[SEMPER DIVERSITY od Jareda Taylora z americké renesance](#)

[Odkaz na video](#)

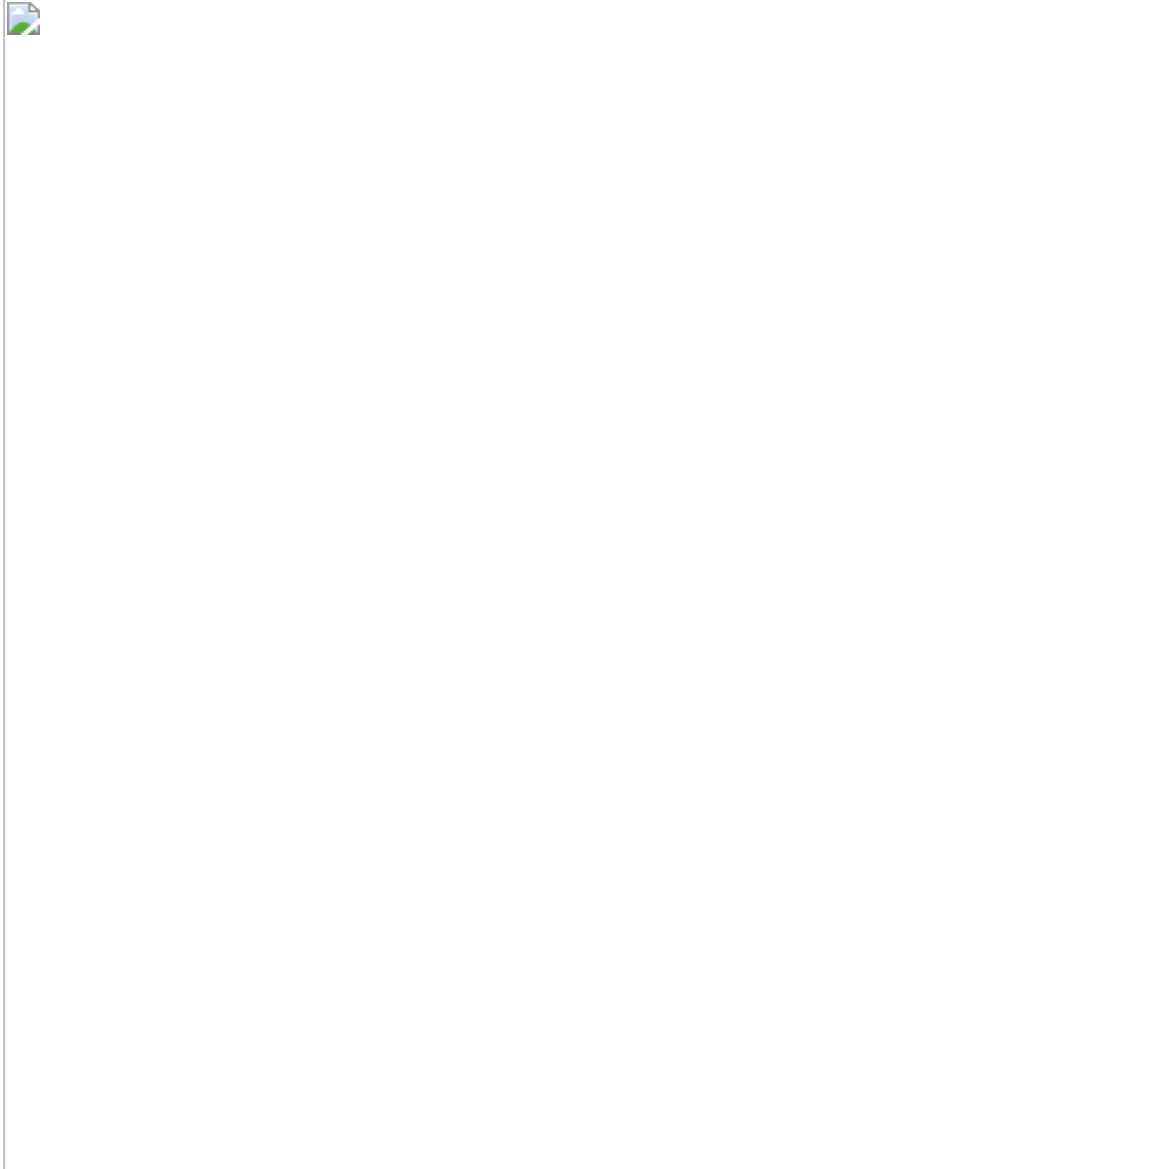

Americká renesance udělala důležitou práci, ale nakonec je nepoužitelná k tomu, aby vytáhla své pěsti nebo záměrně postrádala to, co by mělo být hlavním cílem diskuse: židovskou nadřazenou moc. Vezměte si komentář Jareda Taylora k americké armádě ve videu níže. Je to čistý Pat-Condell. Obviňuje všechno a všechny, ale neodvažuje se pojmenovat sílu za tím nepořádkem. Psst o Sionu. Proč by v tomto bodě měl Taylor naříkat, že mexicko-američtí vojáci hrdě vyvěšují mexickou vlajku? Proč ne, když americká vlajka v zahraničí nepředstavuje nic jiného než „twerking“, židovskou nadřazenost, války za Izrael, bezduché nepřátelství vůči Rusku, směšnou paranoiu vůči Číně, nepřetržitou nenávist vůči Íránu, úplné

nesmysly o Venezuele, hloupost BLM a globální šíření globo -homo směšnost? Amerikanismus měl něco společného, když Anglo-Američané (a ti správně angloamerikanizovaní) vládli národu s mírou důstojnosti, hrdosti a sebevědomí (stejně jako pokory). Tehdy představoval amerikanismus Velký kompromis: Posun směrem k přístupu více založenému na zásluhách a pravidlech ze strany Angloameričanů, kteří vzali půdu Indiánům, přivedli černochoy v řetězech a povzbudili masovou imigraci k rozvoji přistát. Na oplátku, neanglosi uznali základní anglický základ Ameriky a snažili se být dobrými Američany. Velký kompromis je nyní irelevantní, protože USA se staly veskrze židovskou nadřazeností, což znamená, že nový amerikanismus je založen na téměř všem a všem, na čem záleží, a točí se kolem otázky „Je to skvělé pro Židy? nebo "Budou Židé usmířeni?" Pokud to Židé chtějí, dostanou to... nakonec. Není divu, že první a druhý dodatek nyní visí na vlásku. Židovská moc nemá pro ústavu nyní žádný užitek, když mají úplnou moc.

Pořádný díl viny musí padnout na Taylorův vlastní (anti)kmen, Vosy, tedy alespoň elity mezi nimi. Předali klíč moci Židům a nechali všechny napospas Sionu. To byl začátek hniloby, v neposlední řadě proto, že Vosí elity nedokázaly sehrát nepřátelskou roli proti Novému Bossovi ve městě (jako kdysi Židé proti Vosí vládnoucí třídě); rozhodli se spolupracovat se Sionem výměnou za to, že jim bylo dovoleno ponechat si své pozice a privilegia, a přitom se otočili zády k bílým masám, které měly být zpočátku považovány za pouhé jednotlivce, ale později byly kolektivně seskupeny jako jedinečně vinní lidé, jejichž každý majetek — identita, historie, dědictví, kultura, majetek, úspěchy — měly být zpochybněny a vždy odsouzeny kvůli tomu, že černoši dosáhli relativně méně.

Židé byli předvojem Nové Ameriky a vosy s nimi hrály. Pokud jsou Vosy pro Židy takovými bezpáteřními cvoky, proč by mělo být překvapivé, že nebílí ztratili veškerý respekt k bílým? Kdo si váží hnědonosých? Nyní, vzhledem k tomu, že většina nebílých je spíše zmatena formulí „amerikanismus = židovská velikost“, Židé podpořili další nejlepší věc, která se rovná protibělosti nebo „obětnímu

bělochovi“ (obětní beránek za všechno), protože to spojuje nebílí s Židy ve válce o bělost. War on Whiteness neboli WOW je pro Židy nejužitečnější, protože morálně zahanbuje a paralyzuje bělochy do nedostatku hrdosti a prestiže, vůle a svobody jednání. Zatížení hanbou, pocitem viny a sebedohrdáním, běloši zoufale touží po vykoupení, o jehož podmínkách rozhodují Židé, jejichž recept je Naprostá podpora Sionu, Více válek pro Izrael, Více rozmanitosti, Zdrojem problému jsou židovsko-bílé vztahy. Když elity WASP kapitulovaly před Židy, kmen musel učinit klíčová rozhodnutí, která byla založena na čemkoli, co bylo nutné k zajištění židovské moci. Prioritou #1 Židů není nikdo jiný než bílý submisivismus vůči židovskému rasismu. Pokud Taylor odmítne diskutovat o židovské moci, neliší se to od zjištění kouře, ale nevidět oheň. Má smysl, aby běloši nadávali na černé, hnědé, žluté atd., když sami běloši šli v čele a vytvořili šablonu pro zbabělou spolupráci s židovskou mocí? Dokonce i běloši, kteří se děsí zhnědnutí Ameriky, jsou na Sionu častěji šampióny hnědého nosu. Bílé elity (a dokonce i běloši obecně) nestojí za to, co je dobré pro Ameriku jako celek. Vysávají židovskou moc a ctí židovskou identitu a sionismus. Když se bílí chovají takto, proč by nebílí měli být dobrými americkými patrioty v tradiční formě? Ve zradě původního amerikanismu vedli běloši.

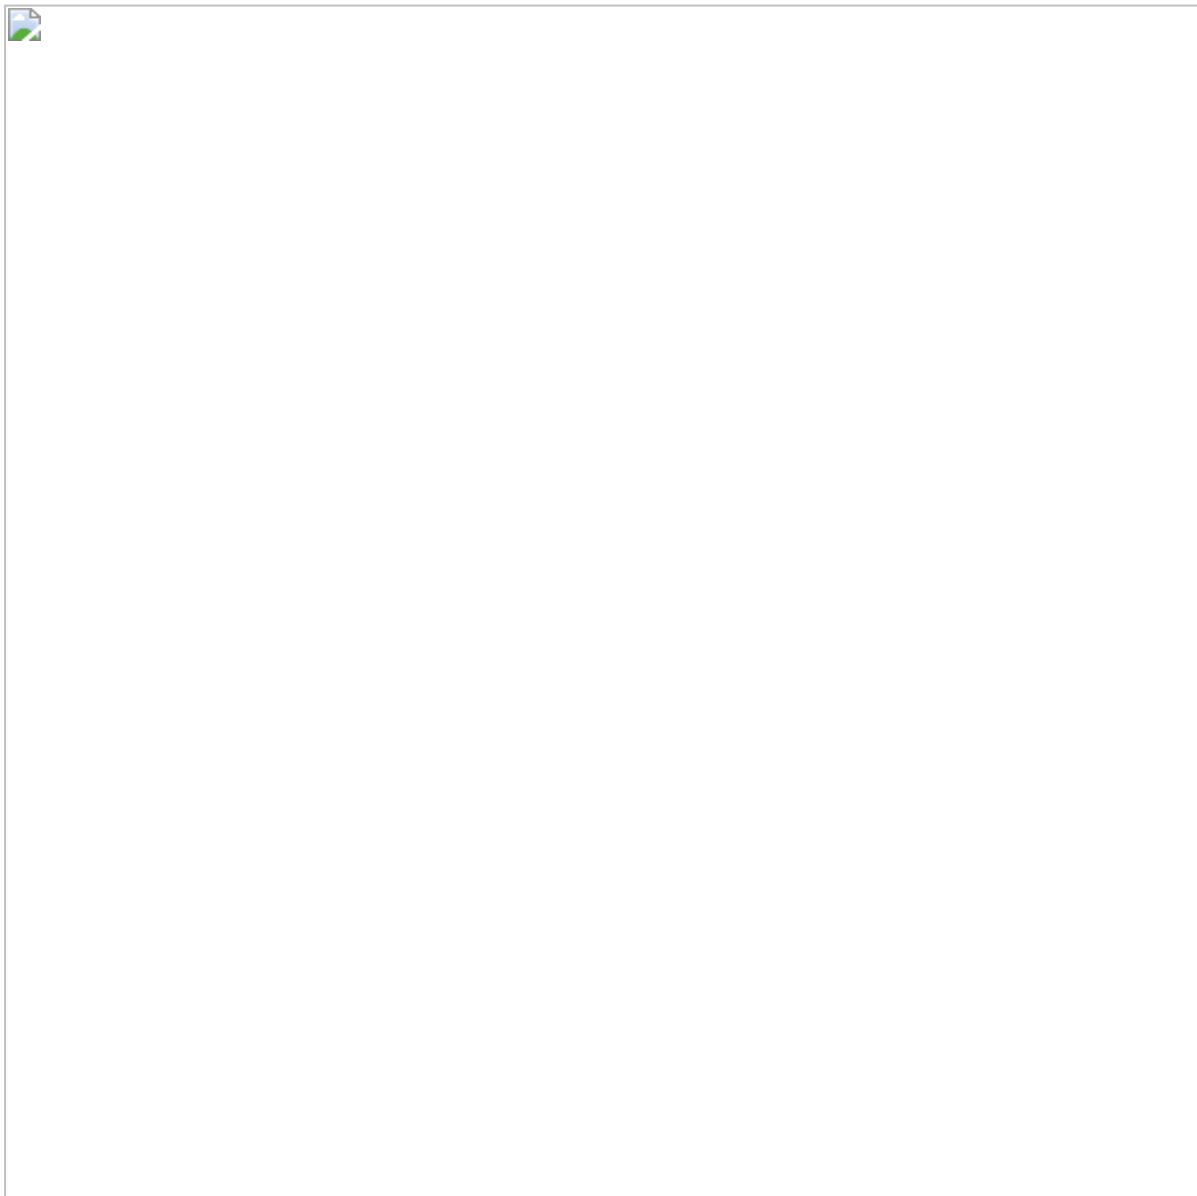

V určitých ohledech jsou nebílí, jako jsou černí černoši a Mexičané Američané mexická hrdost, obdivuhodnější, protože jsou přinejmenším kmenově patriotičtí ke svému druhu. Naproti tomu běloši zradili jak bílou sílu, tak tradiční amerikanismus. Jsou nejen alergičtí na cokoli bílého a pozitivního, ale také jim chybí americký idealismus, údajně barvoslepý druh. Bílí „liberálové“ milují znamení ctnosti tím, že upřednostňují černochoy, diverzitu a globo-homo, A bílí „konzervativci“ rádi dávají signál máváním izraelské vlajky a žvatlání o tom, jak je Izrael „nejlepší, největší, nejbližší a nejdražší spojenec.“ Obě skupiny selhávají v jednoduché matematice generického vlastenectví. Pro bílé „liberály“ jsou černoši a homosexuálové svatější než jiné skupiny a pro bílé „konzervativce“ jsou to Židé-uber-alles.

In the current order, Jews encourage nonwhites to wave their own identitarian flags AGAINST whiteness while encouraging whites to wave the Zionist flag. Some might say the Jewish strategy is foolish. If nonwhites are made to be anti-white and if whiteness is made synonymous with support-for-Israel and praise-of-Jews, wouldn't nonwhites come to conflate Jewishness with Evil Whiteness? After all, if whiteness = love-for-Jews whereas non-whiteness = anti-whiteness, nonwhites should be hating on Jews as well. As it happens, Jews bank on two factors in their strategy. They figure (1) nonwhites are too dumb to connect the dots or (2) even if nonwhites connected the dots and became more critical of Israel & Jewish Power on account of whiteness = support-for-Zion, the effect will be whites drawing even closer to Zion as white-knight-defenders against 'antisemitic' darkies. Indeed, scenario 2 is playing out with the likes of Mitt Romney and Jared Taylor, probably on the hopeful calculation that rising 'antisemitism' among the darkies will move the Jews rightward, perhaps the only chance for American Conservatism or the white race as Jewish Power has the Caesarian thumbs-up-or-down power over the West. Then, it's no wonder Jews encourage Ilhan Omar and her ilk to be anti-white while also enjoying the spectacle of white 'conservatives' beating their chests as noble defenders of Anne Franks from 'Anti-Semites'.

Very likely, Jews are using white-elites as the template for goy-elites around the world; and once the elites in other countries are similarly altered, it's only a matter of time before the masses are changed as well. Consider the spread of Christianity in Europe. The elites adopted the new faith, which then spread among the masses. On the surface, anti-white-ness seems to weaken America. When the white elites of the majority population are blamed-and-shamed into self-abasement, it does seem rather weak and pathetic. How can America exert power abroad when the majority historical population is riddled with self-doubt?

Yet, white cuckery serves as the template for elites all around the world, especially in the satellite countries. Consider its impact on Japan. For the longest time, the Japanese Way was seen as the opposite of the American and Western Way. But Japanese elites (and those of Taiwan and South Korea) take cues from white elites, and they too promote 'diversity', globo-homo, mass-immigration, and 'anti-racism', i.e. opposing the great replacement is 'xenophobic'. So, the white-weakening also serves to weaken the goy elites (and masses) of other countries, many of which still look to the White Way as the best way.

This is especially significant in East Asia, the only non-white part of the world that substantially caught up to Western standards of development. As these non-white elites come to revere the same

gods(controlled by Jews) that white elites do, they also become deracinated and fall under the sway of Jewish Power. White elites used to be gloriously race-ist in common cause with the white masses. Nowadays, white elites claim to be 'anti-racist' and look down on white masses with less 'evolved' views as 'deplorables' or 'domestic terrorists'. And such attitude has seeped into other parts of the world as well.

So, the white-weakening doesn't necessarily lead to a weaker America vis-a-vis other countries. If anything, precisely because most elites around the world ape the White Standard, they follow the White Way to their own detriment... of course to the delight of Jewish Power. If only whites were affected by PC, the West might grow weak relative to the rest of the world. But insofar as the elites of the Rest ape the elites of the West(who now cuckold Jews, celebrate homos, and idolize Negroes), White Weakness is leading the World Goyim to Collective Weakness across the globe, which is just what the Jews want:

Now, Russia, China, and Iran are relatively free of Western Power, but this is so only politically and militarily. Culturally and intellectually, many educated people there as well look to the West as the torch-bearer of 'progress', or whatever is deemed 'more evolved'. Indeed, notice how most of the children of Russian, Chinese, and Iranian immigrants in the US and Canada turn into mindless minions of PC and, worse, 'wokeness'. (Political Correctness is mostly about censoriousness, whereas Wokeness is about compulsory devotion.)

Another way that White Weakness can boost US global(as opposed to national) power follows the logic of Christian morality. Christianity was about humility and guilt, and one would think such an ethos of passivity would have led to Western Decline, and indeed, some have faulted Christianity for the Fall of Rome. But, this cult of humility filled Western Folks with spiritual-and-moral righteousness. Their

sense of sinner-guilt before God made them feel holier-than-thou, thereby spiritually justified in conquering and converting other peoples. A similar kind of logic is behind so-called 'wokeness'. On the one hand, it's true enough that 'wokery' instills white Americans with guilt, shame, and doubt about their history and heroes. Whites now cuckold before Jews, Negroes, homos, and even transies. Yet, such cuckoldry also fills wheaks and whummies with righteous indignation. They believe America and the West in general are more justified as global powers precisely because they kiss the sacred Jew's ass, wash the holy Negro's feet, and suck the tranny's magic-dong. Some of the most zealously aggressive whites are the 'woke' types who believe they're better than not only 'racist' whites but peoples around the world who aren't so evolved on 'woke' idolatry. Indeed, 'wokeness' isn't so much about mindless adulation of actual Jews, blacks, and homos(as they really are) but of their 'iconic' constructions. After all, 'woke' whites will readily insult and condemn any Jewish, homo, or black individual who refuses to flatter the fashionable virtue-vanity of the current year and who dares to pop the bubble of the more 'evolved'. And, even women with the most impeccable feminist credentials will be condemned for being 'TERFS'. Then, it's no wonder that, for all their professed commitment to 'diversity' and 'inclusion', the Western 'Woke' are so eager to pass judgment on the rest of the world.

Chinese don't wash the Negro's feet, Russians don't bend over to Holy Homo, and Iranians don't suck up to Jews, and that means all three groups are on the shitlist, along with black African Christians who rebuff wokery's globo-homo sermons. The very 'woke' whites who weep over George Floyd and get on their knees to wash the Negro feet will turn on a dime against traditional or conservative blacks who reject or mock the 'woke' agenda. 'Wokery' may be defenseless against the Great Replacement(or demographic invasion of the West by the Rest), but it is confident and aggressive in its righteous agenda of colonizing the souls of all humanity into the Tri-Idolatry(or Tridolatry) of Jews, Negroes, and homos/trannies.

No wonder then the current 'woke' US military is dropping bombs in the Middle East painted with BLM and globo-homo symbols. Negroes are especially useful to Jews because Negrolatry has become the Moral Currency of the World. If a truly global currency came into being, it would feature MLK and Mandela (and even George Floyd). America says, "We've come a long way because we now grovel to the Noble Negro", and China, Russia, & Iran conform to the narrative, i.e. "America is especially tainted for its 'racism' against the Noble Negro." China, Russia, and Iran, in using the Moral Currency printed by 'woke' America, also fall into the trap of Negrolatry. Unwittingly, they too fall under the sway of the gods controlled by Jewish Power that contends whiteness = guilt whereas Jewishness = conscience, especially as much of the world is still under the impression that the US and the West are controlled by WHITES when, in fact, they're controlled by Jews. If anything, all this white-bashing only makes whites even more guilt-ridden and submissive to aggressive Jewish Supremacists who are thus able to exert more power and influence upon the world.

There are two kind of cucking to Jewish Power: The Loud-Cucking of Conservatism Inc. that gushes about Jews as the greatest, noblest, wisest, most tragic, & most awesome people that ever lived AND the Silent-Cucking that is muted on Jewish Power as the main driver of anti-white politics. What's the point of complaining about 'wokeness' and censorship without naming the source of the problem? It's like complaining about dirty water without identifying the source of the pollution.

Pluralism is no longer a meaningful part of the American Argument. We are told the US is more diverse than ever, and while that's true of the population-at-large and the middle-management, the upper echelons of power have become more homogeneous or monomaniacal than ever: Jewish Supremacist Globalism and mindless goy cuckery at its mercy.

Long ago, Anglo-Christians were on top. Then, things got complicated after World War II, especially in the Sixties. As Anglo-Americans lost their grip, other groups grabbed bigger roles, what with Irish Kennedy becoming the first Catholic president. Back then, Jews were rising fast, but didn't hold all the levers of power, as they do today. And Catholics carried considerable weight as a political and cultural block.

And as the nation was yet to be totally homogenized by the mass media of TV(that became the centerpiece of American identity & culture in all fifty states, down to every small town), power was regionally more dispersed. With Wasps waning and with other groups/forces gaining, the second half of the 20th century may well have been the golden age of American pluralism.

But over time, Jews or BUGS(busy urban globalist semites) gained ever more at the expense of all other groups and interests. One thing for sure, Jews in the 60s understood that the youth, the boomer generation, were the key to a New America. While the power of other groups was based mainly on tradition and community — Irish or Italian patriarchy, traditional hierarchy rooted in the Old World, Catholic moralism, etc. — , Jewish power was based on winning the hearts and minds(or mindlessness) of the young whose eyes and ears were glued to TV, radio, movies, celebrity-idolatry, and etc. The end-result was Jews not only controlling the key institutions and industries(media, finance, law firms, big tech) but the gods and idols that captivated the boomer generation and those that followed.

We now have a country that is more diverse than ever in terms of demography, middle-management, and celebrity/idolatry/iconography but is also more mono-tribal-and-thematic than ever at the very top. Take the Biden administration; the so-called ‘adults in the room’ with the bulk of the most important positions held by Jews or their cuck toadies. But then, what was Obama? A street-organ-monkey for the Jews. Kamala is an even bigger whore of Zion, if such a thing is possible(and yes it is).

There was a time when feminists held something like real power. Today, Jews control all the on/off switches that decide who’s-hot-and-who’s-not in the moment. So, Jews can favor globo-homo and push blacks to the back of the bus, or vice versa. Indeed, when Jews needed to rile up the blacks again, they engineered the George Floyd riots with their control of media and deep state. In 2020, homos had to take the backseat to Negroes indulging in the Black Sack of America. When Jews needed women hissing at Trump the ‘male

chauvinist', they greenlit the Pussy March and the #MeToo movement. In other words, feminists who'd been sidelined by globo-homo and gender-bender nonsense were brought back out in force. Of course, all these had unforeseen consequences for Jews. #MeToo ended up bagging some prominent Jews, especially those in the media. It exposed the excesses of Jewish men who'd been acting 'portnoic'. And BLM riots did considerable damage to big cities where most Jews congregate. But Jews just write it off as a worthwhile gambit. Lose some but gain more in their campaign to discredit Trump's America. (Jussie Smollett is an amateur compared to what Jewish Power is capable of pulling off.) BLM and blackness took on special significance during the Trump Presidency because what Jews fear most is WGTOW or whites-going-their-own-way instead of remaining the abused mistress of Zion. Jews panicked, "What can we use to raise 'white guilt' to unprecedented levels to morally and spiritually browbeat whites into remaining on the Jewish-Supremacist plantation?"

Jewish Power figured it would have to be BLM for 2020. Homos are anti-conservative(though neo-aristocratic) and have a corrosive effect on whites(or any community), but globo-homo doesn't quite promote 'white guilt'. True, white homos are among the biggest collaborators with Jewish Supremacism, but Jews needed something more potent. What about feminism, which had been useful in setting white women against white men(as the face of 'patriarchy', a dead institution if there ever was one, and it was killed by white male individualism before feminism became a force for change)? But, all said and done, white men and white women still feel mutual attraction and form bonds. Besides, what with so many powerful white men being Jewish, something like the #MeToo movement demonstrated feminism's potential for blow back. What about The Immigrants, aka Diversity? The problem was, no matter how much the Jewish-run Media characterized Trump's border policies as akin to Nazis rounding up Jews, the great majority didn't buy the

nonsense, not least because American white of all stripes simply lack affinity for browns coming from south of the border. Americans just can't get morally and/or viscerally excited about Guatemalans at the US-Mexican border. And so, Jews figured on tuning BLM up a notch to drive 'white guilt' into a frenzy. Of course, it's all just bait-and-switch, i.e. whites made to feel guilty about past supremacist attitudes toward blacks only to be rendered subordinate to the supremacism of Jews who, via control of academia-media-state, formulate what whites must do to make amends, which invariably amounts to taking orders from hegemonic Jewish Power. It's come to whites bemoaning Jim Crow in the South & denouncing Apartheid in Old South Africa only to lend unconditional support for 'Jim Crowitz' and 'Aparschweid' in West Bank(as well as semi-holocaust of certain populations disdained by Zionists like Madeleine "it's worth it" Albright). How surreal that the very people who most vociferously denounce the 'racism' of White America go about recruiting whites to support their own tyranny, wars, and semi-genocides in the Middle East and North Africa.

A particular group favored by Jewish Power may regard itself as on the rise but it's just a delusion, like the workings of Hollywood where a certain star may believe himself or herself to be the hottest stuff in town but, in fact, can be brought down by Jewish bosses at any moment. Jews giveth, Jews taketh away. This is truer now than ever as Jewish Power is the only game in town in academia, media, big tech, finance, laws & courts, and etc. Also, as Jews control the gods, which is to say they define what is sacred-vs-profane, even non-Jews in key institutions 'worship' in accordance to paradigms established by Zion.

Most goyim simply lack the will and/or aptitude to think outside the box constructed by the Big Jewish Mind. It's as if Jewish fingers are on the spigots. The spigots determine who the bigots are. Spigotry is where the real power is, and the Jews got the spigots. When the spigots are turned on for your side, it feels like paradise, but when turned off, it's just a mirage. Jews certainly toy with blacks this way.

If some Negro badmouths whites, Jewish spigots fill him or her with water. But if he also badmouths Jews (like Kanye West did recently), the spigots are off, that is until he gets on his knees and repents before the Jewish massuh. When the spigots were on for #MeToo 'movement', the feminists thought they had history by the balls, indeed an unstoppable force. But when the Jewish spigots decided, "enough of that" and changed the flow to the Trannies, the feminists were back in the kitchen to bake more 'woke' treats from the globo-homo cookbook. The problem is less bigotry in America than Jewish spigotry that plays thumbs up or down on the Current Year Winners & Losers.

There's all this talk of the US vs China, and once again, there's a Jewish Hand in this. Jews have turned on the spigots for the China-bashers on the basis of 'Better You than Me', or 'Better Chu than Jew'. Jews figure, just as the 'Russia, Russia, Russia' hysteria has the so-called 'left' fixated on the Russian Menace than on the real Jewish tyrants in the West, the 'China, China, China' paranoia will keep the so-called 'rightists' focused on Fu Man Chu & Ming the Merciless than with the real Jewish Power behind globalism. And as most 'conservatives' are craven cowards and cucks, they go where the water is.

As the Jewish spigot is on for the China-bashers, all these craven conzos who never stood up to black thuggery, Jewish tyranny, and globo-homo degeneracy are making big tough-guy poise and noise about Bad China. (Of course, Asians in America are no better. A bunch of yellow dogs, they are stuck in the Model Minority mentality. The great irony is that their rejection of the Model Minority moniker is just another expression of MM-thinking, one that makes the least trouble for the Ruling Power in conformity to prevailing norms & dogma. As Jews have the most power and push anti-white victimology among nonwhites, yellows with their model-minority-mentality do their utmost to adhere to those PC expectations.)

In a way, China, especially 19th century China, is worthy of comparison with the current state of the US. Now, there are many more differences than similarities. China in the 19th century was the ‘Sick Man of Asia’, in some ways in worse straits than the troubled Ottoman Empire(whose last hope was German victory in World War I that failed to materialize). In contrast, the US in the 21st century is the richest and most powerful nation on Earth and will likely continue as such for the foreseeable future. The US with its land, resources, population, and talent pool(drawn from all parts of the world) can’t help but to be powerful REGARDLESS of which groups rule it. If, say, all American elites today were replaced by Hindus, the US would still be a great superpower. Of course, if the US were to

become all-black, it will quickly spiral into a Third World hell-hole with nukes, but that isn't going to happen, not least due to mass immigration.

What the US in the 21st century and China in the 19th century do have in common is the politics of demoralization or dehumanization of the majority population. China back then was ruled by the Manchu dynasty. In some ways, they were 'Chinese', but in other ways, they were rulers over the Chinese. Jews occupy a similar position in the US and the West. They are 'white' but also anti-white. The prevalent Historical Narrative makes Jews out to be the historical victims of 'antisemitic' whites, but Jews are the current rulers over whites. Jewish-American Power is said to be American Power(that represents All Americans and leads the world in 'democracy and rules-based order'), and anyone notices incongruities between Jewish Interests and American Interests is denounced as both a rabid 'Anti-Semite' and a virulent 'Anti-American' — apparently, the business of Jews is the business of America, i.e. for some mysterious cosmic fate, what is 'good' for America always coincides with what is great for Zion.

Now, when it comes to White America, Jews are usually insulting, derogatory, and hostile.

Jews even go so far as to suggest that White America was never the Real America because it betrayed its true destiny(at least according to modern-day Jewish prophecy). Jews argue that America should have been founded on justice, freedom, and equality, but whites really practiced 'white supremacism', and therefore, Historical America failed the Real America, which is only now coalescing into being under Jewish auspices. And yet, it's all BS because Jews pressure all Americans, especially whites, into supporting Jewish Power Uber Alles — just ask the Palestinians! — and ruthlessly enforce a hierarchy of who's-hot-and-who's-not that isn't all that different in spirit from the List by the KKK Guy on the Howard Stern Show.

Besides, isn't it odd that American Indians are mostly left out of the Moral Narrative. Jews lament the evil white 'racism' and 'antisemitism' for not having allowed More Immigration but say close to nothing about what mass immigration ravaged the indigenous populations (and later to Palestinians in the Holy Land). Also, on the occasion when Jews do address the Indigenous Issue, it's only a game of Blame Whitey, whereby Jews, blacks, and all nonwhite immigrants are exempt from judgment. Thus, whites are accused of two contradictory crimes: Invading the Indigenous Folks and Not Sufficiently Inviting the Jews & Non-White Folks. But, if mass invasion from the Old World led to the eradication of the American Indians, wouldn't Jews and nonwhites (such as Chinese who built railroads and Japanese who worked on farms in California) also be complicit in the Great White Crime of destroying the Indigenous Folks? Didn't Jewish merchants sell guns & ammo (and blue jeans) to cowboys? But no, Jewish Logic doesn't work that way. Rather, it says Whiteness is intrinsically evil, so whitey alone must atone for wiping out the indigenous tribes but then also having put restrictions on immigrant hordes. So, even though Jews and nonwhites rode on the coattails of white conquest and settlement of

North America, they pow-wow with indigenous American Indians as ‘fellow victims’ of whitey while, at the same time, demanding more mass-immigration that will only further marginalize indigenous communities. It may be nutty as moral logic but makes strategic sense as Jewish supremacism depends on white submission, which means anything that fuels ‘white guilt’ and paralyzes white pride is good for Jewish Master Racism.

What Jews are doing to whites, the Manchu rulers once did to the Chinese. Just like Jews claim to be American-like-everyone-else and part of Western Civilization, Manchus played up their credentials as rightful rulers of China and upholders of Mandarin tradition and cultural prestige. Yet, they were also insistent on the differences between the Manchus and the rest. Manchus were conquerors, victors, & overlords, whereas the Chinese, as the subject folks, had to know their place and obey. Thus, it was more a case of the Chinese upholding Manchu glory than Manchus serving China.

Likewise, Jews insist on an America(and West in general) where whites support and serve Jewish Power than the other way around. As the Chinese outnumbered the Manchus many times over, the Chinese had to be reminded of the iron hierarchy lest they summon up the collective will to throw off the Manchu yoke. Indeed, the real progenitors of China as the ‘Sick Man of Asia’ were none other than the Manchus, a semi-barbarian people who, with the aid of Mongol archers, conquered a China fallen into discord and decay. China had history, tradition, culture, and lots of people but, in its state of disarray, was ripe for picking.

We now have white-adjacent, white-presenting, and spicy white who are also hyper-white. If the woke need so many amendments to fortify their grand theory of everything, maybe the theory is crap.

He was White-presenting, sis. This country and reaction of police is based on skin-color assumptions. No need to apologize.

In contrast, the Manchus had martial spirit and will-to-power, that is until they also succumbed to Chinese Imperial complacency, rendering them vulnerable when the Europeans arrived with gunboat diplomacy.

At any rate, in order to keep the far more numerous Chinese in line, the Manchus resorted to the politics of humiliation, of which one manifestation was the requirement (backed by threat of execution) for all Chinese men to grow and wear queues as a sign of subordination to Manchu authority. Any Chinese male who cut off his pigtail risked losing his head as well. Over time, wearing queues became 'traditional' among Chinese men, almost a matter of pride by way of normalized humiliation. It was as if the Chinese were born to serve the more virile and martial Manchus who came to claim the Mandate of Heaven, or the control of the gods.

The US today is about Jews and Queues. Of course, whites wear figurative 'queues' than literal ones. Jews have the power of the Manchus or 'Manjews', and whites, at a moment's notice, must demonstrate absolute loyalty to Jewish Power. When white cuck politicians(as well as nonwhite ones) make pilgrimages to Israel, don yarmulkes on their goy-kop heads, and face the Wailing Wall(and slip pieces of paper into the crevices with messages like "I suck Jewish cock" and "I love to take it up the ass from Jews"), it's hardly different from Chinese men of yesteryear wearing queues and bowing before the procession of Manchu warriors on horseback.

Jews and Manchus are similar in their ambiguous duality in regard to the larger populations, much like Macedonians over the Greek World(and beyond). Jews are, at once, Americans-like-any-other and the Rulers of America whom the lesser goy-Americans must prostrate to. They are both 'white' and nonwhite(or victims of whites). They are admired as victors and adored as victims.

Likewise, Manchus were both fellow 'Chinese' and the conquerors & tyrants over the Chinese. They were both the defenders of Chinese prestige & glory and the suppressors of Chinese national will, not least when the Chinese began clamoring against ever increasing Western encroachment. Faced with the Western Threat, the Manchu ruling dynasty walked the fine line of both leading the Chinese resistance to the 'foreign devils' AND collaborating with the foreigners to keep the Chinese people in their place.

In a similar vein, the Jewish Rulers of America at once inflame American 'patriotism' against foreign powers (especially Russia, China, & Iran, though countries like Venezuela also make the list on occasion) AND work with other nations & globalist elements to undermine American sovereignty (and that of about every European

nation caught in the web of US lone-superpower hegemony). Jews constantly beat the war drums. “Russia! Russia! Putin as New Hitler is assaulting US democracy!” Jews made a big deal of the War on Terror. “The Muslims attacked the US on 9/11 and good patriotic Americans must fight these Wars for Israel!” Yes, get Chuck Norris on the line to go over to the Middle East and kick some butt. But, these very Jews who appeal to American ‘patriotism’ to invade and destroy other nations then go about championing the many millions displaced by these wars and steer them to the West to become ‘New Europeans’ or ‘American citizens’ to chip away at white power in the West. Jews hoodwink white patriots into fighting Wars for Israel(branded as War on Terror), and then pal around with Muslim refugees as comrade-in-arms against ‘white supremacism’(or ‘domestic terrorism’). Jews have also worked with the Chinese to further the globalist agenda, the main beneficiaries of which are urban professionals, financial wizards, and big tech oligarchs. The Western 1%, among whom Jews are prominent, has raked in most of the rewards of globalism. Yet, lest the goyim in the West wake up to what’s really going on, the very Jews who work closely with China(and India) also encourage anti-China-bashing so that all the ills of globalism will be blamed on everyone and everything but the Jews.

One thing for sure, globalism has pushed many whites to the breaking point, not least because the Internet has allowed for dissemination of ideas previously suppressed by Jewish monopolization of the media. As information flows more freely across the internet, anti-globalist voices have been heard, and Donald Trump picked up those very signals in his 2016 presidential run. Initially, Jews welcomed the internet as a tool for weakening goy nationalism in favor of trans-national communities online. Indeed, consider how the internet has eroded a sense of uniqueness and insularity even in a nation like Japan.

Yet, the internet, as the great equalizer(at least before the rise of censorious monopolies), has also made people more aware and anxious of the rapid changes afoot. And, more people than ever have

come across the JQ. For Jewish Globalists, internet traffic must be policed by Jews and Jewish-engineered algorithms and A.I.(more artificial indoctrination than artificial intelligence). It explains the Jewish neo-definition of 'free speech'. You're FREE to agree with Jews and chant the approved mantras. But, if you dare go against the Jewish sacraments, you are practicing 'hate speech', not free speech. You are a 'hater' whose views are 'unacceptable'. You must be denied financial services. You might as well be labeled a 'terrorist'. So, 'free speech' means you are 'free' to suck up to Jews, and 'free-flow-of-information' means you can freely exchange ideas and views approved by Jews. If not, you end up like so many MAGA types on Facebook and Twitter. If Jewish Power could ban the President of the US, it means your freedom is kaput in the Jewish Supremacist or 'Manjewrian' World.

Anonymous NYT junior staffer lays down prime directive of all US media at meeting with Dean Baquet in 2019

Staffer: Hello, I have another question about racism. I'm wondering to what extent you think that the fact of racism and white supremacy being sort of the foundation of this country should play into our reporting. Just because it feels to me like it should be a starting point, you know? Like these conversations about what is racist, what isn't racist. I just feel like racism is in everything. It should be considered in our science reporting, in our culture reporting, in our national reporting. And so, to me, it's less about the individual instances of racism, and sort of how we're thinking about racism and white supremacy as the foundation of all of the systems in the country. And I think particularly as we are launching a 1619 Project, I feel like that's going to open us up to even more criticism from people who are like, "OK, well you're saying this, and you're producing this big project about this. But are you guys actually considering this in your daily reporting?"

The 'Manchurian Candidate' invokes fears of prominent figures in America serving a malevolent foreign power, especially unwittingly. It goes far beyond the notion of 'useful idiots', always a dime-a-dozen. It plays on the paranoia that figures in key positions could have been 'manufactured' or 'constructed' abroad at the

subconscious level. As such, they don't know that they are tools. In **THE MANCHURIAN CANDIDATE**, a patriotic war hero has been programmed to follow through on any instruction given under hypnosis triggered by a game of Solitaire. As such, he is anti-American only under the spell and only for specific operations, like carrying out assassinations. He and his comrades, who'd also been 'brainwashed', do NOT consciously work against America. The manipulation is far subtler, thereby more profound, in Chris Nolan's **INCEPTION**. There, the son of a late mega-industrialist has been subconsciously subverted to believe that his conscious decisions are his own.

The current psycho-political reality is closer to **INCEPTION** than to **THE MANCHURIAN CANDIDATE**. After all, it's not as if most US politicians and goy elites are patriotic good Americans **MOST OF THE TIME** and act against their own nation/people only under the spell. No, they are traitors 24/7. They betray their own race during waking hours and probably in their dreams as well, in which they probably cuck even harder to almighty Jews.

But why? It's because their minds have been subverted by the academia, media, entertainment, and idolatry-iconography

controlled by Jews. Jewish control has penetrated so deeply into their psyches that they can no longer differentiate manipulation from agency. They truly believe that what they think and do is good and the product of their own rationality and free will. It's like Justin Trudeau is a pathetic cuckoo-wuck dork-maggot of Jewish Globalists but truly believes that he's a good guy championing genuine 'Canadian Values' such as Diversity, Jew-worship, Negro-worship, and Globo-Homo.

Granted, much of Jewish manipulation is far from subtle, but something so pervasive becomes persuasive by volume alone. It's like even non-Christians get into the 'spirit of Christmas' in a world where most people are Christians. Jews are, of course, of two minds about Christmas. It is a cash cow, too good to ignore or let go. But, it's also the one celebration shared by all Western and European folks, i.e. the French, British, Germans, Russians, Americans, Canadians, and etc. have different national holidays but are all united in observing Christmas, which excludes Jews except as merchants(though Jews are hard-at-work in associating Christmas with globo-homo, and it won't be long before 'gay rainbow' colors will festoon and light up the holiday season).

The current Jewish Power configuration is the most perverse thing in the world, maybe in all of history. Has there been anything quite like it? The most powerful power in the world controlling the US as the Lone Superpower but hidden from view(or hidden in plain sight?), but few dare mention it. Just like euphemisms such as ‘teens’ and ‘youths’ for blacks, people prefer to talk of ‘leftists’, ‘globalists’, ‘communists’, ‘Soros’ & gang, ‘oligarchs’, and etc. than speak of Jewish Power. On occasion, some may call out on Zionists, but few dare to name the World Jewry or the Empire of Judea.

Granted, Jews pull this off in the West because they’ve sufficiently blended with the European race to pass as ‘white’. Whiteness is both a target for Jews to destroy and a protective armor. Take Jews and South Africa. Jews control the diamond mines, the banks, and much else, BUT they can always claim to be white than Jewish, giving the false impression that South Africa is run by ‘white privilege’. ‘Jews-as-whites’ also means white goyim tend to see them as Fellow Whites or Special Whites. It’s a win-win for Jews. The White Right honors Jews as ‘fellow whites’ while the White Left and blacks blame white wealth/privilege for all the Jewish abuses.

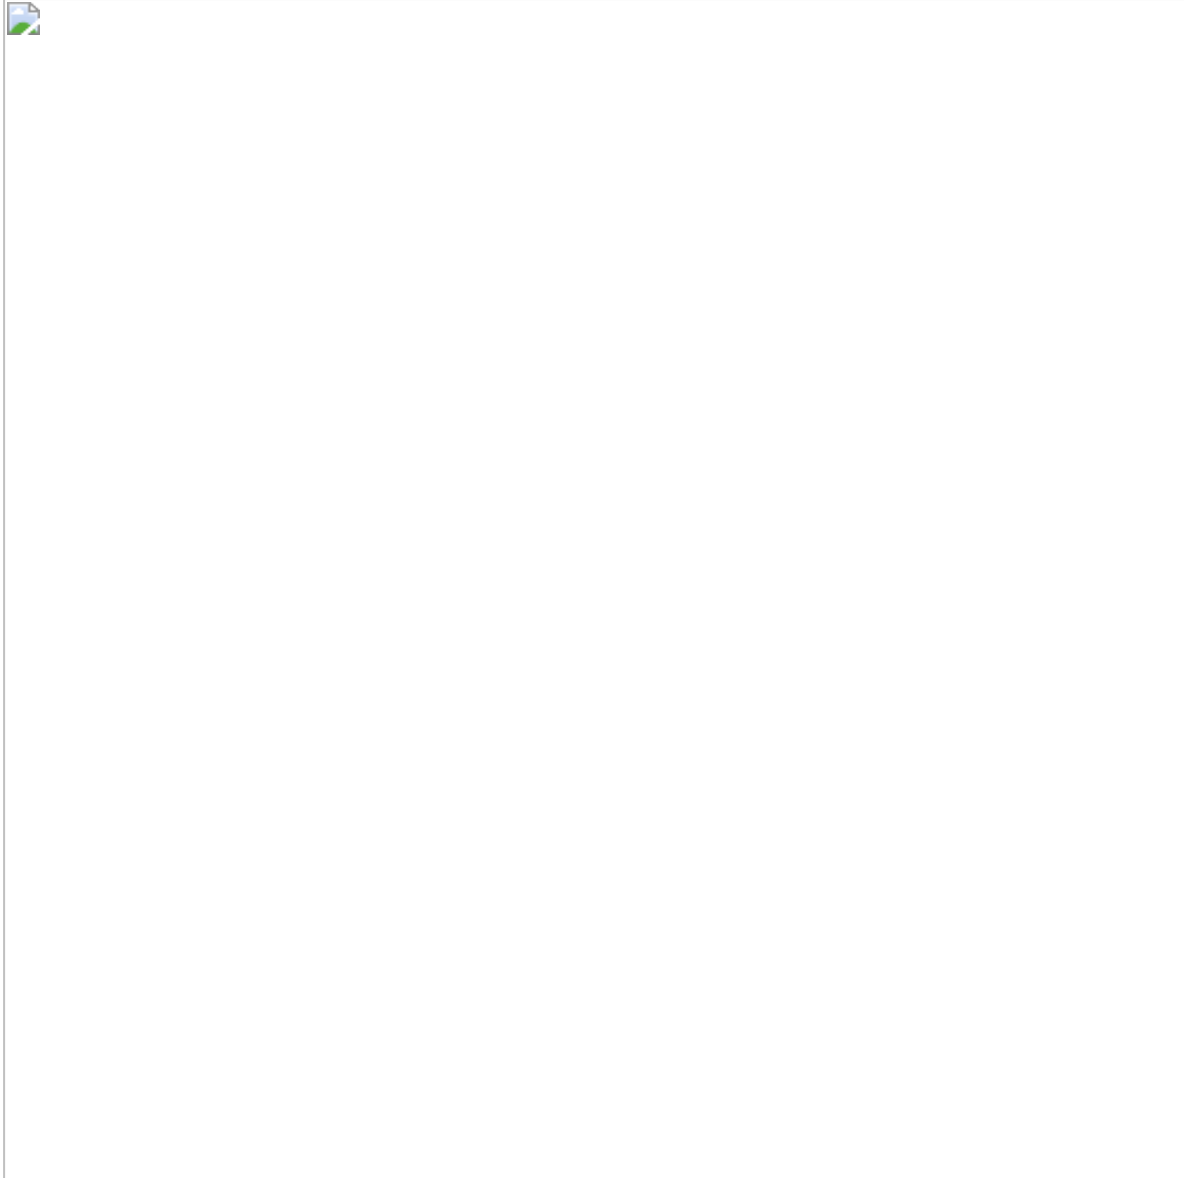

It’s hardly different in the US, e.g. the #HollywoodSoWhite(instead of #HollywoodSoJewish) campaign. Jewish Privilege wears a white mask. Even as Jews bash whiteness, it has great value to them. It serves as a scapegoat for all the bad things Jews do, all of which can be blamed on ‘whiteness’. White conzos eye Jews favorably as Fellow Whites, whereas white libby-dibs & nonwhites see ‘white privilege’ wherever Jewish Power dominates. Thus, Jews win with both sides with ‘whiteness’ that can be seen as a blessing or curse. Jews get ‘zeligish’ with whiteness.

One reason Jewish Power goes unnoticed owes to its viral nature. If the Manchu conquest of China was violent, Jewish infiltration of America was virulent. Manchus conquered the entire land and people; Jews penetrated and gained control of the goy elites who then colluded with the usurpers against their own kind on condition

that they would keep their wealth & privilege (and win more prizes) as second-fiddle to the Fiddler on the Ivory Tower. When someone beats you up and forces his will, you know you've been beaten or 'owned'. Whether man or beast, it's visible and obvious when you're beaten. But germs go unnoticed when they enter the body, and Jewish power strategy has been 'viral'.

Jewish attempts to gain supremacy over goyim didn't begin in America, but the themes of American Pride and Holocaust Guilt did wonders for Jews. In the past, when Jewish bankers gained influence via financial machinations, the goy elites eventually tired of them, called them out as 'blood-suckers', and tossed them to the goy mobs who reviled them as 'Christ-Killers'. But the Holocaust Guilt made 'antisemitism' an unforgivable 'sin' and ultimately even a crime. Thus, it became ever more difficult to call out bad Jewish behavior as ANY aspersion about Jews, however justified, came to be denounced as 'antisemitic'.

And, Jews especially gained from America's self-perception as the land of the free, equal opportunity, and meritocracy. American Ethos set itself against the Old World deemed oppressive, discriminatory, and tyrannical. In contrast, it was said ANYONE could make it in America with hard work and respect for the law. Jews flattered the Anglo-American elites for having created such a wonderful system, and Wasps fell for the flattery even though the ultimate Jewish design was to topple the Wasps. Jewish idealization of America was a set-up to deconstruct it by way of exposing the betrayals of the ideals. Of course, just like white cells at the microscopic level notice the germs entering the system undetectable to the human eye, the white goy elites with their keen political senses did notice the Jewish intrusions into elite institutions. Jews were gaining at such a rapid pace that quotas were implemented in prestigious universities and Wall Street firms. The white elites could see up close what was happening as they were within the sanctums of power and privilege.

But, in the end, they didn't band with the white masses or folks against Jewish power but formed a partnership with the ascendant Jews as Fellow White Elites in the hope that Jews would reciprocate in kind and treat them nice as equal partners-in-crime. But over time, Jews insisted that white elites serve as the Bitch of Jewish Power. Just like a white inmate takes it up the ass from the stronger Negro in prison, white elites chose to bend over to Jewish power and then get on their knees with the credo, CISYD, or "Can I suck your dick?" In that light, the Jewish promotion of globo-homo is most apt. Jewish elites bugger white elites who, in turn, f*** White America in the ass. One glance at the cucky-wuck likes of Mitt Romney and Lindsey Graham, and it's so pathetic and shameful.

Anyway, that's how the US in the 21st century is like China of the 19th century. That said, it's worth remembering that the Chinese finally began to gain consciousness, cut off their queues, and stand up in the world. Then, isn't it about time White Americans cut off their mental queues and call for White Liberation, especially from satanic Jewish supremacist power? Under the existing system, all white goy males must keep their mental pigtailed tails of 'white shame' and 'white guilt'. Sadly, many whites carry this shame with 'pride', much like the Chinese under the Manchus became accustomed to the New Normal of servitude. Stuck on the mental plantation of Jewish Power, they've been conditioned to believe that whites are especially guilty and must atone for their 'historical sins', especially in relation to Jews & blacks and by waving the 'gay' flag at every opportune moment. It is akin to a dog's 'pride' in serving its master. Will the white race finally break the spell and stand up before it's too late? Only the future will tell.
