Think Tank RAND říká, že válka na Ukrajině již není pro židovskou „dvojanální agendu“ přínosem

RAND tlačí na eskalaci USA/západu proti Moskvě po velmi dlouhou dobu. V roce 2019 zveřejnila zprávu o „Rozšíření Ruska“. Mnoho z jeho doporučení se následně splnilo. O tři roky dříve také vyšetřování války mezi USA a Čínou přineslo následně splněný návrh: pic.twitter.com/lxHde0fupH

— Kit Klarenberg (@KitKlarenberg) 27. ledna 2023

RAND je vysoce vlivný orgán, který informuje – a odráží – myšlení elit a imperiální politiku. Tato zpráva je zvláště významná vzhledem k tomu, že řada amerických představitelů podobně vyjádřila pochybnosti o tom, že Washington bude pokračovat v tomto omílání. Uvidíme...

— Kit Klarenberg (@KitKlarenberg) 27. ledna 2023

Hity stále přicházejí. "Význam" "mezinárodních norem" a ukrajinská ekonomika jsou "diskutabilní", proto by se Washingtonu nemělo ani trochu věnovat, ani o tom, že Ukrajina znovu získává území. Doufám, že každý spojenec USA si tuto zprávu prostuduje a vezme si z ní ponaučení. pic.twitter.com/KbADCWOeqz

Vy lidi nečtete think-tanky. Četl jsem think tanky. Pak vypadám jako nějaký čaroděj vysvětlující události. Ale v podstatě jsou zpravodajská média úplně k ničemu. Doslova neslouží k ničemu jinému než k šíření dezinformací. Mezitím, svým náročným jazykem, think tanky poskytují všechny podrobnosti o programu jasně.

Tady je dohoda: každý chápe, že Rusko je pouze velmocí schopnou konkurovat USA, protože je podporováno mnohem větší a mnohem bohatší zemí zvanou „Čína“. Rusko potřebuje jejich ekonomiku, aby přežilo. Indie by se nepostavila proti USA, ani by se Saúdská Arábie ani žádný z jiných bývalých spojenců nezatlačili zpět, pokud by se jim nedostalo krytí od Číny.

Všechny think-tanky prosazovaly, aby se cílem příští americké války stala Čína.

Lidé z Pentagonu však řekli, že Rusko je mnohem slabší, a tak s tím souhlasili. Teď je to blbost. Západ ničí svou ekonomiku, odcizuje si celý svět a čeho přesně dosahuje? Rusko může bojovat donekonečna. Nic je to nestojí. Možná je tu nějaká válečná ostražitost, ale to se opravdu vymaže tím, jak nechutní a brutální Hoholové jsou. Pokud Rusové začnou být nemocní z války, Solovjov vstane a udělá část o nejnovějším videu Hoholů, jak mučí a vraždí válečné zajatce, a vy máte další týden tvrdé podpory pro chlapce bojující s těmito satanskými monstry.

Způsob, jakým Wanger nyní vede válku, to prostě nestojí příliš mnoho.

Ale USA se v tuto chvíli nemohou vzdát. Musí prostě jít a jít. Jsme za rok a statisticky platí, že pokud válka mezi dvěma zeměmi, které spolu sousedí, trvá déle než rok, pak trvá déle než 5 let.

Kdo za těch 5 let ztratí víc?

USA nemohou otevřít čínskou frontu, zatímco Ukrajina pokračuje a čas je tam na straně Číny.

To je důvod, proč je RAND šílený.

RT :

Zatímco Moskva i Kyjev si myslí, že budou mít prospěch z pokračujících bojů, takový obrat událostí neslouží nejlepším zájmům Washingtonu, tvrdí think tank RAND Corporation Pentagonu v nové zprávě zveřejněné v pátek .

Kniha „Vyhýbání se dlouhé válce“ , kterou napsali Samuel Charap a Miranda Priebe, přijímá převládající premisy o konfliktu, ale poznamenává, že zájmy USA „často odpovídají ukrajinským zájmům, ale nejsou s nimi synonymy“.

Podle autorů konflikt již způsobil Rusku značné ekonomické, vojenské a reputační škody, takže jeho „další postupné oslabování již pravděpodobně není tak významným přínosem pro zájmy USA“.

Říká se, že „nazvěte to vítězstvím a vypadněte“.

Nakonec to bude muset dojít k určitému bodu, kdy budou obě strany schopny vyhlásit vítězství. Proč se tedy nesnažit přijít na způsob, jak to ukončit a zachránit si co nejvíce tváře?

Cena pro Západ také nebyla zanedbatelná, od narušení trhů s energií, potravinami a hnojivy až po náklady na „udržování ukrajinského státu ekonomicky solventního“, které se jen „časem znásobí“.

Vojenská pomoc NATO Ukrajině „se také může po určité době stát neudržitelnou“, zatímco Rusko může „zvrátit zisky ukrajinského bojiště“, uvedli. Konflikt „pohlcuje čas vysokých politiků a vojenské zdroje USA“, odvádí pozornost Washingtonu od jiných globálních priorit, jako je Čína, a zároveň tlačí Moskvu blíže k Pekingu.

Ano, to je smyslem celého papíru. Všichni publikují tyto noviny a říkají přesně toto.

Mezitím Brandon téměř slíbil, že pošle Gundamy.

„Stručně řečeno, důsledky dlouhé války – od přetrvávajících zvýšených rizik eskalace až po ekonomické škody – daleko převyšují možné přínosy .

Studie popisuje vizi vítězství prezidenta Vladimira Zelenského, ve které by Ukrajina získala zpět všechna území, na která si činí nárok, a donutila Rusko, aby se podrobilo procesům s válečnými zločinci a reparacím, jako „optimistické“ a „nepravděpodobné“.

Tak, tady to máte. Pravděpodobně jste slyšeli o RAND. Nebudu dávat úplné shrnutí, ale můžete si to vyhledat, pokud nevíte, co to je. Toto je skutečný pohled zahraničněpolitického čaroděje: USA prohrávají

válku a budou nadále prohrávat a zničí to jejich plán na zničení Číny. Prostě ignorujte všechny ty bláboly, které vidíte na CNN a v NYT. Všechno jsou to jen falešné zprávy, jako jsou irácké zbraně hromadného ničení nebo holocaust.

Ano, je pravda, že si všichni mysleli, že to Rusko udělá mnohem rychleji. Vidím, že mě lidé kritizují za to, že to bylo pravděpodobně rychlé, jako by to byl nějaký obrovský trapas, ale říkali to všichni, včetně většiny Washingtonu. Nikdo neočekával, že Západ půjde naplno do tohoto rozsahu, i když při zpětném pohledu to bylo jaksi zřejmé na základě toho, jak moc militarizovali zemi od toho puče v roce 2014. Všichni si jen mysleli: „Dobře, USA neprohrály nějaké významné body reputace, když ztratili Krym, tak proč by kvůli tomu kolabovali svou ekonomiku?

Možná militarizace jen nechává jejich možnosti otevřené, mysleli jsme si.

Protože jak říká RAND: Západ zde nemá žádné skutečné výhody. Je to jen extremistická židovská nenávistná agenda.

Co dělají, kromě vyhazování peněz a dokazování světu, že jsou psychoši?

Rozhodně si myslím, že to hraje roli při rozhodování. <https://t.co/1I6N9GVPa2>

— Koen (@KoenSwinkels) 27. ledna 2023

Když se zkusím vžít do jejich kůže, vidím, jak stálo za to pokusit se zhroutit ruskou ekonomiku a pak udělat barevnou revoluci, která by sesadila Putina a prostě vyhrála. Ale to se nestalo a riziko, že se to stane, je minulostí. V tuto chvíli není možné, aby si vzali Krym nebo Donbas zpět, což znamená, že Putin nebude nucen odejít z úřadu. Další eskalace dává Číně extrémní výhodu. Pokud vezmou Tchaj-wan, oficiálně vyhráli Civilizaci Sida Meiera. Mezitím je to, co tyto think-tanky říkají, tak zřejmé: pokud svrhnete Čínu, pak Rusko, Írán, Severní Korea a všichni ostatní na seznamu nepřátel okamžitě padnou.

Pokud byste mohli nějak porazit Rusko, co se stane potom? Pokud to bude trvat pět let. Kde bude Čína v tu chvíli? Kde bude v tu chvíli západní ekonomika? Upřímně řečeno, v tom okamžiku – v roce 2028, kdy si USA teoreticky vynutí zhroucení ruské vlády tím, že si vezmou zpět Donbas – bude Čína v pozici, kdy napadne Rusko z druhé strany a podpoří nacionalistickou vládu, která potlačí Anální nepokoje. četa.

Bud' pozitivní!

RAND říct, že USA prohrávají, je velmi velký problém.

Přestaňte se nechat těmito různými výstupy zmást tím, co se děje.

Rusko vítězí, protože celá tato věc je mnohem větší než střelecká válka, která je ve skutečnosti jen malou částí probíhajícího geopolitického dění.

Rusko je poslední křesťanská země.

Rusko je Ježíšův bič.

Ať ji vede archanděl.

| Russia can keep fighting indefinitely. It's not costing them anything.

Exactly, and that's why the longer this 'war' continues, the better. Muttmerica and (((the west))) are already running out of their weapon stockpiles, their economy is crumbling, and Saudi Arabia is already checking out of petrodollar system. And since they are lagging far behind Sino-Russian alliance in the technological/industrial capacities, they cannot win an all-out war(conventional or nuclear) against Russia either.

There you go again...

https://en.wikipedia.org/wiki/Religion_in_Russia

Russia is a primarily Orthodox Christian Nation. However the wrinkle in the data is that 41% only claim to be Orthodox. Other Christians amount to 6% and Muslims are around 6%. Most of the rest are agnostic or atheist. Some Buddhists and Tenghrists out East.

The cultural soup there is mostly and overwhelmingly Orthodox Christian. The Romanovs quite literally ran a family dynasty that operated in tandem with the patriarchate in Moscow. We could argue this isn't true Christianity on a theological level but it's not so different from Byzantium or the Constantinian conception of Christian Rome.

You don't get the basics right, so why argue the esoteric stuff anyway.

‘Western societies were formed during the past 30 years on the basis of atheism and gender ideology, but they will surely collapse, and the return to tradition will be faster than it seems to us now’, Hungarian Prime Minister Viktor Orbán said at a meeting with participants of an international media conference.

“My analysis is that the current structure of Western societies is completely contrary to human nature. It will definitely collapse, I hope, not Armageddon-style,” Orban was quoted as saying by Rod Dreher, a journalist from The American Conservative newspaper who was present at the aforementioned meeting.

According to the Hungarian Prime Minister, if Europe wants to survive, it must return to the faith that created the “sacred order on which its civilization was built.”

The Hungarian Prime Minister called Orthodox Christians “the most important reserve” for the restoration of religious pillars in the West:

“The greatest hope today is the Orthodox. They don’t argue, they believe. We [Protestants and Catholics] fight all the time.”

Anglin's 'double-anal agenda' for the west is a short term goal, the long term goal is world domination, which requires the destruction of the power structures in the east and west, in the Jewish world view, the destruction of the descendants of Ishmael and Esau. They have for 200 years prophesied such a war, and many are saying explicitly in the vid below that the time has come. For 70 years MAD was a deterrent, now it may be the goal.

John the Jew, we can deduce you support the anal sex and pure Satanism pushed by the Jews on God's children. Even the demons tremble at God's power. We must all acknowledge Christ as the Son of God sent to die for our sins, we must accept the Gospels. We must put our faith in the Lord.

I believe that the most important mistake this RAND think tank made in their assessment is that the russian economy is “export-oriented” and therefore, it couldn’t survive without its western “partners”. Nothing could be farther from the truth.

Indeed, during the 90’s Russia “exported” a lot – the proper term is “**plunder**“. But after Vladimir Vladimirovitch took the wheel, he started to re-organize russian economy, so today it’s probably the closest to self-sufficiency on Earth as possible. Indeed, Russia still exports state-of-the-art weaponry (from perspective of the buyers; from russian perspective what they sell is mediocre), and, to a lesser degree, hydrocarbons. But they don’t have to – the russians have sufficient resources under their control and the know-how to produce everything they need, **if they have to**. Of course, some may try to make counter-examples like the buying of Iranian Shahed drones, but as I said – “if they have to” – russians understand economy no worse than anyone else, and if they decide that buying Shaheds would produce more bang-for-a-buck, they’ll do so. But it doesn’t mean that they’re incapable of producing their own drones with comparable or better capabilities.

Compared to what the russians produce and consume internally, their export was, and still is, negligible. The west can’t offer anything of value to the russians, except overpriced, (very) low-quality trinkets, which the russians could import on the cheap from China (they can produce, for example, quite capable iPhone copies, if they want, and Apple can’t do anything about it). But those trinkets aren’t essentials for the russians. So it’s normal, when the western analysts makes such fundamental mistakes, when they base their analysis on the russian trade with westerners, or bogus criteria like GDP measured in USDs.

Another reason why the sanctions don't work on the russians, is because the sanctions are double-edged sword – indeed they may have stopped, legally, exports from Russia to the west. But they also stopped export of overpriced trinkets from the west to Russia. From russian point of view, those sanctions act as protection of the russian markets from the west's competitors.

Today U.S. and NATO, under the cover of Ukraine military, attacked Iranian military sites with drones. Iranian anti-aircraft was very active and Telegram channels had thought it was Israeli aircraft bombing Iran.

From 2 months ago:

Top Zelensky advisor threatens war with Iran

Mykhailo Podolyak, an advisor to Ukrainian President Volodymyr Zelensky, has called for attacks inside Iran as the country's drones cause setbacks for the Ukrainian military.

On November 5, Mykhailo Podolyak, an advisor to Ukrainian President Volodymyr Zelensky, has advocated for military strikes on drone production sites located in Iran. President Zelensky echoed Podolyak's belligerent rhetoric the following day, demanding Iran be "punished" for allegedly supplying drones to Russia.

Seems like RAND is setting the stage for Old Joe, a retail politico to his last breath, to pull a page from Reagan's playbook by planning some sort of grand rapprochement play leading up to his re-election campaign. Unfortunately, Reagan held a much better hand and was a better negotiator than the mentally and ethically compromised Biden.

Some in the US Deep State want to cut and run from Ukraine for the same reason they wanted to cut and run from Afghanistan, namely because they want a war with China. They fantasize they can keep their ultra-decadent and Jew-ridden (pardon if I repeat myself) country at the top of the heap by militarily destroying China. The thing is that China can see it from an ocean away and will be ready for them. The US's war against China will be their last act of imperialist aggression.

Why iPhones can't be assembled in the US:

<https://www.nytimes.com/2019/01/28/technology/iphones-apple-china-made.html>

But it's not just some tiny screws; a million bits of industrial capacity and a billion of individual craftsmanship have been lost due to deindustrialization, whose sole purpose was to provide a temporary windfall for (((Wall Street))). And the problem is compounded by a thoroughly Judaized education system focused on things like Critical Race Theory and Gender Theory rather than actual learning.

The US is fucked; in fact, it has the national equivalent of full-blown AIDS. The founders killed their incipient nation when they decided to give Christ-killers citizenship in order to demonstrate how much more "enlightened" they were than old Christian Europe.

| Russia is the last Christian country.

I think Andrew means by that *Christians with balls*, unlike cucked USA Xtians.

| Ukraine percent Christian: 78%
| Russia percent Christian: 63%

Meaning what? Percentages mean little absent context.

Jane has 78% of \$1.00

Joe has 63% of \$10,000

Who is richer?

| Europe's largest Muslim population: Russia
| Europe's largest Buddhist population: Russia
| Europe's largest Atheist population: Russia

More precisely:

Russian Muslims: 6%

Russian Buddhists: 0.5%

Russia Atheists: 13%

Still all that's meaningless without context.

America has **210,623,578** Christians...most of whom suck
Joocawk

Ukraine has **32,114,810**...many dying like flies for Zion

Russia has **69,772,800** Christian soldiers kicking arse.

(That's **217%** more than Zelenskistan has)

Russia has been lied to, betrayed, and attacked. It knows Uncle Sucker will not stop attacking it until it's stopped. So Vlad's taken off the gloves.

Plus morale matters. Ukes are despondent now. Dismayed. Depressed. They know this is no Agincourt, themselves no English archers.

I find it ironic that both Russia and Ukraine are using German music composers (Russia – Wagner Group and Ukraine – Mozart Group) to brand their paid armed mercenaries defining their battles.

As a devout Wagnerian, I'll take Wagner over Mozart any day.

Wagner music is banned in Israel for one purpose only, he exposed Jews over a hundred years ago for their usury/banking/trade criminal activities, while Mozart was content on playing dance music for a few shekels, sound familiar? (((See popular music artists today, all sharing the stage with fags, drags and every low life pos drug user known and unknown))).

If you ask me, Wagner will win this war for the simple reason he created the soundtrack for the greatest people who have ever walked this earth.

The Ukraine, like the US, is a Jew-ruled sewer. Therefore, all its non-trivial actions and policies—again, like those of the US—are thoroughly kosher. Declaring oneself a Christian in the census is as irrelevant an act as casting a ballot for the presidential candidate disfavored by the rulers.

The preceding is entirely obvious, but as the quote attributed to Mark Twain goes, there are lies, damned lies, and statistics. And, of course, statistics is what a loudly slurping kikesucker will resort to in order to defend the ultra-corrupt cesspool his masters told him to love.

First if all, I appreciate and thank Andrew Anglin for the education on the Rand “Think Tank,” and by concluding with an icon of St. Michael the Archangel.

And am very appreciative for Shamu’s succinct and powerful words, “Hungary is doing its best to remain a Christian nation. That’s why Hungary should leave the EU and NATO.”

I understand that am only one American voice but my maternal Grandfather, Steve Havrilko, was born in the Austro-Hungarian Empire and settled in Newark, NJ.

Perhaps once a year, he visited me and my parents in Taylor, Pennsylvania. I recall how Grandpa gave me a WW 1 helmet, and a collection of Mercury dimes. He loved to watch the Three Stooges “Stogers” on TV, and the last day I saw him alive was the day Emile Griffith pummeled Benny “The Kid Parent,” to death in 1962.

An Orthodox Christian, Steve Havrilko passed away, and is buried in St. George Cemetery which overlooks the Lackawanna Valley. Subsequently, am rooting for Hungary to remain a Christian nation, and ward off the evil temptations inherent in the EU and NATO

Post scriptum: Am half Polish and am ashamed how Poland has succumbed to the will of International Jewry.

So it finally dawned on the MIC that Ukraine is only a proxy for the Jewish takeover of the planet, and with that eventually a complete elimination of all war-bent imperialists as further useless shabbos goyim, once the global World Order is complete, and “global peace and tranquility” are established under a Jewish king, Klaus the August. Constantine the Great and Eusebius of Caesarea did exactly that, in fact, ca 300CE, when they took control of the planet riding the witless Christians as cannon fodder hogs, and disbanded the praetorian guards, the then Waffen SS of the Roman imperialists, and established what Eusebius claimed as “ultimate and universal solution”, where all nations “found peace and respite from their ancient miseries” under one supreme authority, that of “one God – not two, or three, or more”.

MIC is about gescheft, and fat whores for its generals. Nothing else. And a Peking duck is much more entertaining to pluck with, than the Russian bear will ever be. That is what the RAND whitepaper is all about .

It is really disturbing to read about these hate crime laws and criminalizing speech that questions the veracity of the holocaust narrative. Enshrined into law in Canada is that one is not allowed to express doubt about the six million Jews who died in the holocaust.

No such law exists to make sure one does not express doubt that the Jewish Bolsheviks killed many millions of people in Russia and Ukraine.

That such a law stands in a nation of people who imagine themselves to live in a free country is a reflection of Jewish power and Gentile cowardice.

Total hypocrites. I bet Canada will never arrest any journalist who expresses support for Nazi murderers and war criminals in the Ukraine or Zionist murderers and war criminals in Israel. Instead they turn against a guy who writes satire on the world's foremost satirical website. The tears of the Palestinians flooding the streets of their own stolen country are of no concern or consequence. Canadians are the real Nazis of the post-modern world and their only claim to being anti-Nazis is based on them railing against a long dead Nazi regime while supporting existing fellow Nazi regimes in the Ukraine and Israel. And I bet someone will say Israel isn't Nazi because Jews can't be Nazis like they claim that Jews can't be racists, but they can and are, Nazis, racists and supremacists called "Zionists" or "secular globalists" or whatever guise they may choose.

Hitler tried to be the bulwark for all of Europe against the Soviet/Jews who (because workers-of-the-world-unite) were the real ones who aspired to take over the world. As we know, Germany failed to protect us from the jewish onslaught the west is now experiencing on steroids.

Well, similarly, Putin in Ukraine is being forced to be the bulwark for the entire multipolar world against the unipolar world/neocon Jews. Russia's military superiority means they can take out NATO, EU, US with one hand behind their back.

I don't think the trigger happy, ham-fisted neocons will actually try to nuke Russia. Their more polished neoliberal brethren will not allow it (as per Rand). That's because they want to keep Ukraine intact. Forget "smart cities." They've been cueing up Ukraine to be their model ***smart country***, the template for full-blown FinTech a la Estonia. Then, Vatican II

put an end to the catholic church, by changing the consecration's formula of bishops, which means that the 2 last popes were laymen. See LIFE magazine of that time. The jewish people ARE the messiah who will reign on the world after its birth in the midst of the pains of deliverance.

Will they continue their agenda to confiscate all of our bank accounts, property, and assets and put us all on Universal Basic Income?

Will they destroy Yuval Harari, Klaus Schwab, and the wef?

Will they stop the chem trails that poison our land, water, food, air with aluminum and other nanoparticles?

What lies ahead for us “useless eaters”?

What is ahead for the only amerwreckan company that produces and exports a product, the military industrial complex (MIC)? What diabolical plan will they pursue when countries won't buy their useless weapons?

A story from a movie seen long ago: A scorpion wants to cross the river. So he makes a deal with a frog to ride on his back in exchange for promise to not sting the frog with its lethal venom.

World War II veterans: “We saved the Jews during the Holocaust and now the Jews are saving us”

The Jewish community has sent aid to Ukraine and the emotional alliance has not gone unnoticed.

JANUARY 26, 2023

On the eve of International Holocaust Remembrance Day, a delegation of the Ukrainian Veterans Organization (World War II veterans who fought in the Soviet Union army against the Nazis) arrived in Kyiv on Wednesday in order to mark the historic day with the local Jewish community.

How the Jewish community is helping Ukraine

The veterans, including former senior officers of the former Soviet Army, have been in close contact with the Kyiv Jewish community for many years and especially with the city’s Chief Rabbi and Chabad emissary Jonatan Markovich. “In the past year, the Jewish community has extended its patronage to the organization and is helping them with food, warm clothing and helping them humanitarian throughout the war,” a member of the Kyiv Jewish community said.

**A Russian graveyard reveals Wagner's prisoner army
A rapidly expanding cemetery in a southern Russian
village offers insight into the convicts who are fighting
– and dying – for the secretive mercenary army of
Wagner Group.**

Filed Jan. 26, 2023, 11 a.m. GMT

Late last summer, a plot of land on the edge of a small farming community in southern Russia began to fill with scores of newly dug graves of fighters killed in Ukraine. The resting places were adorned with simple wooden crosses and brightly coloured wreaths that bore the insignia of Russia's Wagner Group – a feared and secretive private army.

There were around 200 graves at the site on the outskirts of Bakinskaya village in Krasnodar region when Reuters visited in late January. The news agency matched the names of at least 39 of the dead here and at three other nearby cemeteries to Russian court records, publicly available databases and social media accounts. Reuters also spoke to family, friends and lawyers of some of the dead.

Many of the men buried at Bakinskaya were convicts who were recruited by Wagner last year after its founder, Yevgeny Prigozhin, promised a pardon if prisoners survived six months at the front, this reporting showed. They included a contract killer, murderers, career criminals and people with alcohol problems.

That this war the US incited was against her peoples best interest was blatantly clear from the very beginning.

That this war the EU did so much to incite was against her peoples best interest was blatantly clear from the very beginning.

The EU is horny for their own army and they need one desperately to be able to threaten smaller members like Macedonia, Croatia, Bulgaria, Hungary or even the Baltics.

Netanyahu famously said that he would squeeze the US like a lemon and throw away the peel, and Jews are doing the same to Europe.

Jews had the most to lose from this war, and they are watching it go down the drain. ZOG's war has also battered the dollar, and both Russia and China are waging a war against it. Apparently the Saudis have joined the fight against Money Changer Power.

The financial war on Russia has been a far bigger failure than the proxy one. The trade and financial sanctions have backfired. The dollar is the fountain of free money, and Jewish bankers will protect this exorbitant privilege with all their power. Ghaddafi and Hussein were take down for displaying the same audacity that MBS has done.

So why did Judea risk losing the fountain of free money? Amschel Rothschild famously said "*Let me issue and control a nation's money and I care not who writes the laws.*". These Jews would not risk nuclear war and the loss of everything including the fountain of free money, just for a shot at taking China down.

This war in Ukraine was about 3 things:

- Genocide and vengeance on Amaleks (Slavs and Christian (Roman) Europeans).
- Squashing the Orthodox Christian revival
- Khazaria 2.0

All of these goals revolve around Yahweh and Talmudic principles and are not based on physical aspirations like wealth and power. This is why Blinken, Nuland and the other Ashkenazis could get the backing of Rabbis and Rabbinical councils for their war.

RAND is a highly influential body, which informs – and reflects – elite thinking and imperial policy. This report particularly significant given numerous US officials have similarly expressed doubts about Washington keeping this grinding on.

The people behind RAND have to call off the Nuland/Kagan

gets out of hand and breaks up NATO.

Also, Ukraine going down like Afghanistan makes an attack on

This is the real view of the foreign policy sorcerer: the US is losing the war and they are going to keep losing and it is going to destroy their plan to take down China.

If this turns out to be true, then the methodical and very slow Russian prosecution of the war will have been truly brilliant. They would have forced the empire to keep raising the bet and then lose big time, instead of making a 'killing' off of a small bet.

Unfortunately, I just don't see them getting out so easily. These psychopaths have their fanatical goals, monstrous egos, and political power all, deeply invested in this enterprise.

But in support of the argument of the article, there's also the recent interview with the psychopathic Evelyn Farkas, who, being asked to predict political turmoil in 2023, conceded that none was forthcoming in Russia, ... unless there are 'many more body bags,' which, she seemed to imply, they're assiduously working to achieve, but did not seem to hold out much hope for.

Percentage of a population claiming to be Christian is not really a good measure of anything.

Papists claim to be Christian, for example, but they all worship pedophiles like the pope Bergoglio. Iran has a million Christians at most while something like 70% of Americans claim to be Christian, yet Iran reflects Christian values much more strongly than the gay and retarded USA does. Similarly, Russia reflects Christianity much more strongly than the homosexual Jew den of the Ukraine.

Are Jews and the Global elite one and the same? Their are very many Jews in the global elite, but I think their interests diverge a bit. Jews hate Russia because of the policies of Tsars (like the Holy Caust, they haven't gotten over this one either). The Bolshevik Revolution was a Jewish revolution, and because of Putin's revitalization of Russian nationalism and to some extent Orthodox Christianity, I believe many Jews feel the need to have another revolution there. As this Ukrainian boondoggle continues, I would like to keep an eye on any anti-war movement happening in Russia itself. If one does take off, you can bet the somewhere Jews are involved – as they were involved in the anti-Vietnam war movement here in the 1970s. Jews I don't believe, are that concerned about China being brought down. Too much money to be made there. They know the Chinese really don't give a flying fuck about the Holocaust, Jewish feelings or rainbows spewing forth from gay anuses. To the Jewish mind, Russia is more of an existential threat (real, imagined and exaggerated) than China ever will be.

It's clear that for the 'rules based order', Russia is a sideshow. The only real 'benefit' from it, for US policy, is that by destroying European energy supplies via the US destruction of Nordstream, NATO is now more dependent upon the US than ever.

Their goal is China, but at this late stage of the game the only way the US could stop unification of Tawian province with the mainland would either be via a sustained massive conventional strike on the mainland, or nuclear preemption. The US doesn't have the ability for the former.

That is why the US, via NATO, is attempting to rally South Koreans and Japan. As if they could even help. South Korea has no real love for Japan, and how any close military commitment between the two would work out is a big question mark. If South Korea and Japan turned against each other, it would be quite the quandary for the US, trying to figure out which one to support. Both are US occupied countries, so do they even have a choice?

Really, SK and Japan are, as far as the 'rules based order' goes , just a place for the US to park bombers.

However it is, the Jewish MSM, the Jewish State Department, and our Jewish bought politicians are preparing the populace for a war against China.

Yeah... it's totally insane.

Here's the deal: everyone understands that Russia is only a power capable of competing with the US because it is backed by a much larger and much wealthier country called "China." Russia needs their economy to survive. India wouldn't be standing up to the US, nor would Saudi or any of the other former allies pushing back, if they weren't getting cover from China.

Everyone understands ?? Well I for one do not understand any of that ! It all sounds like poppycock. In any case, I also read the hocus pocus coming out of Rand.

That organization is a sock puppet for the powers that be and not much else. They say what they are told to say. How many people here on UR, who have not graduated Harvard, knew supporting Ukraine was a waste of time ? What is even more disconcerting are the conditions that exist in this USA. Yesterday I passed a fellow standing at the traffic lights in freezing weather looking for financial assistance. Those billions we sent to Z would have gone a long way here. In time we will rue this transfer. What is going to happen to all those wetbacks who need financial assistance ? We certainly dont want to violate their human rights or heaven forbid their dignity. LOL

Years ago I read a Rand report on the Vietnam War. One line stated the Vietnamese were an enormously disciplined people. Really ? It took some asshole from Yale or whatever to write a 400 page report pointing out the sheer will of these people ? Any soldier in the field from PFC to Field Grade officer, who ever faced a main force VC or NVA assault could have pointed out that pertinent fact in the '60s. Ultimately after 56,000 deaths and many thousands more maimed physically and mentally, Rand discreetly explained that maybe the US had a dragon by the tail and could not win the war.

Ultimately we turned tail and fled off the roof of the embassy as the 120 lb rice, fish head and rat eaters flooded the compound. Once we left, the Nam stopped being important ie the Gument wanted the public to forget about it. “Its in the past now and we need to move on”.

The US followed up this brilliant exit by other outstanding performances in Iraq and Afghanistan.

Now, with this latest fiasco in Ukraine, we are told what we knew from the beginning....by Rand. This kind of stupidity would be comical if it were not so tragic.

Suggestion: Why dont we recall all US troops from all over the world and let other people sort out their own problems ? We have enough household chores to attend to without fucking around with other people:s dirty laundry.

So now two dipshits known as Samuel Charap and Miranda Priebe are determining US foreign policy. Why does Congress exist if they have to farm out foreign policy decisions to two scribblers?

I will bet these geniuses are so young they have not even learned how to wipe their asses. This is the formula in the US government. The old farts hire young and innocent (anxious to make a name for themselves) to scribble. However, and I don't need to tell you this, they are told how to shape the report. Finally, when the report is done, everything that may be politically insensitive or not "team spirited" is struck or couched in "correct language" after endless reviews by everyone from the janitor to the head tomato.

The final product is for all intents and purposes, sheer bullshit ! The scribblers, for all their academic qualifications, are really glorified typists. Besides, the names of these two suggest a Jewish background. Surprise surprise !!

Think about putting your investments, a legal issue or a medical condition in the hands of a fresh faced 23 year old. THAT, under the myopic gaze of a political hack, is what we have in DC.

I have a similar case with a family member who owns a successful business. Upon retirement, he handed the reins to his eldest son. Staff tell me that to order a box of pencils from a different supplier means a flurry of reports all of which take time to read and assimilate. The Big Cheese, possibly failing to understand a paragraph, then demands a further report "to dimension an unclear aspect of the proposal" LOL

Its a cluster fuck, just like we have in the Beltway !

Common sense should indicate that there are no 'experts' in foreign policy just as there are no experts in economics and the entirety of what the social sciences and humanities represent. There are only opinionated frauds ready to supply their made up out of nothing commentary for a paycheck. Just as the economists are the whores for the bankers, finance generally and the gov't, the political policy wonks are the whores that will produce any justification for what the gov't has already decided to implement.

Everything that comes out of the humanities and social sciences is worthless opinion lacking empirical evidence and yet these people form the gov't hierarchy in the 'west'. Is it any wonder why the 'west' is currently in the process of implosion?

All the think tanks, NGO's, academics, etc that purport to supply intelligence without supporting empirically reproducible evidence to support their conclusions on any matter need to be shut down for fraud as their opinions aren't worth any more than anyone else's and usually lead to horrible outcomes. All the 'higher learning' institutions teaching the bullshit that the humanities and social sciences represent should be shut down for the witchcraft they are pushing.

Thank you Mr. Anglin. I've always said; what are the two, last, great, Christian powers fighting to the death, ready to risk and destroy all humanity? The rational, moral, imperative does not exist in this battle; it's completely insane. It's the MSM, a power of its' own, answerable to no one, that subverts our perspective, our interests, and very identity. The American people do not know and/or do not consider themselves a member or citizen of a Christian nation out of fear of being incorrect or worse, cancelled. Most Americans believe we are fighting a Communist power that is ready to invade Europe. Funny, when it actually occurred, the Allies decided to fight and destroy the German nation-state and annihilate the German people.

I trust the American people will put a stop to this 'Biden' Regime and take a long hard look at our present circumstances that would take us to the brink of disaster. We have a nation to rebuild starting with the US government itself. The American people are trapped in a Perpetual PsyOP, always thinking and acting on MSM disinformation. Fixing the Ukraine War

The William White Plan

1. Drop all the sanctions, new Government; none of the existing members are eligible
2. EU to rebuild NS 1&2, Russia will sell gas to the EU for half of what the Americans are currently charging, price increase to the cost of living for 20 years.
3. Ukraine Neutral, no army, no weapons, no NATO, Russia to provide protection and Police services for 50 years.
4. Russia takes to the River , Odessa is Russian but the Port will be free for Ukraine to ship through.
5. The Rump stays but the Nazi's must go. Any talk of Nazism will result in long jail sentences or death.
6. Freedom of Religion and language to be guaranteed.
7. Election must be fair and democratic, certified by the UN, no foreign powers allowed on Ukrainian soil at any time unless licensed by Russia.
8. No nuclear weapons in Countries bordering Russia.
9. No western Banks in Russia or Ukraine.
10. Foreign embassies to have a staff of no more than 50 people all accounted for at all times. No attachments to foreign governments [fake embassies].
11. All foreign business' wishing to do business in Ukraine must obtain a license from Russia. No appeals.
12. Ukraine must pay all rebuilding costs from the war, any foreign contractors must be approved and supervised by Russia.
13. Russia will control all border points, Visa and passport departments for Ukraine. No dual citizenship for Ukrainians. To retain Citizenship Ukrainians must physically live in Ukraine at least 200 days per year, minimum stay 90 consecutive days. People wishing to travel must be up to date on their taxes or they

can't leave, maximum \$20k US dollars equivalent allowed to take out of the country.

14. No foreign Land owner or corporation can own any more than \$500k US dollar equivalent in property.

I look upon this as a starting point, greater minds than mine are available, I would start with Mr. Lavrov

India is standing up to the US? That’s news to me. Indians and Chinese, notwithstanding Buddhism, can’t stand each other. China has already gained a small piece of the Indian territory and wants to gobble up one of its northeastern states altogether and India, conversely, wants to regain the Askai Chin which was ceded to China by the perfidious Pakis and prevent the Yellow Monster from getting more of its land. Furthermore, India needs Tibet to be independent nation, neither allied to China or India, thus creating a buffer zone between the two countries. And India knows very well which side its bread is buttered and would not lift a finger to see its nemesis being humbled by the US. And that’s all I got to say about that!

Not sure of the point that you are making here, Che, but those living in the belly of the beast are witnessing the 2030 plan being implemented one step at a time. Most recently, they are going after organic foods, including but not limited to eggs by introducing “substances” to the feed.

To this point, if you are interested, you can have a look at the comments to the recent Richard Solomon ZOG article. Loner Feral Cat posted a vid at [61] that I felt was so important that I summarized it at comment [148] for goal to share that content in a quicker format.

I feel that to raise the question of domestic implications from a Ukr defeat is a legitimate topic to raise because it represents a fork in the road, so to speak. We all get these in our lives, from time to time, and the fork we select (or ignore) can change ones destiny.

US is being afforded the opportunity to change its ways. As a resident here, it is helpful to speculate on whether the RU defeat, together with the abandonment of the dollar and US goods by more and more countries, is sufficient paroxysm for the Owners to change their ways. If not, then there are significant implications, consequences, for every resident here.

As the saying goes, to be forewarned is to be forearmed. Also, not every visiter here is as well read as you and I. People are awakening day by day. It is new info for many.

You failed to read the article. The basics are that Russia is an overwhelmingly Orthodox Christian nation. The basic stuff on the wikipedia page provides maps of where you'll find the Christians clustered, Western Russia, around 58.000,000 practicing Orthodox centered around Moscow and St Petersburg. Exactly where you'll find the Muslims clustered on the Caucasus border with Azerbaijan and Georgia and Kazakstan. The Buddhists are all in East Asia.

For the benefit of readers who are following this thread, the concentrations of Britain, Germany and France's Muslims are the result of importing via migration. Western European Muslims are to be found in London, Hamburg, Paris, Birmingham, Manchester, Marsailles, Amiens...not on the outer fringe of the state border with neighboring Muslim countries, where you might expect to find them naturally.

Western Europe's cities are overrun with rape-y Darkies and Brown people who were gratuitously imported by the same people making war on Russia. The Russians can claim they conquered some savages at their border and populated their own border cities as colonies among these cutthroats.

I digress, you'd like nothing more than to get every Muslim in Russia to kill ethnic Russians.

Hello,

China is self-imploding due to dysgenics and mutational load. Their population count is falling at an extremely fast rate due to Emperor Xi's own policy of promoting extreme feminism in China, pushing every Chinese female to get fully educated and acquire full-time careers, thus no longer needing husbands to survive and thus deciding that having children is just an impediment to personal financial and hedonistic interests. Also, China's national median IQ is dropping quickly due to dysgenics. China is also becoming genetically very sociopathic, atheistic/nihilistic, and non-industrious/lazy. If the Ashkenazim want to defeat China, all they need to do is aggressively study all the research of Dr. Michael Anthony Woodley of Menie. They should also get him to restart his research. For some unknown reason, Dr. Woodley of Menie has quit all his research and now just hides out in his parents home, playing with his collection of birds. Woodley of Menie is Ashkenazi property, as are all Gentiles.

The Ashkenazim should make Taiwan a military fortress. The problem with invading the island of Taiwan is that the only way for China to land there is to send all their ships through the waters, which theoretically can be all sunk before landing if Taiwan is given the proper missiles. If the Ashkenazim don't want to overtly give weapons to Taiwan, they can, for the greater Askenazi good, and for the glory of the Ashkenazi ancestors and the Ashkenazi G-d, simply digitally send the blueprints to Taiwan's military over the internet so they can quickly build the weapons themselves. Yes, this means sharing patented technology with Taiwan, but it's a sacrifice that must be accepted to defeat China and bring eternal glory to the Askenazim. Also,

remember that at the genetic level, Emperor Xi is “all talk and no action” when it comes to threats of military action against the international Ashkenazi population. So, the Ashkenazim should just ignore his threats and do what needs to be done. I don’t know if the Ashkenazi strategy is to make Taiwan a part of NATO and the West, or to actually facilitate a highly destructive war between Taiwan and China for the purpose of completely collapsing China, but whatever the goal is, just do it now.

Also, the Ashkenazim have barely even started an economic war against China. Why has the Ashkenazim not sunk the world’s biggest computer company, Lenovo? All their computers use Intel processors and other Intel parts, and all their gaming laptops use NVidia and AMD graphics processors. Immediately end the supply to China, and Lenovo immediately goes out of business, making HP the largest international computer company, and HP has an Ashkenazi CEO. The truth is that while China is propping up Russia, the Ashkenazim are propping up China. Most Western goods are still manufactured in China. The Ashkenazim should carry out a “Shock and Awe” economic war on China.

I see no real reason for the Ashkenazim to end the war in Ukraine. First, only Gentile soldiers are dying, not any Ashkenazi people. Second, Gentile workers will keep on working to keep the Western economy going, no matter how much the Ashkenazim abuse them. Gentiles are all genetically deteriorated and will never unite to have a civil war to take back their nations from the Ashkenazim. So, why should the Ashkenazim quit? Next, regarding energy, the problem is simply the Ashkenazi policy to “go green.” Trump had the right ideas on energy independence. The Ashkenazim can still decide to change their mind and implement Trump’s energy policies of radically increasing oil/gas production in America and the West. Also, the Ashkenazim can just take the Middle Eastern oil and gas by force

by implementing the same strategy they did on Iraq, Syria, Libya, and Egypt. The Middle East has a median IQ of 82. Stepping on them is like stepping on a cockroach – no consequential resistance. Also, Venezuela’s oil and gas can be taken by force. All it would require is a quick “Shock and Awe” attack, and then having the West’s military secure all their energy infrastructure and prepare them for export to the West. Venezuela and the entire Middle East are de facto Ashkenazi property.

Also, the Ashkenazim can always once again “go green” AFTER both Russia and China are defeated, which would give the Ashkenazim enough time to continue to build up the “green” infrastructure so that once the West again “goes green,” the infrastructure will be ready and won’t cause any economic disruptions.

Regarding Russia, remember that the Russian Slav’s absolute population count is going down, and now the young fertile males are dying in the war. Russian Slavic females don’t reproduce much, and Russia is being flooded with genetically primitive Central Asians. The most intelligent Russian Slavs are fleeing Russia to make money in the West. Thus, what all this shows is that the war is slowly weakening Russia at the genetic level, and will eventually bring forth their collapse. So, why should the Ashkenazim end the war? Not only should the Ashkenazim not end the war, but they should open up more fronts, such as through Georgia, since Georgia might be interested in getting back their land that was annexed by Putin.

By the way, Russia is not a Christian country. Historical Christianity never embraced the Ashkenazim and made “Anti-Semitism” illegal, like Putin has, and never embraced racial diversity, religious diversity, and cultural diversity, like Putin has. Putin himself is atheist, as well as all his top politicians and military leaders. And perhaps half of the Russian population

practice some watered-down/diluted form of Christianity, but the other half are atheistic/nihilistic/secular. Putin uses Christianity to control the population. He personally has hand-picked the religious leader of Russian Christianity, and the leader was required to embrace Putin and embrace Cultural Marxism. And if any leader of a smaller Church says something Putin does not like, he is imprisoned, such as the smaller church leader who claimed that the coronavirus fiasco was actually an Ashkenazi plan to weaken Russia. Mr. Ron Unz has actually proven that the Ashkenazim was indeed behind it, in that they engineered the virus as an economy-disrupting bio-weapon against China, which later spread to Russia.

You are underestimating Russia. The US could not conquer Russia in 5 years, 10 years or 100 years. And that is without Russia turning to nukes, which they would do if an existential defeat was looming. The war is lasting this long because Russia thought there would be more active support inside Ukraine, and they did not expect the US to cross one 'red line' after another.

So our plan is to coerce two of our vassal states into restricting exports of “some” chip making machinery to China. It’s like no one in DC is aware that China beats us in STEM grads by about 8 to 1 and probably 30 + % of “our” STEM grads have more loyalty to China than the United States. In our 77 years as a super power, and 30 years as the only super power, we’ve morphed from world’s liberator/policeman to world’s bully to world’s mafia. Once the BRICS become a viable alternative to DC there will be a lot of BRICS countries looking for payback. I don’t see this sanctions mania ending well for the US. We did everything we could to convince India to join us against Russian oil but it didn’t work. That may come to be seen as the point the Empires control peaked and started its decline.

That's an important question – whom do you accept as least horrible overlord

Am shocked at the dialogue here not realising that the China-Taiwan situation is the exact moral opposite of the Russia-Donbass situation

East Ukraine Russians WANT (and need) Russian protection ... Taiwanese DO NOT WANT to be in Beijing's China ... that is EVERYTHING

As much as I detest NATO, the US Biden gov, the Zelensky regime and globohomo ... I absolutely support the right of self-determination for everyone on the planet

And I fear the Chinese-led dystopia would be much worse than even Western globohomo, tyranny without trannys maybe, but still tyranny, with even less hope of escape

Tho I wish NATO would abandon Zelensky today ... I support drawing the line at Taiwan against Beijing ... Chinese victory would lead to mega-creepy NWO 2.0 ... sadly pumped by Unz-ers like Anglin and Escobar ... Klaus Schwab's son Olivier married a Chinese, after all

The irony is the US Globalists have spent the past 40 years building China into a world power by sending all its manufacturing to China.

I have, for at least 20 years, both read and heard commentators claim that Israel wants to get East and West (specifically Russia and the US/Europe) to destroy each other and leave Israel as the world chief superpower with the capitol of the world gov in Jerusalem. That far back I wasn't really seeing concrete evidence of that going on but, of course, as time has gone on it is looking more and more to be the case. There was also the book written I believe in the early 1960s wherein Ben Gurion(?) also claimed world gov to be the goal with Jeruslaem as capitol.

If one is a student of history, this has been a war between Old Scratch Satan and Christ from Genesis to Revelation –

<http://crushlimbrow.blogspot.com/2021/03/in-essence-it-always-was-and-still-is-a.html> – and the winner is already

determined. Of course, a lot of collateral damage during the process is a given by our human inclination to play God instead of following His commandments.

Example – DaChurch in what we call Western Civilization is now essentially Churchianity –

<http://crushlimbrow.blogspot.com/2016/08/mailvox-what-is-churchianity-vox-day.html> – a church of humanism. As a result,

most pew sitters would be appalled by the behavior of Jesus and His Apostles – since our focus has become spiritual navel gazing rather than salting the cultural landscape. In effect, DaSalt has lost its flavor and is being ground into DaDirt.

However, there is always a remnant – as also evidenced from Genesis to Revelation – which carries on throughout history's thick or thin, and can be counted on to do His will as commanded. It is not for the faint of heart!

A good book to read would be Paradise Restored by David Chilton.....available from American Vision and other sources.

Perhaps you need to be reminded that Zelinsky has decreed that parents and spouses of Ukraine soldiers killed in action are not even permitted to place a flag of the country they gave their life for on the gravesite. This is an article which doesn't take force structures nor strategic weapons role in geopolitics into consideration but is really a Jew bashing one – Firstly,the strategic balance moved in Russia's favour once they started fielding their zircon missiles – That means the the purported US advantage via submarine launched ballistic missiles were being obliterated because now Russia would strike faster and deeper into the Heartland where Americans are feeling very sheltered – That advantage got multiplied when Sarmat and Poseidon and S500 and now S550 was launched which means that not only will Russia stop a first launch of US nuclear weapons,it would also counter strike at the same time to wipe the US from the Earth's surface alongside it's lackeys in Europe and Asia who are stupid enough to join – China and India are sheltering under the protection of Russian strategic weapons, not the other way around – Plus the US will never start a war with China without India's permission and which it won't give because it knows that it will be next – India will close the Indian Ocean and the Malacca straits to all naval traffic and it's submarine and missile forces have become very powerful that it can sustain this blockade for a long time – So no , Rand can write all kind of wet dreams but they are just an indication of the insularity of Americans,not what America can do – The fact that this report was written up and leaked online just when Milley has lost his argument with the WH and State neocon brigade about continuing supplies to the Ukrainian blackhole shows that the Pentagon is deathly afraid that any war with any near peer competitors would lead to the utter destruction of the entire US armed forces

@John Johnson

Anglin celebrates war, uses terms like “double anal” and then makes an appeal to Christianity.

Anglin is just saying that the war is working in favor of Russia.

He uses the term ‘double anal’ because it accurately describes the only ‘value’ that the West is sincerely promoting at this point (as opposed to its clearly insincere promotion of values like democracy and national sovereignty).

However, I agree that Anglin has a very limited, superficial understanding of historical Christianity. It’s apparent he either isn’t aware or is glossing over the fact that the Bible was written by Jews and promotes Jews as the ‘Chosen People’ and Jewish domination of the whole world under their Messiah (which isn’t Jesus). This ideology of Jewish Supremacy is boldly expressed in the Old Testament, translated into a thousand languages and carried by every Bible-thumper as 2/3 of the text of the Christian Bible — and not tucked away in obscure passages of the obscure Talmud.

If we weren’t talking about Jews, everyone would see from the Old Testament that the Jews are Nazis. The Jewish Old Testament promotes national identity, racial superiority, racial purity, ethnic cleansing, genocide, authoritarianism, and global domination on behalf of the Jews. The Bible even invents a new type of slavery that pagans never dreamt. It’s called ‘Bond Slavery,’ in which a slave consents to have his descendants forever sentenced to enslavement for all future generations without ever hope of emancipation. Imagine a society where such a ‘contract’ is treated as legally binding! ‘Bond Slavery’ is

regarded in the Old Testament as a societal ideal, which it is — for Jewish slave masters. With that in mind, consider the possibility that at Masada, the Romans were the good guys

Despite Jews whining incessantly about Christian persecution, their divinely-exalted position under Christianity is why Jews have been tolerated and ascendant in the West for so long, while in countries where Christianity is not the dominant religion, Jews live in tiny communities that attain a modest level of prosperity but pretty much keep to themselves and don't cause trouble to anyone else. Because they know what would happen if they did.

Anglin's selective ignorance of how Christianity enables Judaism is one of the many reasons I'm wary of Anglin. That and of course his sweeping, unfair statements against blacks and women, gays and yes, Jews. Still, he comes off as a breath of fresh air in a society where blacks are always treated as magical and women always as saints, and where the mildest of questioning the agendas of gays, transgenders, and Those Who Must Not Be Named is met with social and financial cancellation.

Moreover, much of what Anglin calls 'Christianity' is just traditional human social values, which have naturally evolved almost universally in every society as a matter of societal survival. That part about Christianity I like, but again, Christianity also carries a lot of baggage, much of it Jewish, that I don't like at all, and I cringe every time Anglin goes into one of his ill-informed rants on behalf of Christianity. Just saying, Mister Defender of Western Civilization ought to read the entire Bible someday, instead of just pulling up quotes with google searches.

It seems like the American powers that be have so many different Machiavellian plots for world domination and white man genocide, that they are now starting to shoot themselves in the foot. Is China really the bogeyman? Or is the saber rattling done to bring back the MAGA crowd back to the military? Seems like an awful lot US assets are still happily being sold to China for them to be our new best enemy.

Speaking of military and economic growth for world domination, how are you going to achieve it with zoomers and millennials groomed to be circus freaks? I get they are fanatically loyal to their groomers, but they are still human weakened stock. How about all those drug pushing to those literal zombified users? What can they do for the GAE? In 2023 you still need strong and healthy men to win a war.

Finally how does Israel's drone bombing of Iran fit in with any of it? The Iran attack seems like a doubling down on Russia hate, but the RAND Machiavellians seem to be readying their "don't blame me" card. It is really becoming a huge sh*#show.

BY THE way, the symbiosis between American politicians and the Zionist lobby produced another weird curiosity this week. The US Congress unanimously adopted a law that makes it easy for Israelis to immigrate to the US for good. All we have to do now is to buy a small business in America – say a little delicatessen shop in a corner of Brooklyn, for half the price of an apartment in Jerusalem – to automatically become American residents, and eventually citizens.”

I don't understand why Rand published it? ...the depth of those arguments, IMO, were below content quality normal for such arguments? Why did that document get published, I wonder?

First, there are no good or 'in-depth quality' arguments for our involvement in the Ukraine, much less a war with China. But that is not the point of these studies.

Like the other recent 'study' showing that the US could 'win' (whatever that means) a war with China, over Taiwan province, no one believes that is really possible. At least no one outside the State Department. I don't even think DOD types believe that, and they are the ones who will have to figure it out. Maybe Lloyd Austin believes it. Who knows?

The point is to get the idea of a possible or likely war out front, in the news cycle, in order to get folks accustomed to it. Also, to gin up funding for the MIC, in anticipation of the upcoming war.

Whether there will actually be a war with China, over Taiwan? Your guess is as good as mine, or anyone's. However, as crazy and insane as such a thing may seem, I wouldn't discount it out right, given the lunatics who are in charge of the US and NATO.

Laugh. I have appreciated Rand for some time. T%here main argument is predicated one a large assumption. no NATO EU or US counter offensive. Without that, in my view their position is rather optimistic.

“I read the overly simpleton Rand report which adds nothing new AFAICT”

agree.

Hence the issues regarding advanced weapons. Without the personnel capable of actually using them in battle. Providing them might not do much good. And why, my position has always been for the US to actually get in the fight a long time ago. We tip toed around and every delay gave Russia room and confidence.

Furthermore Rand’s weight rests on the assumption that the issue is to Ukraine and not about the long term consequences of US failures in Iraq, Afghanistan, and the ME in general. NATO< the US did not call Pres Putin's bluff, They quivered and shivered shell shocked by the threat of nuclear war. Europe of all regions should have said, it's a two way street Russia.

Hmmmm . . . given that China's silk road runs through Europe a location of some concentrated wealth, i don't buy their claims, unless, they believe they will benefit financially from rebuilding Europe. But in the last ten years the tensions between European society and the Chinese have only gotten worse. The muscle flexing in Europe by China, is none too welcome. The governments of Europe nor the US don't have to engage in immediate actual ware. They simply have to reduce their export

rules and manufacturing practices, Sanction US manufacturing to foreign countries. build at home and return china back to figuring out how to feed its population.

Hence the reason why China has spent the last ten years eagerly seeking a way around the dollar and the potential U turn of the west's capital to fuel their economies.

Orban is Protestant, and he more than hints about the big problems with our age's Western Christianity. Protestantism is a largely Judaizing series of heresies, and Vatican II Catholicism is an attempt to placate both Jews and Liberal Protestants.

My advice to everyone is: either Latin Mass Traditional Catholicism or Eastern Orthodoxy. Everything else produces too much inadvertent bad fruit.

In the context of Russian Orthodoxy, it's a National church with around 58,000,000 Russians observing it in a way that is considered "practicing". That's a considerable number of co-ethnics in a single national institution. Another 40,000,000 are co-ethnic Russians who are agnostic or atheist but would instinctively defend Orthodoxy when push comes to shove.

Percentage of a population claiming to be Christian is not really a good measure of anything.

You're right, a better measure would be what percentage of the Christian population attends Mass weekly. In Russia it is very low, much lower than in the US or Poland. I admire Russia's efforts to bring the church back to prominence, but I don't think Russia is the hardcore trad country that a lot of its Western defenders claim.

@GMC

Ukie Christians – 78% = Russian speaking Ukrainians, Ukrainian dual PassPort holders, and the Russian church's in Kiev will be liberated. The rest of the Christians are pedo catholics and Greek bought off fake orthodox nazis.

So you are actually arguing that even though Russia has Europe's largest atheist, Buddhist, and Muslim populations the stats of Ukrainians must be fudged?

Poland is 90% Catholic. Is that a fudged stat? Me thinks Anglin took his rhetoric a bit far....again.

Russia is not the last Christian nation and not at all a model. They have the highest abortion rate in Europe and a declining White population. Funny how Anglin never mentions that nor does he speak of Putin's Jewish chef who is currently in charge of the main front.

Europes largest Atheist pop. = so was the Red Army after the Jews took out the Orthodox churches

Well the Russians put up with a Bolshevik takeover. They are a serf-like people as seen by their tolerance of a half-pint dictator and his stupid war.

The German Communists tried the same thing and their leader was shot in the head by nationalists and tossed in a river. That's how you deal with Communists. You can even visit the spot where she was given a bath:

https://www.tripadvisor.com/Attraction_Review-g187323-d13927833-Reviews-Rosa_Luxemburg_Memorial-Berlin.html

Your Bitch is with the Russia People – Putin is just one of them.

I don't think highly of Putin or the Russians. The Russians have a history of tolerating worthless Tsars and Communist dictators. The original Russian princes would get on their knees for the Khans. One prince even fought on the side of the Khans against a rebellion. It was Poles and Hungarians that got rid of them.

Not really. Again, I will provide the example of Iran. It has a very small Christian population, but itself is much more reflective of Christian values than any western country is.

┆ In Russia it is very low, much lower than in the US or Poland.

Attending satanic papist mass to commune with the pederast pope is worse than nothing, showing again why this is also not a good measure.

The “Think Tanks”–like RAND–are merely putting into words what the Zio-Neo Cons want to hear. If you put foaming at the mouth warmongers into a “Think” tank, RAND is what you get. And over time both groups, the think tanks and the warmongers in the Government become more and more insulated which in turn makes them more and more insulated and out of touch with reality. Interestingly, there ARE elements in the Government who can–from time to time–see Reality. This explains Joe Biden. Everyone knows Joe Biden is thoroughly incompetent to be US President; he belongs in a Nursing Home. (It also explains Kamala Harris, the former Escort, being the VP). When even the tightly controlled Mainstream American Media (MSM) can no longer deny the disaster of Neo Con/ Zionist warmongering the Rats in the Government will desert the sinking “Biden Ship”. They’re gonna blame everything on Biden. I can hear the spin now. “We all made mistakes on Ukraine, but we have learned our lessons”...blah blah blah. And the MS of course will play along. The whole system in Washington D.C. is rotten to the core.

“Europe and the USA could not compete with China in manufacturing even if they wanted to. Ironically, your attitude, that China is incompetent and cannot stand on its own without western support, is exactly the attitude that caused western oligarchs to underestimate China in the first place.”

I am not sure you get it.

But first let's get you off you star haystack. I never said anything about the competence of China. nor do I hate China or the Chinese. I applauded Pres Nixon's trip./ I supported Chinese student US exchange to the international debating community. Thoroughly enjoyed my chinese orgcomm instructor. Learned a great deal. In fact my position is that we have and do underestimate China.

d the implications of China's conduct in the pacific regarding the Philippine economic zones and ULCLOS. Took seriously China's attitude regarding our engagement in the ME. Understood that when Britain ended their in-perpetuity clause, that meant the land in question would be reclaimed by China.

But China's manufacturing is the direct result of western investment. Anyone looking at the cause to effect knows all too well what o9t take to hold china in check. And that would require a gutsy move by the leadership to b ar investing and production via outsourcing. That would require a strategic legislative plan to challenge the tech industries hold on the US economic structure. Reduce demand. It's called

“American made” or “western made” “Made in vietnam” made in loas, made anywhere but China and we start with military parts and hardware and software.

Under the current models, it is a no brainer that the US could not compete. But we can certainly change the model.

Japan, Vietnam, Laos, Thailand and others are chafing at China's growth. There are alternatives.

That is right, it would take enormous courage to stand against the financial industry's hold on the the governance of the US and EU.

Note: the US did not lose battles in the MR, she lost the occupations which she never should have engaged. we don't need to occupy Ukraine, just aid in pushing Russia out. Of course my ambitions exceed the current polity.

The Christian vs. non-Christian stuff is a sideshow. Russia is an enemy not because it is Christian but because the American war machine needs an enemy. The machine grumbles about China but the USA is economically dependent on China (and the economic oligarchs have become fabulously wealthy by their relationship with the CCP), so they are the enemy who shall not be assaulted. There is no such dependency on Russia. Throw in Iran and the machine has its dynamic duo of enemies, neither of which was a threat until made so by Uncle Sam and his minions.

Churchianity started long before 'holoca.....' and thus includes it as a component, but it is much larger than that.....it literally encompasses everything gone wrong with churches..... which had to precede what followed..... and before the entire society was corrupted.

The Christian vs. non-Christian stuff is a sideshow.

I wasn't responding to you. Anglin used the term "double-anal" in his title and then described Russia as the last Christian state. That is a sideshow and not citing simple but obviously unwanted facts about Russia that you don't deny. I can source every single fact about Russia that I have stated. Cry more if you don't like dissenting opinions. This isn't Russia where Unz is banned.

Russia is an enemy not because it is Christian but because the American war machine needs an enemy.

I support Ukraine. An Orthodox Christian country that doesn't have Europe's highest abortion rate or Europe's largest Muslim population.

I would support Ukraine even if the US was on the side of Russia.

So your depiction of US vs Russia means little to me. Putin chose to invade Ukraine and he could end this war at any moment by going back to his borders. Russia has a declining White population and cities in the East that are completely abandoned. Anyone that doesn't want to live in Ukraine can move to Russia. They are not short on land and need a pro-natal leader, not a pissy little dictator who keeps abortion legal and previously killed over 100k White men to keep in their mountain Muslims.

Marinka is from where this Globalist Ukrainian filth has been shelling and murdering civilians in the Donbass for the last 8 years, all with Washington's approval.

Now they are methodically and systematically being hunted and slaughtered like animals for their crimes having their eyes and lungs torn out by thermobaric war-heads. I've seen videos of these orcs dying in writhing agony completely smashed by these munitions. And as much as I think they absolutely deserve it, each and every one of them, I just couldn't gloat with my usual sadistic pleasure as it was also one of the most gut wrenching things I've ever seen.

As long as Christians remain dominant, Russia is a Christian country. But you raise a valid point. In my view, Putin's biggest error is in allowing ANY immigration from Muslim central Asia. In fact, he should aggressively deport any and all who show the slightest tendency for jihad. (We'll make an exception for the Chechens as long as they're useful in the Ukrainian war.)

P. S. Russia should also outlaw abortion, of course.

This is what we know without speculating...

(I'll do a little of my own) Biden is history.(his brain is already gone) That's what this Trumped (pun intended) up scandal is all about. He served his purpose—Ukrainian war. Putin was a fool to let the US. push him into war. Not only doing what his enemies wanting him to do... But essentially attacking himself... This is a civil war.

This disaster will last for years... Maybe for ever.

The “West” is doing some crazy self-destructive things also.

Blowing up Nord Stream was one of the most insane (desperate?) political/economic/military acts in history... and they aren't even trying hard to deny it!

This is a major rift in the US./Euro alliance.

Europeans are starting to believe Amerika is out to destroy them. This doesn't help are credibility with other countries, as well. The war is a diplomatic disaster heading for catastrophe. The war is also an economic disaster. Cutting off Russia, the world's energy/food superpower, is a calamity in itself... The last thing the world needs recovering from COVID. Not even going to get into the effect of the West (((Jews))) using its supra economic/political powers on Russia.

So Biden is history... What's next?

Unless they completely take out Trump (how does Trump keep getting away with it?) He will run In 2024... Even as a independent. Kamila (that's Kamala) obviously isn't going to be the candidate... So who? Look around... the Jews are already grooming someone... as always it's going to be even more outrageous.

{And as much as I think they absolutely deserve it,}

Past 8 years and maybe first few months of SMO, it was the Azov UkroZioNazis who were remotely murdering Donbass civilians. These savages even murdered their own citizens at Bucha and Krimatorsk rail station. So them being pulverized is a joy to see

But from what I understand, these days the UkroZioNazi regime of Zelesky is grabbing anyone they can — young, middle aged, old — and forcibly sending them to the front to be slaughtered. Apparently they are now enthusiastically grabbing Hungarian minority in Ukraine and sending them to the meat grinder too.

So, it is quite sad: I am guessing the soldiers on Ukis side at this juncture* are mostly unwilling participants.

Sadly Russians have no choice: they can't stop the grinding and let the UkroZioNazi war machine survive.

* except for the foreign mercenaries, who deserve no mercy: they are there to kill for money. Russians are not in their homelands killing their people.

This is the hidden barn door. "Nazi" is meaningless. Leaving the interpretation of what now, or then, is "Nazi" to a bunch of Jewish lawyers and a Jewish controlled court to decide is sheer idiocy.

The problem here is that Lavrov, Putin, etc are afraid of the communist old guard. The level of denial of past war crimes by Russian Communists is only exceeded by the denials of the Zionists in Israel.

I really don't get how americans think they are going to win this war when they couldn't break the spirits of much smaller nations. Sure, they killed millions and sold military weaponry to vassal states for massive sums, but they still left with their tails between their legs in Vietnam and Afghanistan. america is a bully. Russia has been brutalized more than once in its history, and has survived, including at the hands of america's jewish masters. It is a nation of tough people with some steel in their spine. On the other hand, most americans are fat and obnoxiously arrogant. They won't break Russia, and they aren't breaking China. And the whole thing with China is just jewchauvinism and american jingoism. Compared to interventionist US policies all over the globe, the Chinese have been model global citizens. It is the US looking for war, and the US may very well find itself in a war it not only won't win, but a war that will destroy it more or less permanently as a global power. That's something to cheer for.

Because the US (with major help from the UK) decided that the fall of the USSR would mean that there would be this fake nation called Ukraine, and that they would control it to use as the staging ground for eventual full scale war against Russia. So over the years the US and UK kept sending in various experts and charities (wink, wink) to make certain that over time all poor within this fake new nation would be held by anti-Russians. The final piece of that staging was the 2014 coup. Since then Jews have held the vast majority of major government positions.

“Sure, they killed millions and sold military weaponry to vassal states for massive sums, but they still left with their tails between their legs in Vietnam and Afghanistan.”

Neither of these are accurate.

1. N. Vietnam signed a treaty granting peace to both South Vietnam and North and then after the US left violated the agreement.

2. the objective of democratizing Afghanistan minus the full support the population in country was a useless waste of time. Though we never should have invaded in the first place — the US did not leave with its tail between its legs — the loss was not the result of military failures in warfare.

Next you’ll be mouthing off how the US is responsible for the Iranian revolution — — also nonsense.

Yes, exactly. Such sanctions are tariffs. The higher the tariff (imposed by foreign power or domestic government), the better for the home economy. Unless the home economy is based on exporting and importing, which is the case for U.S., not Russia.

Theocracy is always unworkable, as shown by the history of the crypto-rabbinate in Tel Aviv and of the unreasonable absolutists in Tehran and Kabul. But Marxism is also a crypto-theocratic line, proposing boards of atheist fanatics (in a “politburo”) instead of theists. Marx himself was a closet talmudist, cleverly posing as a materialist in order to appeal to faithless Germans in 1848.

Left and right becomes materialism or fanaticism unless leavened by non-parliamentary limited monarchy, which rules out the struggle for power. See G.W.F. Hegel, ‘Philosophy of Law’ (1821 in German). Satanic talmudism has purposely pushed the world beyond hope of sane politics. The final act is upon us:

Yeah, it's a tangled web where right wing parties in Europe support, and are supported, by The Zionist Entity and its billionaires. Orban in Hungary, Salvini in Italy, same tangled web. Meloni, the new female PM, is under pressure from those pro Zionist elements in her coalition and also by the Anglo-Judaic Empire to stay pro Ukraine. Hopefully she'll have a more independent path. Thankfully there's an anti Zionist wing in the right which I hope is growing.

If China wanted to invade anyone, it should be NK. Then they could go after SK, consolidating the Korean peninsula.

Kim Yo Jong says US putting Europe in danger by providing tanks to Ukraine

Statement by North Korean leader’s sister comes week after White House presented evidence of DPRK arms sales to Russia

January 28, 2023

The U.S. is “crossing the line” and putting Europe in danger by providing arms to Ukraine, the North Korean leader’s powerful sister Kim Yo Jong said in a statement on Friday (U.S. time).

Her criticism comes two days after U.S. President Joe Biden announced that Washington will send 31 Abrams tanks to Ukraine to help the country defend against Russian invasion.

“The U.S., which has exposed the whole continent of Europe to the grave danger of war and caused big and small concerns, is now further crossing the red line,” Kim states.

The statement is her first in more than a month, after she slammed South Korean experts on Dec. 20 for allegedly underplaying the success of a DPRK satellite test.

KEY POINTS

– Russian officials provide Osechkin with information about Moscow's inner workings in exchange for helping them flee Russia

– A former FSB lieutenant said many FSB officers want to escape from Russia

Russia has so far lost over 123,000 military personnel in the war against Ukraine

– High-level Russian officials are allegedly defecting to the West amid the war in Ukraine, according to a report.

Among the defectors were generals, intelligence agents, Wagner mercenaries and a Wagner commander, Vladimir Osechkin, an investigative journalist and anti-corruption activist, told CNN, who called him “the champion of a growing number of high-level Russian officials defecting to the West.”

LOL. They suckered the U.S. into believing it had won. They won.

“[In Afghanistan,] the loss was not the result of military failures in warfare”

Do you mean that military success is obtainable only with “the full support the population in country”? That would be a very strange definition of military success. Did the U.S.’s WW2 mission to democratize Japan have the full support of the population in country? Yes – after Fat Man fell. In other words, after military victory.

The hard truth is this. Despite all of the current sales talk from those who depend on military procurements, the U.S. lost every major conflict it was engaged in since 1945.

@Pop Warner

| hyperbole

I used no hyperbole. Papism is a form of satanism. The top clergy in the papist cult are well known to be homosexuals (i.e. pederasts), even according to their own former pope Benedict who confessed this in a posthumously published letter. These are facts.

| you called Iran a “Christian” country for some reason

I said that despite not having many Christians, Iran reflects Christian values more strongly than any western country does, which is just manifestly true. I did not say that Iran is Christian. It is possible for one to reflect certain Christian values without being Christian or claiming to be Christian. It is also possible to claim to be Christian and not reflect Christian values, as is the case with American self-proclaimed Christians in the USA. The example was meant to illustrate the point that percentage of a population claiming to be Christian or percentage of a population attending a church that claims to be Christian does not really indicate anything about the values of that country one way or the other.

| basically say it doesn't count if anybody else who isn't Russian Orthodox goes to church

There are many different people and organizations that claim to be “Christian.” This includes satanic neoplatonic pederast cults like papism, tranny pastor protestant groups, etc. These people/groups often hold beliefs that make them mutually exclusive of one another. Using the word “Christian” to describe all of these makes the word more or less meaningless. If it is to mean anything, it has to describe one of these particular groups

or set of beliefs, which can only be the Orthodox belief system defined at the ecumenical councils. So, satanic papists kneeling down for pope Bergoglio and his homo bishops or tranny protestants cannot be called “Christian” anymore than arians or nestorians or any other misguided historical cults that claimed to be Christian. They are heretics at best, outright satanists at worst.

If you read Anglin regularly, then you will know that LGBTQ+ advocacy is a priority of the American empire's foreign policy, especially under Secretary of State Blinken, a homosexual activist. LGBTQ+ acceptance is now a necessary condition for good relations with the U.S.

If you want a picture of the future of the globe under U.S. hegemony, imagine a rainbow-colored dildo wrecking an anus forever. It is a fact that such things form an indispensable component of the Evil Empire, and Anglin frequently reminds his readers of that unpleasant fact.

@Solutions

This, of course, is the resolution of the Fermi Paradox. Any 'intelligent' organism will contain within its varied ranks certain individual specimens that are inherently malignant and malevolent. These are the ones, using our terminology, that are greedy, who hate other fellow organisms and any other 'species' that might exists, have no compunction, even a delight, in killing others and give no thought to the fate of their species after their own death.

Once these organise themselves into religions like the Abrahamic monotheisms, where hatred of others and narcissistic delusions of universal superiority and a delight in killing the Other, become Holy Writ, communicated direct from 'God' ie the twisted psyches of certain schizoid types, and ideologies like capitalism, where metastatic growth and the destruction of all creation in turning it into money or 'wealth' is the ultimate ambition, the End is foreordained. Once the requisite technologies, in our case nuclear and biological weapons, artificial intelligence, climate destabilising technologies etc, are achieved, it's only a matter of time.

You are on the right track, but I've got a little different take. Pace Andrew, neither Gramps nor his Ukrainian Aggression will be around much longer. Both are damaging the 2024 electoral prospects of the Ruling Class Party, the Democrats, so they've got to go.

Gramps damages the Dems 2024 prospects because of his blatant criminality (influence peddling to the Chinese, cavalier handling of classified documents) and his severe cognitive decline.

America's Ukraine Adventure also does damage because it is becoming increasingly clear that 1) it was begun with no particular purpose in mind, 2) Americans are beginning to wake up that it is an expensive snipe hunt and 3) our European colonies are beginning also to come to the same conclusion.

By the end of 2023, America is going to ghost Ukraine, that beacon of Democracy, like a bad one-night stand. And just as we did with our triumphant Afghanistan exit, the state media will declare victory and move on to other things.

The whole "fighting for Ukrainian democracy" line was boob bait. The only purpose of the Ukraine Aggression was to enrich Boeing, Lockheed, Raytheon and most of all the Ruling Classes with its unparalleled opportunity for grift.

Don't worry though. The impending "war" with China over Taiwan will fill the same role that Ukraine did, and just as Ukraine did it will enrich the Ruling Class and impoverish America.

STEM will give you useful things like $2 + 2 = 4$ and formulas and procedures for making weapons. But $2 + 2 = 4$ doesn't get men to use the weapons.

For that you need soft, squishy, non-computational stuff like the following to get men to risk death:

This story shall the good man teach his son;
And Crispin Crispian shall ne'er go by,
From this day to the ending of the world,
But we in it shall be remember'd;
We few, we happy few, we band of brothers;
For he to-day that sheds his blood with me
Shall be my brother; be he ne'er so vile,
This day shall gentle his condition:
And gentlemen in England now a-bed
Shall think themselves accursed they were not here,
And hold their manhoods cheap whiles any speaks
That fought with us upon Saint Crispin's day.

@PUTINFAN

Johnson's persistence is mind blowing and suspiciously semetic. Russia is both the largest white ethnic group on the planet and it's entire identity and state formation is bound up with Orthodox Christianity. It's very hard to imagine Russia without St Basil's colorful cathedral as a sort of centrepoin celebrating Victory over the Tartars and Mongols, and Christ the Savior's Cathedral dramatic story commemorating the victory over Napoleon in 1812 (its subsequent destruction under a Jewish Commissar called Lazar Kaganovich) and rebuilding under a revived Orthodox regime's celebration of the defeat of a Jewish inspired Marxist period of Terror.

[https://en.wikipedia.org/wiki/Saint Basil%27s Cathedral](https://en.wikipedia.org/wiki/Saint_Basil%27s_Cathedral)

“It was built from 1555 to 1561 on orders from Ivan the Terrible and commemorates the capture of Kazan and Astrakhan*. It was the city's tallest building until the completion of the Ivan the Great Bell Tower in 1600.”

*Cities captured from the Khan's and Sultans by Early-modern musket armed Russian peasant infantry and artillerists.

[https://en.wikipedia.org/wiki/Cathedral of Christ the Saviour](https://en.wikipedia.org/wiki/Cathedral_of_Christ_the_Saviour)

“Under Lazar Kaganovich's* direction for for several months, urgent work was carried out to dismantle the temple building, the remains of which it was eventually decided would be blown up after it's gold was stripped. . On 5 December 1931, the Cathedral of Christ the Saviour was dynamited and reduced to rubble. It took more than a year to clear the debris from the site. The construction of the Palace of Soviets was ultimately halted

due to a lack of funds, problems with flooding from the nearby Moskva River, and the outbreak of World War II. Some of the marble from the walls and benches of the cathedral was used in nearby Moscow Metro stations. The original marble high reliefs were preserved and are now on display at the Donskoy Monastery. For many decades, these reliefs were the only reminders of one of the largest Orthodox churches ever built. The flooded foundation hole remained on the site, but in 1958 under Nikita Khrushchev, it was transformed into the world's largest open air swimming pool, named Moskva Pool.”

*Lazar Kaganovich, Ukrainian Jew who stripped the capital's cathedral of its golden ornaments and later administered the Ukraine in the 1930s.

It's not costing Russia much.

Economically Russia is trending better than the US today. The Rouble has appreciated slightly against the dollar from 12/21 to 12/22. The economy has contracted slightly and there is some inflation, but both economic indicators are more positive in Russia than they are in the US. Russia's balance of payments has improved greatly because it is still selling oil and gas while it is not buying Western luxury items which it doesn't need anyway.

Russia is suffering some casualties, but most of the fighting so far has been done by mercenaries (Wagner) and the militias of the Donetsk and Luhansk People's Republic, soldiers who are fighting to stop the Ukro-nazis from shelling their families' homes.

And Russian and allied casualties are one-tenth the casualties suffered by the Ukro-nazis.

Russia hasn't taken the gloves off yet. And recent disclosures by the West (Merkel and Hollande) that we never were negotiating in good faith in the Minsk agreements has hardened Russia's resolve to clean out the next of vipers once and for all.

” . . . They suckered the U.S. into believing it had won. They won.”

“Do you mean that military success is obtainable only with “the full support the population in country.”

No. But political success is another matter. Japan’s defeat was so thorough, they simply had no choice, unconditional surrender. That was not the case in regional divided leaderships of Afghanistan.

The hard truth is this. Despite all of the current sales talk from those who depend on military procurements, the U.S. lost every major conflict it was engaged in since 1945.”

1. You need to some more homework. The administration suspected that peace would not last, but hoped for the best. Their responsibility to the US public pressed the matter. But make no mistake, that N. Vietnam signed that treaty because they lost. And they knew they had lost. In fact, Ho Che wanted to avoid war altogether because he believed that of the US joined the fight they would certainly lose. He was correct.

Now if one wants to contend that the subsequent invasion after the departure of the US and Australia were successful efforts by N. Vietnam culminating in a win. I would agree. But that win was solely against S. Vietnam. Sadly, the US did not move to bolster the S. Vietnamese who had previously repelled the North’s attacks. But alone against N. Vietnam, China, the Soviet Union and N. Korea, S. Vietnam was defeated. Unfortunate. but the US effort was successful as long as they were there. And it

has been utter nonsense that millions of US citizens think the US lost the Vietnam conflict – wrong. That whipping post does not exist in reality.

2. Japan was democratized because the loss so great they had little choice. That was not the nature of the effort in Afghanistan, entirely different scenario in an entirely different theater with players and agendas incomparable to Japan. The goal was to turn the matter over to the people of Afghanistan, and as it turned out the people simply did not have the will nor the government the support make that transition. That left the US effort to manage the country overwhelmed. And it simply was unsustainable. No. The military did not fail in their mission of the fight, but the US inability to garner support – Afghanistan simply did not have the will.

At any rate, invading the country was an error. But the failure was the occupation not the fight to defeat Taliban forces.

The near extinguishing of orthodoxy in Russia and it's revival is one of the more interesting things about Putin's Russia.

https://en.wikipedia.org/wiki/Cathedral_of_Christ_the_Saviour

It is a cathedral celebrating national salvation from the invasion of Napoleon, 1812...built in the 1850-60s, demolished by a Jewish-Ukrainian Terrorist in the 1930s and rebuilt with donations from Russians in the post Soviet period.

https://en.wikipedia.org/wiki/Lazar_Kaganovich

“In 1930, Kaganovich became a member of the Soviet Politburo and the First Secretary of the Moscow Obkom of the Communist Party (1930–1935). He later headed the Moscow Gorkom of the Communist Party (1931–1934). He also supervised implementation of many of Stalin's economic policies, including the collectivization of agriculture and rapid industrialization. During this period, he also supervised destruction of many of the city's oldest monuments, including the Cathedral of Christ the Saviour. In 1932, he led the suppression of the workers' strike in Ivanovo-Voznesensk.”

The Old Jew from Ukraine in fact stripped it of its ornamental Gold and carted off the marble.

When the central Taliban government collapsed. The country simply reverted back to the regional leaderships. Which is why actually demanding the hand over of Bin Laden by the central government was more than problematic. The government of Afghanistan was new, it had not gelled into a single authority and there were limits of how much control the central authority had over the country proper — entirely different than the central authority structure of Japan.

The idea of exploiting war between east and west began big time in the Jewish world with Don Issac Abravanel in the 15th century. Netanyahu's father B. Netanyahu wrote a biography of Abravanel that describes how he associated the descendants of Esau with Rome, and Rome with Christianity, and how he extrapolated the then current wars between the Catholics and the Turks to the inevitable conclusions that east and west would destroy each other leaving the Jews in charge. In Israel they teach starting very early that massive wars will lead to Jewish domination of the world ... see, for example ..

The surname Havrilko is interesting. I think it is a Ruthenian surname from Slovakia. It is interesting that they were Orthodox since only Serbs (and partly future Romanians) were Orthodox in the AU monarchy. The meaning of the name is related to another angel, Michael's friend, Gabriel. The Serbian version is Gavrilo (surname Gavrilović) e.g. Gavrilo Princip. There is one place in Serbia (Ruski Krstur) where Ruthenians settled during the AU monarchy. Some of them moved to Canada.

Arhangel Gavrilo (Angel Gabriel) is also known as White Angel. His fresco is one of the most beautiful medieval Serbian frescoes from monastery Mileseva. A picture of the White Angel of Mileseva was sent as a message in the first satellite broadcast signal from Europe to America after the Cuban Missile Crisis, as a symbol of peace and civilization.[3] Later, the same signal, containing the White Angel, was transmitted to space in an attempt to communicate with extraterrestrial life forms.[4][5]

The jewish people ARE the messiah who will reign on the world after its birth in the midst of the pains of deliverance.

Jesus Christ will be the Messiah king when he comes back to rule the remnants of Israel and the world from Jerusalem after a great time of troubles, the controversy of Zion, the time of Jacob's troubles. The remnants of Israel will be those who survive the eventual two-thirds destruction of current Israel, who will then accept Jesus Christ as their saviour and Messiah. Zechariah 12:9-10, Zech 13:7-9; Zech 14:1-4; Isaiah 2:1-4; Luke 1:32; Revelation 20:4-6; Romans 11.

Unfortunately it appears that there will be nuclear war at this time of troubles. Zech 14:12.

Jesus is the seed of David promised to rule Israel in future on this earth – the covenant with David 2 Samuel 7:12-17. Psalm 110; The 1st verse of this Psalm is quoted 26 times in the New Testament, so it is very important in the Christian religion, though most Christians are ignorant concerning it.

Virtually all of these quotes come out of the Israelites' own Torah, prophets and psalms.

Actually, the US was absolutely responsible for the Iranian Revolution. Only a dummy would argue otherwise. US support for its puppet Shah, Pahlavi, allowed him to gain power in the first place over the duly elected Mossadeq, and then ruthlessly repress any political opposition for 25 years. Pahlavi doesn't rule over his people with an iron fist for a quarter century without the generous oil revenues flowing into state coffers that came from an understanding between Tehran and Washington that Iran was to look after America and American interests first, and that there would be no nationalization of Iranian oil. Pahlavi and SAVAK get to do the things they want partially/mostly because of US support. The fact you ignore this reveals you to be either ignorant, a chauvinistic fool, or someone who is being deceitful about US actions in Iran. As well, the Shah (under pressure from the Americans) passed into law a measure that gave US military personnel immunity from Iranian courts. I am not aware of any sexual assaults by US personnel during this period – I am sure there were more than a few – but allowing American military personnel to act without fear of falling under the jurisdiction of Iranian courts was clearly a red flag to the public in Iran that there were one set of laws for American occupiers, and one set of laws for them. The fact you completely gloss over this stuff reveals you to be a hack or worse. You're dishonest, man. Stop with the BS.

Jewish Power was behind Gulf War, 9/11, Iraq War, Libya Destruction, Syria Catastrophe, Ukraine coup, Ukraine War, and now this.

Second day of attacks on Iran—now with tacit confirmation that they were by the Israelis.

I think that, now that he's in power, Netanyahu has decided to settle the Iranian Question once and for all.

Without question: Israel vs. Iran is the second front of this Third World War.

If WWIII breaks out, it will be because of Jewish ethnocentrism and master-racism, BUT no one, not even Russia, talks about Jewish Power.

We talk of the US, EU, NATO, China, Russia, Iran, Brazil, Venezuela, Japan, Canada, the Anglos, the 'nazis' and blah blah, but NOTHING about Jewish Power. Jewish Power is such that, even as it demands everyone remember the Holy-Caust, it brazenly makes common cause with neo-aryanite sub-nazis in Ukraine.

In this case, SILENCE IS TRULY VIOLENCE. The Silence of the shams.

Want to prevent WWIII? Name the Jewish Power and shame the Anglo-cuck brown-nosers whose higher priority is approval from Jews.

@mulga mumblebrain

Once these organise themselves into religions like the Abrahamic monotheisms, where hatred of others and narcissistic delusions of universal superiority and a delight in killing the Other, become Holy Writ, communicated direct from ‘God’ ie the twisted psyches of certain schizoid types, and ideologies like capitalism, where metastatic growth and the destruction of all creation in turning it into money or ‘wealth’ is the ultimate ambition, the End is foreordained.

You are too pessimistic, Mulga. True christianity is pacifist. Jesus told Peter to put up his sword, as **“those who live by the sword shall perish by the sword”**.

Jesus himself went to his death in accordance with his own teaching : **“Fear not those who are able to destroy the body, but fear those who are able to destroy soul and body in hell”**.

The early Christians were pacifist and perished in the Roman arenas without any resistance, because they refused to worship the Emperor as a god. Paul, all the apostles except John, and thousands of other christians suffered martyrs deaths, never teaching that evil should be resisted with violence. It was said that “the blood of martyrs is the seed of the church”.

Around the time of Constantine, the church became corrupted and many christians involved themselves in warfare and politics. The book of Revelation symbolised this as a beast that **“looked like a lamb but spoke like a dragon”**. Most of Christianity-Churchianity has been like this ever since, but there have always been exceptions in non-conformist groups.

The seven or so Ecumenical Councils of the Church imposed many errors on the conforming, traditional majority.

My comment 213 outlines the scriptural foundation of a great hope for the future.

“But that win was soley against S. Vietnam.”

The U.S. mission was to save S. Vietnam. It failed to do so.
Meaning, it lost the war and N. Vietnam won the war.

“The goal was to turn the matter over to the people of
Afghanistan”

That is not a war goal. The goal of war is to achieve total combat
victory over an enemy state. You don’t “turn the matter over” to
the civilian population prior to that. Meaning, we engaged, lost,
and blamed the man in the street, then ran away after the
military contractors got all the benefits they could get out of the
U.S. presence there.

“Actually, the US was absolutely responsible for the Iranian Revolution. Only a dummy would argue otherwise. US support for its puppet Shah, Pahlavi, allowed him to gain power in the first place over the duly elected Mossadeq, and then ruthlessly repress any political opposition for 25 years. ”

The battle between the the royal families, the wealthy class and various religious and other entities has been a constant since the the 1920's or before. Odd that you reference the royal family without referencing the history. but then, when one has an agenda such as that of the advocates for the Russian invasion, the only history that matters is one that bolsters your point of view. On the matter of the revolution, the case is pretty clear, the military and the wealthy class structure in their bout for leadership planned a coupe. That Great Britain and the US supported the same. They provides supplies, and money. But the actual game plan and work was done by Iranians — it was an inside job. And the CIA after action report makes it clear, that when the US opted to stand down, the Iranian military's was undeterred and proceeded. And while the US station chief went forward, minus Washington's support what support he provided had little to no impact on the actual plan. Iranians did the heavy lifting and further in the after action report, the Iranians involved in the effort scoffed at US suggestions that they were in any way instrumental.

Mossedq's response to communists in Iran was certainly over the top. But more damaging to the government were the sanctions paced on Iran by western powers. When basic foods and goods were longer available, including basic medicines etc. The population shifted any allegiance they had against the Shah. In response the Shah's military only became more oppressive.

There was absolutely nothing the US could do – the Iranian government made no concessions until it was too late. And if you actually listen to the US embassy staff, they will tell you, they simply were naïve at how brutal matters had become (there’s a shock – naïve US personnel– not at all.).

And what the Iranian students did not know and should have had they done their homework, is that the religious leadership they pined for made the Shah’s repression look like day in the park.

We have a lousy record of regime change, the idea that a bunch of US citizens could run around the country of Iran orchestrating events is pretty dubious on its face.

As for US immunity from prosecution . . . here ya go

<https://www.law.cornell.edu/cfr/text/32/719.112>

<https://www.state.gov/privileges-and-immunities/>

“The events surrounding what became known as the Status of Forces bill (1964) — the U.S. just signed a similar agreement with Iraq, SOFA — also proved controversial. These SOFA agreements the U.S. has with many countries where it stations troops are intended to protect American troops or military advisors in other countries from the “terrible” local courts. It in effect extends diplomatic immunity to military personnel serving in a foreign country. In 1964, the U.S. pressured a reluctant shah and a very reluctant parliament and reluctant government cabinet to sign a SOFA to cover American military personnel in Iran.”

<https://www.fpri.org/article/2009/09/the-u-s-and-iran-in-historical-perspective/>

Oyveh . . . The SOFA in existence since 1951 is not unique to Iran. The US has SOFA agreements with nearly every country in which US forces operate.

<https://www.state.gov/subjects/status-of-forces-agreement/page/5/>

https://www.army.mil/article/227245/status_of_forces_agreement_what_is_it_and_who_is_eligible

“Example of Exclusive Jurisdiction

The United States entered into an agreement regarding military exchanges and visits with the Government of Mongolia.²² As part of the agreement, Article X addresses criminal jurisdiction of U.S. personnel located in Mongolia. The language of the agreement provides, “United States military authorities shall have the right to exercise within Mongolia all criminal and disciplinary jurisdiction over United States [p]ersonnel conferred on them by the military laws of the United States. Any criminal offenses against the laws of Mongolia committed by a member of the U.S. forces shall be referred to appropriate United States authorities for investigation and disposition.”²³ The agreement allows the Government of Mongolia to request the United States to waive its jurisdiction in cases of alleged criminal behavior unrelated to official duty.²⁴ There is no requirement for the United States to waive jurisdiction, only to give “sympathetic consideration” of any such request.²⁵”

<https://sgp.fas.org/crs/natsec/RL34531.pdf>

“An upsurge of opposition to the government and anti-Americanism came in October 1964, however, when the Iranian Parliament, the Majlis, passed a status of forces bill granting U.S. military personnel stationed in Iran and their dependents full diplomatic immunity, as the United States had been requesting since March 1962. When it voted less than two weeks later to accept a \$200 million credit from U.S. commercial banks for purchase of U.S. military equipment, critics claimed that passage of the status bill had been the price exacted by the United States for the credits. (52, 54–55)

On November 3 dissident religious leader Ayatollah Khomeini, whose attacks on the status bill had included calling for the overthrow of the Iranian Government, was arrested and exiled to Turkey. (56, 58) Department of State analysts warned in January 1965 that Khomeini’s views were symptomatic of widespread popular opposition to Government policies, recently extended to open criticism of American policy in Iran, and that this new attitude posed a threat to U.S. interests in Iran and made the U.S. task there far more difficult. (64) Department officials disagreed, however, as to the extent of popular discontent in Iran. (66–67)”

<https://history.state.gov/historicaldocuments/frus1964-68v22/summary#:~:text=An%20upsurge%20of%20opposition%20to%20the%20government%20and,United%20States%20had%20been%20requesting%20since%20March%201962.>

Absolutely nonunique.

And while I have entertained the side issue, what remains is that the US did not singularly or even to any major impact orchestrate the Iranian Revolution of 1953. One may challenge the ethics of the revolution itself, but it was going to happen with or without US support.
