zelinsky in as high esteem as Western media want us to believe.

So the Russians started the Napoleonic Wars and World War 2?

No, certainly not.

They had a hand in starting World War One, but were certainly not alone, and even that was more of a reaction.

Japanese started Russo-Japanese War with a surprise attack on Port Arthur.

Russia didn't start the Crimean War either, nor most of the various Russo-Turkish Wars, other than the last one in the 1870's, which was, in part, a reaction to Turkish atrocities in the Balkans.

How many wars has the US started and won since World War 2? Desert Storm I guess? That's about it.

Your missive was a rather silly take on military history and a even sillier attempt to draw parallels with current events.
