OBJEKT #4: Vláda objektů vstupuje do nové fáze teroru

[Andrew Anglin](#) • 13. února 2023

• 1 100 slov • [48 Comments](#) • [Odpovědět](#)

[Sdílejte s Gabem](#)

nevypadá mi to jako balón [#Huron](https://pic.twitter.com/1FFRQYwktD) pic.twitter.com/1FFRQYwktD

— Ruský trh (@runews) [12. února 2023](#)

Dříve: OBJEKT #3! Tentokrát nad Kanadou! Je to Object Bonanza! Mimosemská agenda?!?

Nikdo nemohl předpovědět čtvrtý objekt!

Ve své době jsem viděl nějaké předměty, ale nikdy jsem nečekal, že uvidím čtyři za sebou.

POLITIK :

Americká armáda v neděli sestřelila neidentifikovaný objekt letící nad Michiganem, čímž se stal čtvrtým vzdušným objektem sestřeleným americkými silami za něco málo přes týden.

Představitelé obrany v neděli večer odmítli identifikovat, co by mohly být tři objekty sestřelené o víkendu, a vyvolali otázky ohledně hrozby, kterou tyto objekty mohly představovat pro civilisty v Severní Americe , jaký byl účel těchto objektů a proč došlo k příval detekcí a reakcí se stíhacími letouny a řízenými střelami.

JAKÝ JE ÚČEL PŘEDMĚTU, ČLOVĚKU???

Gen. Glen VanHerck, velitel Severoamerického velitelství protivzdušné obrany a Severního velitelství USA, řekl, že si je jistý, že počáteční epizoda, sestřelení čínského sledovacího balónu u východního pobřeží USA dne 4. února, „byl jednoznačně balón . **To jsou předměty. Nejsm schopn kategorizovat, jak se drží nahoře. Generál také odmítl vyloučit jakoukoli možnost, včetně toho, zda byly objekty mimozemského původu.**

Ano, takže zřejmě jdeme tímto směrem.

Generál letectva nedokáže říct, jak se objekt, který byl sestřelen nad Huronským jezerem, může udržet na hladině. <https://t.co/eSrteey7ZZ> [pic.twitter.com/9LuQzBzz75](https://t.co/eSrteey7ZZ)

— Dave Bondy (@DaveBondyTV) [February 13, 2023](#)

Pokud říkají, že nerozumí pohonu, pokud říkají, že jsou ve tvaru tic tac, pokud říkají, že se objevují všude – řeknou, že jde o mimozemšťany.

Po generálových poznámkách úředník obrany, který požádal o anonymitu, aby mohl mluvit o vyvíjející se situaci, řekl, že „neexistuje žádný náznak mimozemšťanů nebo mimozemské aktivity s těmito nedávnými sestřely“.

Pokud jde o čínský balón, řekla Melissa Daltonová, náměstkyně ministra obrany pro obranu vlasti a polokoule, „měli jsme základ a zpravodajské informace, abychom definitivně věděli, že jeho výchozím bodem byla Čínská lidová republika“. U následujících tří objektů žádná taková jistota neexistuje.

Mohlo by se zdát divné, že začali s tím meteorologickým balónem a pak se přesunuli do vesmírných mimozemšťanů, ale dává smysl, aby se lidé rozběhli a pak to změnil.

To vše je psychologická válka.

Po úvodní epizodě NORAD změnil svůj přístup k monitorování vzdušného prostoru nad Severní Amerikou, dodal Dalton. Toto úsilí zahrnuje „podrobnější kontrolu našeho vzdušného prostoru... včetně vylepšení našeho radaru, což může alespoň částečně vysvětlit nárůst objektů, které jsme za poslední týden detekovali,“ řekla.

Toto je užitečný příběh: mimozemšťané už létali všude kolem, ale vláda si jich všimla jen kvůli balónu.

Hledali další balónky a všude začali vidět mimozemšťany.

Nejnovější objekt byl poprvé detekován v sobotu v 16:45 nad Kanadou. Krátce nato vstoupil do vzdušného prostoru USA, nakonec vypadl z radaru nad Montanou a znovu se objevil nad Wisconsinem . V té době byly americké stíhačky F-16 a kanadské stíhací letouny F-18 zakódovány, aby jej zachytily. Jedna F-16 ji srazila raketou Sidewinder nad Huronským jezerem, kde pravděpodobně spadla do kanadských vod, řekl VanHerck.

Není ani jasné, jestli říkají, že ten nad Montanou je tentýž, který sestřelili nad jezerem.

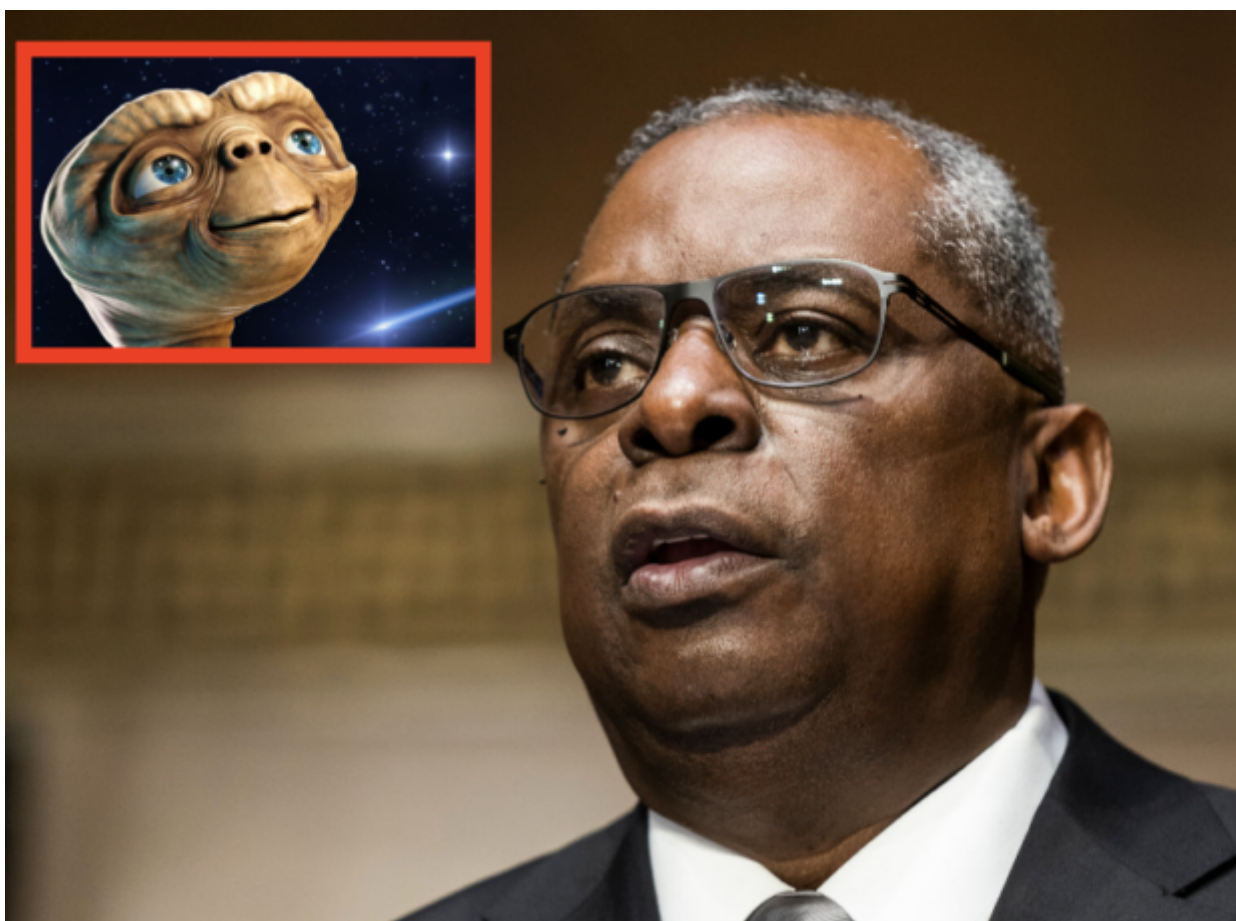

BREAKING: [@RepRosendale](#) říká, že ministerstvo obrany mu zavolalo a řeklo, že budou „sledovat objekt“ údajně detekovaný nad Montanou, „dokud se znovu nerozsvítí“ a říká, že „nemohou ho sestřelit ve tmě“. pic.twitter.com/4I53Hid5Dc

— ALX (@alx) [12. února 2023](#)

Je tam spousta hloupých protichůdných informací.

Prezident Joe Biden vydal rozkaz k odstranění předmětu na základě doporučení ministra obrany Lloyda Austina a vojenského vedení, podle prohlášení ministerstva obrany.

Austinovo oficiální prohlášení podle zdrojů bylo: „Vystřelte tu malou mrchu do prdele hubená nigga mrcha muthafuka.“

Austin věří, že mimozemšťané jsou podobní tvorovi ve filmu ET, který ho jako dítě děsil.

Ačkoli vojenští představitelé nevyhodnotili, že by to byla hrozba pro cokoliv na zemi, dráha objektu a nadmořská výška vyvolaly obavy, včetně toho, že by mohl představovat riziko pro civilní letectví, uvedli představitelé.

...

Dva členové americké sněmovny z Michiganu, republikánský poslanec Jack Bergman a demokratická poslankyně Elissa Slotkinová v neděli potvrdili, že piloti z letectva a Národní gardy vyřadili objekt nad Huronským jezerem.

To je evidentně hoax. Nevím, kolikrát to můžu pořád říkat, ale neexistují žádní mimozemšťané, stejně jako neexistoval žádný virus, žádný černošský útlak, žádná ukrajinská demokracie.

Lidé to vyvolávají. Jiní lidé než já.

Je na tom generál Flynn.

Podívej se mi do očí...vidíš ten lesklý předmět? Když napočítám do deseti, nebudete si nic pamatovat (což nám umožní pokračovat ve vytrhávání). [@elonmusk](https://pic.twitter.com/ouvYRYxfn4)
pic.twitter.com/ouvYRYxfn4

— LTG (R) Mike Flynn (@GenFlynn) [13. února 2023](#)

Stew Crew zná cvičení.

Máme věřit, že američtí piloti sestřelili objekt nad kanadským vzdušným prostorem, ale nechali jsme obrovský špionážní balón pomalu plout nad vzdušným prostorem USA celé dny, aniž bychom ho sestřelili.

To vše je FAKE!

— Stew Peters (@realstewpeters) [12. února 2023](#)

Tentokrát máme alespoň částečně svobodný Twitter, kde můžeme tyhle kecy vytočit.

Ale jak jsem řekl včera, lidé uvěří všemu. Věří na transy, takže budou věřit na mimozemšťany. Transparenty ani nedávají smysl;

přínejmenším mimozemšťané jsou teoreticky možní.

Lidé po celém Twitteru ukazují různá videa údajných UFO a také tvrdí, že jich vláda sestřeluje víc, než přiznávají.

Neidentifikovaný objekt natočený kolem 17:00 CST nad Little Rock Arkansas

— Aaron (@arr0r) [13. února 2023](#)

Tato videa pravděpodobně spamuje vláda. Žádná z nich není nikým potvrzena, ale jsou všude.

Lidé říkají, že to dělají, aby zakryli chemický výbuch v Ohio, který zabije obrovské množství lidí, ale tento podvod s UFO začal ještě předtím. O katastrofě v Ohio došlo k výpadku zpráv, ale zdá se být užitečné, že se shodoval s tou věcí UFO.

UFO odvádí pozornost od:

- Biden odhaluje naši zemi
- USA vyhazují do povětří plynovod Nordstream
- Velké technologické společnosti koordinující s FBI/americkou zpravodajskou službou cenzuru Američanů a ovlivňování voleb.
- Smrtící chemická katastrofa ve východní Palestině, Ohio
- Seznam klientů Epstein
- The Trump Train (@The_Trump_Train) 13. února 2023

Nevím, že jdeme přímo do mimozemského podvodu. To je možné. Ale je také možné, že řeknou, že na to stále nepřišli, a pak přejdou k něčemu jinému – něčemu s Čínou, nebo možná nějakému novému ukrajinskému blábolu, dalšímu viru nebo dokonce věci BLM – a později se vrátí k mimozemšťaně.

Může to být také určitý druh pokusu zjistit, jaká je chuť na mimozemský podvod.

Doslova všechno je nějaký hloupý podvod. To je vše, co nyní máme, protože žijeme ve společnosti zcela odtržené od pravdy.

Jsem ze všech těch nesmyslů opravdu vyčerpaný.

Opravdu dělají mimozemšťany.

I've noticed MSM have recently started using the words UFO
this week rather than weather balloon

There's huge irony in this ask any UFO nuts out there and they'll
tell you any UFOs get excused as weather balloons like Roswell
for example

It's all got a bit silly

If they can't get us to welcome global governance in the face of a "deadly" novel virus, why not try an onslaught of space aliens who, despite traveling across the universe or through time are easily shot down by our puny air defence technology.

We can beat them dang aliens !

Or we can join them... order your UFO online now, while supplies last:

Best case scenario: None of these incidents have actually happened and it's just government lies as usual.

Worst case scenario: "Out of abundance of caution", the US and allied air forces have started a shooting war with unknown entities from another planet or dimension.

Hard to say which of these is more likely; our rulers lie all the time and start wars all the time.

Well, the one from Cadillac MI is simply Musk's Starlink Satellites deploying after launch. About 50 of those things slowly drift apart after reaching their orbit and you see them catching the sun in the early evening before they dip into the earth's shadow. I've seen it myself and knew it was something related to the Falcon 9 launch Youtube had shown live the night before, the local news had an article about all the yokels calling in reporting flying saucers that night and mentioned the Space X Starlink Satellites that had just gone up and were in the process of deploying to their final orbits.

@Kirt

Worst-case scenario is that these are so-called beacons, sent here millennia ago. And if you shoot-down a beacon, in its dying breath it communicates with a colleague beacon to destroy life on earth. Or, a beacon might get ticked-off by a near miss. So far we have been lucky; the beacons have not done this yet. The point is, we would not be starting a war with a civilization light years away; their beacons are right here, right now, and are smart, and are deadly despite their size.

Has anyone else considered now this balloon stuff is a huge game changer in the strategic nuclear balance which possibly explains why they are freaking out

In a nuclear war after a first strike most air defences, silos and radar will have been taken out.

A huge effort with what`s left would be made to hunt and remove a 2nd strike capability via expensive hunter killer subs, taking out remaining fixed silos & launchers etc..

Now Russia, China and even North Korea can just launch a huge no. of balloons from anywhere like a forest clearing etc.. with a warhead strapped to the bottom & drop it anywhere remote control. It probably wont be picked up as most anti air radars will have been taken out by then. They are cheap and light too (most of a nuke`s weight is the rocket booster now not needed) so could launch thousands as decoys at the same time

The ultimate nightmare

I suspect that the reason we're getting all of these idiotic stories in the media is that the CIA's Operation Mockingbird put the CIA firmly in charge of the media. The problem, for the CIA, is that being in charge, it's up to the CIA to come up with all of these tales that the media presents. Since the CIA seems to do its recruiting, exclusively, in the various retard homes in the US, their operatives are almost all retarded.

Having a gang of retards invent the media fables explains why all of the fables pushed by the MSM are so absurd. The success of these fables among the majority of the TV mesmerized American public shows me that most of the TV watching public is hypnotized into being functionally retarded. It also occurs to me that the only way to avoid becoming a retard in America is to refuse to watch TV.

That's my theory about why these tales of "objects" are so idiotic that only a retard could accept them as true.

Yeah, It's War of the Worlds meets Don't Look Up meets Idiocracy!

Silly, stupid, bullshit media contrived, government sponsored bologna!

It's obviously being promoted solely to grab the media cycle, for whatever stupid reason, no man can answer.

As alleged above, it could literally be a "test balloon" (pun intended) just to see how much bullshit the public will swallow. a.k.a. Murder Hornets, Killer Bees, razor blades in apples, and poisoned medicine on the shelves. It's all hype, no substance. It's a giant, over-promoted mystery, that says... absolutely nothing!

"There is something really important going on, but we can't tell you nothing about it, but just that it's very, very important, and you should pay very close attention to it, just in case the "nothing" becomes "something"!

I want to say that this is the stupidest shit I've ever seen, but now, I say that so often, that I cannot be sure, as we are inundated with metric tons of stupid shit, and it's impossible for me to track and catalog stupid shit, because it makes my brain hurt.

In the book Behold a Pale Horse, William Cooper stated that within ten years, we'd either have a war on terrorism, or a war on ET's. That was pre-9/11, so that just leaves the aliens...

Or the Chinese, or Russian Aliens flying Chinese made balloons with Iranian propulsion systems... At this stage, I really don't give a shit.

It's is remarkable, however, that the same ass-clowns that used to tell us "UFO's are weather balloons" are now hinting that weather balloons are perhaps UFO's. This point isn't lost on me. It's a screw-job for your minds...

They named the fake 2020 virus “coronavirus” and the memes wrote themselves because everyone thinks of cheap skunky mexican beer when they hear coronavirus and nobody was afraid. After two weeks the nonexistent virus was rebranded with the sinister sounding and sifi dystopian “Covid19” and a successful multi-year hoax was born.

Nobody hates or fears balloons, balloons are cheerful and festive, so [they] are pivoting to again the dystopian sifi angle to launch yet another worldwide hoax, hopefully just restarting a fake coldwar that doesn't require my participation viz facediapers, lockdowns, and fake vaxxxxines.

If you don't know what it is kill it. Nobody will question that logic.

I don't know how fake aliens will be used to advance Satan's agenda. But I do know they are fake.

Or we may learn that the objects are Chinese. Which will mean they are a threat to our Democracy. Which will mean we must kill the Chinese.

Yes and no.

The ability to steer remotely via satellite or agents on the ground never previously existed

They clearly are having difficulties spotting them and shooting them down due to the high altitude and small size

It's the same with Ukraine using long distance drones striking deep into Russian territory.

They are clearly having problems spotting them too

All game changers given what they can potentially carry.

@Anon

It would cost a lot more than \$20k, probably as much as the AIM9X (\$390k).

I think it is China (possibly Russia, or Iran), and they're doing it because they think it's funny (and they're right)

@Smashed Squash

| Only Reactionary Satanists call Demons "Aliens".

And only religious nutbars call Aliens "Demons".

Lots of red heart-shaped balloons in the sky this week. Don't know if the Air Force will be able to get them all. Might be easier to take out all the Dollar Trees.

I have seen a lot of fake news in my day but the derailment in Ohio looks all too real. The devastation there will impact the entire world. I can't help but notice that Frederick MD and Washington DC are downwind of the big black plume. This event has "act of war" written all over it. Of course Zionists would choose to blow up a place called Palestine.

The USA is a dead man walking.
