Floridskému guvernérovi a předpokládanému kandidátovi na prezidenta v roce 2024 Ronu DeSantisovi byl odepřen přístup na Guantánamo Bay poté, co mluvčí v jeho odkazu informoval viceadmirál Crandall, že DeSantis chce být svědkem vojenského tribunálu Rona Klaina, který je naplánován na pátek 3. února jako zástupce admirála Crandalla. řekl Real Raw News.

Mluvčí DeSantis Christina Pushaw ve středu odpoledne informovala JAG, že DeSantis dorazí na GITMO v pátek brzy ráno, aby si prohlédl tribunál, a pokud to čas dovolí, provede rutinní inspekci základny, aby se ujistil, že bezpečnostní protokoly splňují jeho očekávání. Speciální asistent JAG pro strategické plánování však žádost zamítl s tím, že GITMO v současné době nepřijímá turisty ani politiky, včetně guvernérů států.

Pohrdání údajně rozzlobilo Pushawa, protože DeSantis měl dovoleno navštívit základnu během neohlášené návštěvy loni v srpnu. DeSantis při této návštěvě prošel základnou s admirály Crandallem a Davidem Wilsonem, kteří naslouchali DeSantisovým vzpomínkám na své dny jako důstojník Navy JAG v GITMO v roce 2006. Ani viceadmirál Crandall, ani velitel základny generál Lance A. Okamura proti DeSantisově přítomnosti nic nenamítali. v době, kdy.

Poté generál David H. Berger promluvil s admirálem Crandallem a řekl, že umožnit DeSantisovi navštívit GITMO bylo jako „pustit lišku do kurníku“. Berger, který se z velké části zotavil ze zranění, která utrpěl v rukou svých únosců, dlouho vyjadřoval hmatatelnou nechuť k DeSantisovi a nejednou ho označil za sympatizanta Deep State.

Podle našeho zdroje se Berger a Crandall loni v září pohádali, když Crandall řekl, že přístup do Guantánama řídí on a jeho zaměstnanci, nikoli Camp Pendleton. "Každý máme jedinečné povinnosti," řekl Crandall, načež Berger odpověděl: "Máme symbiotický vztah, ty a já. Nesnažím se ti šlapat na prsty - jen přátelsky radí." O několik dní později Crandallovi zavolał nikdo jiný než prezident Trump, který ho vyzval, aby zakázal neoprávněným osobám vstupovat na GITMO, ale zastavil se před vydáním přímého příkazu. Trump, který tento týden nazval DeSantise globalistou RINO, varoval Crandalla, že DeSantis má pochybné oddanosti.

„Prezident Trump má zjevně pocit, že GITMO mohlo být infiltrováno. Myslím, že to sdělil admirálovi Crandallovi. Myslím, že když admirál Crandall v srpnu bavit guvernéra DeSantise, byla to zdvořilost, jeden

důstojník námořnictva druhému. DeSantis byl nespokojený, když slyšel, že mu nebude dovoleno vrátit se. Bylo ho slyšet v pozadí mumlat nevlídná slova, zatímco admirálův asistent mluvil s paní Pushawovou,“ řekl náš zdroj.

Na otázku, zda admirál Crandall mluvil s Trumpem před odmítnutím DeSantisovy žádosti, náš zdroj dodal: „Nevím. Ale on je tu teď persona non-gratis.“

Mimochodem, vojenský soud Rona Klaina začne v pátek v 10:00. Real Raw News dodá zprávu co nejrychleji.

Možná měl dobrý generál Smith dovolit DeSantisovi nahlédnout do jeho vlastního tribunálu a pak mohl provést inspekci, když ho vedli na popraviště.

To je skvělá zpráva! Jaká to úleva!

Michaeli, moc děkuji za tuto zprávu a za všechno, co děláš.

Former military officers are not allowed access to military trials that are classified. You surrender your security clearance when you exit the service. Besides, why does how GITMO operates have to be judged by DeSantis's standards. He's not in command nor in the chain of command.

The 2024 election must be fair and honest and open. We the People will save our Republic from mob rule, (Democracy) get off your ass and look up the word. We Republicans must place ballot boxes in every Church in every County in America. We will, at the end of the counting, have more votes than the Demoncrat. We will win in 2024. Gee Ron can't you just go with the ebb and flow of the tide?

And the crazyrats blackmail the SCOTUS to have the lawsuits thrown out like they did the last time in 2020.

If he came unannounced last August (which is suspect in itself), why would he need another tour??? Something else going on?

““President Trump apparently feels GITMO may have been infiltrated. I think he communicated that to Adm. Crandall. I think when Adm. Crandall entertained Gov. DeSantis in August, it was a courtesy, one Navy officer to another. DeSantis was displeased at hearing he wouldn't be allowed back. He could be heard in the background muttering unkind words while the admiral's assistant was talking to Ms. Pushaw,” our source said.

Smart move, President Trump! This proves you have testicular fortitude, as opposed to what some people may say!

Thanks for the friendly advice, Gen Berger! Get better!

Excellent report, Michael! awaiting the Klain tribunal!

Thanks so much for this great news Michael! What a relief! I have been suspicious of DeSantis ever since he ignored the rogue fema agents stealing from evacuated homes and terrorizing the citizens in S. Fla during hurricane Ian. He looked the other way; it wasn't important to him and he took the money instead.

Thank you for all you do for us.

One more thing...Ilan Omar was kicked off the intelligence committee as you well know. Her father has been tied to the terrorists for a long time as well their family. Not many people know this. I wanted Omar kicked out of congress. I was hoping you could tell your contacts at gitmo this information so they could inform Admiral Crandall, look into it, and go pick her up. How did she get

on the intelligence committee so fast as a freshman in our government? What did she do? I have so many questions. Thanks Michael. God bless you my friend.

Does anyone think deSantis has been trying to locate the Comms center at Gitmo, (the first time without any luck, the second time he doesn't even get on the island) in order to take it out before they even get near it next time. Are they going to try and attack by air?

Ron is a snake. He came out acting like he was working for the white hats and blew smoke screens. The black hats have him scoping out GITMO to see where we have any weaknesses after trying to attack last time

Don't ya hate it when that happens? Poor DeSantis (my decent governor, but.....) was too confident in his BDE. Guess he forgot that POTUS has Bigger Dick Energy. He needs to drop the ego, step away from [DS] and wait till 2028.

Surely, by then he will have had enough time to reveal himself and it will all have been for nothing. I wish I could pledge my unwavering loyalty to him, but DJT got here first and there is no second-not if the option is a stinking RINO.

I have a feeling that the Chinese balloon (currently over Missouri) is headed for Maralago and then Gitmo. Someone fill Austin's ass full of air and watch him escort it. Can this balloon surveil Trump's air defense dome? Well?

Excellent report, Michael! awaiting the Klain tribunal!

Meanwhile, Trump was infiltrated by everyone around him most especially Jared and Ivanka. He's clueless about infiltrating.

Wow. Well De Santis gives a good Patriot impression! I have until now considered Cruz the best impersonator of a Patriot but De Santis has it if Trump is right.

Disinformation. The tension between Trump and DeSantis is manufactured to mislead the Deep State. This will continue until the hammer comes down publicly and deception is no longer necessary.

Tension between Trump and DeSantis is manufactured by the fake news to try and split the Republican party.

Good, he doesn't need to be there. Have never trusted him.

Something off about that particular governor. Getting picky the more I learn. 🙄

I didn't pick up anything off myself, until his wife's campaign ad. That was weird.

Bing has not allowed me access to Realrawnews. I don't know what the problem is, but after the last time I commented here, I haven't been able to get on.

Same here. It's another DDoS attack, the DS hates it when we gets news here. And Mike is publishing another article on the Klain tribunal so keep you eyes open for it.

Absolutely, why does he think anyone cares about his, Gov. Desantis', approval of how things are done at Gitmo? He isn't in charge there.

I have just recently seen photo's comparing the face of the "deceased" Adam Walsh to DeSantis. People claiming DeSantis is that child and Adam's death was faked or another child was killed in his place.

Any way for General Smith or staff to confirm this rumor?

Is Ron DeSantis the 'dead' Adam Walsh??

I think that's best til we know what color hat he really wears. I like a lot of what he's doing—compared to the far left loons—but I'm not ready to say I back him for president. Not even close. The problem with the right, which I am part of, is that we're so quick to jump on someone's bandwagon just because they did something good. The devil hypnotizes and lures with truths and half-truths. Stay awake!

I think at this point in this war, noone but military personnel should be allowed at gitmo. It's just too risky, no politician needs to inspect anything.

I knew DeSantis is the deep state because #GWU Rat provided him with my social media posts in order to build his political platform (on Education) which brings the office to DeSantis and his entourage. Therefore, the dude is a mediocre besides being a traitor working for Jacobins.

French have him as they have the entire class of scholars and professors on Foreign Relations. I guess thanks to pedophilia.

Whatever French do is always trying to repeat whatever the Brits have done. (Opium wars in China are basically what the DC Pedoland is.)

We also now know who is involved in kidnapping General Berger. As usual, the Swamp Rats first unleashed Washington Post pigs to produce hate and conflicts via their “journalism” and “analyses.” 😂 That is how commies fight leaders and leadership.

Also despicable what they do with local kids. Gangs of hookers, or other gender identity groups terrorize people on the behalf of “professors,” #StateDepartment idiots, and other intellectuals 😂 of the swamp. Must see my neighbors. 😂😂😂

Be a Governor...that is all we want out of you DeSantis! Florida has major problems brewing there, mortgage insurance companies closing, loan companies closing. People being priced out of their homes because the remaining insurance companies demand sky high payments. Housing is WAY over priced. “Look inward....”

This is too much, they got a body double for Ron Klain it's Jeff Zients now? RRN has him hanged and gone.

[cnn.com/2023/01/27/politics/ron-klain-jeff-zients-chief-of-staff-joe-biden/index.html](https://www.cnn.com/2023/01/27/politics/ron-klain-jeff-zients-chief-of-staff-joe-biden/index.html)

I can wild-guess this whole thing is getting set up for all the fresh clones to die on the same day “solar flash”.

Does DeSantis want to make sure they hang the original or hanging a clone? Maybe help Klain at trial? It sounds legit for him to want to be there since he used to work there and knows these politicians like Trump. The deep state accusations on DeSantis are not clear.

I could no access this site from Chrome. Said it was down for maintenance. Got here from Brave.

I believe that desantis is deep state...Of what I have heard, desantis is letting the foster programs in Florida run-a-muck and putting foster children in dangerous foster homes, without being trained and/or vetted because they are under a religious statute. And because of that, children that die in these foster homes, the foster homes are not being held accountable. desantis has not done anything hold these homes accountable.

I always thought it was strange having tours anyways that weakens defenses. not saying DeSantis is a traitor, it's just better to keep things tight. cause some people who were white hats have turn coated. in truth I believe defenses need a complete update new things added onto the already strong defenses cause all the turn coats. what did it take for them to sale out America and its people so easy. money influence power possession of things and the promise of heading top secret projects. soon I believe all these people running and hiding will wish they didn't turn coat I believe a world war is coming here to our shores very soon what caused you to betray all that you loved was it fear and displeasure from seeing former friends being executed for crimes against humanity pedophilia and war crimes and treason justifiably, to betray America and its innocent good-hearted people because a friend is being punished for doing horrible things. is pure stupidity sometimes in a nation brother may have to fight brother to the death for what is right against what is wrong if you aren't able to step up and stand for what is right then why the heck are you even in this fight because you never had what it takes to stand anyways. men and weman this is the second worse kind of war America is fighting. make no mistake it's civil war and being at war against your own people is like being at war against yourself. or your own family it hurts brutally worse than anything and the emotional and mental harm and toll it takes is unmeasurable. especially in a nation as patriotic as ours so many Americans love this nation and its people,

they have so much love that they have put there who being on the line and took punishment upon punishment. heart break and sorrow up heaps to protect and defend this nation, and all our allies, yet again make no mistake white hats your enemy will not show you an ounce of mercy like you do them. wont proof look no further than your general who was beaten near to death and they didn't even ask him a single question, if you need something to give you drive and desire to keep up the fight then just remember all the children in hell holes and all your family members and all the good innocent Americans standing with you. who are standing down and not fighting themselves because you asked them not to, so they are literally putting their complete trust in you their lives and their families lives and the future of this nation in your hands? because 2 reasons one we trust you to stand up for and to do what is right 2 we believe and trust you because you are our hero's men and weman white hats you have long since become more than soldiers you have become literal heroes saving children the world over and not just children but nations and peoples you don't even know you have become what was needed to save lives and protect all innocents you have become firemen law enforcement feds coast guards and Governors and leaders of our great nation and much more , if I was a movie writer I couldn't have wrote better movies than the life you are living it is easy to get your eyes off of what you are doing how important it is and what you have already accomplished , and to let your own thoughts weigh you down and people I know the devil must be beating you up for his evil ones falling , but don't waver or give up the fight you have fought all of humanity depends on your stoutness your strength of heart everyone before you has failed for thousands of years yet you lead by JESUS CHRIST AND HELPED BY HIM HAVE ALMOST ACCOMPLISHED IT .you have almost taken down the beast . that has done pure evil to all humanity. that has tormented us and tortured us and made us weak and sick and killed our families and looted us and stomped us down Un mercilessly, all our lives and all our ancestors lives for generations. victory will only

come if you unwaveringly stomp harder till they are nothing but dust beneath your feet. watch out for China they are defiantly preparing for ww3 on American soil aided by the deep state. UN and several other nations they are trying with everything in them to turn America and Russia against each other and the same with India. they are also separating all our allied nations creating turmoil inside there nations to the point to where they won't be able to come to our aid when war starts , also the deep state is getting rid of our oil and gas and food and forcing us into dept so bad we won't be able to feed not only our troops but also our own people , they are also getting rid of our military equipment to disarmed us taking away our power our strength, they are ignoring international laws and routing out courses for their subs and battleships testing our defenses and also there air craft are to and they are shutting down or sabotaging or tricking us into destroying our plants and factories we will need to fight latter they are destroying or slowing down our food and supply lines and forcing our nation's factories out of business so we won't be able to build new military equipment fast , they are and have been buying up all our metal and scrape metal so we won't be able to use it they are buying up all our farm land and ports and businesses they used treasonous traitors to betray us and do this they also used them to force us into dept have been for years by putting regulations and making laws that made it to were Americans couldn't compete in the global market and playing incompetent fools like they don't know what they were doing china and the deep state used slave labor and also they hacked into our computers and stole top secret tech and business patents then made it cheaper undercutting our businesses forcing us into dept illegally , they are fishing our territories to wipe out our food supplies I seen videos of them fishing 100 yards of coast and they are hunting illegally our lands I have also seen videos of this they are doing things Americans aren't even allowed to do , cause laws meant to protect wild life from being wiped out permanently they forced their own people into starvation I've seen videos of them throwing away ware houses of food and attacked their own people

and are mass brain washing their own people to hate Americans then they are doing a mass forced draft, china is I've seen videos of them dragging teens out of colleges and throwing them into army trucks they are forcing Americans to plow over their crops not just Americans but nations all over the world then they are paying them more to mow over their crops then they are by law by treasonous traitors dumping oil on the fields so we won't be able to farm them for many many years if ever again they are mass killing all our herds worldwide , men and weman China is the deep state make no mistake and I haven't even said all that they have been doing like the chemical weapons attacks worldwide in western nations America worse than most also the bio weapons attacks and weather warfare attacks , then they are making Americans ware masks and take shots that is crippling millions and killing thousands including our soldiers crippling them were they can't fight also they are arming antifa and blm and running the UN AND WHO and have taken complete control over all media and social media and schools in the western world and are mass brain washing the people , they are putting estrogen in the food to make the men in America weak as weman they are brain washing them to think they are weman , and dividing Americans homes and communities intentionally turning our kids against us and teaching them to hate and think there elders is what's wrong with this world . and they are turning our wives against the men with feminism and their male parents and rigging our elections. and are even attacking our strong foundation and trying to recreate our whole society by dismantling our culture and history and rewriting everything after dismantling and burning it down they are targeting Christianity and vilifying it and setting up a satanic one world government foundation with China as its military superpower replacing America aided by the deep state as they seemingly appear to be doing., they have set up major bases on Americas borders also have set up businesses' restaurants all over America to where they can attack us . and have been spying on us for years and working from the inside of America to weaken us, they are trying to divide our

fighting forces as we speak. cause I believe they are planning to attack America soon they have been already attacking and dividing us in every way possible without openly outright doing open war with us which I believe they have been leading to this they are choking out America and weakening us to the point to where they can come in and take us over easy they are using our rail ways thus why Biden set it up were all the trains will work out of Virginia, they have been flying Chinese troops into Virginia or Canada then riding them in on trains and setting them up in key points up all over the nation there flooding Chinese troops and weapons in America on trains. they have been spying us out for some time so if they do first strike us you can count on them wiping out most all our bases' airfields radio and water and power stations and plants, all at once while they attack our subs and battle ships off shores China has even spreaded there military power and troops all over the world so they can attack all our troops and ships from all over the world and stop our allies from coming to our aid and also, have been using the trains to poison America riding the trains through towns and releasing weapons on the population. I've noticed this myself by smelling it every time they went by our house, they also have weaponized the irs , and are using. big paddle boats from china to ship their heavy military equipment to Canada unnoticed.

also, since this news sight has openly told China how many troops, they have in Gitmo. I believe they will be a target so will Texas or should I say has Texas they are flooding into Texas and taking them over. from the inside out like they have been doing to all of America. Texas is a smaller example of what they are doing to all of America it's like they're treating Texas as a nation of its own from what I can see. same attack plan as they are using on America. mass flooding American hating people by the millions into Texas then infiltrating blackmailing or threatening every governing or law enforcement force. Into doing what they demand. taking over all media and schools shutting down all national businesses, force vaccinating the ignorant masses into killing the selves or maiming themselves.

killing off all herds they can and destroy all crops. forcing all patriots out of business and off their own lands and taken it for themselves. China owns more of the western world i say at this point than westerners and they did it by breaking every international law there is and by doing every dirty underhanded criminal thing they can do they are using our honor and good morals our good heartedness as a weapon against America.

I read sometime back that DeSantis had ties to the Deep State and possibly belonged to a Secret Society somw years ago and that his wife either used to or does work for “Blackrock” ... very telling!! DeSantis has been trying to come off has this great conservative Governor and being very outspoken about too many things... He’s probably been part of the Deep States plan to get many of the Floridians and many US citizens to earn his trust to take votes away from Trump come the 2024 election....

That has been my thoughts exactly...I’ve thought this from the very beginning. I also think, I could be wrong, Kari Lake is playing a role for the ds. Because she was campaigning for Obama, that in itself is a big RED flag...She does talk a good talk...but we will see. Usually and many, many times my intuition is right on point.

De Santis je globalista! Nikdy Amerika na prvním místě! Myslí si, že všechno ví! Demonrats nemají nikoho, kdo by šel proti Trumpovi, takže využívají ding Dong Rona! Ryan, Rove, Jeb Bush se skrývají v pozadí a tlačí ho. Pokud je opravdu chytrý, úplně opustí podporu DS Trumpa a hnutí MAGA, pak by mohl mít šanci v roce 2028. Ale ne, raději je hloupý zadek globalista!!

Proč lidé bourají každého, kdo je slibný. DeSantis byl výjimečný pro Floridu a všechny konzervativce. Přestaňte šířit fámy.

Příliš mnoho hloupých nepodložených obvinění bez jakýchkoli důkazů. Zlomyslná pomluva. Nic menšího než pomlouvačná kampaň ve stylu Nancy.
