Barren Summit

*Čtyřicet let a stále přibývají*

*Od chvíle, kdy byl Kennedy zabit*

*a naše vakuum ve vedení*

*stále nebylo zaplněno.*

Proč by tyto boty měly představovat

takové potíže s plněním?

Kandidáti jsou vyřazeni

těmi, kdo zabili.

od Davida Martina, autora knihy *The Assassination of James Forrestal* (2019)

Posledních pár let bylo bolestným obdobím pro ty z nás, kteří jsou dost staří na to, abychom si vzpomněli na šedesátá léta. Během svého života jsem sledoval, jak moje země upadá se všemi měřítky velikosti. Bylo to nesnesitelné, pomalé a téměř nepostřehnutelné ze dne na den, jako mučení vodou. Kdo by ještě před deseti lety tušil, že nyní budeme na pokraji jaderné války s Ruskem? Každý den prohledávám zprávy a internet, doufám a modlím se, aby se mírové hnutí objevilo. Ale kde jsou? I když události stále eskalují a dynamika narůstá pro širší válku ve východní Evropě, nevidím žádné transparenty, žádné demonstranty v ulicích a jen velmi málo důkazů, že naši lidé rozumí tomu, co se děje. Nikdy jsem si nemyslel, že k tomu dojde. Druhá světová válka skončila před ~78 lety a dnes už nezůstal naživu téměř nikdo, kdo si to pamatuje. Musíme každou třetí nebo čtvrtou generaci znovu prožívat noční můry historie jen proto, že lidé nežijí dostatečně dlouho, aby si uchovali děsivé vzpomínky na poslední válku? Něco ve mně se tomuto vysvětlení brání, protože je příliš

zjednodušené. Je tu ještě jedna možnost: že naši lidé byli zbaveni

volebního práva, tak otupěli a demoralizovaní spoustou let nepřetržité propagandy (včetně nenávisti k Rusku), že už nejsou schopni jasně myslet ani jednat, aby obnovili naši zemi.

Podle mého názoru byla největším měřítkem našeho úpadku propastná kvalita našeho vedení, zejména na národní úrovni. Pokud je to pravda, pak se musíme ptát: Jak se to stalo? V článcích, které jsem četl, a při rozhovorech s přáteli často vidím/slyším opakovat, že sestupná spirála začala atentátem na Johna F. Kennedyho.

Souhlasím a beru to jako samozřejmé, že právoplatná autorita je od té doby pod útokem.

Nedávno jsem byl nucen upravit své vlastní názory na vraždu JFK poté, co jsem si přečetl mimořádnou knihu francouzského spisovatele Laurenta Guyenota *Od Yahweh to Sion* (2020). Autor je vynikající biblista a napsal nejpronikavější analýzu sionismu, jakou jsem kdy viděl. Jako mnoho Američanů jsem kdysi věřil, že za atentátem na JFK stojí CIA a italská mafie. Ale nyní považuji příběh o CIA-&-mob-udělal-to za jen další omezený hangout.

V průběhu let jsem křečovitě studoval vraždu JFK a znovu a znovu se k problému vracel. Pravda však zůstala nepolapitelná kvůli falešným vodítkům, chybným směrům a protichůdným příběhům, jejichž účelem, musíme pochopit, je zamlžit fakta a udržet nás v temnotě. Přes veškerou kontrolu myslí a propagandu však přibývá důkazů, že atentát na Johna F. Kennedyho zorganizoval viceprezident Lyndon Johnson (LBJ). Nyní představím některé z nejvýraznějších bodů, podstatu toho, co jsem se naučil.

Plán prezidenta Johna F. Kennedyho vyřadit Lyndona Johnsona z lístku během jeho nadcházející kampaně za znovuzvolení v roce 1964 byl široce hlášen. Méně známá je ale skutečnost, že Johnson měl nejen být nahrazen, ale hrozilo mu vězení. Během prvního funkčního období svého bratra se generální prokurátor Robert Kennedy dozvěděl mnoho o Johnsonových kriminálních aktivitách. A RFK začal podávat tyto důkazy Výboru pro pravidla Senátu. Jen několik hodin předtím, než byl jeho bratr zastřelen v Dallasu, vyslechla komise svědectví, že Johnson dostal 100 000 dolarů zpět za uzavření

smlouvy s firmou General Dynamics z Ft Worth Texas na stavbu stíhacího letounu F-111. (Roger Stone, *Muž, který zabil Kennedyho*, 2013, s. 198)

Byly také důkazy, že Johnson dostal další velký provizi od texaského obchodníka Billie Sol Estes. Johnson již dříve Estesovi upozornil, že Kongres brzy schválí zákon, který zaplatí farmářům, aby nepěstovali bavlnu. V té době měla země obrovský přebytek bavlny a přebytek tlačil cenu dolů. Estes rychle využil interní informace a pronajal si stovky tisíc akrů texaské zemědělské půdy, což ho „opravňovalo“ k milionovým dotacím. Později přiznal, že osobně doručil Johnsonovi kufr s 200 000 dolary v hotovosti jako platbu za spropitné. (James T. Tague, *LBJ and the Kennedy Killing* , 2013, s. 400)

*Life Magazine* také shromažďoval důkazy o Johnsonových pochybných jednáních a měl je zveřejnit v příštím čísle. Dnes si jen málo Američanů uvědomuje, že v době vraždy JFK Johnson čelil korupčnímu skandálu a pravděpodobnosti trestního stíhání. Kdyby se objevila fakta, politická kariéra LBJ by byla u konce. Viceprezident Johnson pouze převrátil situaci odstraněním muže, který mu stál v cestě k moci. ( *Muž, který zabil Kennedyho*, str. 199)

Několik Johnsonových spolupracovníků z Texasu, včetně jeho sekretářky Bobbyho Bakera a Billie Sol Estesové nakonec šlo do vězení. O několik let později Estes řekl texaské velké porotě, že Johnson nařídil vraždy nejméně šesti dalších lidí, které byly před Kennedym, včetně jeho vlastní sestry s volnými rty. Johnsonova sestra Josepha zřejmě příliš pila, spala a věděla příliš mnoho o ukradených volbách v roce 1948, které Lyndona dostaly do amerického Senátu. V roce 1951 byl Johnsonův nájemný vrah Mac Wallace odsouzen za jednu z těchto vražd prvního stupně. Byla to pouze Johnsonova schopnost překroutit texaský soudní systém, co Wallaceho dostalo na pětiletý podmíněný trest. Pokud to zní neuvěřitelně, byla to také moje reakce. Nicméně je to náhodou pravda. ( *LBJ and the Kennedy Killing* , str. 395 – 400)

Některá z nejvíce usvědčujících svědectví proti Johnsonovi podala prostitutka jménem Madeleine Brownová, jeho jednadvacetiletá milenka a matka jednoho z jeho tří známých nemanželských dětí. V pozdějších letech Brownová volně hovořila s výzkumníky o tom, co věděla. V roce 1988 řekla Jamesi T. Tagueovi, že na Silvestra roku 1964 jí velmi opilý Johnson vyprávěl ohavnou historku o tom, jak zařídil Kennedyho vraždu. (*LBJ and the Kennedy Killing* , str. 321) Máme jí věřit? Je svědectví prostitutky věrohodné? Zesnulý autor James T. Tague si to myslel. *LBJ a Kennedy Killing* Tague ve své knize z roku 2013 uvedli, že ačkoli zpočátku Brownův příběh odmítal jako výstřední, v průběhu let, jak hloubal, dokázal potvrdit téměř vše, co mu řekla. Tague byl sám v Dallasu v den, kdy Kennedy zemřel. Stál poblíž nadjezdu Dealey Plaza, když se to stalo, a byl lehce zraněn malým kouskem betonu, který mu vyletěl do obličeje, když bludná kulka zasáhla nedaleký obrubník. Tato zkušenost udělala na Tague tak hluboký dojem, že strávil dalších čtyřicet let vyšetřováním Kennedyho vraždy. Jeho kniha umožňuje základní četbu. (*LBJ and the Kennedy Killing* , s. 353-356)

Ale v noci před vraždou došlo také k osudnému setkání v Dallasu v rozlehlém předměstském domě ropného milionáře Clinta Murchisona. Bylo to účtováno jako narozeninová oslava s večeří a nápoji na počest J. Edgara Hoovera, ředitele FBI, jehož dlouholeté přátelství s Murchisonem je dobře zdokumentováno. Hoover a jeho partner Clyde Tolson (druhý ve velení FBI) byli častými hosty na slavné Murchisonově závodní dráze v La Jolla v Kalifornii. Oba muži byli hazardní hráči a milovali koňské dostihy.

Toho večera Johnson dorazil až hluboko po půlnoci, protože hosté řídli. V té době se menší skupina shromáždila v samostatné místnosti za zavřenými dveřmi. Brown řekla Tagueovi, že čekala v obývacím pokoji, a když se toto druhé setkání konečně rozpadlo, Johnson přišel, stiskl jí ruku a zašeptal jí do ucha: „Od zítřka mě ti Kennedyovi už nikdy neudělají ostudu.“ (*LBJ and the Kennedy Killing* , str. 356)

Madeleine Brown zastávala výkonnou pozici v komerční reklamní firmě v Dallasu. Řekla příteli, že přes den pracovala v reklamě a v noci jako call girl. Byla to prvotřídní šlapka a v texaské společnosti poznala mnoho mocných a bohatých mužů. Z tohoto důvodu a kvůli svému vztahu s Johnsonem byla známou tváří. Brown znala všechny ředitele na Murchisonově večírku a identifikovala dvacet pět jedinců, kteří zůstali na následující schůzi. Její seznam jmen se původně objevil v knize Roberta Gaylona Rosse z roku 2001, *The Elite serial Killers*. Tague uznává, že Brown tu noc pil. Připouští, že její seznam potřebuje další prověření. Jasno o tom, kdo odešel dříve a kdo zůstal na schůzce pozdě v noci, je životně důležité, protože druhá skupina se podílela na vraždě Kennedyho.

Murchisonův kuchař a komorník potvrdili některá jména, stejně jako Robert Gaylon Ross, který byl Tagueovým přítelem. Nebudu diskutovat o všech jménech na seznamu, pouze o těch, která jsou podle mého názoru nejdůležitější. Zde je seznam.

- HL Hunt, miliardář naftař
- Texaský guvernér John Connally
- Ředitel FBI J. Edgar Hoover
- Clyde Tolson, druhý ve velení FBI
- Starosta Dallasu Earle Cabell
- bývalý major Dallasu RL Thornton
- Šerif okresu Dallas Bill Decker
- Jack Ruby
- Carlos Marcelo
- Texas ranger a americký maršál Clint Peoples
- WO Bankston, místní prodejce automobilů
- Joe Yarbrough, stavba
- George Brown, z Brown and Root
- Amon G. Carter Jr.
- John Currington, poradce HL Hunt
- John McCloy, předseda Rady pro zahraniční vztahy
- BR Sheffield, vojenské stavby
- Cliff Carter, výkonný ředitel Demokratického národního výboru

- Joe Civello, dallaská mafie
- Larry Campbell, zástupce Jimmyho Hoffy
- Don Smith, generální ředitel závodní dráhy Del Mar
- Mac Wallace, zabiják

Všimněte si, že na seznamu je guvernér Texasu John Connally, starosta Dallasu Earle Cabell, bývalý starosta RL Thornton a šerif okresu Dallas Bill Decker. Prostřednictvím Cabella a Deckera Johnson také ovládal šéfa dallaské policie Jesseho Curryho a šéfa oddělení vražd Willa Fritze.

Na seznamu bylo jméno guvernéra Connallyho a jeho role byla klíčová. Byl to Connally, kdo původně pozval prezidenta Kennedyho do Texasu. Vystal však problém, protože předvoj z Bílého domu, Jerry Bruno, trval na jiné trase kolony, která nezahrnovala Dealey Plaza, což bylo místo pro plánovaný zásah. Když Connally odmítl ustoupit o cestě, neshody se staly tak hořkými, že Bílý dům požádal Billa Moyerse, tehdejšího zástupce ředitele Mírových sborů, aby se pokusil zprostředkovat řešení. Moyers byl blízko jak Connally, tak Johnsonovi. Teprve poté, co Connally pohrozil úplným zrušením prezidentské návštěvy, Bílý dům nakonec ustoupil a souhlasil s trasou přes Dealey Plaza. (*Muž, který zabil Kennedyho*, s. 222–223)

Další prach se týkal také Connallyho, i když nepřímou. Brzy večer 21. listopadu Kennedy zavolal Johnsona do svého apartmá v hotelu Rice v Houstonu. Následovala zuřivá hádka o to, kdo kde bude sedět v koloně další den v Dallasu. Johnson chtěl, aby s ním jel Connally z obavy o jeho bezpečnost. Ale Kennedy chtěl ukázat jednotu strany a trval na tom, aby senátor Ralph Yarborough jel s Johnsonem. Yarborough byl vůdcem liberálního křídla Demokratické strany v Texasu, zatímco Johnson vedl konzervativní demokracii. To znamenalo, že Connally seděl s Kennedym v hlavním vozidle a vystavil ho vážnému zranění nebo smrti. Kennedy hádku vyhrál. Z místnosti se údajně vyřítit rozzuřený Johnson.

Navzdory riziku Connally udělal, co mu bylo řečeno. Od ukradených voleb v roce 1948, kdy sloužil jako šéf Johnsonovy kampaně, byl Johnsonovým podřízeným pytlákem. Johnson se jednou chlubil:

"Můžu zavolat Johnu Connallymu o půlnoci, a když mu řeknu, aby přišel a vyčistil mi boty, přiběhne." Hádka Johnsona s Kennedym v Houstonu vysvětluje, proč k Murchisonovi dorazil až po půlnoci.

(Robert A. Caro, *Means of Ascent* , 1990, str. 118)

Přítomen byl také Amon G. Carter, Jr., majitel Ft . *Worth Star Telegram*, největší náklad novin v Texasu. Carter také vlastnil WBAC rádio a televizní síť, Channel 5 (NBC 5).

Jak bylo uvedeno, zúčastnil se také J. Edgar Hoover. Byl dlouholetým Johnsonovým spojencem a jeho role byla životně důležitá: Hoover se postará o zakrytí. FBI bude kontrolovat forenzní důkazy a nasměrovat jakékoli vyšetřování k předem určenému příběhu osamělého střelce.

Vezměte v úvahu, že prostřednictvím výše uvedených osob Johnson kontroloval státní a místní vládu, místo plánovaného zásahu, vymáhání práva, média a zakrývání. LBJ měl pokryty všechny základny.

Johnson však měl také neomezenou finanční podporu z ropné záplaty. Byl přítomen ropný magnát HL Hunt a bezpochyby sdílel antipatii svého přítele Clinta Murchisona k prezidentu Kennedymu. Oba muži přišli o miliony, pokud by Kennedy pokračoval ve svém oznámeném plánu na snížení nebo odstranění příspěvku na vyčerpání ropy. Caroline Kennedy Schlossberg jednou prohlásila, že její matka Jackie Kennedy Onassis věřila, že za vraždou jejího manžela stojí texaští ropní muži. ( *LBJ and the Kennedy Killing* , str. 353)

Nejméně jeden ze střelců byl přítomen, Mac Wallace, který byl usvědčeným vrahem, jak bylo uvedeno. O několik let později byl nalezen dříve neidentifikovaný otisk prstu, který policie zvedla z kartonové krabice v šestém patře texaského knižního depozitáře, který se shodoval s Wallaceovými otisky pořízenými v době jeho soudního procesu s vraždou v roce 1951. (Jesse E. Curry, *JFK Assassination File*, 1969, str. 53; viz také Barr McClellan, *Blood. Money & Power: How LBJ Killed JFK*, 2003; viz také *LBJ and the Kennedy Killing*, str. 392)

Přítomen byl také muž, který zastřelil Lee Harveyho Oswalda: Jack Ruby. Je všeobecně známo, že Ruby byl mafián a já jsem vždy předpokládal, že to znamená italskou odrůdu. Ale mýlil jsem se. Ruby se ve skutečnosti jmenoval Jacob Leon Rubenstein a byl synem židovských polských přistěhovalců. Ruby měla spojení s židovským podsvětím. Podle bývalého detektiva losangeleské policie Garyho Weana byla Ruby přátelská s losangeleským gangsterem Mickeym Cohenem, který nahradil Benjaminu „Bugsyho Siegela“ Siegelbauma na postu židovského zločineckého bosse na západním pobřeží. Detektiv Wean nashromáždil velký soubor o Cohenovi a tvrdí, že v roce 1946, když se poprvé setkal s Ruby v Los Angeles, jela Ruby s Cohenem ve velké černé limuzíně. O rok později byl Wean představen Ruby v nočním klubu v LA známém jako Harry's Place. (Gary Wean, *V soudní budově je ryba*, 1987, str. 681)

Ve své autobiografii Mickey Cohen popisuje, jak se zamiloval do sionismu. Vysvětluje také, jak po druhé světové válce začal dodávat armádní kontraband a přebytečné zbraně do Irgunu. (Mickey Cohen, *Mými vlastními slovy*, 1975, s. 91-92)

Cohen se osobně znal s šéfem Irgunu Menachemem Beginem, s nímž se setkal, když byl terorista „na lamu“ na pobytu v Kalifornii. V té době byl Begin stále hledán v Izraeli/Palestině za vyhození hotelu King David do povětří v roce 1946. Zůstal v politické divočině až do šestidenní války v roce 1967, kdy ho premiér Levi Eshkol pozval, aby se připojil k ‚vládě národní jednoty. ‚ To signalizovalo Beginovu ‚rehabilitaci‘. Později uspořádal politický comeback a dokonce se stal izraelským premiérem.

Ale Ruby byla také spojována s ‚předsedou představenstva‘ Meyerem Lanskyem, kmotrem židovského podsvětí. Ruby vlastnila podíl v Lanskyho hazardním kasinu Colonial Inn, které se nachází severně od Miami Beach. (Jim Marrs, *Crossfire*, 1989, s. 392)

Lansky byl také sionista se silnými vazbami na Izrael. Lansky byl hlavním dárce pro Izrael a pro Anti-Defamation League (ADL). Jeho dcera Mira Lansky Boland se později stala úředníkem ADL.

(Steven Fox, *Blood and Power: Organized Crime in Twentieth Century America*, 1989, str. 314.)

Přál bych si, abych zde měl prostor, abych mohl dostatečně pokrýt Meyera Lanského. Ale udělat mu „spravedlnost“ by zaplnilo knihu. Lansky byl dlouholetým spolupachatelem a společníkem zločinu notoricky známého ‚Lucky‘ Luciana. Zasloužil se o uspořádání historických schůzek v roce 1943 mezi Lucianem a US Office of Naval Intelligence (ONI). V té době si Luciano odpykával 30–50 let vězení v New Yorku za provozování prostituce. Americké námořnictvo potřebovalo pomoc Lucianova syndikátu k ochraně amerických přístavů a lodní dopravy před německou sabotáží a útoky, které se staly vážným problémem. Dohoda uzavřená na setkáních s Lucianem, zprostředkovaná Lanským, dosáhla požadovaného cíle. Později Lucianovo spojení s mafií zajistilo úspěch americké invaze na Sicílii a návrat Benita Mussoliniho. Po válce USA Lucianovi trest za prokázané služby zmírnily a deportovaly ho zpět do Itálie. Mussolini nenáviděl mafii a do 30. let ji téměř vymýtil. Ale osudný kompromis americké vlády s Lucianem umožnil mafii vzpamatovat se. Během dvou let Luciano přestavěl svou operaci obchodování s heroinem na Sicílii ve větším měřítku než kdy předtím. Lansky mezitím řídil Lucianovy finanční záležitosti v USA. (Alfred W. McCoy, *The Politics of Heroin*, 1972, s. 28 – 45)

V letech 1949-1950 Lansky také pomohl Lucianovi založit notoricky známou Francouzskou spojku, která se zabývala zpracováním a přepravou tureckého opia do Marseille, kde bylo zpracováno na heroin a poté odesláno do USA. Síť nebyla pouze židovská a zahrnovala prvky Lucianovy sicílské/italské mafie a dokonce i Korsičanů. Ale Lansky se postaral o finance a zařídil praní zisků. Síť Lansky-Luciano ‚prosperovala‘ po mnoho let a vyústila v obrovskou explozi drogové závislosti v amerických městech. Velká část heroinu se do USA dostala přes Kubu a Floridu. O dopravu se staral další spojenec Lansky, rodina Trafficante se sídlem v Tampě. ( *The Politics of Heroin*, str. 44–45)

Velká část zisků se vrátila do Evropy, kde byla praná prostřednictvím švýcarských bank. Po umytí se peníze vrátily do USA nebo šly jinam na investici. Lansky, kouzelník v praní nezákonných peněz, používal řadu švýcarských bank, včetně jedné, kterou osobně vlastnil, Exchange and Investment Bank of Geneva. Další byl duchovním dítětem ortodoxního rabína Tibora Pinchase Rosenbauma: Mezinárodní úvěrová banka (ICB) v Ženevě. ( *The Politics of Heroin*, str. 45; viz také Michael Collins Piper, *Final Judgement*, 2004, kapitoly 7, 11 a 12))

ICB byla židovská banka. Rosenbaum také spoluzaložil Světový sionistický kongres a byl ředitelem (a pokladníkem) Židovské agentury. ICB měla pověst společnosti, která přijímá vklady odkudkoli, bez jakýchkoli otázek. V bance měla účty různá ministerstva izraelské vlády, včetně Mossadu, ministerstva obrany a Histadrut, izraelské federace práce. Další účet vlastnila Israel Corporation, vládou podporovaná vývojová společnost. Podle zprávy v *New York Times* byl ICB využíván izraelskou vládou k nákupům zbraní a k „pomoci s nasměrováním finančních prostředků z mezinárodní židovské komunity do Izraele“. (Clyde H. Farnsworth, 'A Global Bank Tangle and its Lost Millions', *The New York Times*, 9. dubna 1975)

Použil Izrael proprané peníze z drog k financování obchodů se zbraněmi, nebo dokonce k financování izraelského ultratajného programu jaderných zbraní? To je možné. Při jedné příležitosti Šimon Peres údajně zavolal Rosenbaumovi a požadoval 7 milionů dolarů do 24 hodin „pro izraelskou národní bezpečnost“. Rosenbaum vyhověl a doručil finanční prostředky přes noc. Vzhledem k tomuto druhu činnosti není překvapivé, že ICB se v letech 1974-1976 zhroutila kvůli nárokům na skimming a uloupení aktiv. Příběh je tak zamotaný, že připomíná výlet do Aliciny králičí nory nebo přes zrcadlo. („Globální bankovní spleť a její ztracené miliony“)

Až na několik výjimek studenti atentátu na JFK obvykle mlčky přešli téměř jisté zapojení židovského podsvětí do zločinu století. To se musí změnit z důvodu, který by měl být samozřejmý. Na počátku 60.

let představovala právní křížová výprava generálního prokurátora Roberta Kennedyho proti organizovanému zločinu vážnou a bezprostřední hrozbu pro zločineckou síť Meyera Lanského v USA. V roce 1961 Kennedyho ministerstvo spravedlnosti uvěznilo Mickeyho Cohena, šéfa Lanskyho na západním pobřeží, a obvinilo ho z daňových úniků. (Wyatt Reid, *Inside Mob Boss Mickey Cohen's okázalý Reign as the King of Los Angeles*, 6. srpna 2022, zveřejněno na <https://allthatsinteresting.com/mickey-cohen> )

V roce 1963 se ministerstvo spravedlnosti RFK zaměřovalo také na další Lanskyho postavu, Carlose Marcella, který řídil Lanskyho holdingy v New Orleans. Marcella již jednou deportovali a v roce 1963 se o to pokoušeli znovu. Židovský dav měl jistě motiv zbavit se Kennedyho. Říká se tomu sebezachování. Takže mě nepřekvapilo, když jsem se dozvěděl, že Marcello je na seznamu a že byl přítomen tu noc u Murchisona. (Hank Messick, *Lansky*, 1971, s. 86 – 87)

Říká se, že nade dveřmi v Marcello's Town and Country motelu v New Orleans visel nápis. Nápis hlásal: TŘI MOHOU UDRŽET TAJEMSTVÍ, POKUD JSOU DVA MRTVÍ. Ačkoli Marcellova skutečná role v atentátu na JFK zůstává nejasná, jedním pravděpodobným důvodem jeho účasti v Dallasu by bylo reprezentovat Lanskyho.

Role Jacka Rubyho byla naopak velmi viditelná. Později Ruby svému obhájci Williamu Kunstlerovi řekl, že zabil Oswalda „pro Židy“.

Přiznání je tak šokující, že jsem získal kopii Kunstlerovy autobiografie, abych potvrdil, že to řekla Ruby. Žádný omyl, citát najdete v Kunstlerově knize černobíle, doslovně. Ale neméně šokující byl Kunstlerův slovní hokus-pokus, když se pokoušel poznámku stočit a vysvětlit ji. (William Kunstler, *Můj život radikálního právníka*, 1996, s. 158-160)

Kunstler popsal Ruby jako „jednu z nejvíce zmatených a matoucích lidí, jaké jsem kdy potkal“. Ale Ruby se mi v rozhovoru z roku 1965 zdá naprosto jasná. ( <https://youtu.be/pooxqYBIEw> ) Všimněte si, na konci Ruby zmiňuje, že kdyby byl Adlai Stevenson viceprezidentem, k atentátu na JFK by nikdy nedošlo. Jeho význam

nemohl být jasnější. Stevenson byl Kennedyho preferovanou volbou pro viceprezidenta v roce 1960. Ruby osočuje Johnsona za Kennedyho vraždu.

Podle Petera Dale Scotta byl jedním z prvních telefonátů Ruby po Oswaldově zatčení Al Gruber, spolupracovník Mickeyho Cohena. (Peter Dale Scott, *Deep Politics and the Death of JFK*, 1993, str. 143) Můj vlastní názor je, že Ruby dostala rozkaz od LBJ, aby zasáhla Oswalda. Ale je také možné, dokonce pravděpodobné, že Ruby potřeboval nějaké další „přesvědčování“, aby ztuhl nervy. Jakékoli rozhodnutí davu zakrýt atentát na amerického prezidenta by muselo přijít úplně shora. To by mohl být Luciano, nebýt skutečnosti, že Luciano zemřel v předchozím roce. V listopadu 1963 tak zůstal Meyer Lansky šéfem šéfů. Ale Lansky by takovou zprávu nikdy nedoručil osobně. Práci by delegoval na někoho blízkého Ruby. Ale ne Cohen, který byl stále za mřížemi.

Jak řekla Gail Raven, bývalá přítelkyně a exotická tanečnice v Ruby's Carousal Club: 'Neměl na výběr... Jack měl šéfy, stejně jako všichni ostatní.' Všimněte si, že Raven odkazuje na „šéfy“, nikoli na šéfa. (Arnaldo M. Fernandez, „The Hit Man And The Mobster: Jack Ruby And Santos Trafficante“, zveřejněno na <https://jfkfacts.org/the-man-and-the-mobster-jack-ruby-and-santos-trafficante/> )

### **Dorothy Kilgallenová málem praskne a otevře případ**

Dorothy Kilgallen byla jednou z nejinteligentnějších novinářek, které psaly o atentátu na Kennedyho. Byla také jednou z nejstatečnějších. Po mnoho let byl Kilgallen pravidelným účastníkem populárního televizního kvízu What's My Line? kde prokázala schopnost myslet na vlastní nohy. Kilgallen měl talent odhalit skutečnou identitu hlavních hostů. Napsala také týdenní sloupek se zprávami a drby, který přineslo 200 novin. Specialitou Kilgallenu byly šťavnaté kousky z Hollywoodu, vysoce profilované soudní případy a nevyřešené vraždy. V 50. letech se Kilgallen těšila statusu celebrity, který v její době neměl obdoby.

Byla také zarputilou vyšetřovatelkou s instinkty krvavého psa. Po atentátu na Kennedyho byl Kilgallen prvním novinářem, který zpochybnil oficiální příběh osamělého střelce. Ve skutečnosti tak učinila ve svém dalším sloupku zveřejněném týden po atentátu. 29. listopadu 1963 napsala: „Případ je uzavřen, že? No, rád bych věděl, jak se ve velkém chytrém městě, jako je Dallas, mohl muž jako Jack Ruby, provozovatel striptýzové honky tonk, procházet dovnitř a ven z policejního ředitelství, jako by to byl klub zdraví v době, kdy malý armáda strážců zákona držela na Oswaldovi ‚přísnou ostrahu‘... Proto tolik lidí říká, že na zabití Oswalda je ‚něco divného‘, něco divného na způsobu, jakým byl jeho případ řešen, hodně chybí na oficiálním účtu...”

Později, když se Kilgallen zúčastnila soudu s Jackem Rubym v Dallasu, byla jedinou novinářkou, které byl poskytnut soukromý rozhovor s obviněným (při dvou příležitostech). Bylo to na žádost Ruby. Zjevně 'What's My Line?' byl jeden z Jackových oblíbených televizních pořadů. Kilgallen napsal, že se u soudu zdržela, protože jí bylo řečeno, že Ruby chce mluvit. Když na ni Rubyin spolupradce Joe Tonahill pokynul, šla k obhájci. Ruby vstala a zdvořile si potřásla rukou. Napsala, že ačkoli se usmíval, „celkový efekt byl nevyřetitelně smutný“.

Kilgallen ho popsal trýznivými slovy: „Rubyho oči byly skleněné, a když jsme si potřásl rukou, jeho ruka se v té mé chvíli tak trochu jako tlukot srdce ptáka. Jsem nervózní a ustaraný, řekl jí. Cítím, že jsem na pokraji něčeho, čemu nerozumím, možná bod zlomu. Ruby jí pak řekl, že se 'opravdu bojí'. (

<https://www.thedorothykilgallenstory.org/dorothy-kilgallen-in-words.html> )

Podle jednoho tvrzení předsedající soudce Joe B. Brown dovolil Ruby a Kilgallenovi (s Tonahillem) odejít do komory k rozhovoru za zavřenými dveřmi. Při této příležitosti nebyly přítomny ani Rubyiny strážce. (Lee Israel, *Kilgallen*, 1979)

Jack Ruby nikdy nesvědčil u vlastního soudu. To bylo nedílnou součástí strategie obhájce Marvina Belliho vylíčit ho jako „dočasně nepřičetného“ v den zabití. Strategie však selhala. Ruby byla odsouzena. Přesto se během výpovědi několika svědků objevily rozpory, které naznačovaly, že oficiální narativ nemůže být správný. Například místo, kde se Ruby v době atentátu nacházela, vyvěsilo červenou vlajku. Jeden svědek vypověděl, že v době, kdy byl Kennedy zastřelen, byla Ruby v kancelářích *Dallas Morning News*, které se nacházejí několik bloků od Dealey Plaza. Okna kanceláře směřovala na Plaza s přímým výhledem na Texas Book Depository. Postavil se Ruby úmyslně, aby sledoval atentát? Pokud ano, znamenalo to, že měl předchozí znalosti. (

<https://markshawbooks.com/assets/images/Jack-Ruby-Trial-Transcript-Excerpts-Exposed-2.pdf>)

Přihlaste se k odběru nových sloupců

Když jsem zkontroloval rozvržení centra Dallasu pomocí softwaru Google Earth Pro, byl jsem schopen změřit vzdálenost od budovy *Dallas Morning News* k místu „vražedné zóny“ na Elm Street. Vzdálenost je 1 460 stop.

Další svědectví odhalilo, že Ruby už sledovala (pronásledovala?) Oswalda večer 22. listopadu, když úřady představily obviněného Oswalda v poutech tisku na radnici. Policejní shromažďovací místnost byla plná reportérů a fotografů. Ruby byl viděn s perem a blokem v ruce, jak se choval, jako by byl členem tisku, což nebyl. Z výslechu dalších svědků také vyplynulo, že stínování pokračovalo i další den. Odpoledne 23. listopadu byla Ruby viděna ve třetím patře radnice, těsně před oddělením vražd, kde byl vyslýchán Oswald. Ruby byla na chodbě přeplněné tiskem. Stejně jako předtím se vydával za reportéra. Ale Ruby byla na radnici dobře známá a jeden z detektivů zakřičel: "Jacku, co tady děláš?" Detektiv musel křičet, aby ho slyšel, protože chodba byla přeplněná a hlučná. Ruby pokynula a odpověděla: "Pomáhám všem těm chlapům." (

<https://markshawbooks.com/assets/images/Jack-Ruby-Trial-Transcript-Excerpts-Exposed-2.pdf>)

Tyto nesrovnalosti jistě znamenají, že Rubyino setkání s Oswaldem se nestalo náhodou. Ani střelba nebyla impulzivní čin. Bylo to předem promyšlené. Stínování také podkopává to, co Ruby řekla Warrenově komisi, tj. „Nikdo jiný mě o nic nepožádal. Nikdy jsem s nikým nemluvil o pokusu o cokoli. Žádná podvratná organizace mi nedala žádnou představu. Žádné osoby z podsvětí se mě nesnažily kontaktovat. Všechno se to stalo toho nedělního rána...“

V březnu 1964 se Kilgallen pokusil kontaktovat Roberta Kennedyho prostřednictvím Pierra Salingera, který Kennedymu řekl, že „má nějaké informace, které vám chce předat“. Ke schůzce však nikdy nedošlo. Během tohoto těžkého období se RFK vypořádal se svým vlastním smutkem a ztrátou a vyhýbal se kontaktu s novináři, zvláště s těmi, kteří vyšetřovali vraždu jeho bratra. (David Talbot, *Bratři*, 2007, s. 262)

Mnoho výzkumníků odmítlo proces Jacka Rubyho jako bezvýznamný, pravděpodobně proto, že Ruby nikdy nesvědčila. Ale mám podezření, že tito skeptici nikdy nestudovali přepis soudního procesu v Dallasu. Soud jistě přesvědčil Kilgallena (podle mého názoru správně), že Ruby byla klíčem k tomu, aby se zjistilo, kdo zabil Kennedyho.

To pravděpodobně vysvětluje, proč v srpnu 1964, asi měsíc před oficiálním vydáním zprávy Warrenovy komise v září, Kilgallen unikl Komisi celý přepis tříhodinového svědectví Ruby. Nějakým způsobem se jí podařilo získat kopii o délce 102 stran. Kilgallen serializoval celý přepis ve třech vydáních *The New York Journal-American*. S výhodou zpětného pohledu se zdá, že unikla přepis, aby upozornila na nešikovné výslechy Komise ohledně Ruby, ale také, a to je důležitější, aby objasnila nesrovnalosti odhalené při jeho soudu v Dallasu. Únik přiměl J. Edgara Hoovera, aby nařídil odposlech na Kilgallenově telefonu. Také ji dal pod dohled.

Dorothy Kilgallen nikdy neprozradila podrobnosti o svých rozhovorech s Jackem Rubym. Vše plánovala sdělit v připravované knize *Murder One*, kterou vydá Random House. Mezitím si neustále uchovávala své poznámky a rukopis o své osobě. Řekla přátelům, že

je blízko k odhalení, kdo zabil Kennedyho. Ale Kilgallen nežila dost dlouho na to, aby dokončila svou knihu. 8. listopadu 1965 byla nalezena mrtvá ve svém bytě na Manhattanu. Její osobní kadeřník Marc Sinclair našel tělo a okamžitě dospěl k závěru, že byla zavražděna. Kilgallen byla úplně oblečená, seděla v posteli, kterou nikdy nepoužívala, v pokoji, ve kterém nikdy nespala. Hlášenou příčinou smrti byla směs alkoholu a barbiturátů, jejichž stopy byly nalezeny na okraji sklenice. Její rukopis a poznámky zmizely. Ale spiknutí proti Kennedymu nebylo pouhým státním převratem ze strany viceprezidenta hladového po moci, ani tahem židovského podsvětí na obranu své říše pašeráků drog. Sázky byly nekonečně vyšší, jak se chystám ukázat.

### **Ben Gurion a JFK**

Poslední jméno na seznamu Madeleine Brownové, o kterém budu mluvit, je John McCloy. Ale není zdaleka nejmenší. Když jsem viděl jeho jméno, byl jsem ohromen tím, co to znamená. Stačí si vygooglit „John J. McCloy“, abyste ocenili, kdo tento muž byl. V průběhu padesáti let McCloy radil osmi prezidentům od Franklina D. Roosevelta po Ronalda Reagana, včetně Johna F. Kennedyho. Dovolte mi krátce zhodnotit jeho legendární kariéru. Jako mladý dělostřelecký důstojník se McCloy krátce setkal s bojem během posledních měsíců 1. světové války. Po válce se vrátil na Harvard a dokončil právnickou fakultu. Během dvacátých a třicátých let minulého století si McCloy užil úspěšnou kariéru právníka na Wall Street. Tato etapa jeho života však skončila v roce 1940, kdy ho naverboval americký ministr války Henry Stimson. McCloy sloužil pod Stimsonem během druhé světové války jako válečný plánovač a v otázkách zpravodajských služeb. Během tohoto období McCloy a James Donovan založili Úřad strategických služeb (OSS), předchůdce CIA. Po válce se McCloy stal prezidentem Světové banky a poté sloužil jako první vysoký komisař pro Německo. V této funkci dohlížel na vytvoření Spolkové republiky Německo.

V 50. letech McCloy působil jako předseda Chase Manhattan Bank, byl předsedou Fordovy nadace a také správcem Rockefellerovy nadace. Řadu let také působil jako předseda prestižní Rady pro zahraniční vztahy. McCloyovo spojení s Rockefellerovými sahá až do jeho dob na Harvardu. Stručně řečeno, McCloyův pozoruhodný životopis naznačuje, že v 50. letech minulého století dosáhl vrcholu mocenského establishmentu USA a patřil mezi vybranou skupinu mužů, kteří vládnou Americe. Patřil mezi elitu.

McCloy radil prezidentu Kennedymu v otázkách odzbrojení a kontroly zbrojení. Pro tuto diskusi je však zvláště důležité, že v roce 1963 Kennedy naverboval McCloye, aby se stal jeho osobním vyslancem na Blízkém východě. Cíl jeho návštěvy: zprostředkovat dohodu s izraelským premiérem Davidem Ben Gurionem a zajistit americkou inspekci izraelského jaderného reaktoru Dimona. V té době vlastnily jaderné zbraně pouze čtyři národy a Kennedy to tak chtěl zachovat. Kennedyho znepokojila rostoucí pravděpodobnost, že se do „jaderného klubu“ chystají připojit četné další národy, včetně Izraele. (Avner Cohen, *Izrael a bomba*, 1998, s. 132)

Ben Gurion Kennedymu slíbil, že reaktor Dimona slouží výhradně k mírovým účelům. Když se Kennedy setkal se Šimonem Peresem v Bílém domě, Peres ho rovněž ujistil, že Izrael „nebude první zemí na Středním východě, která zavede jaderné zbraně“. Ale co to vlastně znamenalo? Američtí zpravodajští experti věděli, že reaktor Dimona byl francouzského designu a že přenos technologie osobně zařídil Peres. Vzhledem k Peresově jestřábí rekord Kennedy jistě zůstal skeptický. Američtí jaderní experti řekli Kennedymu, že jsou potřeba minimálně dvě inspekce ročně, aby bylo zaručeno, že reaktor nebude použit k výrobě plutonia pro jaderné zbraně. A nabídka Ben Guriona na (možná?) jednu návštěvu ročně zapadla. (*Izrael a bomba*, str. 118)

V polovině června 1963 McCloy přijel do Washingtonu DC na tři dny instruktáží s úředníky administrativy, po kterých se setkal s Kennedym. V této době JFK podepsal důrazně formulovaný dopis

Ben Gurionovi, který se rovnal ultimátu. Zúčtování s USA, kterému se Ben Gurion snažil vyhnout, se zdálo být bezprostřední. ( *Izrael a bomba* , str. 156)

Najednou však Ben Gurion rezignoval, pravděpodobně to byl úskok, aby nemusel reagovat na Kennedyho ultimátum. Tím se problém Dimony dostal do limbu. Navzdory tomu McCloy pokračoval v první části plánované diplomatické mise: do Egypta, kde se poradil s Abdulem Nasserem. Egyptský prezident vyslechl McCloye, ale nebylo divu, že byl nezávazný. Vzhledem k tomu, že Izrael nereagoval kvůli rezignaci Ben Guriona, Kennedy zrušil další úsek McCloyovy cesty do Tel Avivu. McCloy se vrátil do Washingtonu a během týdnů Bílý dům iniciativu opustil. Nový premiér Levi Eshkol trval na tom, že potřebuje více času na prostudování Kennedyho návrhů.

Mezitím Kennedyho navrhovaný částečný zákaz testování získával na síle. JFK pravděpodobně usoudil, že záležitost inspekce Dimona může počkat na později, a znovu zaměřil své úsilí na tuto další neméně důležitou otázku. Jak víme, mise Averella Harrimana do Moskvy v červenci 1963 byla úspěšná. Koncem července USA a Sověti parafovali dohodu o zákazu atmosférických jaderných testů. V září 1963 smlouvu ratifikoval americký Senát a během šesti měsíců k ní přistoupilo nebo ji přímo podepsalo více než 100 zemí. Částečný zákaz testování byl velkým úspěchem pro Kennedyho i pro svět.

### **John McCloy ukazuje své barvy**

Nyní se dostáváme k temné straně. Jako Rockefellerův muž měl McCloy mnoho přátel v ropném průmyslu, včetně Clinta Murchisona. Víme, že během léta 1963 Murchison hostil McCloye na jeho mexické haciendě „lovit bílá křídla“. Lze si jen představit, o čem tyto dva mocní muži diskutovali u steaků a nápojů. ( *LBJ and the Kennedy Killing* , str. 356)

McCloyova následná účast na schůzce 21. listopadu 1963 v Murchisonově domě v Dallasu naznačuje, že „moudrý muž“ z Wall Street se rozhodl zradit Kennedyho a připojit se k puči proti oprávněné autoritě. McCloy byl všechno, jen ne volné dělo. Jeho zapojení jistě znamená, že ostatní členové americké elity o

nadcházejícím převratu věděli a podporovali jej. *David Rockefeller již učinil neobvyklý krok a zveřejnil v časopise Life důrazně formulovaný dopis, který kritizoval Kennedyho hospodářskou politiku.*

Je spravedlivé předpokládat, že McCloy informoval Murchisona, LBJ a další o Kennedyho zablokované iniciativě inspekce reaktoru Dimona. Ačkoli Kennedy později získal souhlas premiéra Eshkola s americkými inspekcemi, jeho nástupce nesdílel Kennedyho hluboký závazek k nešíření. LBJ byl víc než ochotný podívat se jinam.

Kontroly byly, to ano, ale ne dvě za rok. Od minimálního požadavku bylo upuštěno. Víme také, že Izraelci oklamali americké inspektory tím, že nainstalovali fiktivní kontrolní místnost s falešnými ciferníky a falešnými daty.

Američtí vědci si mysleli, že reaktor vyrábí elektřinu, když ve skutečnosti byl nastaven tak, aby maximalizoval produkci plutonia. I když inspektoři procházeli, reaktor pilně vyráběl plutonium pro bomby. Izraelci oklamali inspektory také jiným způsobem, když zazdili dveře výtahu, aby skryli šachty do tajného separačního závodu šest pater pod zemí. Zdá se, že skutečnost, že jim to všechno prošlo, je ještě více povzbudila. U příležitosti inspekce v roce 1968 se Izraelci stali agresivními a obtěžovali americké inspektory tak otevřeně a agresivně, že vědci návštěvu ukončili. Byla to poslední inspekce v USA. Proč se vůbec trápit? Američtí představitelé si museli uvědomit, že to všechno byla šaráda. (Mark H. Gaffney, *Dimona: Třetí chrám*, 1989, str. 69)

6. prosince 1963, sotva dva týdny po Kennedyho vraždě v Dallasu, Johnson udělil Johnu McCloyovi Prezidentskou medaili svobody za blíže neurčené zásluhy o zemi. O několik dní později Johnson také vybral McCloye, aby sloužil ve Warrenově komisi. Podle mého názoru byla tato veřejná Johnsonova gesta „back-to-back“ signálem pro americkou elitu, že státní převrat byl úspěšně dokončen. Jak víme, McCloy byl pilným účastníkem „vyšetřování“ Warrenovy

komise a pomáhal propagovat příběh o osamělém střelci.

„Orwellovský“ je jediné slovo vhodné k popisu této temné kapitoly v historii USA.

O McCloyových názorech na zahraniční politiku USA dnes nemůže být pochyb. Záznam je jasný. Zatímco ve Světové bance McCloy spolupracoval s Mezinárodním měnovým fondem (MMF), aby pomoc zemím třetího světa podmínila úspornými opatřeními, která je udrží v závislosti na Západě a zabrání jim v rozvoji jejich vlastních ekonomik. Když byl ve Fordově nadaci, McCloy zařídil, aby tato domnělá filantropická instituce tajně rozdělila peníze CIA na tajné operace. V březnu 1964 pomohl McCloy zorganizovat převrat CIA, který svrhl populárně zvoleného a nekomunistického prezidenta Brazílie Joaa Goularta. Abych to shrnul, McCloy byl nekolonialista a o nic menší darebák než Lyndon Johnson. (Donald Gibson, *Battling Wall Street*, 1994, s. 71-72, 79; viz také William Blum, *Killing Hope*, 1995, s. 163 – 169)

Na závěr musím přidat upřesnění. Ačkoli Richard M. Nixon byl také na Brownově seznamu, republikánský politický agent a autor Roger Stone znal Nixona osobně a dělal s ním rozhovor. Stone říká, že Nixon odešel z večírku u Murchisona dlouho předtím, než dorazil Johnson, a tak nebyl součástí spiknutí s cílem zabít Kennedyho. Ve světle toho jsem si dovolil vypustit Nixonovo jméno z Brownova seznamu. Jinak Stone dospěl ke stejnému závěru jako Tague o tom, kdo zabil JFK. Nixon, důvtipný politik, bezpochyby nakonec sám přišel na to, co se stalo a kdo je za to zodpovědný. ( *Muž, který zabil Kennedyho* , str. 229)

Na základě mého výzkumu mám podezření, že Madeleine Brownová se také mohla mýlit s jedním dalším jménem, Clint Peoples. Problém potřebuje více prověřování.

V následujícím článku ukážu, že Lyndon Johnson byl zarytý sionista. Mark H. Gaffney je autorem knih *Dimona: The Third Temple* (1989) , *Gnostic Secrets of the Naassenes* (2004), *The 9/11 Mystery Plane and the Vanishing of America* (2008), *Black 9/11* (2. vydání, 2016 ) a

jeho nejnovější *Hluboká historie a věky člověka* (2022). Marka lze zastihnout pro komentář na adrese [markhgaffney@earthlink.net](mailto:markhgaffney@earthlink.net)

“The last few years have been a painful time for those of us old enough to remember the 1960s. Over my lifetime I watched my country decline by every measure of greatness. It’s been excruciating, slow and nearly imperceptible from day to day...”

Indeed.

Deciphering the dark fairy tale that is the standard explanation of President Kennedy’s murder, without the Zionist component, is somewhat like doing math without the number zero. You will never get the correct answer.

Lyndon Johnson was certainly one of the most evil, disgusting human beings in American politics. Maybe in American society generally.

@Just another serf

“The last few years have been a painful time for those of us old enough to remember the 1960s. Over my lifetime I watched my country decline by every measure of greatness. It’s been excruciating, slow and nearly imperceptible from day to day...”

I was a 15 year old in 1963. ...Born in 1948, the atmosphere was redolent with the perfumed air — to cover the stench — of the Allies destruction of those evil enemies the Japanese and the Germans. During the war years these enemies were know as Japs and Krauts and while these appellations gradually diminished they were still portrayed as such in certain DC comic books.

GI Joe, a comic book hero — usually depicted with an unshaven jaw clenching a half smoked cigarette and a chattering machine gun, spewing spent cartridges into the air while the enemies bodies flew in all directions — epitomized the urgent requirement to stand up to evil. And father figure Walter Cronkite narrating TVs Twentieth Century amplified the message citing triumph and sacrifice while recounting the various battles fought for freedom.

As a young boy I lived in England. Although Jerry aimed to destroy the London docks in the east side of London, enough bombs fell in the neighbourhood where I lived to leave gaping holes where houses once stood. I asked my Grandmother and mother what happened? Their answer “It was the war dear,” no doubt made the prospects of a nuclear war real for me in a way it didn’t seem real to my friends or the teachers here in the New World.

My father read the NY Times in those days. In it were depictions of the effects of a nuclear bomb if one was dropped on New York City. School suddenly seemed rather insignificant and unimportant to me.

I wanted to know “What caused the madness which existed long before I was born, and was continuing in 1963?”

Kennedy was a WWII hero! I was shocked. In fact I stayed home and watched subsequent events on TV, just as I had stayed home to watch Russian ships turning back from Cuba a few months before. I remember the air raid siren outside in front of the school squatting ominously on top of a steel pole.

The 1950 and early 1960s were not as they seemed — or were made to seem. There was always an undercurrent of violence. Unions turned out to be run by gangsters. The music business was exposed — payola was what bribing the stations was called. Pay to play! The military industrial complex had ominous undertones suggesting “payola” played a role there. Even then, it was clear something about the world was not as depicted on Disneyland.

Over the years I read voraciously. Everything I could get my hands on. My father took me to the library from an early age. I was considered precocious. And of course not a very good student. I argued! Or did not attend. And then I was old enough to spend the Day in the Library.

By the time the Internet emerged I had discovered that much of what was being gradually revealed as unlikely to be true and promulgated by tin hat wearing conspiracy mongering degenerates was in fact verifiably true. ...And exactly as being portrayed.

As a precocious and omnivorous reader of biographies, histories, economics, politics, etc., and periodicals, popular magazines, and business magazines — I discovered nothing was written free of the writers agendas, public and private. Often things written, said in public, said when interviewed, broadcast or quoted as saying was contradicted, or revealed by a slip of the tongue, as a lie or an intentional misdirection. One comes across instances of people claiming to have been somewhere or done something when they were elsewhere.

Obviously I was not the only person paying attention when they were reading. Still today though politicians lie even when caught on camera saying something which they later deny.

Today's events are mirrors of the past. There is nothing new under the sun. We are born at the bottom of a well of ignorance. There is no decade anywhere where men and women behave the way children perceive the world or are encouraged to see the world. Our schools are the ultimate brainwashing institutions. Waking up is painful, distressing, and disillusioning. Still although the truth hurts it most certainly encourages one to reject knee jerk reactions and verify the truth for oneself.

In Gaffney's fantasy world, crafty Izzies arrange an intricate plot (in fact several alternate plots.) They get the commanding heights of the economy on board in a big drunk glitzy party.

They telegraph their intentions with wanted posters. They shoot JFK and immediately turn off law enforcement investigation at all levels, from Air Force One down to the customs gumshoes at the airport. They put an Oswald double on a CIA plane. They follow CIA's uniform template for coups with such perfect fidelity that JFK's murder is subsequently taught to US special forces as a classic case study.

And through it all CIA counterintelligence sits there pulling their dicks. Cause they didn't notice. Or something.

Or well maybe they did notice, because they photographed Ed Lansdale with the tramps, clearly signaling their control to the world outside. They presided over the bullshit whitewash commission. But, uh, um, that's because the Izzies control them. With their superhuman wheedling & cajoling skills. And stuff.

Gaffney's fantasy world depends on CRIMESTOP-level cognitive repression of the obvious and undeniable fact of CIA impunity. CIA had a dozen get-out-of-jail-free cards in law, secret decree, judicial precedent, and sub rosa MOUs. That arbitrary power means CIA is the command structure of the US government. You can't shoot a head of state and impose universal public acquiescence unless you have impunity in municipal law. CIA has it. Izzies don't.

I know it's humiliating to admit that you grew up in a criminal totalitarian state and all the time you actually thought you lived in a democracy, and you voted and wrote school essays about democracy and republics and freedom and shit like that. That

you were a dupe, a chump, a helplessly obtuse stooge. But it's time to stop pretending you're a moron. The whole world knows what's what, and they're laughing at you.

**Without a doubt the motives of both the Jews and LBJ to murder JFK are compelling and better than any other. Nonetheless motive is not sufficient to conclude murder even circumstantially.**

The Jews controlled the US financial system and the money supply with the private “Federal” Reserve system and they were well placed throughout US Gov’t bureaucracy. As a result JFK could easily have been obstructed by the Jews through their control of most of the Executive Branch Agencies. It’s likely he was obstructed. They didn’t directly control JFK but neither did they control Nixon, Carter or Trump. **They easily moved Nixon, Carter and Trump out of the Presidential office without assassinating them. Why did the Jews need to kill JFK? And where is the evidence at the crime scene in Deally Plaza? So far noticeably absent.**

**Didn’t the Jewish mob control J. Edgar Hoover with blackmail over his homosexuality? JFK was equally vulnerable with his extra marital philandering. In the the 1960s before the sexual revolution and Roe v. Wade photos of President JFK playing grab ass with Marilyn Monroe and other women would have been the end of the “Catholic” President.** Furthermore Israel had no intention of abandoning its Dimona program to create nuclear weapons. They could easily have delayed and prevaricated until JFK was pushed out of office. Congress had the power of the purse strings and not JFK. It is highly unlikely that Congress would ever have cut aid to Israel—JFK or no JFK.

**Motive is necessary but certainly not sufficient to prove JFK was assassinated by the Jews or their proxies. Again where is the evidence at Deally Plaza? Other than Oswald where were the other purported shooter(s). Ballistics**

eliminates a lot of possibilities. It's never been clear that ballistics ever pointed to the grassy knoll nor was there photographic or eyewitness evidence of a long gun on the grassy knoll. The CBS news re-enactment of the Dealey Plaza shooting with several volunteer marksmen proved that a shooter, using the same 6.8 mm Carcano bolt action rifle, could from a position similar to the 6th floor book depository could fire 3 rounds in under 6 seconds and hit a JFK sized target at least twice while in a moving.

The problem is that the ballistics evidence from JFK's autopsy and the Zapruder Film doesn't confirm more than one hit from Oswald's 6th floor perch. There was at least one other shot from a frangible round that hit JFK in the head from a different location. **Where was that second shooter, who was that shooter, what was the caliber and why was the shooter there? Mostly the assassination theorists make no effort whatsoever to answer believing wrongly that motive carries the day.**

It has largely been concluded that Oswald was a loner with a poor home life who failed at nearly everything he tried. He was an unstable screw up. When he first attempted to defect to Russia the US Embassy talked him out of renouncing his citizenship and the Russians initially refused. It wasn't until after he attempted suicide in a local Russian hotel that the Russians decided to let him in to avoid an international incident. A few months before the JFK assassination Oswald failed in an attempt to assassinate retired Col. Edwin Walker. From his attempt to defect to Russia until he squeezed his trigger twice (not three times) in the Dallas Book Depository he was looking to do some great but terrible thing. His protestations after his capture that he was "set up" is too self-serving for my tastes. **Neither the Jews nor LBJ would have been stupid enough to hire Oswald to clean a latrine let alone pull**

**off the assassination of a President. However once JFK was dead ALL of his enemies had every motivation to stop the trail with Oswald.**

**Then we move to JFK's intentional decisions that favored an assassination success He chose to ride in an open top limo and refused to let Secret Service Agents stand on his rear bumper which was their routine. Then there was the fact that most of the Secret Service detail spent the night and most of the early morning hours before the Deally Plaza drive carousing in local bars. Instead they could have spent the time with building managers closing access to windows facing the plaza. As far as I know none of them lost their jobs.**

As far as I know only one firearms expert, Howard Donahue, conducted a thorough 25 year long ballistics investigation at Deally Plaza using photos, videos taken, witness reports and autopsy reports. He easily dispelled and explained the ridiculous “magic” bullet theory. He participated in the CBS News reenactment as a volunteer marksman. He is the only one to point out with photographic evidence than another long gun was in the hands of person—in plain sight—in a position consistent with the autopsy results. His investigation was published in the Baltimore Sunday Magazine in the 1970s. It wasn't condemned or refuted—it was ignored because it didn't comport with all the conspiracy theories. And if it was true the fed gov't had an equally good reason to hope it went away.

**A partial chronicle of Howard Donahue's ballistic investigation at Deally Plaza can usually be found on one of the streaming services: “JFK: The Smoking Gun.” A more complete book is still available from Amazon: “Mortal Error: The Shot That Killed JFK” by Bonar Menninger published in 2013.**

| I still would like to know how they got Ruby to do it.

Good question—and one that has interested me for a while.

As best I can figure out Ruby was assured by his handlers that he would be a sympathetic figure and that the Mob could “fix” the jury if needed.

Jury tampering was a classic Mob tactic back in those days—and was often successful.

Repeating this comment since for some reason it didn't post as a reply to your comment –

NP. There's actually a lot more detail to that situation than is registered in that letter, though it is difficult to find even on the internet. A couple examples among numerous ones are the fact that the Israelis were intentionally illuminating marine positions with search lights to create a feeling of vulnerability. There is also an incident where a column of IDF forces attempted to push their way through a Marine road block and there was an argument between the IDF commander at the head of the column and a Marine commander wherein that Marine Commander put his service weapon to the IDF commander's head and told him in no uncertain terms to turn his column around and leave the area. There is also evidence that the Israelis withheld vital information that could have prevented the attack on the Marine barracks in Beirut that led to the deaths of 241 Marines if I have that number correct. Israelis didn't want us there. Ronald Reagan from what I understand had in reality inserted the Marines there as a blocking force between the Israelis and the refugee camps. And the Israelis worked overtime to get us out of the way. After all that's what supposed allies do right?

15, sigh. How, Curmudgeon, have Izzies been running the US?

If you were to ask someone, How has CIA been running the US, they would need to support their assertion with specific means, such as The National Security Act, the Central Intelligence Agency Act, NCSID-6, The Intelligence Identities Protection Act, the operational files exemption, the political questions doctrine, the state secrets privilege, the utmost deference doctrine, the deference upon deference doctrine, FASAB Standard 56, NSC 10/2, the National Security Directive of December 19, 1947, the Rogers-Huston memo et seq.

So how have Izzies been running the US?

And how do the Izzies short-circuit the institutions and assemblages that give CIA DO impunity and arbitrary power?

I believe the answer is that the CIA was and is thoroughly penetrated by Israel. We know, for example, that Angleton who ran the Israel desk at the time as well as counterintelligence was a double agent. This may explain the patsy Oswald who was much more of a Naval and FBI asset than a CIA asset. The Zionists somehow piggybacked their JFK assassination plot onto the CIA operation and this thoroughly compromised the CIA's position. Insofar as I am aware the details of that CIA operation involving JFK have never come to light — but apparently it fell short of an assassination. Only through insider information could the Zionists manage this. They did it again on September 11, 2001 which apparently was a plot within a plot.

I know it's humiliating to admit that you grew up in a criminal totalitarian state and all the time you actually thought you lived in a democracy

A criminal state, sure, but that was playing at games behind behind the scenes. At the level of daily life, everything – – well, almost everything – – was great. Oh, what a time, as they say. I am ancient, like the author, so it is especially painful to endure the affronts, frustrations, compromises, limitations, and humiliations of everyday life. It took thousands of years to get to “Oh what a time,” and now, in the blink of an eye of two generations, it is gone. I believe that if JFK had not been killed, it is extremely likely that the tragic unraveling would not have occurred.

Thanks much for the fine remembrance of the heroic Dorothy Kilgallen.

Shortly after her death a gossip columnist — of all people — who wisely stayed anonymous, gave the details of how Dorothy was killed. She was an “over-thinker” who needed sleeping pills after a busy day at work.

She used nembutals — the same pills Marilyn Monroe used — and had them delivered to her hotel room. The CIA knew of the prescription and pulled a switch. Kilgallen’s dose was an ordinary amount to make her drowsy. Her pills were switched by the agency, which looked the same but they were a hundred times the potency of her regular supply. Even one of the CIA-doctored pills was fatal.

Her room was cleaned and in the morning no evidence of her doctored drug supply was found. And of course none of her work on Ruby was ever found either.

@A. Pagano

| Why did the Jews need to kill JFK?

You have to look at the overall US political organization to get a motive.

First, the New Deal ended Anglo-Saxon dominance of the US Federal Government, which had been severely weakened under President Wilson. The New Deal also ran WW II, and found that FDR's attempt to save the New Deal by fomenting WW II had (quite unintentionally) left the New Deal in charge of almost all the industrial world.

But the New deal was a coalition of ethnic groups: Jews, Italians, Polish, Irish, various smaller groups. The groups didn't really mix, had not more cohesion than pellets in a shotgun blast. "In the end, there can be only one."

Jewish ethnicity had been highly influential, but the Irish politicians had been running the US Democratic Party coalition since (at a guess) the end of Reconstruction. Kennedy was a high water mark for the Irish politicians, and (unusually) had one competent family member that he could trust: RFK.

Together they did severe damage to the Jewish coalition. As Gaffney pointed out, JFK tried to at least limit Israel's influence over the US, and RFK convicted many Jewish racketeers (including the one I briefly worked for). Further, JFK had somehow managed to get good press. Perhaps the Irish ethnicity would continue to head the US Federal government.

And there was a way out. The New Deal had never been about the US, it was always about the big city professional politicians who "saw their opportunities and took them". The US small town public was fed comforting lies by the press, and discounted

the influence of large city politicians, which gave the Democrats a free hand as long as they “campaign conservative and governed liberal”. So the 1950s had a veneer of stability and continuity, but only a veneer. False issues abounded: JFK (son of a bootlegger and on pain pills much of the time) was honestly criticized as a Catholic who would be unduly influenced by the Pope, silly as that now sounds and dead as the Protestant/Catholic war really was by the early 1960s.

Then, suddenly, JFK was dead. Then RFK. LBJ passed the Civil Rights Act, which made Irish (but not Jews) white and therefore an oppressive ethnicity along with all other whites. He also passed the Immigration and Nationality Act of 1965, which ensured that the whites (including Irish) would become a minority in the US. Suddenly, the Irish were an oppressive group in a dwindling white majority. At about the same time we got the (Jewish red diaper) Counterculture and a broken military (I was in that fiasco) that and a lost Vietnam War. Irish politicians were identified with a South Boston (“Southie”) mob resisting the same Integration program that the South had been pilloried for resisting (and that subsequently destroyed urban schools). That was the end of the Irish politicians.

And the US had a stable Jewish coalition dominance that lasted until Obama’s second term. “It was done by a job, and a good job too.” (Gilbert & Sullivan, “Trial by Jury”).

How’s that for a motive for JFK’s assassination?

@Truth Vigilante

Article on 'Our First Jewish President Lyndon Johnson', still accessible via the Wayback Machine

<https://web.archive.org/web/20180812064546/http://www.5tjt.com/our-first-jewish-president-lyndon-johnson-an-update/>

Lyndon Johnson's maternal ancestors, the Huffmans, apparently migrated from Germany sometime in the mid-eighteenth century.

Both of Lyndon Johnson's great-grandparents, on the maternal side, were Jewish. The line of Jewish mothers can be traced back three generations in Lyndon Johnson's family tree. There is little doubt that he was Jewish.

I agree with Patton : the wrong ones won WWII. One must say the defeat of 1945. My difference with Patton, though, is that among the three, America was the worst : USSR should have stayed allied with Hitler and both super-powers should have joined to destroy the USA and the UK and prohibit the use of the French and English languages forever together with the whole humanistic literature written in one or the other. USSR was quite bad under Stalin but not worse than India under UK. Actually Stalin just wanted to modernize Russia like UK did with India.

Yet, despite all of the mind control and propaganda, *evidence has been mounting that vice president Lyndon Johnson (LBJ) orchestrated the assassination of John F. Kennedy*. I will now present some of the most salient points, the gist of what I have learned.

As I mentioned **here**, the ARRB uncovered information indicating a KGB investigation also concluded LBJ was behind the assassination — after the fall of the USSR, some of the Soviet era archives were released, e.g. **they finally admitted they were behind the Katyn killings** — so it would be interesting to see the complete KGB file on the JFK assassination.

| I believe the answer is that the CIA was and is thoroughly penetrated by Israel.

Mark, I would go much further than that.

The CIA/Mossad/Britain's MI6 are (and have been since Day One), wholly controlled subsidiaries of ZOG.

So, to the extent that the CIA and James Angleton was pivotal in the JFK coup d'etat, they were acting under instruction from the Zionist Usury Banking Cartel (aka ZOG) who ordered the hit on JFK, RFK, JFK Jr, the 9/11 False Flag, orchestrated the Anthropogenic Global Warming hoax, the Covid Psyop, the Ukraine proxy war and more.

Also Mark, in relation to the comments you made in your article about LBJ orchestrating the JFK hit (or words to that effect), certainly as the POTUS, LBJ played the lead role in the cover up of the crime and did what needed to be done in the aftermath to deflect attention away from the actual Zio perpetrators.

But let's get things in some perspective. LBJ, and ALL USG politicians/bureaucrats/Intel agency heads etc, in the post JFK era, are just BIT PLAYERS.

They are no more than HIRED HANDS reading from a Zio dictated script.

ZOG is responsible for and orders which egregious crimes are to be perpetrated.

NO SINGLE INDIVIDUAL on the planet has 1/1000th the financial and political clout/control of the judiciary/control of the entirety of the U.S Congress/western media control, that ZOG possesses.

Bottom Line: With financial wherewithal of multiples of U.S GDP and the capability to print/digitally conjure into existence scores of trillions more to dole out to itself and its Zio cronies, THERE CAN ONLY BE ONE ENTITY WITH THE MEANS TO ORCHESTRATE (and more importantly to cover up and get away with) any of these dastardly crimes.

And that entity is the Zionist Usury Banking Cartel (aka ZOG) headquartered in the City of London.

Unfortunately for you, your answer—to a **question I didn't ask**—was conceded by me in the opening sentence of (my) Comment #14. Let's look:

Without a doubt the motives of both the Jews and LBJ to murder JFK are compelling and better than any other.

I go on to point out in Comment #14 that the Jews (or their proxies) apparently had leashes on any number of Congressmen, Senators and Executive Agency Branch leaders via a variety of means which meant they didn't have to be killed. For example, the speculation that J. Edgar Hoover was being blackmailed into obedience by Lansky over his alleged homosexual escapades more than passes the plausibility threshold. Furthermore they handily swept Nixon and Trump out of office. The sexual escapades of the “Catholic” President JFK were more than enough to deep six JFK—either into submission or quickly out of office.

**So the ACTUAL questions I asked were:**

1. Why did the Jews need to kill JFK to maintain the status quo over the long run?
2. Where is the evidence at Deally Plaza (that is, the crime scene) that the Jews killed JFK?

And before you run down another blind alley where I didn't tread. . .no one—including me—denies a cover-up of what actually happened in Deally Plaza. That those with motives to kill JFK (and the list is apparently long) denied, prevaricated and obfuscated the truth of the events is undeniable. Try again?

@Just another serf

Deciphering the dark fairy tale that is the standard explanation of President Kennedy's murder, without the Zionist component, is somewhat like doing math without the number zero. You will never get the correct answer.

The addiction of so many on this blog to the narrative that all things evil are Zionist or Jewish is crazy. All the despicable things in this country involved many more gentiles than Jews.

@freedom-cat

freedom-cat wrote: "On a side note, I heard RFK Jr may run for President 2024. He's got guts!"

Sound principles too, and thanks, freedom-cat.

Nonetheless, as presidential campaigns slog ahead, contributions play a major role, and the many powerful ZUS lobbies can sink huge amounts of money into defeating an RFK, Jr.'s presidential run.

And like Senator Rand Paul (Ky) a choreographed visit to Jerusalem's Wailing Wall becomes necessary.

The addiction of so many on this blog to the narrative that all things evil are Zionist or Jewish is crazy.

As a card carrying member of the small hats, I'd expect no less from you Mr Unrealistic.

All the most egregious crimes of the last century and more have Zio fingerprints all over them.

Telling the truth is never crazy. Trying to deflect attention away from your Talmudic kinfolk is what you do best.

You just can't help yourself, can you ? You always have to stick up for the tribe.

It's just a reflexive response from you. No doubt you would've been in the corner of that child rapist and murderer Leo Frank just over a century ago.

As for LBJ's Jewishness (which you deny in your comment # 56), that is not speculation. It is 100% confirmed through the matriarchal line.

We can't help it that you're too lazy to research it and confirm it for yourself. (It has been covered extensively here in UR if you'd care to go through the archives on LBJ related articles).

Jewish fascism on the march in the US and Israel:

<https://www.voltairenet.org/article218957.html>

This school of thought refuses to apply international treaties in domestic law; judges the behaviour of others harshly, but absolves Americans who do the same on principle; and refuses to allow any international jurisdiction to take an interest in its internal affairs. In short, it believes that, for religious reasons, the United States is not comparable to other states and should not be subject to any international law. This US ideology is perfectly compatible with the political interpretation of the theological theory of the “chosen people.”

The Zionist-Nazi putsch and Nazification of Ukraine are the natural outgrowths of the “theological theory of the “chosen people.”

The Straussians, who are in power in the State Department and the White House, are now driving the change of its [Israeli] regime. Demonstrations are taking place throughout the country to prevent the country from becoming, in the words of a former Mossad director, “a racist and violent state that cannot survive.” But it is probably already too late. What is going on in Israel is not just about Israelis and Palestinians. Elliott Abrams is a historic Straussian, even more so than the US Secretary of State, Antony Blinken, and his deputy, Victoria Nuland. It is therefore foreseeable that if the “reform” of the Israeli justice system continues, the new regime will be fully aligned with the positions of the Straussians.

The Straussians (neo-talmudists):

<https://www.voltairenet.org/article217976.html>

Beginning in 1949, the German Jewish philosopher Leo Strauss taught at the University of Chicago. He formed a group of Jewish disciples from among his students. According to him, the democracies had shown their inability to protect the Jews from the Nazi final solution. To prevent this tragedy from happening again ... he advised them to build their own dictatorship. Several of the members of this sect have held very high positions in the United States and Israel. The operation and ideology of this grouping were the subject of controversy after the attacks of September 11, 2001.

The ideology of Leo Strauss was never discussed in the Jewish world before 9/11. In 2003, Benjamin Netanyahu's "revisionist Zionists" made a pact with the US Straussians, in the presence of other Israeli leaders. One of the characteristics of this group is that they are ready for anything. For example, they wanted to return Iraq to the stone age. This is indeed what they did. For them, all sacrifices are possible, including for themselves, as long as they remain the first; not the best, the first.

In 1992, an advisor to the Secretary of Defense, the Straussian Paul Wolfowitz, wrote the Defense Planning Guidance. It was the first official US document reflecting the thinking of Leo Strauss. ... The document speaks of a new "world order [...] ultimately supported by the United States", in which the sole superpower would only have temporary alliances, depending on the conflict. The UN and even NATO would be increasingly sidelined.

More broadly, the Wolfowitz Doctrine theorizes the need for the United States to block the emergence of any potential competitor to U.S. hegemony, especially "advanced industrial nations..." Particularly targeted is the European Union: "While the United States supports the European integration project, we must be careful to prevent the emergence of a purely European security system that would undermine NATO, and particularly its integrated military command structure. The Europeans will thus be asked to include in the Maastricht Treaty a clause subordinating their defense policy to that of NATO, while the Pentagon report recommends the integration of the new Central and Eastern European states into the European Union... For thirty years, this document has been patiently implemented.

**Like cancerous growth on the body of western civilization, the neo-talmudists will not stop the ongoing Jewish Fascism on the march until they are either eradicated or incapacitated.**

@A. Pagano

The author skims over the letter that JFK wrote to Ben Gurion stating that relations with Israel would suffer greatly if they did not stop building a nuclear weapon and allow biannual inspections. Ben Gurion did resign but JFK sent a similar letter to his replacement. JFK was murdered about 5 months later.

Laurent Guyénot and Michael Collins Piper books provide a better explanation of how Israel was in the center of the murder of JFK and undoubtedly also RFK.

No doubt the CIA was heavily involved especially CIA James Angleton who was a favorite of the Israelis and had three memorials built in Israel for his service to the country. I'm not aware of any built in the U.S. to honor his service.

It was well known that Mathilde Krim, an activist Zionist, who was married to the Jewish Arthur B. Krim, President of United Artists Corp., was a mistress of LBJ. Or should I say "handler".

Jerusalem Post carried a story headlined:

"Vanunu: Israel behind JFK Assassination." The newspaper reported that famed Jewish-born nuclear physicist, Dr. Mordechai Vanunu, recently released after spending 18 years in prison for exposing Israel's covert atomic weapons program—had charged that supporters of Israel's drive for nuclear weapons were involved in the JFK assassination precisely because of JFK's interference with their ambitions.

Israel was not going to allow anyone to interfere with their nuclear program and after JFK's murder the Dimona facility was never mentioned again and offensive weapons and aid increased dramatically under LBJ.

LBJ stayed on long enough to influence both coverups of the JFK and RFK investigations and coverup the premeditated Israeli attack on the USS Liberty. Israel now has only contempt for the U.S. and the western world which is reflected in comments like former Prime Minister Ariel Sharon:

“Israel may have the right to put others on trial, but certainly no one has the right to put the Jewish people and the State of Israel on trial.”

That so-called “Zionist coup” didn’t change much about the US as the leader of the terrorist USEUNATO conglomerate it already was in 1963. Kennedy’s “alliance for progre\$\$” gave the CIA ample room and wherewithal to conslitate continental drug-trafficking and money laundering business in the Americas. As Monroe had announced was the plan. Wasn’t Stalin even quicker than Truman to greet the fabrication of the Rothschild neocolony in Palestine at the UN in 1948?

To still be thinking that selected CEOs of any of the US-led terrorist regimes was gonna be any meaningful change, one must be developing some sort of severe retardation from taking the COVID-19 so-called “vaccines” the UNSC permanent members rolled out in coordination for the plandemic.

One other thing which is very telling about Johnson's possible role in the assassination. Under Johnson, the USS Liberty was attacked by Israeli fighter pilots. Rescue was initially sent out and called back by the White House. The matter was kept secret for many years. Sounds like to me that the Israelis had something on Johnson that he would allow his own citizens to be attacked by another country – Israel, with whole impunity. As friendly as our government is with the State of Israel, would any other President go so far in protecting Israel? I tend to doubt it.

Dear **MARK H. GAFFNEY**, you have written an excellent article on who really murdered JFK.

**Under the heading—facts are stubborn things:**

**Lee Harvey Oswald** could not have killed JFK—Oswald was given a “**gunshot residue test**” on the day JFK was assassinated—and Oswald he came up clean because he never fired a gun on that day. This makes the **Warren Commission Report** on JFK’s assassination a lying cover up.

**Robert F. Kennedy Jr** recently announced he is considering running of the US Presidency in 2024. After the assassinations of JFK, RFK, and I believe John F. Kennedy Jr, US elites will never allow Robert F. Kennedy Jr to live to become a US President. Why? Because the first thing Robert F. Kennedy Jr will do as US President is expose who really murdered JFK and RFK.

This Yankee obsession with J.F.K. is so strange. As if he hadn't been assassinated he would have done great things, like stopping the operations largely run on materials stolen by Jews in the U.S.A. for Dimona, who generally had dual loyalty. Actually, there may be something real in that aspect.

Stop the war in Vietnam? A joke, he stepped it up.

A big time philanderer, sure. Anyway, I'm bored so will read this umpteenth article about how J.F.K. was a wonderful person who could have been the saviour of your nation.

The obsession is amusing.

Johnson as VP changed the course of history. If Kennedy had chosen someone else, what would our nation be today? We'll never know, but it's an interesting thought.

I will not enter a detailed discussion of who killed JFK – for the 83,000th time on this web site – alone.

### **Who Did it?**

[MOSSAD & their junior partners, CIO, MI6. Serving the planet's leading Money Changing Oligarchs.]

Who continues in 2023, to cover up the truth about the Coup D'état of 11/22/1963?

[The owned Media]

**Now that that is out of the way, I wish to answer your questioning -“If.”**

**John F. Kennedy** believed he had to place on his electoral ticket a leading Southern politician – in order to hold enough of the Southern votes, to defeat Nixon and win the Presidency. Many have written that JFK was quite aware of the danger of placing such a sleazy crook, **L B Johnson**, – a heart beat from the Presidency. JFK felt he had to take the RISK. JFK's electoral victory was razor close, vindicating his risky alliance with a well known crook of a politician.

**Understand:** this was in 1960, when our country still sported the remnants of A Democratic Republic. Kennedy and his top supporters were working a risky strategy in order to obtain access to Executive Power, and guide our country into a better place (at least that was their stated goal).

**While in office, President Kennedy, THE SHORT LIST:**

1. avoided a Nuclear conflict,
2. Defended the Industrial Sector
3. Made great efforts to slow down a dangerous run-away Inflation.
4. Supported the Legal Equality of all Americans. (was the first President to do that).
5. Attempted to block the Zionist Oligarchs from obtaining Nuclear Weapons.
6. Announced plans to withdraw all American troops – from Vietnam.
7. Supposedly had sex with Marilyn Monroe (not important – but I doubt it).

Gaffney's "**Zionist Coup Against Kennedy**" is about right (as we say). The question is: What do we do about it?

Tl;dr

Just sick of the LowLives Murica's Politicians+Donors have been sleazing into the Whitehouse + Congress.

What I can recall from the "Big Picture Summary" Perspective:

The Masonic-Zionist Hegemon's Plutarchy, Vassal Oligarchs and Vassal-Mob Ochlarchs have taken over this Masonic Republic over a Century ago.

Through the Rentier-Bankers, Railroad/Oil Barons, Corporate Plunderers – as Oligarchs became Plutarchs, they began to merge with their counterparts across the Atlantic, where the Jewish-Tribal Diaspora were well integrated as their Faction controlled GBR and FRA.

We're seeing "incidents" like the JFK Assassination occur here and there. IIRC (limited points mentioned), JFK was allegedly:

A) Looking to prosecute LBJ;

B) Working on a Debt-Free Silver-backed Currency

(GoldMoney? cited that our U\$Ds are the property of the FEDRSV, loaned to the GOVT\_USA at 6% annual interest – that's different from the Debt Created Fractional Reserve "Currency" generated by Bankers. It's okay to yell/rage. Lincoln was allegedly assassinated for similar projects.);

C) Trying to make Peace with the Soviet Union (SUN in ISO Alpha-3 for the casual reader).

These Rentier-Banker Currency+FractionalReserve Systems need to be revised and reformed; but the Plutarchy+VassalOligarchs are used to Plundering Everybody –

including other Empires/Nation-States/Colonies – with Credit Crunches and Wars while riding the Industrial Revolution and advancements in Technology.

There was no “Government or implied Co-Prosperity” with/of/by “We the People” from the Plutarchy+VassalOligarchs’ perspective.

The Plutarchy became a Plutarchy of a Hegemony. Tried to Conquer the World – had their best opportunity to do so after the SUN Collapse+Plunder(mostly by “guess who?”) in the 1990s; but fortunately for Humanity, A) RUS recovered Economically+Politically as their Military+Nukes deterred the Hegemony from breaking RUS up – and B) CHN benefitted and Industrialized+MilitarilyDeveloped rapidly thanks to Foreign Direct Investment / Offshoring Mfg while staving off Western Colonization/Subjugation with their Military+Nukes.

“Guess Whom” were involved in previous Campaigns that challenged/felled Russia and China throughout the 19th-20thCE?

Some of the “Whom” have been “at it” – in one Domineering Scheme or another – for over Hundred of Years (e.g., vs Russia).

The Plutarchy will have to settle with EUROpe, Americas, PHL/AUS/NZL; but things would seem that they won’t and may eventually get in Wars that massively Backfire.

\*\*\*\*\*

Tall Fences make for Good Neighbors, Tall Border Walls and Immigration Policies make for Good Nation-States.

@Say the name JOHN MCCONE

McCone was JFK’s man in the CIA.

I have seen no evidence he was “in the loop” at all—if anything it was his job to prevent the CIA veterans from getting together to “do an op” on JFK.

There is evidence McCone did not support the Israeli nuclear weapons program—which meant for the coup plotters (Mossad and Angleton) he was “part of the problem”.

Check out this quote from the Wikipedia article on McCone:

“McCone resigned from his position of DCI in April 1965, believing himself to be unappreciated by President Lyndon B. Johnson, who, he complained, would not read his reports, including on the need for full-fledged inspections of Israeli nuclear facilities.”

Nov 23, 2016 53 YEARS AFTER JFK ASSASSINATION CIA ADMITS THIS CONSPIRACY THEORY IS ACTUALLY FACT

Shortly after noon on November 22, 1963, President John F. Kennedy was assassinated as he rode in a motorcade through Dealey Plaza in downtown Dallas, Texas. It's been 53 years since the assassination. Since that fateful November day, conspiracy theories have abounded. However, when we sift through the disinformation and look at only verifiable facts, we find no need for theories — as the conspiracy was a fact.

I don't dispute that the Jewish and LBJ motives are the most compelling and that all the subsequent investigations were a superficial white wash.

The problem, of course, is that the compelling "motive" does NOT map to evidence at Deally Plaza. Who pulled what triggers, with what caliber and from what positions at Deally Plaza consistent with the evidence (including the autopsy evidence)? The last question is the most important.

The volumes of work about the 6 minutes in Deally Plaza illuminate a great deal about the history/relationships of the time and the moral bankruptcy of nearly everyone. However, these works predominantly gloss over the 6 minutes in Deally Plaza. That is, these worthwhile works don't tell us much, if anything, about who and where the shooters were (other than Oswald). So far only one investigator has actually forwarded a plausible theory supported by the evidence, Howard Donahue as documented in the 2013 book by Bonar Menninger, "Mortal Error: The Shot that Killed JFK." I think its still available at Amazon but largely ignored. His theory was first put forward in the 1970s but largely ignored.

@Realist

| All the despicable things in this country involved many more gentiles than Jews.

Yes, but let me ask you something..

How many of those admittedly despicable things would have been carried out by Gentiles, *if they knew the truth?*

If you would have asked the Gentiles during WWI, ‘We want you crush Germany (and betray her into slavery with lies and treachery), so that we Jews can pressure England to hand over Palestine to us, to use as a haven for international crime and Jewish supremacist cruel genocidal nation-state..

How many Gentiles from France and England and Belgium and North America, would have said, ‘Sure, I’ll kill German and or die for that.

?

If you would have asked the men of England and Ireland and North America and France..

‘Would you like to go slaughter Germans in WWII, and hand over half of Europe to Soviet slavery, and the other half over to the tender mercies of the Jewish supremacists who own the Fed and control America’s money supply, so that they can foist ‘diversity and multiculturalism and transgenderism and anti-white hate on your children and societies? All while forcing those people to fund their demographic replacement, while fighting endless wars for Israel, and paying tribute in untold billions to Israel and assorted rogue regimes all over the planet, that will slaughter off as many Gentiles as possible, while enriching a handful of uber-corrupt Jews and their Gentiles stooges?

How many would say, 'yea, sure! Sounds good to me'. 'I'd like to die, and see my sons die, on behalf of the very people who will genocide my grandchildren off the planet, and make them hated second class citizens until then. Why not?'

You see, I suspect that every single Jewish supremacist, now and then, would answer in the affirmative if you asked them if those are the things they want to happen.

But all of those Gentiles you're talking about Realist, have all been lied to. And if you would have asked them, either then or now, they'd pretty much tell you to pound sand.

How many Gentiles today would be supporting Ukraine, if they knew how corrupt and dishonest Zelinsky's Ukraine is today?

How many Gentiles know that Russia did not wage an 'unprovoked' attack on Ukraine, but had the conflict forced upon them?

How many Gentiles know the truth, eh?

And how many of those Gentiles, if they knew the truth, would continue to support Zelinsky?

I'd say all Jewish supremacist would continue to support Zelinsky, as they mostly know the truth, and still support him.

But the difference, (and it's a very salient, important and critical difference), is that the J-supremacists *know* the war on Russia has been orchestrated by treasonous elements in the U.S. State Dept, who put Jewish interests above American interests every time. In fact, couldn't give a rip about American interests, except to harm them.

But the rub is, very few Gentiles know the truth about any of that, and if they did, not only would most of the Gentiles forced to fight in the World Wars- have refused, if they knew the truth,

so too would Gentiles refuse to fight in the Jewish supremacist wars (Iraq, Syria, Libya, Afghanistan, Ukraine, etc..) of this century.

If a man is lied to, then he isn't a willing participant in evil. He's simply been lied to. Like Pat Tillman and most Americans duped by ((the false flag attack)) on 9/11, until Tillman figured out that he was being lied-to, and then stopped supporting the wars.

The question of complicity and support for evil, and "despicable things ", does not impugn a man's character if he's acting in good faith, but based on the ubiquitous lies he's being told from every orifice of the ((utterly corrupt)) government, and Jewish supremacist-owned media.

So while it's true that Lindsey Graham is as guilty as sin, and even far, far more despicable than even the Jewish supremacists that he takes orders from, the vast majority of South Carolinian's who 'support Ukraine, (for instance) are doing so because they think, (have been lied-to), that what they're supporting is good and noble.

If they knew the truth, (that Ukraine is the aggressor, and war criminal, and ZOG bastion of criminality and corruption and Jewish supremacist terror and belligerence, being used to kill off both Ukrainian and Russian Gentiles, while the Jewish supremacist laugh their collective arses off), then they would simply stop supporting it, because Gentiles by and large, are not murderous, genocidal fiends hell bent on theft, treachery, war crimes, and atrocities.

That's why they always have to be tricked, and lied into these things.

Whereas for Jewish supremacists, wars and death and genocide and torture and horrors, are their mother's milk.

Re 12:

RestiveUS, it's clear you guys believe that, but once again you fail to support this claim of arbitrary Jew power with any institutional arrangements or assemblages that confer impunity on the Izzies. By contrast, CIA's got shitloads of municipal-law authority to kill you and torture you and get away with it, see 22 above. It's all illegal but it sits there in black & white begging you to read it. Izzies can get away with crimes IFF they have CIA permission, just like any other cutouts.

Pajna, Ostrovsky is the guy who says "Ha ha, we did that, fuck you!" whenever CIA commits a crime. He's been doing that routine forever. It's very effective on naïfs, they shake their fists at capering Zionazis and ignore the command structure of their own government. And yes, everybody agrees the JFK hit is the classic coup.

Safenow, very true & wise. It's like beltway brat Frank Zappa said, when they're ready they'll take away the stage set and show you the brick wall. Lots of people see it but some don't know what it is yet.

Mr. Gaffney, I believe your next expose should be The Zionist Coup Against America.

There's something odd about Biden's Cabinet, I can't seem to connect the dots.

Biden's 25 Cabinet members

8 Blacks – Vice President, Secretary of Defense (see link)

10 Jews – Attorney General, Secretary of State, Secretary of the Treasury, Secretary of Homeland Security, Director of National Intelligence, Chief of Staff (see link)

Of these,

13 are women, 14 if you count Pete Buttigieg

Tens of millions of innocents murdered is a manufactured consent peddled by the “democratic” West to cover their hundreds of millions if not billions senseless slaughtering around the world from the days of Columbus’ great discovery of the new continents, through two world wars to current war in Ukraine and the coming Armageddon the West is engineering.

Fabricating history for other people based on the Whites’ own image is not going to whitewash what Whites are.

The Empire (USA is the Empire of chaos) lies. It lies about the present, about the past, even about the future. It lies day and night, relentlessly.

Its founding dogmas are based on lie, cheat and steal. Its history is made of false pathos and insincere heroism.

The Empire and its lackeys are where it is now, still filthy rich (although always complaining), because of those hundreds of millions of people all over the world who were robbed and murdered, those who become victims of the very madness of colonialism, of the crusades and the slave trade. Cathedrals and palaces, museums and theaters, train stations – all had been constructed on horrid foundations of bones and blood, and amalgamated by tears. There were so many centuries of plunder that the acts of looting the world for the sole benefit of the few, turned into inseparable part of the ‘Western existence and culture’, something that gets almost never addressed, let alone criticized.

Zapruda's story is fairly interesting but no one claims he pulled the trigger. Of greater interest is the claim that the Zapruder's film was edited before it was shown to the public. So it's possible that Zapruder's film captured other shooters. At the moment this is a dead end.

As far as I know, today, no one considers Umbrella Man to be a shooter.

Monsieur Gaffney, I see. So CIA whacked JFK because Izzies took it over. You guys always give one (1) mole example, Angleton. So in this highly disciplined hierarchical organization, this lone nut took over CIA and fooled his two echelons of bosses and his crack counterintelligence staff and made them commit treason. Okaay...

Anyway, CIA was out to get JFK, but the Izzies beat them to it and whacked him themselves. Instead of just, uh, I dunno, waiting and letting CIA do it. Yes, we've heard this piggyback stuff, it's Guyenot's bid for the Darwin Award. Or else him pulling the leg of the leftmost IQ deciles.

So to carry out an apical coup, Izzies just penetrated CIA and took it over. Sure, if I was a Zionazi genocidaire, that's what I would do, because that's where the impunity is. Otherwise you might not get away with it. So lemme get this straight, in this Weltanschauung, the problem is not that an institution has the arbitrary life-and-death power of Vlad Tepes – the problem is, the wrong treasonous criminal asshole used it...?

All this illogical contradictory nonsense goes on in some weird bell jar where the consistent, coherent, and complete explanation of Douglass' JFK and The Unspeakable does not exist, and never needs to be rebutted in any particular. Not Fenton's Disconnecting the Dots either, since you mention 911 – it wasn't CIA's Richard Blee, that was Izzies too.

Is it starting to dawn on you how stupid this story sounds?

A lot to digest in this article. Previously the mafia hit theory made a lot of sense and was in a History channel documentary years ago. The thesis rested on Old Man Kennedy making his fortune running bootleg liquor during Prohibition and this was under license from the mafia which then expected return of favor so they funded and worked for JFK election eg in Chicago with the expectation he would work to enable them to freely operate. But JFK appointed Bobby as AG and he worked against them hence taking JFK out was retribution for double crossing them. Standard mafia protocol.

That was the gist of the theory and it went into detail as to where Ruby fitted into that theory, ans Oswald too. Too long ago now to remember those details and can't find the documentary on YT.

How can you have a discussion about the “logistics” involved in killing JFK if you haven’t the slightest idea who the shooters were or where they were located in Deally Plaza—other than Oswald?

The logistics for Oswald are a no-brainer. Oswald was a failure at nearly everything except the \$50 purchase-by-mail-from-Sears Roebuck of a 6.8 mm Italian Carcano bolt action rifle which he secreted into the Dallas Book Depository where he worked before the JFK motorcade arrived. By many accounts he fired two shots missing with the first and hitting JFK in the rear at the base of his neck which then hit Gov Connally.

The US Navy needed the assistance of Luciano's syndicate to protect US harbors and shipping from German sabotage and attacks that had become a serious problem.

This article would have been strengthened by even one example of Nazi attack on or sabotage of even one U.S. harbor. There's a reason for not mentioning one: it never happened. So I guess the Mafia tiger repellent worked, huh? Calling BS on that one. Please to be explaining how the Mafia would protect shipping, won't you? The Navy certainly did that after enough U.S. merchant vessels were sunk several miles off the East Coast and in the Gulf of Mexico.

Melvin Belli, not "Marvin". Did the author not see him on *Star Trek*?

During this period McCloy and James Donovan founded the Office of Strategic Services (OSS)

OSS was formed June 13, 1942. James Donovan did not join (in his capacity as an attorney) until 1943. I suspect the author should have said "William Donovan" here.

I agree that JFK was not very popular – at least not in the Deep South – I had a friend from Alabama who was in high school in 1963.

When it was announced in his high school that JFK had been killed, he said his classroom erupted in applause and cheering. The Kennedys were totally behind forced integration.

I was in the military then and when I hear that JFK would have prevented a larger war in Viet Nam, I scratch my head because it damned sure appeared to me that the Kennedy Clan hated Diem. And after Diem was killed – the Vietnamese war was America's tar baby.

To Mr Gaffney:

I would like to share two websites that you might find useful.

The first is to James H Fetzer, who holds a PhD degree in analytic Philosophy of Science. He has a brilliant mind and taught at U Minnesota until his retirement. Since that time, he has been very active in publishing books and articles and he has not only had a special interest in JFK, he arranged for a JFK conference (in TX), to which the best JFK researchers attend.

His general website is: <https://jameshfetzer.org/>

It has lots of good articles plus a search bar that will, inter alia, bring up the entire works of a particular author. If you hit the menu button at top center of home page, a side bar presents an extensive menu from which you can choose various topics. If you click on the JFK link,

<https://jameshfetzer.org/john-f-kennedy/>

it will bring you to some fascinating articles. I copied the highlights of one for you to see.

James Douglass, JFK AND THE UNSPEAKABLE

Among the vast number of books that have been written about the death of JFK, perhaps none has been as successful at explaining why he was taken out as James Douglass, JFK AND THE UNSPEAKABLE (2008). This superb volume traces JFK's evolution from a cold warrior to a man of peace in a gripping, effortlessly readable study of admirable scholarship. In my estimation, this is the single best volume to understand why he died and why it matters.

It sounds like it is very germane to your interests. Another site that you might enjoy, based on certain indications in your paper, is located at:

<http://endoftheamericandream.com/>

The website is called:

End Of The American Dream: Life As You Have Known It Will Never Be The Same Again

Here are the titles of some articles currently on his home page:

What In The World Has Happened To Our Society?

Have We Reached “Peak Idiocracy” Yet?

Honestly, A Lot Of Really Weird Stuff Is Going On Right Now...

I hope that you will find these two sources informative.

Okaay...

You really need to understand what was happening in the CIA during that period.

JFK had just fired Allen Dulles, had sabotaged the Bay of Pigs operation (yes, the CIA tried to trick him, but it is what it is) and the Cuban rebels who worked for the CIA (and their bosses) were very hostile to JFK.

Howard Hunt specifically names David Atlee Phillips, Cord Meyer, Jr., William Harvey as well as Frank Sturgis as CIA folks involved in the logistics of killing JFK.

That was in addition to Angleton—and those are just the folks publicly named.

@Poupon Marx

The dirty brainwashing of Americans by the dishonorable and profiteering Zionist operators:

<https://jweekly.com/2008/11/28/friend-ally-savior-revealing-lbj-s-jewish-ties/>

Research into Johnson's personal history indicates that he inherited his concern for the Jewish people from his family. His aunt Jessie Johnson Hatcher, a major influence on LBJ, was a member of the Zionist Organization of America. As a young boy, Lyndon watched his politically active grandfather "Big Sam" and father "Little Sam" seek clemency for Leo Frank, the Jewish victim of a blood libel in Atlanta. Johnson's speechwriter later stated, "Johnson often cited Leo Frank's lynching as the source of his opposition to both anti-Semitism and isolationism."

Here is the real story of a rapist and murderer Leo Frank, a darling of B'nai B'rith International that is currently in bed with Ukrainian Badnerites (self-proclaimed Ukrainian n Nazis).

<https://www.unz.com/article/the-leo-frank-case-documented-findings/>

Frank was not targeted by an unruly mob. A 23-member grand jury that included five prominent members of the Jewish community voted for the indictment of Leo Frank. In other words, they all believed there was enough evidence to convict Leo Frank as the sole murderer of Mary Phagan.

The shameless and thuggish ADL fights tooth and nail against the *factual information* that exposes Leo Frank as a pervert, murderer, and deeply dishonest creature:

Atlanta police did not “frame” Frank; nor did they arrest him because he was Jewish. *Both private detective agencies hired by Frank concluded that Leo Frank was the murderer of Mary Phagan.* Another attorney *hired by Frank* similarly found and stated openly that his client was guilty.

Leo Frank was caught lying so often and so unapologetically that he was actually his own worst enemy. He refused to take an oath on the Bible, and then refused to be cross-examined by prosecutors. ... After Frank’s conviction, powerful Jewish leaders rallied to his defense, but in private documents, they admitted that they could not stand Frank’s personality and that he probably was guilty. Albert Lasker ran the top advertising agency in America and financed Frank’s legal defense. His private view of the B’nai B’rith president was harsh and disturbing: “It was very hard for us to be fair to him [Frank], he impressed us as a sexual pervert.”

Lyndon Johnson’s ethnicity made him side with the Jewish murderer Leo Frank. The Jewish tribe protects the worst to preserve its ‘special status.’

Maybe he already knew he had cancer and he had family, girlfriend that he was assured would be looked after?

It is more probable that Jack Rubinstein was given cancer (by being poisoned with radioactive material) once he got tired from being locked up and **directly accused Lyndon Johnson of being responsible for the JFK assassination on TV news footage.**

122, Just Visiting. Exactly.

Shitloads of people in CIA wanted to get rid of JFK. CIA was institutionally inimical to JFK's policy and program. And, as you point out, open source documentation and staff testimony shows CIA was hard at work getting rid of JFK.

So why the fuck is Gaffney going on about Izzies? CIA, they do what they want.

JFK himself does not matter.

Had Dick Nixon been president in 1963 and followed the same policy he would have got the same treatment. CIA/Israel was making the big move to rule the West and no president, prime minister or dictator was going to change that.

Whether JFK was a good guy or bad is not relevant. What matters is that home-grown mobsters and foreign nationals can remove a president. The fact people weren't happy with Kennedy don't matter because it's highly likely he would have lost in 1964. That would have hurt Jack more than the bullets in Dealey Plaza did.

The best and continuing proof of mob involvement was the strange story of the Zapruder film. A year ago Jacob Hornberger put out an extraordinary book — **An Encounter with Evil: The Abraham Zapruder Story** and it's a masterful look at the most damning part of the JFK killing. Some of the comments at Amazon actually add information because in the old days, photo fraud on that scale was limited to a small number of serious professionals.

People who think JFK had it coming miss the point. In 1963 the USA became a banana republic where rich criminals could remove a president at will. That means they'll just as easily knock off good judges, senators, **people who post at websites they don't like**, the whole shot.

Be careful about giving your approval to things like that. Personally, I'd have truly enjoyed JFK going down in flames during the election of President Barry Goldwater in 1964. Keep in mind what the assassins robbed us out of — it was not a little thing.

Joseph P. Kennedy, the Cursed Peacemaker

Laurent Guyénot • July 10, 2021

<https://www.unz.com/article/joseph-p-kennedy-the-cursed-peacemaker/>

Is Joe’s bad reputation among Jews relevant to the assassination of his two sons? Many Jewish authors think it is. In his book *The Kennedy Curse*, purporting to explain “why tragedy has haunted America’s first family for 150 years”, Edward Klein links the “Kennedy curse” to Joe’s anti-Semitism, citing a story “told in mystical Jewish circles” (perhaps made up by Klein) according to which, in “retaliation” to some remark Joe made to “Israel Jacobson, a poor Lubavitcher rabbi and six of his yeshiva students, who were fleeing the Nazis,” “Rabbi Jacobson put a curse on Kennedy, damning him and all his male offspring to tragic fates.”[13] Ronald Kessler, for his part, wrote a book titled, *The Sins of the Father* — a not so subtle allusion to Exodus 20:5: “I, Yahweh, am a jealous God, punishing the children for the sin of the parents to the third and fourth generation of those who hate me.” Naturally, for Kessler, Joe Kennedy’s worst sin was that “he was a documented anti-Semite and an appeaser of Adolf Hitler” who “admired the Nazis.”[14]

The “Kennedy curse” did run into the third generation and possibly the fourth, when John’s only son died in a suspicious plane accident on July 16, 1999, with his wife, possibly pregnant. Five days later, John Podhoretz, son of neoconservative luminary Norman Podhoretz, published in the *New York Post* an opinion piece titled “A Conversation in Hell” in which he imagined Satan speaking to Joe Kennedy in Hell. The devil rejoices at the idea of eternally torturing Joe for “saying all those nice things about Hitler,” and brags of having caused the death of his grandson because, he says: “When I make a deal for a soul like yours, I need to season it before I’m ready to put it in the infernal oven.” This hateful fantasy, which is reminding of the Talmud’s depiction of Jesus in Hell, illustrates the devouring hatred of some Jewish intellectuals toward the Kennedys, and the root of that hatred in Joe Kennedy’s effort to prevent the Second World War.[15]

The Murder of JFK Jr., and his wife Carolyn Bessette and sister-in-law Lauren Bessette on 16 July 1999.

... punishing the children for the sin of the parents to the third and fourth generation of those who hate me ...

... links the “Kennedy curse” to Joe’s anti-Semitism ...

LG :

“The “Kennedy curse” did run into the third generation and possibly the fourth, when John’s only son died in a suspicious plane accident on July 16, 1999, with his wife, possibly pregnant. ”

As we witness in the Podhoretz piece, “A Conversation in Hell”, the vengeful kabbalists would not have let the principal 666m, w & d temporal signature from the birth of Saint Anne Frank go unused. Something big had to be done to mark that occasion. What else but to erase two further generations of the Kennedy bloodline? That, imo, was the event. Clear as day.

The murder of John F Kennedy Jr and the Jewish Holocaust narrative : Anne Frank

[https://web.archive.org/web/20220127093057/https://www.whataboutthewhen.com/murder\\_jfk\\_jr\\_anne\\_frank.html](https://web.archive.org/web/20220127093057/https://www.whataboutthewhen.com/murder_jfk_jr_anne_frank.html)

= 666 months, 666 weeks, 666 days

@Realist

| Your reply implies that gentiles are too stupid to find the truth.

Gentiles are generally too *decent* to comprehend Satanic evil.

Like the assassination of JFK, or the USS Liberty, or 9/11, and so on..

Jewish supremacists count on the Gentile mind being too decent to comprehend that level of unspeakable evil. It's not that they're dumb, it's that they're too decent. They can do the math, and science, and build great things, they just can't comprehend the depraved evil of murdering three thousand people, in order to plot the destruction of 'seven nations in five years'.

But that isn't what I was specifically talking about. What I was talking about, is *if they did know*, would they still go along with it?

With Jewish supremacists, if they thought assassinating JFK would be 'good for the Jews', then they'd be enthusiastic supporters of the crime.

Ditto the USS Liberty and 9/11 and 'destroying seven nations in five years'.

But most Gentiles are not psychopathic murderers, and most Gentiles would want all the people responsible for JFK or 9/11 to hang from a rope. Even if you said, but murdering JFK is good for you! and good for America!, because of blah, blah, blah..

No matter, Gentiles would still want the assassins to hang from a rope.

It's like Leo Frank. All Gentiles (99+%) who aren't deviant monsters, would want Leo Frank to hang, even if he were a Gentile. But Jewish supremacists don't think Leo Frank did anything wrong. Mary Phagan was just a shiksa, (rotten piece of meat), and so no Jew should suffer for raping and murdering a shiksa.

They all knew he was guilty. Everybody knew. But the Jews wanted him to go free. (She was just a shiksa!)

That mentality sounds so alien to a Gentile, because Gentiles are not raised in the Talmudic tradition, where only Jews have a soul, and Gentiles were put here for the pleasure of Jews.

So the chasm between the way our respective minds work, is my point. And it's not about smarts, any more than Dubya was smarter than the victims of 9/11. He was just more depraved.

And it has nothing to do with smarts, and everything to do with sick and twisted delusions of superiority, and a widespread tribal psychopathy that makes some Jews think Leo Frank should have gone free. Mary was only a shiksa. The three thousand people who died on 9/11 were almost all worthless goyim. 'Cattle'. Nothing to worry about. Ditto all those men on the USS Liberty, and JFK, and all the millions of people butchered by the post-9/11 wars for Israel.

That's all I'm saying..

If you want to pooh-pooh the Gentiles for not being as psychopathic as 'the Jews, and therefor falling victim to their treachery, then okay. Yes, I agree that happens with regularity.

But even so, I don't blame those Gentiles like Pat Tillman and 90+% of the people of the planet who believed it was Muslim terrorists who pulled off 9/11.

And they didn't believe it because they were all stupid. (some of them are very, very smart people indeed). They believed it because that's all they heard from every media outlet and federal politician. And, they simply are not that evil and rotten, (all smarts or lack of, aside), that then can conceive of people who are.

If you go to the fancy restaurant on the corner, and sit down to a nice meal, and then pay for it and leave, talking with your wife about how odd the meat tasted, but didn't realize that the dish that they specifically prepared for you was your (fill in the blank, pet, coworker, child, etc...), and while you and your wife are dining, all the people in the kitchen, and the owner of the restaurant, are all busting a gut, laughing, because they know they specifically made the dish out of someone you care about...

... does that make you and your wife stupid, because you should have known that killing and feeding your loved one to you on fancy china, is what these people would obviously do, even though such an act would be so far beyond anything you could conceive of, as to be impossible to comprehend.

The frog will always be the frog, and the scorpion will always be the scorpion, but the tale isn't about smarts, rather it's about character.

But in one way you are right, and that is that the Gentiles had better wise up to what and who he's dealing with, because if he doesn't ...

@A. Pagano

The evidence is found in the disconnect between the Zapruder Film and the official sequence of events asserted by the Warren Commission.

For example, begin by watching the Zapruder Film. Then watch any Youtube video of a Mannlicher Carcano being fired. Notice how loud the Carcano is in real life. This is the rifle that Lee Harvey Oswald was alleged to have used on the sixth floor of the Texas School Book Depository, firing over the heads of the people lining Elm Street.

As you watch the Zapruder film, pay close attention to the moments when the Presidential limo makes the turn from Houston onto Elm Street, passing under the TSBD. It is at this point that the Lone Nut crowd alleges that Oswald fired his first shot, missing the limo when it was at the closest, easiest shot. Then, a few moments later, the Lone Nutters claim that LHO fired the shot that would hit both JFK and Governor Connally.

Now, here is my dilemma: why don't we see any startle reactions by the people standing in the line along Elm Street to the high powered rifle that is allegedly being fired right above them? Anyone who has ever been in Dealey Plaza knows just how tight a space the entire area is; it looks bigger on film. And anyone who has ever had a high-powered rifle fired a few stories above their heads in a confined space like Dealey Plaza would have had automatic startle reactions and would be running and ducking for cover. Instead, the bystanders are just calmly and casually standing around as JFK rounds the corner on his way towards the head shot with a lone nut allegedly firing from a high-powered rifle above their heads. In fact, the only real startle reactions that we ever see in the Zapruder Film come from the people closest to the Grassy Knoll.

The office windows faced the Plaza with a direct line of sight to the Texas Book Depository. Did Ruby deliberately position himself to watch the assassination? If so, this meant he had prior knowledge.

When I checked the layout of downtown Dallas using Google Earth Pro software I was able to measure the distance from the Dallas Morning News building to the location of the “kill zone” on Elm Street. The distance is 1,460 feet.

[...]

Stone says Nixon left the party at Murchison’s long before Johnson arrived, and so, was not a part of the plot to kill Kennedy. In light of this, I have taken the liberty of dropping Nixon’s name from Brown’s list...

**If Ruby had prior knowledge, surely he could have picked a better vantage point to watch than the news building, which was 1/4 mile away and did not have an entirely unobstructed view of the “kill zone.”**

But Ruby likely did have prior knowledge and chose a better vantage point, all right, if informant Bob Vanderslice’s claim is true that he’d been invited by Jack Ruby on the morning of Nov. 22, 1963 “to watch the fireworks,” and was standing with Ruby directly across Dealey Plaza from the Texas School Book Depository at the time of the assassination. Vanderslice said Ruby then turned away without a word, and began walking in the direction of the Dallas Morning News, which by my measurement is just ~1,000 ft. from the corner of Commerce and Houston, a distance Ruby could have walked in just a few minutes, and that probably explains mistaken reports that he was in the news building when JFK was shot.

<https://www.archives.gov/files/research/jfk/releases/docid-32149267.pdf>

As for Richard Nixon, I'd be a little more careful and cautious about Tricky Dick, if not downright suspicious. On several occasions, Richard Milhous Nixon spun fanciful tales – lied – about his presence in Dallas at the time of JFK's assassination, falsely claiming he'd already flown out of the city before Kennedy was shot dead, but attendees at the Pepsi convention said Nixon was still there when Kennedy's shooting was announced.

In the morning, RN proceeded to Love Field, and boarded a plane which departed a little more than an hour before Kennedy and Johnson's arrival.

–The Richard Nixon Foundation

**The real story, according to L. Fletcher Prouty:**

Mr. Russel confirmed that Nixon was attending that meeting at the time the shots were fired. He added Nixon was there representing the Pepsi Cola Company's law firm Mudge, Rose, Nixon et al. The Dallas newspapers stated that Nixon was attending a board meeting.

Mr. Russel confirmed that the session Nixon was attending broke up when the assassination news came through. Nixon then returned to his hotel and later in the afternoon had been driven to the Dallas airport by a Mr. Deluca, also a Pepsi Cola official.

<https://prouty.org/nixon.html>

So Nixon had entirely legitimate reasons for being in Dallas at that time, as he was in town representing Pepsi president Don Kendall at the sody pop conventions. Richard Nixon had no plausible reason to lie about his presence in Dallas when Kennedy was killed, except for a guilty conscience resulting in an apparently irresistible but clumsy urge to try to distance himself from the scene of the crime.

When RFK was assassinated in 1968, the single greatest beneficiary was Richard Milhous Nixon.

Pres. Nixon reportedly later had a conversation with the Rev. Billy Graham where the two discussed concerns about Jewish domination of the media, yet it was Pres. Nixon's critical resupply of Israel in the strangely named Operation Nickel Grass during the 1973 Arab-Israeli war that provoked the Arab Oil Embargo. Nickel Dick's resupply probably turned the course of the Yom Kippur War against the Arabs, and included over 100 McDonnell-Douglas F4 Phantom II fighter-bombers drawn directly from three active USAF fighter wings.

And for a long time, George HW Bush claimed he couldn't remember where he was or what he was doing on Nov. 22, 1963. I suppose that's how he got his name on CIA headquarters.

This story is silly. There is no point in refuting various fantasies.

Suffice to say, both Soviet and Israeli governments thought that there was a coup, and the perpetrators were right-wing billionaires connected with CIA & local Dallas underground/police.

Golda Meir was actually one among JFK conspiracy theorists:

<https://www.haaretz.com/2013-11-19/ty-article/.premium/golda-meir-had-doubts-on-kennedy-death/0000017f-db43-db5a-a57f-db6b796f0001>

Dimona was a marginal issue, Soviets knew the basics & didn't care a bit. The whole Dimona super-importance is a myth. Everybody knew about that & basically nobody cared.

After all that time, Castro and the Soviets should be off the hook. It leaves us with the "Deep State" - high echelons of politics, plutocracy, CIA and intelligence community combined with the mob.

The Warren Commission is the group who proposed the ridiculous “magic bullet” theory. So why would anyone use its findings as a base line for anything?

Howard wrote:

For example, begin by watching the Zapruder Film. Then watch any Youtube video of a Mannlicher Carcano being fired. Notice how loud the Carcano is in real life. This is the rifle that Lee Harvey Oswald was alleged to have used on the sixth floor of the Texas School Book Depository, firing over the heads of the people lining Elm Street.

I’m not sure how the comparison between

1. the sound of a Carcano rifle fired in front of a camera AND
2. the sound of Oswald’s Carcano rifle fired 6 floors up inside a room and 30 yards away from Zapruder’s movie camera

is relevant to determining much of anything.

Howard wrote:

As you watch the Zapruder film, pay close attention to the moments when the Presidential limo makes the turn from Houston onto Elm Street, passing under the TSBD. It is at this point that the Lone Nut crowd alleges that Oswald fired his first shot, missing the limo when it was at the closest, easiest shot. Then, a few moments later, the Lone Nutters claim that LHO fired the shot that would hit both JFK and Governor Connally.

As far as I know no one claims that Oswald took his first shot when JFK’s limo was directly below his 6th floor perch. Oswald’s first shot missed. And while Oswald earned an expert marksman badge while a Marine this was with open sights shooting a fixed target. A sniper Oswald was not. In his assassination attempt of

Retired Col Walker, Oswald likely fired from a concealed position at Col Walker who was alone and not moving inside his home. Oswald missed.

A proper ballistics investigation of Oswald's second shot (as opposed to the Warren Commission's magic bullet nonsense) showed that all the wounds found in JFK and Connally line up. There was no magic bullet just a purposely slip shot investigation. Even if it wasn't Oswald who fired from the 6th floor Book Depository, someone fired the second shot from that position. Unfortunately Oswald did NOT fire the third shot most witnesses report hearing.

Howard wrote:

Now, here is my dilemma: why don't we see any startle reactions by the people standing in the line along Elm Street to the high powered rifle that is allegedly being fired right above them? Anyone who has ever been in Dealey Plaza knows just how tight a space the entire area is; it looks bigger on film. And anyone who has ever had a high-powered rifle fired a few stories above their heads in a confined space like Dealey Plaza would have had automatic startle reactions and would be running and ducking for cover. Instead, the bystanders are just calmly and casually standing around as JFK rounds the corner on his way towards the head shot with a lone nut allegedly firing from a high-powered rifle above their heads. In fact, the only real startle reactions that we ever see in the Zapruder Film come from the people closest to the Grassy Knoll.

On the Zapruder film Gov Connally clearly reacted to the first shot (which missed) and did turn to his right. Whether or not the Zapruder film captured others reacting is irrelevant since numerous eye witnesses reported hearing the at least 3 shots. As you point out Dealey Plaza is surrounded by buildings with sound waves bouncing back and forth. It is often impossible for a witness to know where the shot was fired from unless they saw the muzzle flash.

Oswald missed his first shot and hit JFK from behind and immediately below the base of the neck with his second shot. This passed through JFK just below the base of the neck and

then passed through Connally in more than one location. Oswald did not fire the third head shot into JFK. The autopsy results (as muddled as they were) show a trajectory considerably lower and behind JFK. The round passing through JFK and Connally more than likely was the 6.8 mm full metal jacketed fired by Oswald. The round that entered JFK's skull from behind and blew the front of his head off had an entry hole that was approx 6 mm—more than likely a 5.56 x 45 frangible round. JFK's skull was littered with 100s of fragments. This is what a frangible round does.

A quick review at Amazon ruled out this book—for me—right off the bat. The author apparently concluded that JFK was hit with **at least 6 different bullets** and targeted by as many as 10 shooters. And that someone shot at JFK from the 6th floor Book Depository but a different side from Oswald's alleged perch. Witness interviews certainly don't confirm 6-10 shots fired. And no witnesses report gun flashes or 6-10 gun-totting shooters in a position consistent with the autopsy.

The problem, of course, is that most of the JFK books sound convincing and authoritative but its difficult to determine which actually are authoritative. My money wouldn't be riding on David Lifton.

“Jewish supremacists count on the Gentile mind being too decent to comprehend that level of unspeakable evil. ”

— Agree. Look at the Straussians (neo-talmudists) infesting the US State Department (Sullivan, Nuland-Kagan, et al.), the FBI/CIA, and the Department of Justice (the ghastly Garland). They are genocidal by design. On Purim, while Jewish children are stuffed with sweets, they are taught about the joy of murdering “others” by tens of thousand. To desensitize Jewish children, the sweets include cookies in the shape of the human ear.

A hamantash is an Ashkenazi Jewish triangular filled-pocket pastry associated with the Jewish holiday of Purim. The name refers to Haman, the villain in the Purim story. In Hebrew, ‘hamantashen’ means “Haman’s ears.

In the Purim story, the victims, Persians, were the hospitable hosts, whereas the Jews were obnoxious and greedy “visitors” (intruders) to Persia. Not surprisingly, the Purimized ‘culture’ produces genociders like Madeleine Albright (a daughter of a Jewish thief Korbelov), Nuland-Kagan (Nudelman), and Zionist financiers like Schiff and Soros. The Zionist-Nazi putsch in Kiev in 2014 pursued the goal of creating conditions for the genocide of the Russian and Ukrainian people.

Did it say anything about the ever changing coffin with JFK's body in it?

Did it say anything about the discrepancies in JFK's remains:  
“*Early press reports from the emergency doctors in Dallas said that JFK had suffered an **entrance wound in the throat**, and a massive wound in the head*” [a fact that later on did a full 180]....?

Did it mention the fact that Dr. Humes [*the doctor who carried out the postmortem on JFK's body*] explained that he **burned his original set of notes** because they were stained with Kennedy's blood...?

“Based primarily on the acoustical analyses performed by BBN and Weiss and Aschkenasy indicating that there were gunshots in Dealey Plaza from both the Texas School Book Depository building (where Lee Harvey Oswald allegedly fired three gunshots) and the grassy knoll area (one gunshot) during Kennedy's assassination, the HSCA found, in part, that **'scientific acoustical evidence establishes a high probability that two gunmen fired at President John F Kennedy.'**” – Link to DOJ

The gist of the main idea remains in place, and that's to shatter and defragment the [available] information as much information as possible, drench it in a bucket filled with distortions, lies and half-truths, and then throw it nonchalantly back over our heads.

Another misdiagnosis of the problem.

It's not the 'left' that is doing this. It's ultra-right Jewish supremacism in 'progressive' clothing.

Also, so-called 'conservatives' who claim to defend free speech are totally silent about suppression of BDS or even support it.

Rep. Dan Bishop plays a clip of Richard Stengel, the founder of the State Department's Global Engagement Center, saying:

"I'm not against propaganda. Every country does it; they have to do it to their own population, and I don't think it's that awful." <https://t.co/kH613j4NGg>  
[pic.twitter.com/zvllaC8b5D](https://pic.twitter.com/zvllaC8b5D)

— kanekoa.substack.com (@KanekoaTheGreat) [March 9, 2023](#)

The problem isn't the elites think ordinary people can't handle controversial ideas. It's that Jewish supremacism cannot tolerate truth speaking to its power.

Matt Taibi on Twitter censorship:

"They believe ordinary people can't handle difficult truths. They think that they need minders to separate out things that are controversial or difficult for them. That's totally contrary to what America is all about." [pic.twitter.com/5OZBYV8Pfd](https://pic.twitter.com/5OZBYV8Pfd)

Ben Gurion probably met with JFK at least three times. I'm sure PM had no problem with lying to President's face about Dimona. Kennedy knew the trouble a nuclear power in the Middle East would cause. Eisenhower should have exposed what France/Israel were really doing in the desert together.

Read this book:

‘Final Judgement: The Missing Link in the JFK Assassination’ by Michael Collins Piper.

Mr. Collins Piper is now deceased, however, before he passed he would meet with JFK assassination researchers and put forward his (extremely well researched) theory about the Israelis and French (OAS) being behind the assassination. This theory has never be presented at any of the JFK assassination conferences.

Here’s a quick summary of the thesis of the book:

According to ‘Final Judgement’ the murder was probably committed by right-wing French gunmen (OAS) with major support from the Israelis. The French and the Israelis were strong allies until Charles De Gaulle came to power. The French had even helped the Israelis to get their nuclear program up and running.

The French right-wing (OAS) despised JFK because he supported Algerian independence. They also tried to kill De Gaulle because in 1962 he agreed to a French withdrawal from Algeria. Fredrick Forsyth (who worked for British Intelligence) wrote the famous book ‘The Day of the Jackal’ based on this attempted assassination. In this book a sniper tries to shoot De Gaulle – sound familiar?

The Israelis also hated JFK for a variety of reasons:

1) His father, Joe Kennedy, was perceived to be an anti-Semite who tried to keep the United States out of WW2 (he was the US ambassador to Great Britain). 2). Most importantly – JFK

vehemently opposed the Israeli nuclear program. 3) JFK also supported Algerian independence and the Israelis didn't want to see nationalism spreading throughout the Arab world.

Lee Harvey Oswald was the 'patsy' who was conveniently silenced by Jack Ruby (real name Jacob Rubenstein). Jack Ruby was a gangster and was connected to (((Meyer Lansky))) who was the real godfather of organised crime in the United States.

Alot of people hated Kennedy. Splintering the CIA was the last straw.

He had no idea how powerful the Military Industrial Complex was.

Trump was removed because he created Peace...Not War.

Had the “arranged” Hilary been installed- Iran would be in ruins and 100,000 more American soldiers would be dead.

I am more inclined now to believe Johnson was 80 % of the murder. The CIA and Johnson. And the Jews “wrote” the history and help maintain the narrative. Just like after 9/11. All the Jews cleaned it up, wrote the narrative, controlled the courts and the media.

They all worked together to slaughter this poor man. What is shitty is **they could care less** if his wife was killed too. They could care fucking less.

She was 1 inch from his face, looking at his throat when the headshot zoomed two inches from her head and impacted his head. **That is some sorry motherfuckers.**

What makes **no sense to me** is that Texas governor John Connally would willingly sit right in front of Kennedy knowing he was going to be assassinated from multiple angles. Makes not one damn bit of sense.

H. L. Hunt, billionaire oil man

**Texas governor John Connally**

FBI Director J. Edgar Hoover

Clyde Tolson, second in command of the FBI

Dallas mayor Earle Cabell

No Texas boy familiar with firearms is gonna sit right there happy as a lark —directly in front of Kennedy. No freaking way. No rational person would sign up for that.

And I believed he was overheard stating....”Oh God they are gonna kill us All”.

I think he was either not at that meeting or was told a completely different plan. So that his reaction would look normal.

the 9/11 False Flag, orchestrated the **Anthropogenic Global Warming hoax**, the Covid Psyop, the Ukraine proxy war

When I see a comment such as this I'm saddened, because I can see the author is a group (tribal) thinker rather than someone who considers all important issues on their merits.

In what sense is there an "Anthropogenic Global Warming hoax"? Do you dispute the fast-rising level of atmospheric carbon dioxide on which we have exact data since the 1950s? Do you completely deny there's a possibility that this – and rising levels of other "greenhouse gases" – could have a significant impact on the planet's climate? Do you believe a significant and unpredictable change in the planetary climate will have no detrimental consequences for agriculture, biodiversity and the habitability of low-lying land? Do you consider that decarbonising our economy is not a way to at least slow the rate of accumulation of GG gases in the global atmosphere?

In short, where's the hoax? Is it only in the fetid imagination of "Alt influencers" such as David Icke, Alex Jones, Mike Rivero, Jeff Rense, Gonzalo Lira and any number of other semi-educated clowns who pretend their ill-informed hunches have more weight than a gigantic, growing body of scientific evidence (which none of them show any sign of comprehending)? I suspect so.

That's not to advocate avoiding debate about the topic of climate change/global warming. **Everything** is open for debate. But tribal thinkers pick up sets of glib beliefs and like to cajole others into buying the same package. The result can be very off-putting

to other potential customers. If I buy a selection of tropical fruit, I'd like the selection to be made with care. I don't want the vendor to substitute (unwittingly or not) a turd for a durian.

The Hornberger book is a diversion. It never asks nor answers the key question of Zapruder's film:

How was it that Zapruder, a member of the J-ish Businessmen's Association of Dallas that invited JFK to Dallas, was precisely at the location of where JFK was shot? And how was it that Zapruder had a moving picture camera and a film lab in his house?

After all, consider the source!

| RFK Jr better heed this warning. If he runs he will need an airtight security detail.

I'd dearly love to see RFK Jr become POTUS, but it will never come to pass.

No, the Zio cabal won't kill him. They won't have to. That's because they control the nomination process through the primaries.

The ZOG controlled DNC will see to it RFK Jr gets no further than 'Super Tuesday'.

To see how it will play out, just rewind back to the Democratic primaries in 2020.

The first three primaries were conducted in Iowa, New Hampshire and Nevada.

These were more or less legitimately conducted primaries and Biden scores 13%, 8% and 18% of the popular votes respectively.

In other words, THERE IS LITTLE SUPPORT FOR BIDEN AMONG THE RANK AND FILE DEM VOTERS.

Then along comes 'Super Tuesday (March 3rd) and magically a deluge of support suddenly shows up for Biden.

Ahhhh .... the magic of 'super delegates'.

For those of you not familiar with what a super delegate is, in the Dem primaries not all delegates are allocated one vote each.

Select delegates (ie: ZOG approved delegates chosen by the DNC), each have multiple votes on their own.

In other words, the Super Delegates decide who the Dem nominee will be to contest the Presidency.

We saw that play out in the 2016 primaries. Bernie Sanders consistently drew huge crowds while HRC barely drew anyone at her rallies. Yet, Hillary became the candidate.

Bottom Line: No one gets to be the Dem nominee unless they've been thoroughly vetted and found to be loyal servants of ZOG.

The Republican primaries are somewhat better, in that they don't have super delegates.

But even the RNC has ways of ensuring that unapproved candidates (think Ron Paul in 2012), are cheated out of the nomination.

what a surprise LBJ and everyone else who disagrees with a large part of the UR blog anti-Jewish narrative is a Jew.

LBJ isn't a Jew because I said so, then someone in the UR commentariat agreed with me, then another seconded the motion.

There is an abundance of evidence out there (and much of it has been posted in UR that I'm aware), of links to articles and information documenting LBJ's Jewish background through the maternal line (and that's not to say there isn't any Jewish lineage through the paternal line as well).

So stop being a dick, and reflexively defending your tribe each and every time.

In future you should pause, take a breath, carefully review the documentation at hand, and acknowledge that your tribe is at the root of all the depraved crimes of the modern era.

James Douglass, JFK AND THE UNSPEAKABLE

..... In my estimation, this is the single best volume to understand why he died and why it matters.

James Douglass and his book is a fraud.

And I say that because NOWHERE in his book does it mention Dimona (the Israeli facility in the Negev Desert where the Apartheid Israel state were developing the A-bomb).

In fact, it doesn't mention the Israeli angle at all. No mention of the heated arguments JFK was having with David Ben Gurion over the issue which was central to why JFK was killed.

(From recollection, Ben Gurion's name is not even in the index of the book).

And that's why the book was highly praised by the Zio controlled MSM and achieved widespread distribution through the Jewish owned major book publishing houses and was widely promoted. The Zio establishment loved Douglass' book because it DEFLECTED ATTENTION AWAY FROM ZIO CULPABILITY.

Douglass knew that if he ever mentioned the Israeli angle that his book would likely not even get published and therefore he'd forfeit a ton of money in lost book royalties.

One book stands out as being far above the others in JFK research, and that is 'Final Judgement' by Michael Collins Piper. It is far and away the benchmark on the JFK coup d'etat and pulls no punches.

Proof of that was the degree of demonisation Piper got from the Jewish lobby over this book – like no one has gotten either before or since.

The book is available to read free here in UR.

It never made any sense to me that a Jew like Jacob Rubinstein, born on the wrong side of Chicago would evince such sympathy for the Catholic Irish JFK, son of the hated “anti-semite” (“anti-semite” since he bettered the Jews in stock-jobbing and perhaps running around the Prohibition to get the Catholics their wine for the Mass) Joseph Kennedy, that he would kill Oswald merely because he hated him for killing JFK. If Oswald’s killer was say Mao Chee Fung they would have immediately rounded any Chinese person on suspicion of it being a Triad hit. But since its one of the Holy People who did it, he had to have done it out of love. Never mind that Ruby was a pimp and gun-runner himself.

[@Shamu](#)

| 1. Why did the Jews need to kill JFK to maintain the status quo over the long run?

They did not need to kill JFK (and RFK) to maintain the status quo over the long run. They needed to kill JFK (and RFK) to achieve dominance over the Irish faction of the New Deal, which they demonstrably achieved.

This is a positive goal (gains something) as opposed to a negative goal (avoids some loss). I'm not sure why you object to this explanation, as it seems compatible with your account of intermediate term Jewish goals and does fit the known (in fact inescapable) facts. Further, it is compatible with Jewish actions during the 1930s in Eastern Europe and with post WW II Jewish propaganda depicting the US white population as a threat to Jewish existence (most notably in [\\_The Authoritarian Personality\\_](#) and reports of high US scores on the F-scale).

Deep suspicion of US motives and power struggles on the scale of Chief of State assassinations tend to be to obtain victory, not to avoid losses, and in this case the Jewish coalition would have seen victory as synonymous with survival. Thus we have a past history of ruthless power seeking and a contemporaneous belief that political struggles in the US were "kill or be killed".

Whoever it was, there was a distinct shift in US policy after JFK's (and RFK's) death. Whoever benefitted from that, in this case whatever coalition became dominant and destroyed the Irish coalition as a political contender, would be the primary suspect, and would remain under suspicion until either proven guilty, or until some other culprit was determined to be guilty, or (as is the case) until the suspected coalition lost power and its means of ascension to power became of academic interest only.

So I've established motive, means, opportunity, and a pattern of behavior, plus *cui bono* (who benefitted?).

2. Where is the evidence at Deally Plaza (that is, the crime scene) that the Jews killed JFK?

I have no idea. I'll leave that to people who specialize in that incident. Judging from the comment stream, there is a large number of such people, some of whom appear to have invested large fractions of their working career in the incident. You guys fight this out among yourselves. I've pointed out enough to make Jewish Presidential assassination plausible, you can take it from there. Or don't, up to you, I'm done.

To emphasize the point, I quote a well known poem: "I have answered three questions, and that is enough.", said his father, "Don't give yourself airs. Do you think I can listen all day to such stuff? Now be off, ere I kick you downstairs."

And I'm done because the actual coalition of interest is now the Black coalition, as it holds the power, so what it does has actual present day effects, as opposed to the Jewish coalition, which is of primarily historical interest and is best treated today with simple avoidance while it is dismantled by the Black coalition.

You know Pagano (or should I call you 'Guano', seeing as your commentary is wall-to-wall excrement), you've said some dumb things in this thread so far, but this comment of yours is pure disinfo.

How much are your Zionist handlers paying you ?

You carry on about Oswald being the lone gunman and how the kill shot (that blew a huge hole in JFK's head) came from behind.

Were you paying attention in high school physics classes ?  
Evidently not.

Do you know anything about the Law of Conservation of Momentum ?

After JFK's head was struck, his head moves back and to the left.  
Let me repeat: BACK and to the LEFT.

In other words, that meant the bullet that struck him came from in FRONT and to the RIGHT, as the laws of science relating to Momentum Transfer would indicate.

The team of doctors that worked on JFK (led by Dr Malcolm Perry), in the FIRST press conference immediately after it was announced that JFK was dead, signalled that the shots came from in front.

Also this from Dr Perry:

Perry stated three times at a press conference later that day that Kennedy's neck wound appeared to be an entrance wound

Got that Mr Guano ?

But, that didn't fit in with the official bogus narrative of the USG that insisted a lone gunman was shooting from the TSBD. So Perry (and the other doctors) were intimidated/threatened into changing their original testimony to say that all the shots came from behind in their submissions to the Warren Commission.

The fact is, there were MULTIPLE SHOOTERS in Dealy Plaza that day – some of whom were shooting from behind. One of them was LBJ's personal hitman – Malcolm 'Mac' Wallace, who likely fired the bullet that struck JFK in the back.

The following video is a few hours long but well worth watching. It covers a lot of background historical info in the first hour of the video that leads up to the the JFK coup d'etat. In your case Guano, seeing as you have a short attention span, you need only watch the few minutes from 1:38:00 – 1:43:00 to hear the names of the numerous shooters that day in Dealy Plaza:

“How many Gentiles from France and England and Belgium”

Since Germany’s own openly declared war aims involved territorial acquisitions from France and Belgium,

<https://en.wikipedia.org/wiki/Septemberprogramm>

then of course the people there would fight. Britons would also fight to stop the emergence of a dominant power on the continent with the aims such as Bethmann-Hollweg declared in this program. None of that was dictated by Jews. The ability for Zionists to exploit the situation when trying to lobby for something like the Balfour Declaration came much later and had nothing to do with the origins of the war.

That article is kind of interesting, but not as definitive as the writer makes it sound. Protestants have a long history of adopting Jewish-sounding names. When I first heard of David Hilbert, I was sure that he must have some Jewish roots (“David” is a very Jewish name, and a name like “Hilbert” reminds me of “Raul Hilberg” who is known to be Jewish). It turned out that he was born of Germanic Evangelical background. There’s no reason to believe that Hilbert was Jewish. He passed away in Germany in 1943 under peaceful conditions. Given that precedent, I would have to expect better evidence for LBJ than just the names of his maternal grandparents, as interesting as that may be. Have any biographers tried to research the genealogy in detail?

The problem, of course, is that the compelling “motive” does NOT map to evidence at Deally Plaz

a. Actually, I’m not so sure about that. What wasn’t mention in this essay was PERMINDEX and it’s connections to both a failed attempt on Charles De Gaul’s life and later on their involvement in the Kennedy assassination. Clay Shaw, directory of PERMINDEX and former OSS operative was overheard discussing the assassination prior to the hit. Shaw was put on trial for conspiracy to murder JFK by Jim Garrison and was only acquitted because the judge wouldn’t allow is alias “Bernard Shaw”, if memory serves, to be entered in as evidence for the jury to hear. Shaw had been asked when he was arrested if he had gone by that alias and he answered in the affirmative. His alias was how eye witnesses had identified him. According to jurors had they known this they would’ve come back with a conviction.

PERMINDEX was a front company for Mossad. See the following article:

Ridiculous nonsense; I argue no such thing. My reply to John Howard concerned "his" interest in shots by a Carcano rifle from the 6th floor of Book Depository. So the bulk of my reply addressed his concern.

Nonetheless I mention another shot that certainly could not have come from the Book Depository. Apparently, in your haste, you failed to read my last paragraph. Here's a chance for you to **REREAD** it now.

Oswald missed his first shot and hit JFK from behind and immediately below the base of the neck with his second shot. This passed through JFK just below the base of the neck and then passed through Connally in more than one location. Oswald did not fire the third head shot into JFK. The autopsy results (as muddled as they were) show a trajectory considerably lower and behind JFK. The round passing through JFK and Connally more than likely was the 6.8 mm full metal jacketed fired by Oswald. The round that entered JFK's skull from behind and blew the front of his head off had an entry hole that was approx 6 mm—more than likely a 5.56 x 45 frangible round. JFK's skull was littered with 100s of fragments. This is what a frangible round does.

Truth Vigilante wrote:

In other words, that meant the bullet that struck him came from in **FRONT** and to the **RIGHT**, as the laws of science relating to Momentum Transfer would indicate.

Your description of physics might be from Hollywood "Dirty Harry" physics but it certainly isn't Classical Newtonian Physics. The problem here is that the collision between a bullet and the human body is **NOT** an elastic one that can be idealized like the collision of two billiard balls.

The round fired from high in the Book Depository that hit JFK, from behind, just below the base of his neck passed cleanly through likely causing a wound cavity and a bigger exit wound. There is no physical reason to expect that this round would have imparted any significant momentum to JFK's body causing his head to radically move forward (and it did not). There is no elastic collision between the round and JFK's body. The first shot from the Book Depository missed, hitting low (the street), sending up debris that hit JFK (Kennedy exclaimed at that instant, "I've been hit). These two bullets fired from high in the Book Depository were undoubtedly FMJ.

As an aside: No Israeli sniper sent by Ben Gurion and positioned in the Book Depository would have needed more than one shot and they would not have hit Kennedy in the neck. Was it one of Lansky's goons? Unlikely, the mob's expertise (regardless of nationality) is to kill up close and personal with no witnesses. Oswald on the other hand was a screw up, he was no sniper and failed in his assassination attempt against Retired Col Edwin Walker only a couple months earlier. Witnesses put Oswald in the Book Depository before the motorcade arrived. Those are the facts.

Now let's continue with our Newtonian Physics lesson as opposed to Truth Vigilante's Hollywood "Dirty Harry" Physics: There was a 6 mm hole found in the back JFK's skull—low and to the right. The likely trajectory was from behind JFK and to the right and low. Obviously this round could not have been fired by Oswald in the Book Depository (who was high and left). And the 6.8 mm Carcano rounds were too large to have caused a 6 mm hole. The round that made the 6 mm hole was likely a 5.56mm x 45 cartridge (typically fired from an M-16 or AR-15 which left numerous metal fragments in JFK's skull cavity and embedded

on the inside of his skull. Most of the 5.56mm rounds made at the period were frangible and are designed to disintegrate after penetration. The Newtonian physics is coming up.

The 5.56 mm round did NOT collide with JFK's skull from behind elastically it penetrated. That is, it could not have imparted any appreciable momentum to JFK's head causing it to move forward. After penetration the 5.56 mm frangible round would have rapidly disintegrated into hundreds of metal fragments creating a wound cavity and large intra-cranial pressure. The shock wave and center of gravity of the fragments were still traveling more or less in straight line along the bullet path to the upper right front of JFK's skull. The over-pressure blasts a hole in the upper right front of JFK's skull along with a portion of his brain matter. **From Newtonian physics: for every action there is an equal and opposite reaction.** Guess what happens when the pressure from JFK's brain matter blasts out of the front of his head? That's right folks: his head is blown back and NOT forward. As far as any other gyrations JFK's body may taken can be explained by involuntary muscle contractions combined with the fact that the Secret Service driver of his limo pounded the accelerator after the shot went through JFK's neck.

No point in me wasting much time on the rest of your comment.

Agree with it all, Annamaria,

And I watched many of the ‘piggy’ videos, and a lot of them are spot on. Like the one at the end with ((Uncle Sam and Churchill)) watching as the Ukro-piggy gets throttled.

I did have some issues with some things, like all the swastikas on the piggy, (which are apropos), but what’s glaring by omission are the stars of David and menorahs that should be all over the piggy too. (at least if they wanted to be honest about it).

Also, it was telling how the piggy was made to clean off the monuments to the Soviet enslavement of Ukraine. With some Russian nationalistic chest-thumping over the ‘glorious Red Army rapists’. I didn’t care for that part. And it is a sticking point in the Russian / Ukrainian (and all former Soviet satellite state’s resentment of Russia), who continues to pretend that the Red Army liberated someone, which is absurd (and to those people in Poland and Estonia and Ukraine..., offensive).

Other than that, it was interesting to see how the piggy and the bear represent some of the Russian, (and Chechen and other Muslim) regions are not so keen on Russia becoming gay, as Ukraine seems to be enthusiastic for. So they’re not just zio-‘Nazis’ taking orders from genocidal Jews, they’re also gay-friendly and diversity-friendly ‘Nazis’.

They deserve to be mocked as the stupid piggy, licking up to ((Uncle Sam and Perfidious)), and promising to be gay, if only they can join the ((European Union)).

In the Purim story, the victims, Persians, were the hospitable hosts, whereas the Jews were obnoxious and greedy “visitors” (intruders) to Persia.

I don't know which bible translation you are using, but that is not the version I've seen. That version reports that the Jews were captives in Persia. A Jew (Daniel) had been Babylonian prime minister to Nebuchadnezzar. The Jewess beauty Esther became the Persian Queen. Her grave is a pilgrimage site for Iranians to this day. Her uncle Mordechai was an elite scribe to the Persian King. Either you don't know how to read or you are a liar. But in both cases you are damned to hell.

Esther (Hadassah) was a whore.

She was well-known for servicing the Persian army, sometimes several at a time. That's how she became so famous. No other whore could service so many soldiers at the same time. They sang (crass) songs about her. Mordecai was her pimp.

The historical record simply gets blurred by the writings of the Bible, but it's all in the historical record.

@Anon

“the Jews were captives in Persia.”

— Like they were in Poland, Turkey, Spain, Germany, Russia, and now in the US? No one is holding them here by force.

Moreover, not many Jews want to live in Israel among other Jews; they, for some reason, prefer to be “captives” in western countries and Iran.

Why didn't you mention the nature of the relationship between Esther and Mordechai? Some sources name her a ‘cousin’ and some a ‘wife’ or ‘concubine’ of the obnoxious newcomer Mordechai. Read your Jewish sources before going into a hysterical fit.

As for Mordechai, did he not disrespect the traditional rules of the Persian court? The obnoxious Jewish master of intrigue wanted to become a real “effendi!” That was the cause of the eventual genocidal action against the Persians. Jewish children are taught, from infancy, to rejoice about the violent deaths of 75.000 Persians.

Do you also condemn this description?

A hamantash is an Ashkenazi Jewish triangular filled-pocket pastry associated with the Jewish holiday of Purim. The name refers to Haman, the villain in the Purim story. In Hebrew, ‘hamantashen’ means “Haman’s ears.

Do you disagree that the Purimized ‘Jewish culture’ produces genociders like Madeleine Albright (a daughter of a Jewish thief Korbelov), Nuland-Kagan (Nudelman), and Zionist financiers like Schiff and Soros? Do you have any evidence to argue against the statement, “The Zionist-Nazi putsch in Kiev in 2014 pursued the goal of creating conditions for the genocide of the Russian and Ukrainian people?”

In 2014, the US State Department (infested with Straussians) ran the **Zionist-Nazi putsch** in Kiev. Nuland-Kagan, Sullivan, Gershman (NED), Sherman, and a crowd of other Jewish supremacists were working for years on the Nazification of Ukraine, cooperating with the CIA and NATZO-MATZO. The Jewish Fueher Zelensky (formerly a homoerotic dancer and “pianist”) is the supreme commander of self-proclaimed Nazi formations in the Ukrainian army. Like you, he speaks Hebrew and has zero respect for human life.

“The coup d’état of the Straussians in Israel,” by Thierry Meyssan <https://www.voltairenet.org/article218957.html>

“The EU brought to its knees by the Straussians,” by Thierry Meyssan  
<https://www.voltairenet.org/article217976.html>

One of the characteristics of this group is that they are ready for anything. For example, they wanted to return Iraq to the stone age. This is indeed what they did. For them, all sacrifices are possible, including for themselves, as long as they remain the first; not the best, the first

Here is your late witch Albright: “The deaths of 500,000 Iraqi children, was worth it — for Iraq’s nonexistent WMD’s.”

Albright also made a nice gesheft on the Yugoslavian tragedy. And did not she enjoy the bombing of Belgrade for 78 days? This crime was named the “Madeleine’s War” after the genocidal Jewish witch Albright. “There’s a ‘Special Place in Hell’ for Madeleine Albright.” Wish you meet her in this hell for genociders. <https://stateofthenation2012.com/?p=37461>

To give you a sense of my conspiratorial predilections, my worldly wise father always thought LBJ was behind the JFK assassination, and that “the Jews” controlled world finance and NYC real estate...

I have maintained for many years that the Dallas hit was like an Agatha Christie plot in which ALL the characters were complicit in the murder. Rockefellers, banksters, oil magnates, Jewish and Italian mafiosos, Zionist nukesters, CIA Company officers, FBI chiefs, and assorted lowlifes like Ruby and Ferry were involved in the plot. Seems Oswald was the only one trying to protect the President...

The issue that the Jews had one of the best motives and tremendous dislike of a Catholic President and his Catholic Attorney General is not at issue.

In this case how do you connect Clay Shaw to the murder scene at Deally Plaza? As far as I know Garrison only charged Shaw with conspiracy. Little has been revealed about the exact nature of Shaw's involvement. There is a chasm between Clay Shaw's part in some JFK assassination plot and who pulled the trigger at Deally Plaza.

The ballistics evidence is unequivocal that Oswald (or someone in the Book Depository) was not the only shooter.

**Only if the collision is ELASTIC.** The bullet can only transfer a force to JFK's head if the collision is largely elastic—that is there is no net loss of kinetic energy in the system as a result of the collision. Both momentum AND kinetic energy are conserved quantities in an ELASTIC collision. An example would be the collision of a moving billiard ball with a stationary one. With this “elastic” collision the momentum and kinetic energy of the moving billiard can be completely transferred—without loss of either—to the stationary ball. The initially moving ball would stop and the initially stationary ball will move away at the same velocity.

**This is NOT the case with a 5.56 mm frangible round into JFK's head. This is almost a perfectly INELASTIC collision. This 5.56 mm frangible round is specifically designed to dump all of its kinetic energy into the target immediately after it penetrates.** In the case of JFK's skull cavity the kinetic energy of the 5.56 mm round was NOT conserved. Kinetic energy from the bullet was lost after impact and took the form of heat and a dramatic pressure increase inside JFK's skull cavity. The pressure shock wave inside his skull proceeded along the path of the bullet and blasted out the upper right of JFK's skull. This pressure explosion and release out the front would have caused his head to go back according to Newton's 3rd Law.

Why the US ziocons/CIA/NATZO-MATZO/bankers/oilmen have arranged the genocide of Ukrainians and Russians in Bakhmut by investing tens of \$ billions of the US taxpayers' money into the corrupt Zionist-Banderites regime in Kiev:

Comment by 'Bela Jarolics:'

Greetings from Hungary ! The truth is always logical and simple! Its concealment is opaque and complicated. An example: Why are Bahamut and its area important?

Because in 2014, the Jacenyuk [Yatz] regime handed over the biggest Ukrainian gas field under this region to Burisma, led by Hunter Biden, **for 1 dollar**, confirmed by a parliamentary decision for 40 years. At the time of the handover, the Americans already had the gas purchase agreement signed by the EU at the rate of production. This would have been intended to ease Russian gas dependence and, at the same time, increase American influence. The problem was “only” that this area was inhabited by a majority of Russians (Bakhmut – Kramatorsk area). Either the Russian resistance must be broken or they must be reduced to a minority (even at the cost of **genocide**) so that the extraction can begin.

The other Russian interest is also connected to this region:

The “Orenburg” gas pipeline passes by Kramatorsk, and here is one of its branches, which supplies energy to Transnistria and Moldova. If the pipeline falls into Russian hands, the branch going to the EU can be closed at any time. So, by occupying the areas east of the Kharkiv-Odessa line, all of Ukraine and Kiev will become energetically vulnerable, while the pipeline to Tiraspol may pass through Russian-controlled territory. (An additional benefit is that American agricultural production can only reach the Black Sea with Russian permission.)

<https://www.eia.gov/todayinenergy/detail.php?id=15411>

“Ukraine lost 80% of Black Sea oil and gas deposits and a significant portion of its port infrastructure to the annexation of Crimea.”

<https://www.forbes.com/sites/arielcohen/2019/02/28/as-russia-closes-in-on-crimeas-energy-resources-what-is-next-for-ukraine/>

The following map superimposes the gas field and the front lines. A closer look shows that Bahmut is a key area:

T-V,

I have watched that documentary a couple of times and I think that it is an excellent one. Another good video is “2 Men In Dallas” and it features lawyer Mark Lane and Roger D. Craig, who was with the Sheriff’s Department.

Roger Craig’s honesty nearly cost him his life. As it turned out, he died a broken man.

There is another website which has an Excel spreadsheet of many of the people who were associated in one way or another with the JFK murder and their deaths –

[https://docs.google.com/spreadsheets/d/1FmXuDf6pqisxq\\_mepIC6iuG47RkDskPDWzQ9L7Lykw/edit#gid=1](https://docs.google.com/spreadsheets/d/1FmXuDf6pqisxq_mepIC6iuG47RkDskPDWzQ9L7Lykw/edit#gid=1)

I have also read L. Fletcher Prouty’s books. I believe that Mr. Prouty was a very credible person.

Thank you.

We know from two historically renowned experts in the field of propaganda, ie Elmer Davis, chief of the WWII era US Office of War Information, and Edward Bernays, author of the 1928 book *Propaganda*, that nothing beats the motion picture as a device to insert ideas into a person’s subconscious mind, without the viewer being aware of it having been done. [See supporting links below ‘More’.]

It’s reasonable to presume this also holds true for television.

In the early 1960’s there was a quite popular, and very US establishment oriented television series, called *Route 66*, which told a weekly tale of Yale graduate Tod Stiles’ (Martin Milner) and ‘ethnic’ sidekick Buz Murdoch’s (George Maharis) adventures attempting to ‘find themselves’ as they travel across the United States in Tod’s Chevy Corvette.

| “While LBJ was a scumbag asshole...he is not Jewish..”

Seems he was.

“According to Jewish law, if a person’s mother is Jewish, then that person is automatically Jewish, regardless of the father’s ethnicity or religion.Â The facts indicate that both of Lyndon Johnson’s great-grandparents, on the maternal side, were Jewish.

These were the grandparents of Lyndon’s mother, Rebecca Baines. Their names were John S. Huffman and Mary Elizabeth Perrin.Â John Huffman’s mother was Suzanne Ament, a common Jewish name. Perrin is also a common Jewish name. Huffman and Perrin had a daughter, Ruth Ament Huffman, who married Joseph Baines and together they had a daughter, Rebekah Baines, Lyndon Johnson’s mother. The line of Jewish mothers can be traced back three generations in Lyndon Johnson’s family tree. There is little doubt that he was Jewish.”

| ‘Anthropogenic’ = man made.

Yes, indeed.

The well documented rise in atmospheric CO2 levels since the 1950s is attributable to the rise in CO2 emissions as a result of human activity (burning fossil fuels, deforestation etc).

But it would be churlish for my comments here to overlook the article by Mark Gaffney itself. What a superb piece of writing!

The author published his book about Dimona in 1989. I’m fairly sure that same book was one of the sources used by Michael Collins Piper in Final Judgment, published a few years later, which first explicitly pinned the Zionist tail on the JFK assassination donkey. Interesting that it seems to have taken Mr Gaffney rather longer to come to a similar conclusion – a measure of his caution or perhaps an indication of how compelling the case has become over time?

@A. Pagano

Pagano (aka Guano) claims, in relation to what I wrote:

Ridiculous nonsense; I argue no such thing. .... Oswald missed his first shot and hit JFK from behind and immediately below the base of the neck with his second shot.

What don't you understand about the following irrefutable facts?:

1) Oswald was SEEN by other co-workers at the time of the shooting, on the second floor of the TSBD, getting a Coke from the soft drink machine

2) Even a professional sharp-shooter would, in all probability, NOT have accurately struck JFK with the alleged Mannlicher-Carcano rifle at that distance, let alone the poor marksman that Oswald was.

DO YOU UNDERSTAND THAT GUANO ?

This was a WWII Italian made rifle that British and Commonwealth troops (who fought the Italians in Nth Africa), referred to as 'The Peacemaker' – because it was so inaccurate that it seldom injured anyone, let alone killed them.

In fact, even professional marksmen were struggling to get three [semi accurate\*] shots off in the 6-8 seconds that Oswald was alleged to have done it.

(\*Yes, it's possible to get three shots off in that time frame but when one factors in the couple of seconds between shots to stabilise the rifle/compose yourself and AIM, it is not possible). This was not an automatic rifle. It was a bolt action variety that required some time between shots.

3) Oswald had no motive to shoot JFK. All the leaflets Oswald handed out in support of anti-Castro Cubans was all CIA B.S and misdirection. Oswald was a patsy – that’s why he had to be taken out by Rubinstein.

Because if he lived, he would have revealed the truth about his CIA handlers that pre-positioned him to take the rap.

You go on to say:

Your description of physics might be from Hollywood “Dirty Harry” physics but it certainly isn’t Classical Newtonian Physics.

There is only one classification of the Laws of Physics and of course they are Newtonian Physics.

And anyone with even half a brain knows that your B.S explanation runs 180 degrees opposite to Newtonian Physics. This is all high school science and you can’t even grasp that Mr Guano.

In any event, I have a S.T.E.M based hard science background that for certain would run rings around your ‘High School Equivalency’ academic credentials.

FACT: We’ve all seen the film footage of Jackie Onassis climbing on the trunk of the limousine in the moments immediately after JFK was shot.

She said herself that she climbed there to retrieve a piece of JFK’s skull that was blown BACK after the bullet entered from the FRONT of his head leaving a small entry wound.

Then the frangible bullet (designed to expand), left a HUGE hole on the back of JFK’s head as bits of skull were projected BACKWARDS.

FACT: The motorcycle cops that were several metres back from JFK’s limousine, testified that bits of JFK’s brain matter struck them as said brain matter was projected BACKWARDS.

Only a FOOL would suggest that a bullet coming from behind (ie: from the TSB) would hit JFK’s skull and then project bits of skull/brain BACK in the same direction from where the bullet originated.

Since you brought up Newton’s 3rd Law, consider the following:

i) I sit on a sturdy steel framed chair and exert a weight force. The chair exerts an equal and opposite reaction and the system is in equilibrium.

ii) I sit on another chair made of flimsy cardboard. The cardboard chair is unable to exert an equal and opposite force to counteract my weight.

This results in deformation of this 'chair' and it collapses when I sit on it.

This does not entail that Newton's 3rd Law was violated. The cardboard chair may well have exerted an equal and opposite force for a few milliseconds, but 'plastic deformation' of the structure soon thereafter entailed that its structural integrity was soon compromised and whatever load bearing capacity it once had was now gone.

iii) A high powered rifle bullet is thrown at the top of Mr Guano's flat head and comes to rest there in equilibrium. The weight of the bullet is opposed by an equal and opposite force from Guano's thick skull.

The SAME high powered rifle bullet is fired at Mr Guano's head and, travelling faster than the speed of sound, it punches a hole clear through.

Bits of his brain and skull are projected out of the back of his head **IN THE DIRECTION IN WHICH THE BULLET WAS TRAVELLING.**

What happened here, Guano Pagano asks ? After all, it's the SAME bullet.

Why was Newton's 3rd law satisfied in the first instance with an equal and opposite force plainly in evidence, and not so in the second instance.

After all, the mass of bullet did not change.

Of course, those that actually paid attention in their high school physics class (ie: not Mr Guano), will know that the second bullet had IMMENSE Kinetic Energy by virtue of its velocity, and would thus punch a hole clean through Mr Guano's skull before the skull had any chance to even attempt an 'equal and opposite' reaction force.

UR readers can check out You Tube for themselves of rifle bullets striking pumpkins.

The bullet makes a small entry 'wound' and produces a much larger exit wound.

Needless to say, the larger chunks of pumpkin fly out of the BACK of the pumpkin IN ACCORDANCE WITH THE LAWS OF MOMENTUM TRANSFER.

ie: they don't do a U-turn and go back in the direction from where the bullet was fired.

ONLY A MORON WOULD SUGGEST SUCH A THING.

Mr Guano, you've embarrassed yourself mightily with your original comments.

But you've compounded the humiliation tenfold with you comment # 173.

I recommend you STFU from here on, lest you make things worse for yourself.

@A. Pagano

Pagano (aka Guano) writes:

The ballistics evidence is unequivocal that Oswald (or someone in the Book Depository) was not the only shooter.

In that 5 min sequence I suggested you watch from my video in comment # 164, all the shooters are named – and OSWALD IS NOT AMONG THEM.

Every man and his dog that has done even a modicum of research on the JFK coup d’etat knows that Oswald was not one of the shooters, and in fact that he admired JFK.

And, the most important piece of exculpatory evidence that exonerates Oswald is this:

<https://www.jfk-assassination.net/factoid2.htm>

Simply put:

During his questioning Lee Harvey Oswald was administered a paraffin test by W. E. Barnes of the Dallas Police Department. ... If the suspect had fired a gun, one potential contaminant would be found in the nitrates from gun powder residue. ... It is also consistent with Oswald’s claim that he had not fired a rifle on November 22.

Did you get that Guano ?

OSWALD TESTED NEGATIVE TO GUN POWDER NITRATE RESIDUE – emphatic proof that he had not fired a gun that day.

Of course the corrupt Dallas Police Dept did not release this finding to the world because it ran counter to the narrative of the Zio dictated script.

Once again Mr Guano, you must be feeling pretty embarrassed after yet another juvenile faux pas.

You really do know next to nothing about what really happened that day in Dallas.

The extent of your knowledge comes courtesy of reading the book 'Case Closed' by the mendacious Jew Gerald Posner, who is an obvious tool of the Zio cabal.

You are one dumb f\*ck indeed.

@A. Pagano

Guano writes:

The pressure shock wave inside his skull proceeded along the path of the bullet and blasted out the upper right of JFK's skull.

You just can't help yourself, can you ?

Your disinfo controllers must be on your back to keep peddling your B.S story, no matter how often I (and others here in UR) expose you as an ignorant fraud.

So, let's move on to the ACTUAL DOCTORS that worked on JFK at Parkland hospital – doctors that had seen countless gunshot wounds before and knew the difference between an entry and an exit wound.

Watch the short sequences of testimony from 2:50 – 3:15 and then from 5:50 – 7:30 in this video below featuring Dr Charles Crenshaw:

Later in the video a bullet wound to JFK's back is mentioned, and indeed that was fired from behind.

That is very likely the bullet fired by LBJ's personal hitman Malcolm 'Mac' Wallace.

If that's not enough for you, put the name Dr Robert McClelland (another doctor that treated JFK that day in Dallas), into a You Tube search and watch him say the SAME THING.

ie: the kill shot on JFK's head and the wound to the throat, ALL CAME FROM THE FRONT.

@Brad Anbro

Brad, why am I not surprised that you're on top of this issue, as you are on just about every other matter of importance.

That 8 min Mark Lane video you posted is very good, but if you want to know more about Roger Craig, you and the other UR readers should make time to watch the full 20 min video below from which those excerpts of Roger Craig were taken:

If ever there was a GENUINE American hero\* related to the JFK assassination, this man was head and shoulders above the rest. (\*If it was up to me, I'd rate him on par with Audie Murphy and award him a posthumous Medal of Honour).

The decency and honesty of this man was a thing to behold. That such a good man should meet this demise is a tragedy beyond description.

Meanwhile, the following is an unpublished manuscript from Roger Craig, given to me by another commenter (whose name escapes me) in an exchange I had last year in another JFK related thread in UR:

<https://ratical.org/ratville/JFK/WTKaP.html>

For those committed JFK researchers, this is a MUST READ and details the relentless abuse, intimidation and misery Roger Craig was subjected to (by the perpetrators of the JFK murder) over

many years before they finally killed him.

It's a half hour read, more or less, but well worth it.

Roger Craig could so easily have avoided all the drama and lived out his life in relative comfort.

But he stuck to his guns and would not waver from telling the truth.

He was a GOOD COP until the day he died.

BTW Brad, in relation to the two men that Mark Lane speaks of in the last minute of your video (that were, according to a witness, on the 6th floor of the TSBD – one a white man with a rifle and the other being a coloured man), the white man was LBJ's personal hitman Malcolm 'Mac' Wallace.

Mac Wallace's fingerprints were positively identified on the 6th floor.

Once again, the corrupt Dallas Police withheld that info from the public and the Warren Commission.

@Syd Walker

Syd, I suspect you did not read the entirety of my remarks in comment # 162 (judging from your response, you only got as far as the first line), and you may not be familiar with the methods employed here by the editor Ron Unz in 'truncating' comments.

Whenever a message is off topic and somewhat lengthy (this thread is about the JFK assassination and my message was exposing the Anthropogenic Global warming fraud that was lapped up by the gullible who are devoid of critical thinking faculties), Ron truncates it and inserts the '[MORE]' symbol.

If you wish to read the whole message you must click onto the [MORE] tag and the rest of the message will appear.

Before you do so, sit down in a comfortable chair and take a sip of water.

(Because you're going to blow a fuse and come out red-faced and embarrassed for having the hubris to believe, for even one second, that mankind has the wherewithal to affect the average Earth temperature for the WHOLE\* planet).

(\*Yes, yes I'm well aware that the depraved USG through the application of HAARP and weather modification technology can affect LOCALISED regions of the planet to induce drought, floods etc, but for the Earth as a whole this is impossible. Anyone who thinks this is achievable should seek psychiatric attention at once).

I'm not committed to Oswald being the shooter however Oswald's gun was found in the book depository with two recently fired casings. The third casing found had too many firing pin strikes to be recently fired. Two months earlier Oswald had used the same rifle in a failed assassination attempt of Col Edwin Walker in Texas. And Oswald had wanted to do some great and terrible thing to the US since his defection. The ballistics of the round which struck JFK just below the base of neck indicates a shot fired from high in the Book Depository. Notwithstanding the parafin test these are the facts. If not Oswald firing in the Book Depository then who. Who did Ben Gurion or Lansky send to do the hit from the Book Depository?

There had to have been at least one other shooter. The Book Depository shooter did not hit JFK in the head. Who did Ben Gurion or Lansky send to be that trigger man? These questions are all left unanswered. I don't question for a moment that there was a conspiracy to kill and cover up JFK's murder, I'd simply like to see evidence that actually implicates a particular human other than Oswald.

And its promising to see that you've abandoned your ill conceived Hollywood "Dirty Harry" Physics about bullets and human bodies. Apparently you can be taught.

I read this literally decades ago. Knowing how biased Wikipedia is, their article on Ruby states Ruby

“... was admitted to Parkland Hospital in Dallas on December 9, 1966, suffering from pneumonia. A day later, doctors discovered cancer in his liver, lungs, and brain.”

Even with this slim information, his cancer didn't get this far along unknown. Reading between the lines, I have no reason to believe anything other than Ruby, given his circumstances, decided to take one for the” team”.

The Truman Show, 191, let's say you're a big shot Jewbanker, and you come to me, a CIA knuckledragger, and say, "Hey, spy! Do this thing for me, I'll give you money!" And you rub your fingers and thumb with a lascivious Jewy leer, to inveigle me to do your bidding.

And I say, "No, here's what we'll do, you give me money and I don't do the thing. Cause I can do any fuckin thing I want and get away with it! Like I can waterboard you, like this! Ha, ha, blub-blub, huh? Ah, just kidding... And I can cut slits in your dick, see? Ow, yeah! It's gonna be like a corkscrew if we're not careful! ...and we can simulate burying you alive, too! What? What? Oh, OK, thanks for that nice money! Dig you up now? No, you can't come out yet, first gimme some more money."

Pro tip: if a genie pops out of your bong and offers you shitloads of money, or impunity, take the impunity. It's way better.

Where you been the last 70 years?

That's not to advocate avoiding debate about the topic of climate change/global warming.

My view on global warming is that I would be willing to align my view with the consensus view of experts whatever their claims if there weren't the lockstep campaign from the media and Hollywood to get me to do so.

I did my own research and discovered that if world migration from the low carbon footprint global South to the high carbon footprint global North ended tomorrow, it would have an immediate and positive impact on carbon emissions that would become gigantic over time. Were it not for immigration, the populations of the entire North would be stable or even shrinking, but our population is growing rapidly thanks entirely to our stupid policy of transferring the teeming masses of the south to the north for the benefits of cheap lettuce.

But Hollywood and the New York Times, the same folks who want me to accept the climate crisis narrative, will also viciously attack any effort to reduce immigration, as Donald Trump discovered.

The whole thing smells fishy to me. It looks even fishier if you have the intellectual honesty to notice that Hollywood and the media are largely controlled by Jews, and that the "solutions" to global warming they do offer generally boil down to transferring wealth and sovereignty from nations to global institutions.

The global warming debate shouldn't be over whether it is or isn't occurring. The demand should be that all immigration be halted immediately—a policy that could be enacted tomorrow with huge benefits for the global climate.

I disagree with your assertion that “Johnson was 80%” of the murder. Probably more like 50/50, as in 50% US Deep State and 50% Zionist Israel. Johnson’s submissiveness towards and refusal to attack Israel following Israel’s act of war against the USS Liberty, demonstrates that Johnson was not the Boss. America’s foreign policy towards Israel did a 180 degree turn for the worse beginning with LBJ. Israel viewed Kennedy as an existential threat and powerful traitors in the US wanted JFK out of the way for their own reasons. A deal was struck and it has lasted to this very day as evidenced by the ongoing love affair between the bipartisan Establishment and Israel in matters of foreign policy. It’s also the reason why neither Trump nor Biden were permitted to unseal the remaining, classified JFK assassination records when they came up for review in 2017 and 2021.

“Reading between the lines, I have no reason to believe anything other than Ruby, given his circumstances, decided to take one for the” team”.

In ‘Final Judgement: The Missing Link in the JFK Assassination’ the author (Michael Collins Piper) advances the theory (along with compelling evidence) that Jack Ruby (Rubenstein) ended up in the Zionist State of Israel.

“There had to have been at least one other shooter. The Book Depository shooter did not hit JFK in the head. Who did Ben Gurion or Lansky send to be that trigger man?”

In ‘Final Judgement: The Missing Link in the JFK Assassination’ the author (Michael Collins Piper) advances the theory (along with compelling evidence) that the gunmen were French (OAS or Corsican Mafia). The OAS hated JFK and they attempted to assassinate Charles De Gaulle in 1962 using the same sniper tactics. Also, after World War 2, the American CIA utilised the French (Corsican) Mafia to intimidate and murder communists and trade union organisers in the port city of Marseille.

@A. Pagano

The ballistics of the round which struck JFK just below the base of neck indicates a shot fired from high in the Book Depository.

**There was no such shot. Your ballistics are based on BS.**

Commissioner Gerald Ford's crucial editing of a key passage in the Warren Commission Report relocated upward the position of the bullet wound in Pres. Kennedy's back so it would work as part of the fantastical flight path of the mythical Magic Bullet.

However, photos of JFK's bloody shirt (CE 394 etc.) show that bullet wound in his back was well below the level of his shoulders.

Photo montage: Getty Images from *Snopes*

<https://www.snopes.com/fact-check/kennedy-bloody-shirt/>

“This is the most significant lie in the whole Warren Commission report,” said Robert D. Morningstar, a computer systems specialist in New York City who said he has studied the assassination since it occurred and written an Internet book about it.

The effect of Ford’s editing, Morningstar said, was to suggest that a bullet struck Kennedy in the neck, “raising the wound two or three inches. Without that alteration, they could never have hoodwinked the public as to the true number of assassins.”

If the bullet had hit Kennedy in the back, it could not have struck Connally in the way the commission said it did, he said.

<https://www.latimes.com/archives/la-xpm-1997-jul-03-mn-9338-story.html>

Pres. Kennedy’s back wound was shallow, with neither bullet nor exit found by Dr. Humes who probed the wound with his finger during the second, “show” autopsy at Bethesda after all bullets had been removed from JFK at an earlier, surreptitious autopsy, also at Bethesda.

If the Secret Service had not illegally hijacked the President’s corpse at gunpoint from the legal medical authorities in Dallas, neither of these illegal autopsies at Bethesda could have taken place. Of course, if the Secret Service had done its job on Nov. 22, 1963, the President wouldn’t have been assassinated in the first place.

My conjecture is the shot to JFK’s back may have passed through the top of the back seat in the limo before hitting Pres. Kennedy, which would tend to indicate it was fired at a rather shallow angle, and might explain why the bullet did not penetrate deeply into JFK’s back.

In any event, JFK’s back wound has no direct connection with JFK’s throat wound, which was inflicted by a bullet that passed through the windshield of his limo before striking the President. The “through and through” bullet hole in the windshield was

noted by several observers as the limo sat at Parkland Hospital, as well as by the Ford technician who replaced the windshield later.

Sherry Fiester's forensic analysis of the throat wound and bullet hole in the windshield shows that bullet had to have been fired from the general direction of the south grassy knoll area along and above Commerce, directly across Dealey Plaza from the more infamous north grassy knoll/stockade fence area along and above Elm, where another team of assassins was likely shooting at the President, or perhaps merely creating a noisy and showy distraction.

By now, most serious researchers know that the tenuous paper trail linking the Carcano with Alec Hidell and Oswald is riddled with inconsistencies. Roger Craig never wavered in his insistence that the weapon originally found in the TSBD was a Mauser, which he and other officers were able to identify by the manufacturer's imprint stamped into the receiver.

But if Oswald had really wanted a rifle to kill right-wing Gen. Walker or left-wing Pres. Kennedy (see how silly this is?), he easily could have walked into any of dozens of gun shops, pawn shops or hardware stores in the Dallas-Fort Worth area, and purchased a powerful, high-quality deer rifle like a 30-06, or similar, with cash, without leaving a paper trail of any kind.

Finally, back to the Magic Bullet. According to O.P. Wright, who handled it right after it was found Darrell C. Tomlinson, the bullet originally found at Parkland Hospital had a pointed tip, completely unlike the rounded tip on CE-399, the Magic Bullet.

## Figure 4

In an interview in 1966, Parkland Hospital witness O.P. Wright told author Thompson that the bullet he handled on 11/22/63 did not look like C.E. # 399.

O. P. Wright believes that the stretcher bullet he examined on November 22 looked like the sharp-nosed bullet above. The Commission, however, insists it was blunt-nosed CE 399, below.

As Lyndon Johnson arrived “well after midnight” that means the inner meeting of the twenty five conspirators happened on the same day as the assassination. It seems unlikely twenty five people would gather to plot a murder on the same day. Johnson was “heavily intoxicated” so alcohol was readily flowing. What were the twenty five high powered individuals doing in that room? Enacting a Masonic type pledge of secrecy and mutual protection? George Bush was also in Dallas but not one of the twenty five, was he at the Murchison party? He was a lowly CIA officer. Nixon turns up but does not attend the inner room meeting. Trust Nixon to be creeping around. I have heard he left Dallas that morning and was on the plane when the assassination took place. Four living and future presidents were in Dallas on the assassination day. Edgar Hoover was of the twenty five. He rang up his boss Robert Kennedy to inform him of the assassination. Would that mean he rung from Dallas? Wouldn't in those days that have required a toll call. A toll call from the FBI Director from Dallas.”Your brother the President has been shot in Dallas.” It seems curiouser and curiouser.

Governor John Connally is also reported as one of the twenty five conspirators at the Murchison party. It seems incredible that the Governor would put himself into almost suicidal danger along with his wife to enter the car beside JFK. After the shooting, he is reported to have called out. "My God they are killing us all." Photographs show him very relaxed in the car beside the president. This list resembles the Epstein Island list. The only high powered individual missing from the Murchison list is president Kennedy. Like the only high powered individual missing from the Epstein list is president Trump

I'm limiting my discussion to the bullet wound in the front of JFK's throat below the Adam's apple which Dr. Carrico from Parkland Memorial documented unequivocally. There's no reason to deny the honesty of this observation. If you deny the existence of this wound then you might as well stop reading now. **In any event any other wounds evident in JFK's body—other than the throat wound—could NOT have come from the Book Depository.**

Your certainty, in the face of so much uncertainty, particularly with the autopsy evidence, is puzzling. You assign a higher weight to conclusions drawn by some that are NOT the only ones that can reasonably be drawn from the evidence. The evidence does NOT speak for itself.

**The fact remains that Dr. Charles Carrico was the first doctor to examine JFK at Parkland Memorial. He observed two wounds: a small bullet wound in the front lower neck below the Adam's apple and a large, gaping wound in the President's head.** Surgeon Malcolm Perry of Parkland saw the President having great difficulty breathing and immediately performed a tracheotomy, opening the throat slightly on either side of the neck wound. He then reinserted a respirator tube Carrico had previously placed in the wound to assist JFK's breathing. Unfortunately Perry's incision irrevocably altered the appearance of the neck wound. Did Dr. Carrico fabricate his observation of a bullet wound just below JFK's Adam's apple? Seriously doubtful. The Secret Service detail made sure that Parkland Memorial was unable to perform a bullet trace of the throat wound.

At Bethesda Naval Hospital Cmdr Humes was unaware of the bullet wound to JFK's throat. He assumed that the cut in JFK's neck was a simple tracheotomy. It wasn't until the following morning, long after the autopsy was completed that Humes talked to Dr. Perry in Dallas and learned of the gunshot wound beneath the President's Adam's apple. Humes's report described the bullet hole in the back as being 5 1/2 inches laterally from the tip of the right shoulder and approximately the same distance below the right mastoid process, the bony point immediately below the right ear. This put the back wound about 2 inches below the nape of the neck and just to the right of the spine.

Dr. Boswell from Bethesda Naval created a chart of the back wound showing the back wound several inches below Humes's. Boswell would later say that his drawing was only meant to mark the approximate location of the back wound and that obviously he mistakenly marked the wound too low. However the bullet hole in JFK's jacket and shirt (as you point out in your Comment #209) seemed to confirm Boswell's drawing. An FBI agent at the autopsy measured the hole in both the jacket and shirt as being 5 1/4 inches below the collar and 1 1/8 inches to the right of the mid-line. Is it possible that Boswell incorrectly based his back wound drawing on JFK's body by relying on the holes in the clothing? Possibly. **However, since the clothing was not glued to JFK's skin the holes in his jacket/shirt was not irrefutable proof of the exact location of the back wound.**

A plausible explanation for the lower bullet hole in the clothing was that JFK had raised his right hand prior to the throat-shot pulling up both his jacket and shirt prior to the impact of the bullet. Dr Jack Latimer discovered a motorcade photo corroborating this possibility, Furthermore, the FBI's examination of the bullet hole on the front of JFK's shirt was

irrefutable proof of the bullet hole in JFK's throat. According to the FBI, the cloth fibers surrounding the hole in the front of the shirt were pressed out and not in. Consistently the shirt fibers in the hole in JFK's back were pressed in. Irrefutable proof that the shot came from the back and exited the throat.

Then we move on to Gov Connally's wounds: bullet through the shoulder, wrist and lower left thigh. How are they explained? Mostly they are not. First let's look at a graphic of the ridiculous Warren Commission magic bullet theory:

The problem here is that the relative positions of JFK and Connally in the limo are incorrectly shown. Connally was actually sitting in a jump seat which was lower and slightly closer to the vehicle center line than JFK in his bench seat. In addition Connally had turned to his right just prior to the JFK throat shot. As a result we see the absurd magic bullet path. However now lets look at the throat shot bullet path if JFK and Connally's body positions in the vehicle are correctly shown:

Here the bullet path from the Book Depository lines up with JFK's throat shot and all of Connally's wounds. Is this what happened? I don't know but it explains more of the evidence without resorting to unseen shooters. Occam's Razor, the explanation is simpler. JFK's head wound cannot be explained as coming from the book depository, that requires a second shooter in another location.

I'm limiting my discussion to the bullet wound in the front of JFK's throat below the Adam's apple ... If you deny the existence of this wound then you might as well stop reading now.

**What are you talking about? I've already explained that the throat shot passed through the windshield of JFK's limo where it left a hole**

| Irrefutable proof that the shot came from the back and exited the throat.

**Nonsense. The doctors at Parkland described the throat wound as a wound of entry. At the autopsy, Dr. Humes probed the back wound and there was no exit. As I wrote previously in another discussion:**

The official autopsy at Bethesda was witnessed by FBI agents Frances X. O'Neill and James W. Siebert who prepared an FD 302 report, which states, in part:

During the latter stages of this autopsy, Dr. Humes located an opening which appeared to be a bullet hole which was below the shoulders and two inches to the right of the middle line of the spinal column.

This opening was probed by Dr. Humes with the finger, at which time it was determined that the trajectory of the missile entering at this point had entered at a downward position of 45 to 60 degrees. **Further probing determined that the distance traveled by this missile was a short distance inasmuch as the end of the opening could be felt with the finger.**

Inasmuch as no complete bullet of any size could be located in the brain area and likewise no bullet could be located in the back or any other area of the body as determined by total body X-Rays and inspection revealing **there was no point of exit**, the individuals performing the autopsy were at a loss to explain why they could find no bullets.

>The doctors at Parkland described the throat wound as a wound of entry.

They did, yes — but then such a determination is usually confirmed later by the criminal investigation, i.e. who fired the shot and from where.

As I understand it, a ‘wound of entry’ is distinguished from an exit wound by its size and contours: an entry wound is generally smaller and has smooth contours when compared to an exit wound, because the bullet tumbles when transiting human tissue.

Which raises a question: how could a bullet that went through the windshield produce an injury that resembled a ‘wound of entry’, since it had already passed through the windshield, which is harder and so offers a lot more resistance than human tissue, and therefore presumably would have caused the bullet to tumble?

Frangible bullets are designed to penetrate and then largely disintegrate. That is they dump most of their kinetic energy almost immediately after penetration by creating a large wound cavity. The energy is mostly converted to heat and pressure. That the top- right-front of JFK's skull was blown off is an indication of the pressure release. According to Newton's 3rd Law it is largely irrelevant what exploded out of the top-right-front of JFK's skull only that something did causing an equal and opposite reaction.

In addition the Secret Service driver of JFK's limo had stomped on the accelerator applying a centrifugal force rearward to everyone in the vehicle.

[@Olivier1973](#).

If you were able to actually provide the debunking (which I doubt) we would likely find only a different interpretation of the evidence which often included arbitrary decisions on how to weight pieces of the evidence or ignore other pieces. Or weight different expert's opinions. The evidence doesn't speak for itself.

The evidence that someone high in the Dallas Book Depositor fired a round that caused an exit wound through JFK's throat just below the Adams apple hasn't been debunked. And while everyone agrees that the magic bullet theory is bunk those in your camp have no clear answer how to explain the three wounds in Gov Connally except with the necessity of three different shooter all at different locations and heights in relation to the street. Shooters for which there is no forensic or witness evidence.

Claim certainty if you like but there is none and it is doubtful that there ever will be. Those that think a a release of gov't files will clear up the matter are more loony than the Warren Commission who proposed the magic bullet theory.

“While LBJ was a scumbag asshole...he is not Jewish.”

–You pretend that one excludes the other?

Nuland-Kagan and her husbands are both scumbags and Jewish; they are the principal figures in the Nazification of Ukraine. The genocidal Kagans clan alone deserves to bring changes into holobiz museums’ exhibitions and show documented cases of Jewish activities for the restoration of Nazism in Europe.

Jake Sullivan, Greenblatt, David Fishman, Carl Gershman, and Wolfowitz are Jewish scumbags known for their supremacist ideology that converged flawlessly with the ideology of the Ukrainian Nazi Party. By their deeds, Zionists are all Banderites now!

Bibi is a perfect example of a Jewish scumbag who is unable to educate his wayward progeny (swamped in corruption and prostitution) yet bloviates about “high Jewish values.” Bibi is a parasitic and ridiculous Jewish scumbag.

Schumer, Schiff, Nader, Goldman, and Garalnd are exemplary Jewish scumbags openly and criminally lying and intriguing against the American citizenry while using the FBI and the CIA as their private fiefdoms. They hate America and Americans the same way the Jewish Bolsheviks hated Russia and Russians.

This is your tribal rule. Live with it:

“According to Jewish law, if a person’s mother is Jewish, then that person is automatically Jewish, regardless of the father’s ethnicity or religion.Â The facts indicate that both of Lyndon Johnson’s great-grandparents, on the maternal side, were Jewish.

These were the grandparents of Lyndon’s mother, Rebecca Baines. Their names were John S. Huffman and Mary Elizabeth Perrin.Â John Huffman’s mother was Suzanne Ament, a common Jewish name. Perrin is also a common Jewish name.

Huffman and Perrin had a daughter, Ruth Ament Huffman, who married Joseph Baines and together they had a daughter, Rebekah Baines, Lyndon Johnson’s mother. The line of Jewish mothers can be traced back three generations in Lyndon Johnson’s family tree. There is little doubt that he was Jewish.”

<https://web.archive.org/web/20180812064546/http://www.5tjt.com/our-first-jewish-president-lyndon-johnson-an-update/More:>

<https://www.facebook.com/5TownsJewishTimes/posts/our-first-jewish-president-lyndon-johnson-an-update-a-few-months-ago-the-associa/490682947651922/>

Research into Johnson’s personal history indicates that he inherited his concern for the Jewish people from his family. His aunt Jessie Johnson Hatcher, a major influence on LBJ, was a member of the Zionist Organization of America. According to Gomolak, Aunt Jessie had nurtured LBJ’s commitment to befriending Jews for 50 years. As young boy, Lyndon watched his politically active grandfather “Big Sam” and father “Little Sam” seek clemency for Leo Frank, the Jewish victim of a blood libel in Atlanta. ... Johnson’s speech writer later stated, “Johnson often cited Leo Frank’s lynching as the source of his opposition to both anti-Semitism and isolationism.”

This Leo Frank, who was a confirmed rapist and murderer of a young girl: <https://www.unz.com/runz/american-pravda-the-adl-in-american-society/>

the total expenditures by Frank supporters may have been as high as \$25 million in present-day dollars, quite possibly more than any other homicide defense in American history before or after, and an almost unimaginable sum for the impoverished Deep South of that period. Years later, *a leading donor privately admitted that much of this money was spent on perjury and similar falsifications...* There exists a mountain of demonstrably fabricated evidence and false testimony in favor of Frank, and no sign of anything similar on the other side. ...

Although his role was largely concealed at the time, the most important new backer whom Frank attracted was Albert Lasker of Chicago, the unchallenged monarch of American consumer advertising, which constituted the life's blood of all of our mainstream newspapers and magazines. Not only did he ultimately provide the lion's share of the funds for Frank's defense, but he focused his energies upon shaping the media coverage surrounding the case. Lasker also enlisted other powerful Jewish figures in the Frank cause, including New York Times owner Adolph Ochs, American Jewish Committee president Louis Marshall, and leading Wall Street financier Jacob Schiff [the principal financier of the Jewish Bolshevik Revolution in Russia].'

Ironically enough, Lasker himself plunged into this crusade despite apparently having very mixed personal feelings about the man whose cause he was championing. His later biography reveals that upon his first personal meeting with Frank, he perceived him as “**a pervert**” and a “**disgusting**” individual, so much so that he even hoped that after he managed to free Frank, the latter would quickly perish in some accident. Furthermore, in his private correspondence he freely admitted that a large fraction of the massive funding that he and numerous other wealthy Jews from across the country were providing had been spent on *perjured testimony and there are also strong hints that he explored bribing various judges*. Given these facts, Lasker and Frank's other major backers were clearly guilty of serious felonies, and could have received lengthy prison terms for their illegal conduct.

This is a unique story about Jewish dishonesty, rabid supremacism, unscrupulous tribal cohesion, and unlimited abilities to lie and slander others. You can see the exhibition of the same unscrupulous and unlimited abilities to lie and slander others during the ongoing Federal Government hearing. Your tribe has neither shame nor dignity.

Which raises a question: how could a bullet that went through the windshield produce an injury that resembled a ‘wound of entry’, since it had already passed through the windshield, which is harder and so offers a lot more resistance than human tissue, and therefore presumably would have caused the bullet to tumble?

It’s a fair question, and I believe I can address it in both logical and general physical terms while digging for some additional citations that support the scenario described by certified forensic investigator the late Sherry Fiester and her advocate “Alek Hidell.”

Glass and human tissue have different material properties, and laminated windshield glass is typically only about 1/4” thick. Even Twiggy wasn’t that skinny. Nevertheless, the same general rule applies to both glass and flesh when struck by bullets: small hole in, big hole out.

Projectiles striking windows leave a classic defect in the glass shaped like a truncated cone, with the big end pointing in the projectile’s general direction of travel, and the small end indicating the point of impact.

The only question here is what happens to a bullet passing through windshield glass, and how that might apply to Pres. Kennedy’s throat wound, which because of its original small size must have been a wound of entry, as described by Parkland doctors.

The effect a sniper’s bullet would have had on the windshield glass of JFK’s limo depends on a number of unknown factors, such as type, caliber and velocity of the bullet, sniper’s angle to the windshield, and sniper’s elevation above or below the windshield and JFK.

This article from Hornady provides some background information about those factors. Relevant to your question, there is no mention of bullets tumbling after passing through windshield glass.

The debris cloud following a bullet's exit from glass contains thousands of fragments of glass from the size of dust to the size of a .22 bullet. The cloud also contains bullet fragments weighing up to 20 grains with a velocity similar to the bullet itself. Both the glass and bullet fragments are capable of significant penetration

The last important issue to consider is the performance of different types of bullets... Bullets with conventional jacketed design will almost always shed their jacket and typically lose 30-40% of their weight and 40-50% of their length. Bonded bullets will retain more weight and fragment less but they may present severe over-penetration risk ... Soft point bullets, like polymer and lead tipped bullets, will usually deflect and break up less because the soft point of the bullet absorbs the force of the impact and prevents the glass from deforming the general bullet structure as severely. Bullets in .22 caliber generally have deflection angles 3 to 4 times greater than .30 caliber bullets because they are significantly lighter.

[edited for relevancy and brevity]

<https://www.hornadyle.com/resources/le-faq/what-can-i-expect-when-shooting-through-glass>

According to Hornady's article, bullets passing through glass do not tumble, but they do shed some part of themselves passing through the glass, while the remaining central part of the bullet and other fragments retain significant velocity and penetrating power.

I see nothing in Hornady's article to rule out the passage of a bullet or its large fragment through the windshield glass of JFK's limo and on into Pres. Kennedy's throat, which accounts for the President's first immediate reaction, where he is seen clutching at his throat after being struck there by a bullet.

Alek Hidell's article "The South Knoll Gunman" has the corroborating information I mentioned above: tiny leaks of embalming fluid from JFK's face as a result of penetration by

## glass fragments:

The characteristics described can be applied to Kennedy's injuries as observed both at Parkland and later by Tom Robinson of Gawlor's Funeral Home after the autopsy. He said when he applied embalming fluid to the cadaver it leaked through tiny holes in JFK's face. It also explains why Charles Taylor Jr. observed bullet fragments in the windshield hole.

## ...and a debris cloud in JFK's limo reported by close witnesses:

The following statements were given to the FBI on 24/11/63 by Mr. Jack Franzen and 25/11/63 by Mrs. Franzen, eyewitnesses to the assassination.

Mr. Franzen: advised he and his wife and small son were standing in the grass area west of Houston Street and south of Elm Street at the time the time that the President's motorcade arrived at that location at approximately 12:30 pm on November 22nd 1963. He said he heard the sound of an explosion which appeared to him to come from the President's car and noticed small fragments flying inside the vehicle and immediately assumed someone had tossed a firecracker inside the automobile.

(22 WCH 840).

Mrs. Jack Franzen: Advised shortly after the President's automobile passed by where she and her family were standing she heard a noise which sounded to her as if someone had thrown a firecracker into the President's automobile. She advised at approximately the same time she noticed dust or small pieces of debris flying from the President's automobile.

Just done a search of this page for two names – Arlen Specter author of the ludicrous “magic bullet” theory:

I am proud to say that late Sen. Arlen Specter was a friend of mine. He was the toughest man I ever knew. No matter how difficult the situation was, he stood up like a giant and fought – and with a ready smile. Everything I ever asked him to do to help Israel, he did.....Specter was Israel’s best friend among the 13 Jewish senators. – Morton A. “Mort” Klein, president of the Zionist Organization of America

.....and the funder and eminence gris behind Johnson’s political career, Abraham Feinberg:

Abraham Feinberg (1908-1998) is best known lobbying for the state of Israel and organizing Harry S Truman’s “whistle-stop” fundraising tour that saved his 1948 presidential campaign from certain ruin. Feinberg’s obituary hints at a role trafficking arms to Jewish fighters in Palestine. As founder of Americans for Haganah and Foundry Associates, Inc., Feinberg was deeply involved in the Haganah arms smuggling network in the United States. More recently, authors such as Anver Cohen and Michael Karpin document in the book “Israel and the Bomb” and “The Bomb in the Basement” Feinberg’s role in undermining US nuclear nonproliferation policy. On October 31, 1958 Israeli Prime Minister David Ben-Gurion noted in his diary a conversation “he had with Abraham Feinberg, a wealthy Jewish businessman and major Democratic fund-raiser” to raise funds for Israel’s nuclear weapons program among “benedictors” in the United States. A few years later, President John F. Kennedy fought for biannual international inspections of Dimona and verifiable Israeli assurances that it was not a nuclear weapons production facility. In 1960 Feinberg funded the American Israel Public Affairs Committee (AIPAC) as it mounted US disinformation campaigns about Israel’s nuclear weapons program. JFK’s assassination in 1963 marked the gradual end of inspections and the US nonproliferation drive toward Israel.

They deserve a mention as, in my view at least, their roles present strong evidence of Israel’s involvement.

I have a feeling this is somehow relevant, if only as predecident:

Chapter Six of The Assassination of James Forrestal is entitled, "Britain's Forrestal." The title character is Ernest Bevin, who was Foreign Secretary in the British Labour government from 1945 to 1951. Bevin, like Forrestal, won the enmity of the Zionists by resisting their ambitions in Palestine. Zionist terrorists attempted to assassinate him with letter bombs in 1946 when Britain still held the Mandate for Palestine, governing control over the region that it had been granted by the League of Nations in 1920.

Since Bevin was the leading opponent of the Zionists in the British government at the time, and since they attempted to kill him, the parallels between him and Forrestal would appear to be obvious. However, there are two clear differences. First, Forrestal's position of Secretary of Defense never gave him the power over government policy toward Palestine that Bevin wielded, and at the time Forrestal was almost certainly thrown from a 16th floor window of the Bethesda Naval Hospital on May 22, 1949, he was no longer in the government, having left office on March 28. Second, the plot to kill Bevin failed; with Forrestal, it succeeded.

Just about everything in this post was covered in Final Judgment, by Michael Collins Piper. Kennedy was forced to accept Johnson as his running mate in exchange for Jewish support to win the election. He also had to promise to do their bidding after the election was over. Johnson was their backup plan – if Kennedy didn't follow through with the expected support of all things Zionist, he would be assassinated, and their lapdog would move into his vacated office. The assassination was a joint operation of the mob (led by Lansky), the CIA (especially Angleton) and the Mossad.

Massive shipments of arms to Israel started within two weeks of Johnson's assumption of office, and the Israeli acquisition of Lebensraum started in 1967. The Israelis acquired a portfolio of nuclear weapons without a word of protest from the US.

Johnson was so deep in their pockets that he recalled fighters that were launched to aid US servicemen when the USS Liberty was under attack by the Israelis during the Six Day War. Think about that – he opted to let US servicemen die rather than “embarrass our friends” (his words).

The details are abundant in Piper's book.

@A. Pagano

Pa-Guano writes:

The evidence that someone high in the Dallas Book Depositor fired a round that caused an exit wound through JFK's throat just below the Adams apple hasn't been debunked.

Not one of the objective JFK researchers is suggesting that the wound to JFK's throat was an exit wound – NOT ONE.

And, if you refer again to my video of Dr Crenshaw (one of the doctors in Dallas that saw firsthand the wound on JFK) in comment # 197, he CLEARLY states it was an entry wound.

Now, if we were to assume for one second, the preposterous notion that the wound to JFK's throat was an exit wound, WHERE is the entry wound ? (seeing as there is no entry wound ANYWHERE in the vicinity of the back of JFK's neck).

Of course the LIARS that are propagating the official bogus story like Pa-Guano, are saying the entry wound was the observed bullet hole in JFK's back.

Only one problem with that explanation Pa-GUANO, and this is it:

THE BULLET WOUND IN JFK's BACK IS LOWER\* THAN THE ALLEGED EXIT HOLE IN JFK'S NECK.

In other words, the ONLY way that entry and exit wound scenario is possible, and still fit in with it being a shot fired from the 6th floor of the TSBD, is if JFK WAS STANDING UPSIDE DOWN WHEN HE WAS SHOT.

One cannot help but laugh when one witnesses the CONTORTIONS the liars defending the official narrative have to go through to explain the actual observed facts of the murder.

Who's paying you Pa-GUANO to post this utter nonsense of yours ?

(\*Also important to note that the bullet wound to JFK's back was off to one side – by several centimetres.

In other words, if it had struck him dead centre in his back, it would have struck the spinal cord.

It DID NOT.

And, if we draw a line from the bullet wound in JFK's back to his alleged exit wound in the neck, we see that it is something in the vicinity of 20 degree angle (+/-) away from the perpendicular – the perpendicular representing a line pointing directly backwards from JFK's body, and this line would also represent an UPWARD trajectory.

The only way that would have been possible if JFK was sitting upright when he was shot, which he most certainly was, is if the shooter was lying flat on the road UNDERNEATH the limousine as it passed over him.

The shooter would have had to shoot the bullet through the floor of the vehicle, striking JFK's back, and then exiting through the throat).

Pa-GUANO, your theory, like everything you've posted in this thread, is BIZARRE (and that's giving you the benefit of the doubt).

More accurate to just say you're a BALD-FACED LIAR propagating Zio talking points and trying to salvage the reputation of your uncle, that despicable Talmudic Jew otherwise known as Arlen Specter (he being originator of the 'Magic Bullet Theory').

@Realist

The unrealistic man writes:

As much as you Jew haters want to claim that anyone who speaks the truth about Jews...is a Jew...I am not.

I think I speak on behalf of most people here in the UR commentariat who expose Zio malfeasance and their orchestration of the most egregious crimes of the last century and more.

There are countless righteous Jews that are speaking the truth about the Ukraine proxy war, are involved in the BDS movement and exposing the human rights abuses and outright genocide of the Apartheid Israeli state, to name just a couple of issues where they're doing a stellar job.

There are many good ones that were/are involved in the 9/11 Truth Movement.

Needless to say Mr Unrealistic, you are NOT one of those righteous Jews.

Lynn Margulis was one such righteous Jew involved in the 9/11 Truth movement.

Awarded the National Medal of Science (the most prestigious scientific award in the country and the American equivalent of the Nobel Prize), Margulis looked fit and well in this video below, and had no serious preexisting ailments:

Within a year of that video being made she was dead.  
She paid the ultimate prize (according to many in the know), for coming out and speaking the truth about 9/11.  
She had to be punished for coming out against the 'tribe'.

All of us owe Lynn Margulis our eternal gratitude for speaking up and not cowering in the closet on the 9/11 False Flag as you do Mr Unrealistic.

As a matter of interest, where do you stand on 9/11? Do you believe the official USG narrative on 9/11 and if not, can you spell out exactly who you think is behind it ?

Getting back to where I was earlier in this comment, most of the sincere individuals here in the UR commentariat seek ONLY to identify and prosecute that malevolent and depraved sliver of Jewry (and their lackeys) that is perpetrating these crimes and giving the remainder of Jewry a bad name.

Of course, in your capacity as an apologist for those guilty Jews (you always defend them without first objectively analysing the facts), you must shoulder some of the blame.

Hopefully, when a South African style Truth and Reconciliation Commission is convened at some time in the future, the metadata will be scrutinised thoroughly and your contributions in defence of Criminal International Talmudic Jewry will be noted and appropriate punishment meted out to you.

Perhaps you'll get one thousand hours of community service and have to clean the toilets at your local mosque or some such.

Yes, that would be a well deserved way you could show some contrition for the cowardly way you've behaved all these years.

| “Pagano”‘s arguments appear to be made in good faith and fairly closely reasoned.

Pa-Guano’s arguments may well be ‘closely\*’ reasoned but they are not TRUTHFULLY reasoned.

(\*What the hell does ‘close reasoning’ mean ?).

Anyone who has done even a modicum of research on the JFK coup d’etat, will see that Pa-Guano is telling bald faced lies. Jonny, you have discredited yourself by suggesting that Pa-Guano has posted anything of substance.

It is not aggressively insulting to call out someone who is repeating the distortions and untruths of the Warren Commission and the official USG narrative.

For you NOT to be calling it out Jonny, singles you out as a coward.

I do not care to enter the rest of the argument about what happened or didn't, I am simply telling you that your application of Newton's laws is incorrect as regards momentum. If you are postulating an explosion (from an explosive round or phase change) then that is different, but you are wrong about momentum.

I do not know your level of education. I am an Engineer and do this sort of stuff for a living. Draw a free body diagram, if you know how to.

I would note that physiologists have postulated a muscular reaction, but I am not commenting about that or the driver's acceleration of the vehicle, just momentum from the round, frangible or not.

**An elastic collision is an encounter (collision) between two bodies in which the total kinetic energy of the two bodies remains the same and there is no net conversion of kinetic energy into other forms such as heat, noise, or potential energy. Both momentum and kinetic energy are conserved quantities in elastic collisions.**

The collision of a frangible 5.56 mm x 45 round with the back of JFK's head is NOT elastic. The bullet penetrates the back of the skull and then immediately disintegrates inside the brain cavity. Prior to impact the kinetic energy of the bullet is in the form of motion at velocity  $V$ . After impact that kinetic energy is largely converted to heat and pressure in the brain cavity.

Furthermore the Secret Service driver of JFK's limo accelerated causing a centrifugal force to also be applied to JFK's head.

Try again?

@A. Pagano

I didn't say it was elastic, I said that an interaction between two bodies does not have to be elastic for momentum to be transferred. You need to read more carefully.

Centrifugal force is germane to rotational momentum, not linear. You are out of your element.

I'm done.

@RoboMoralFascist 1st

Jack Ruby, “made man” and Mafia boss of Dallas, was ordered by the capo di tutti capi to shoot Oswald as an improvised Plan C. Plan A was to shoot Oswald on the bus when he was on his way from the Texas Book depository to his rooming house to change clothes and proceed with his further instructions. He got off the bus and took a cab because the bus was stuck in traffic. The cops got on the bus a few minutes later with guns drawn prepared to shoot him dead. (A planted “witness,” who knew Oswald, was there, on the bus, prepared to identify him as a foreign language speaking agent to the police). Because of Oswald’s unprogrammed move of getting off the stalled bus and taking a cab, the cops just missed him. Plan A, “kill the patsy immediately,” failed.

That led to Plan B. Tippit was executed by two government agents to further implicate Oswald while Oswald was following his instructions by being driven by fake cops to the alley behind the movie theater. (He was driven by fake cops in a fake police car to a) make sure he was there in place, and b), to make sure that no one saw him on the way to the theater creating an alibi for the shooting of Tippit). Plan B was to shoot Oswald in the theater. There were many cops, detectives, state prosecutors, and FBI who answered the call that someone entered the theater without paying the \$1.25. But when the cops tried to shoot Oswald they did it by grabbing his own gun instead of using theirs. Oswald had been given a revolver in the Texas Movie Theater by a contact (while the cops planted a holster on his bed at the rooming house); that revolver that Oswald was given (Tippit was shot with automatics) had a bent firing pin; Oswald put it in his pocket or in his belt; the cops tried to shoot him with

that gun, ostensibly his own, but all that happened was a “click” that could be heard in the theater. They arrested him instead, and that left plan C.

Ruby was ordered to do his mafia sworn duty: carry out orders. We don't know what plan D, E, and F, would have looked like, since plan C was successful. (PS: Oswald shot no one. He actually carried curtain rods to work which would have proved his innocence. His role was as a decoy for the real shooters. You may have heard of the Daltex building and the grassy knoll? He did not know until the reporters told him that he was the designated patsy for the assassination. But there were other potential patsies; millions of them. Where were you?

We now know that Oswald had an iron clad alibi—from the latest released interviews—that the Warren Commission had on file but chose to ignore.

Oswald went down to the second floor of the Texas School Book Depository to get a soda.

When he got there he realized he did not have the correct change for the soda machine.

He walked to the adjacent office and asked a lady who worked there for change for a dollar.

She reached into her purse and put his dollar in her purse—opened up her change purse, and counted out a dollar's worth of change.

She then was in the process of handing the change to Oswald.

At that exact moment there were three loud bangs outside the window.

Everyone in the office looked out the window to see what had happened.

Oswald then took the change to the break room, bought a soda and started drinking it.

That is where he was found when a policeman entered the building and break room.

There were several witnesses.

another fred wrote:

I do not care to enter the rest of the argument about what happened or didn't, I am simply telling you that your application of Newton's laws is incorrect as regards momentum.

1. The “rest of the argument” that you don't care to enter involves the system of interest—in this case the collision of a frangible bullet traveling at about 2800 ft/sec into JFK's head moving at about 15 ft/sec in the limo.
2. The oft made claim is that only a bullet fired by a shooter from the front would have caused JFK's head to move backward. I simply doubt that an examination of the forces involved ON THE SYSTEM would necessarily prove this.

another fred wrote:

If you are postulating an explosion (from an explosive round or phase change) then that is different, but you are wrong about momentum.

3. This is exactly what I've been postulating. Surely it was clear from my previous explanations that a bullet traveling at 2800 ft/sec penetrates the skull and then immediately disintegrates within the small confines of a closed skull is effectively an explosion. I suspect that the pressure increase in the skull would have been orders of magnitude larger than that of holding firecracker in a closed fist.
4. In any event the shock wave and bullet fragments would continue along the bullet line of travel until the shock wave hits the inside of the upper front skull, exceeds its strength and forces skull fragments, brain matter and fluid out of the skull.

5. The force of the expulsion of those skull fragments, brain matter and brain fluid out the upper front of JFK's skull would, according to Newton's 3rd law, apply an equal and opposite force to his head backwards and down. Newton's Laws generally apply to forces and not directly to momentum. Force is simply the rate of change of momentum with respect to time.  $F = dp/dt$  with p being the momentum.

6. Lastly the forward acceleration of the limo after the Secret Service driver heard the shots would also have applied a rearward centrifical force to JFK's head.

If you disagree then please cut & and paste the incorrect statements from my comment into your reply so that I know exactly where the issue lies.

@Justvisiting

I'm not wedded to Oswald being the shooter because there is little certainty about anything. Nevertheless he made an failed assassination attempt against retired Col Edwin Walker a couple of months before Deally Plaza. A commuting buddy to the Dallas Book Depository job prior to Nov 22nd reported Oswald carrying a covered object to work that matches the size of the Carcano rifle. Oswald was in the Book Depository on Nov 22nd before the shooting and fought capture after the assassination. And since his return to the US from Russia he appeared to have had a single-minded goal of committing some notable act against the United States preferably under the employ of the Russians or the Cubans--neither of which appeared to want anything to do with him.

Whoever the shooter was, someone likely fired the shot that hit JFK in the back that exited the throat from high in the book depository. Examination of clothing fibers (jacket and shirt) show the fibers pointing into the wound in JFK's back wound and out on the front collar of the shirt. Finally the wounds to Gov Connally (channel through the upper right shoulder, through the wrist and to the lower left thigh) are problematic it not from the book depostory.

**Unfortunately “elasticity” is considerably relevant.**

Elasticity gives us a qualitative measure for the extent of the transfer of kinetic energy and momentum. Perfectly elastic and there is a complete transfer of kinetic energy and momentum; **completely inelastic and there is NO transfer at all.**

The collision of a frangible bullet traveling at 2800 ft/sec with JFK's skull is near the **perfectly inelastic end** of the scale. The kinetic energy (and the momentum) of the bullet is almost completely transformed to heat and pressure in the skull. The transfer of momentum from the bullet to the skull is negligible.

I watched the full 3-hour film (see the link in post #164) From JFK to 9/11: Everything is a Rich Man's Trick and highly recommend it.

Thanks to Truth Vigilante for posting this great film. I had not seen it.

The film is long but it's packed with a lot of information and analysis I had not seen before — including a detail pertinent to the argument being made here by Pagano about the direction of the kill shot.

Evidently the Zapruder film was altered — I had heard about this but did not know the details. Someone deleted enough frames to hide the fact that the driver of JFK's limousine actually stopped the car in the kill zone...which allowed a shooter hidden in the nearby storm drain to make the kill shot.

Most of the other shooters — the filmmaker claims — had missed (except for the frontal throat and the back shots which were not necessarily fatal)...If true, this means the crossfire strategy nearly failed. A white mark painted on the curb visible to the driver allowed him to know when to stop — and apparently he also received a signal from the conspicuous umbrella man on that same side of the street.

The trajectory of this shot came from lower right explains the backward and upward jerk of JFK's head — and also the severe damage — brains and blood thrown out in all directions. By Occam's razor this is the simplest and therefor best explanation — no need to resort to Pagano's reasoning.

In addition the Secret Service driver of JFK's limo had stomped on the accelerator applying a centrifugal force rearward to everyone in the vehicle.

Centrifugal force is related to *circular* motion. Unrestrained people or other loose objects in a vehicle will go to the rear of a vehicle when it accelerates in a straight line forward because of their *inertia*.

@A. Pagano

Whoever the shooter was, someone likely fired the shot that hit JFK in the back that exited the throat from high in the book depository.

Pa-Guano, I see you're still persisting with this PHYSICALLY IMPOSSIBLE assertion.

Let's embarrass you once again in front of the UR readers.

1) JFK's throat wound was within a fraction of an inch of his Adam's apple.

2) UR readers, sitting upright, compare the top of your shoulders to where your Adam's apple is situated.

CLEARLY, your shoulders are situated LOWER than that part of your throat.

3) The bullet that struck Kennedy in the back, did not impact at the top of JFK's shoulders.

It was LOWER STILL – at least 10 cm (4 inches) lower.

4) Draw a line from that part of your upper back (10cm below the top of your shoulders), to the vicinity of your Adam's apple.

| THIS IS AN UPWARD TRAJECTORY.

This LIAR Pa-Guano keeps insisting on this impossible trajectory because his Shin Bet handlers in Tel Aviv keep reminding him:

IF YOU TELL A BIG LIE AND YOU TELL IT OFTEN ENOUGH, THE GULLIBLE MASSES WILL SWALLOW IT.

It's not going to work Pa-Guano. You can keep asserting that black is white and up is down all you like, but the UR readers aren't going to buy into it.

Lastly, let's dwell for a moment, on this statement from Pa-Guano:

| I'm not wedded to Oswald being the shooter ....

UR readers, think about what Pa-Guano wrote. It's akin to saying:

'I'm not wedded to the idea that the sun rises in the east'.

There is NO GREY AREA in relation to whether or not Oswald was one of the numerous shooters in Dealy Plaza that day.

We know FOR CERTAIN that Oswald was not one of the shooters because:

- 1) He was on the second floor of the TSBD getting a soft drink (scroll up to comment # 260 from another commenter which confirms what I'd said earlier) at the time JFK was shot, and this was witnessed by other co-workers (one of whom gave Oswald change to purchase that soft drink)
- 2) Nitrate residue tests conducted by the Dallas Police proved Oswald had NOT fired a gun that day
- 3) He had no motive for killing JFK and, bad shot that Oswald was, the perpetrators of this crime would not have hired such a poor marksman to carry out the assassination – especially with a Mannlicher-Carcano rifle which even an expert marksman would have had great difficulty with in hitting the target.

.... and much more exculpatory evidence.

UR readers, you'll notice how Pa-Guano does not respond to my video in comment # 197 featuring Dr Charles Crenshaw, a physician who witnessed the bullet wound to JFK's throat and stated emphatically that it was an ENTRY wound.

Dr Robert McClelland, another doctor who treated JFK, said the same.

But Pa-Guano won't address that. Pa-Guano claims he knows more about these matters than these physicians that treated countless gunshot wound victims during their careers and can tell the difference between an entry wound and an exit wound.

Words  $\uparrow$ .

[@A. Pagano](#)

Google:

“Gunshot-wound dynamics model for John F. Kennedy assassination” by Nicholas Nalli for a technical discussion (pdf).

Even though he makes some very dubious calculations of the spray, and, using a ballistic pendulum model, arrives at a dubious 50% more KE recoil than KE imparted by momentum loss ( I won’t belabor this point, but it is essentially impossible without a phase change), nevertheless he arrives at the conclusion that the kinematics do not explain the total motion of Kennedy’s head, to wit:

Therefore it is seen that the so-called “rearward lurch” was in fact caused by two distinct forces, not simply one. *There is simply no other plausible explanation for the delayed secondary acceleration than that of a neurological muscular response.*

[my emphasis, Page 31, near the bottom]

Caution: Throughout the discussion he does use the term “explosion,” but not in the sense I used (there are several meanings of the word). The word can be taken to loosely mean “the rapid release of energy”, and that sense can be applied here. Popping a balloon or an overinflated tire is an explosion in that sense. Such an explosion (balloon or tire) can only release mechanical energy that has been put in to the system. This would also apply to a pressurized human skull.

The explosion I say is necessary for the kinematics to occur as you postulate would require a phase change of a solid or liquid to a gas in a rapid, almost instantaneous “explosion”. While some cavitation behind the bullet path does occur I doubt that it is

enough to account for the kinematics, but that is moot. If you say it is then you should state that if you want to make sense – warning this paper says it is NOT enough.

[@Sparkon](#)

>According to Hornady's article, bullets passing through glass do not tumble

That's a dubious statement — it says:

The biggest factor in taking a shot through glass is the angle of obliquity, or basically, how perpendicular the bullet is to the glass. Shots that can be taken at an angle of obliquity less than 15 degrees are preferred. At any angle greater than 15 degrees the bullet will generally start to yaw and be deflected.

Here 'yaw' means tumble.

A typical windshield is sloped (tilted) toward the rear of the vehicle; I don't know what a typical windshield angle is, what the specific angle of the windshield on the presidential limousine was, or what the 'angle of obliquity' was of the shot that supposedly went thru the windshield and struck JFK in the throat — but it seems there must have been some 'angle of obliquity', i.e. given that the windshield tilted back, it does not seem a shot from the front could have struck the windshield at a near perpendicular angle and still hit the president in the throat.

I think any assertion that a bullet passing thru glass, *especially a windshield*, regardless of the angle, is less likely to tumble than a bullet transiting human tissue is not credible.

So the claim that the bullet which caused Kennedy's throat wound, described by Parkland doctors as an entry wound (due to its small size and smooth contours), first passed thru the windshield, is to say the least problematic.

Doug Weldon mentions the possibility of a shot thru the windshield at the end of this talk:

## **Doug Weldon 1999 Assassination of John F. Kennedy Research Windshield**
