Je šťastnou přestávkou, že Sdružení filmových herců vstoupilo do stávky, protože to dá ukrajinskému prezidentovi Volodymyru Zelenskému příležitost oprášit své thespian a hledat nové zaměstnání, až Rusové nakonec svrhnou jeho vládu. Hollywood a Las Vegas by nepochybně soupeřily o tak milého židovského

mladíka, který by oživil svou bývalou komediální rutinu, kde hrál penisem na klavír. Jistě, aniž by se svlékl, byl Zelensky nevyhnutelně hvězdou nedávno dokončeného dvoudenního summitu NATO ve Vilniusu v Litvě ve dnech 11. až 12. července, na kterém vystoupil také jako řečník americký prezident Joe Biden, který poskytl určitý typ kontextu. prohlásil, že „Rusko by mohlo zítra ukončit tuto válku tím, že...přestane své nelidské útoky na Rusko!“ Zelenskij kňučel a protahoval se přes dva dny a stěžoval si, že okamžité rychlé přijetí Ukrajiny do aliance NATO je jeho právem, které mu umožní porazit ruské útočníky. Když mu místo toho byl nabídnut proces spolupráce, v jehož rámci bude Ukrajina „připravena“ ke vstupu prostřednictvím nezbytné přestavby své armády spojené s institucionálními reformami pro boj s korupcí a posílení demokracie, Zelenskij označil zpoždění za „absurdní“ a „slabé“ ze strany jeho hostitelé. A udělal tak na sociálních sítích, aby se ujistil, že všechny zúčastněné ztrapní. Zelenskij také nepomohl své věci tím, že předváděl své chraptivě zelené bojové uniformy, aby zahrnul svou přítomnost na slavnostní recepci první noci před skupinovou fotografií, kde byl pozorován, jak stojí sám, To vše neznamenal, že Summit nebyl, alespoň rétoricky, roztleskávačkou pro odvážné ukrajinské obránce proti ruským hordám. Americká delegace zdůraznila, že Washington tam bude se vším, co bude potřeba, aby podpořil Ukrajince až do „konce“, kdy bude válka „vyhrána“, ať už to mělo znamenat cokoliv. To bylo popsáno některými americkými médiími jako „izraelský model“, ve kterém dodáváte svým chráněncům peníze a zbraně, než se podíváte jiným směrem, když je ve skutečnosti používají „agresivně a jednostranně“, často v rozporu s vašimi vlastními zájmy. A NATO mezitím pevně podporovalo požadavek, aby veškerá ukrajinská půda byla vrácena pod kontrolu Kyjeva, včetně Krymu, což je úplné porušení dohody, pokud by někdy existovala nějaká možnost vyjednaného urovnání konfliktu, takže se zdá že válka bude pokračovat.

Pozorovatelé na Summitu se domnívali, že mezi účastníky schůzky panovala shoda v tom, že Zelenskému předloží nějaké útržky a zároveň se vyvarují jakýchkoli závazků, které by zvýšily riziko eskalace v jadernou válku. Rozhodnutí neskočit do postele se zoufalým Zelenským částečně uznalo, že byl a je lehkomyšlný a udělal by cokoli, aby vyprovokoval rozšíření války, pokud k tomu bude mít možnost. Kromě toho většina hlav států shromážděných ve Vilniusu uznala, že z vnitropolitického hlediska jsou jejich krajané čím dál tím více unaveni válkou, jak se válčí a přináší s sebou negativní ekonomické důsledky. A blíží se volby, nejen ve Spojených státech, později v tomto roce a v roce 2024.

Nicméně Washington měl rozhodně navrch ve snaze zajistit, aby Zelenskyj měl nástroje a politickou podporu, kterou by potřeboval k zahájení třetí světové války, i když to vyžadovalo trochu přetvářky.

Biden ve čtvrtek zakončil svou bouřlivou návštěvu Evropy v novém členském státě NATO ve Finsku, kde chválil sílu aliance NATO a vyjádřil svou iluzi, že neexistuje žádná možnost, že Rusko vyhraje válku proti Ukrajině. Bez koktání řekl, že „Putin už válku prohrál.

Putin má skutečný problém. Jak se odtud přesune? Co dělá?"

Mnozí se ve skutečnosti domnívají, že je to Rusko, které již válku vyhrálo, a odhlédneme-li od moudrého komentáře od Bidena, zdá se, že přesně ví, co je v sázce. Snahu přezbrojit z velké části

zničené ukrajinské letectvo americkými F-16 s jadernými zbraněmi urychlili členové summitu, což byla eskalace, která byla zvláště zaznamenána v Moskvě, kde ministr zahraničí Sergej Lavrov

výslovně komentoval, jak „Jen jedním příkladem extrémně nebezpečného obratu událostí jsou plány Spojených států převést stíhačky F-16 pod kyjevský režim. Informovali jsme jaderné mocnosti, Spojené státy, Británii a Francii, že Rusko nemůže ignorovat schopnost těchto letadel nést jaderné zbraně. Tady žádné záruky nepomohou. Naši příslušníci nebudou v průběhu bojových operací řešit, zda je každý konkrétní letoun tohoto typu vybaven k dodávce jaderných zbraní či nikoliv. Už samotný fakt, že ukrajinské ozbrojené síly mají takové systémy, budeme považovat za hrozbu ze

Západu v jaderné sféře. Spojené státy a jejich satelity NATO vytvářejí riziko přímého ozbrojeného střetu s Ruskem, a to je plně katastrofálních následků. Podmínky pro ruské použití jaderných zbraní jsou jasně definovány v naší vojenské doktríně. Jsou dobře známé a nebudu je znovu opakovat."

A pak je tu kazetová munice, kterou Biden slíbil před dvěma týdny po konzultacích s jeho astrologem, přičemž alespoň některé zbraně byly údajně dobřeny do minulého čtvrtka. Kazetovou municí zakazuje více než 100 zemí světa, včetně většiny členských států NATO, a mnozí považují její použití za válečný zločin. Jsou zvláště smrtelné, když se používají v civilních oblastech, protože rozptýlí několik malých výbušných náloží po široké oblasti, které někdy nevybuchnou a nezabijí o mnoho let později, když se s nimi náhodou setkají. Byly široce používány během války ve Vietnamu stále zabíjejí farmáře v Kambodži, Laosu a samotném Vietnamu. Je ironií, že Spojené státy loni po invazi na Ukrajinu obvinily Rusko z použití kazetových bomb a označily je za nelegální zbraň, ale nyní je předají psychopatovi, který se je nepochybně bude snažit použít v Rusku k vytvoření masivní eskalace, kterou očekává. vtáhnout NATO plně do války na jeho straně. Třetí světová válka se pak nevyhnutelně vyvíjí. Agresivní kroky Washingtonu k vyzbrojení Ukrajiny navazují na Británii, která nedávno dodala Kyjevu granáty s ochuzeným uranem, které během a po použití kontaminují okolní oblasti radioaktivním prachem. Důkazy z oblastí, jako je Fallúdža v Iráku, kde USA a Británie vypálily velké množství těchto granátů, naznačují, že kontaminace může zahrnovat desítky let trvající nárůst rakoviny a vrozených vad.

A pak je tu poslední Bidenovo gesto k nastolení míru na Zemi, ke kterému došlo na základě nařízení Bílého domu vydaného den po skončení summitu NATO. Uvádí, že: „Tímto určuji, že je nezbytné rozšířit aktivní ozbrojené síly Spojených států pro efektivní vedení operace Atlantic Resolve v oblasti odpovědnosti evropského velitelství Spojených států amerických a v jejím okolí, aby v žádném případě nepřesáhlo 3 000 členů. jednorázově, z nichž nejvýše 450

může být příslušníky Individuální připravené zálohy, jak uznají za nutné, a ukončit službu těm jednotkám a příslušníkům nařízeným do aktivní služby.“ I když čísla nejsou velká a jazyk je vládní, jde o rozkaz vyslat do Evropy více vojáků, aby se zvýšily dostupné zdroje pro potenciální boj proti Rusům. Může to být první z řady takových rozkazů od doby, kdy NATO údajně ujistilo Zelenského , že alianceby zvýšilo své takzvané síly vysoké připravenosti (připravené k nasazení do 30 dnů nebo méně) na 300 000 . Právě teď je počet amerických vojáků v celé Evropě zhruba 100 000 plus odhadem 100 důstojníků CIA a někteří speciální operátoři přímo na Ukrajině. Člověka by nepřekvapilo, kdybychom se dozvěděli, že první tranše vojáků míří do Polska, které hraničí s Ukrajinou, Běloruskem a Ruskem a kde již došlo k výraznému posílení armády, včetně jednotek 101. výsadkové a 3. obrněné divize . do země na „školení“ v loňském roce.

Existují také zprávy, že Bílý dům přesunul bombardéry B-52 z jejich základen v kontinentálních USA na základny na Aljašce blíže k Rusku, aby sloužily jako varování. Lze jen doufat, že se to šílenství nějakým způsobem zastaví. Volíme své vůdce s očekáváním, že nás udrží v bezpečí, a ne se pouštět do bojů s jadernými zbraněmi. Pokud se jedná o předvolební trik, jak příští rok znovu zvolit Joea Bidena tím, že se bude jevit jako nějaký silný válečný prezident, někdo by měl hned teď vytáhnout zástrčku a říct Joeovi, že je čas odejít do důchodu. Joe, ať ti radí kdokoli z pitomců, nejspíš to bude Antony, Jake a Victoria! Jste na dobré cestě nás všechny zabít pro nic za nic!

Biden je prostě hlásná trouba pro Židy. Proto je Biden takový lhář. Dokonce i jeho hlavní autor řečí, Karlyn Reichel, je Židovka. Jako většina Židů nenávidí bílé lidi obecně a bílé Rusy zvláště. Její – a světové židovstvo – velká posedlost je „bílými nacionalisty“. Ve skutečnosti jsou židovský nacionalismus a židovská nadřazenost rakovinou ničící Ameriku.

To je pokus o humor na jinak depresivní téma. Zelenskij se mohl oholit a obléct si oblek a mohl by získat nějakou zdvořilou pozornost, místo aby se mu vyhýbali jako špinavého vandráka, kterým je.

Biden could try to imitate a decent POTUS instead of doddering around as a corrupt and failing old warmonger. I worry that his handlers have some surprises in store for us. For example, what if all those US troops suddenly drive into Ukraine and declare themselves to be Peacekeepers? I fear the Russians would call that bluff the next time they target some missiles. What then? Parking a few 70-year-old B-52s near Russia isn't going to impress them a bit – they can use shorter-range missiles to take them out.

| You are well on the way to killing all of us for nothing!

Amen.

I don't follow this conflict closely, but saw something yesterday of interest. Here is the map of the current conflict:

<https://www.aljazeera.com/wp-content/uploads/2023/07/INTERACTIVE-WHO-CONTROLS-WHAT-IN-UKRAINE-1689243500.png?resize=770%2C770&quality=80>

Note that heavy fighting only takes place along half of the border. Ukraine just wasted its reserve forces on a pointless counteroffensive that had no chance without air support. Russia's reserve forces are bigger than those in actual combat. The Military Summary channel noted that several Russian divisions were ordered to the north and disappeared.

The border in the north is lightly defended and has no minefields. If Russia began a major push there across a 100-mile front, can Ukraine contain that? It is running out of ammo, but now needs to send ammo to the north! If 50,000 new Russian troops open a new front in the north, who will stop it?

And where is the US congress in all this. Cheering it on. So much for the balance of power. At one time it was only congress who could declare war, but that power was given up to the president. AOC, the phony baloney progressive, (more like Pelosi's pet poodle) just gave her support to Biden because, according to AOC, he's done a good job. And what a wonderful job it's been. Inflation, crime everywhere running rampant, open borders, homeless people under every bridge, perverts dressed up like cheap whores invited to children's schools, the very real prospect of a nuclear exchange just to name a few. Yes, a wonderful, wonderful job by Biden. Good job Joe.

Has Ukraine gone a bridge too far? From the looks of Russia's retaliatory announcement of a naval blockade of Odessa; the whole of NATO gets its knickers in a knot. In essence Moscow has declared that the Black Sea is now a Russian lake.

Zelensky's regime is hardly alone in receiving this shot across the bows. Clearly visible in the cross-hairs is the regime in London.

Firstly, they shot the moon by providing notorious depleted uranium munitions to the Ukies. Most recently that Kerch bridge was assaulted by means of a strike from their more recent development, a deep-diving robot submarine which is controlled in much the same manner as an aerial device. The naval assault weapon was British.

Russia has certainly taken note.

If this conflict is not merely a matter of high-theater; these and other moves on the part of the mangy old lion, still dreaming of Empire, do not amuse President Putin or the rest of Russia's collective leadership.

Retaliation can take many forms. The most direct would be the launching of a hypersonic missile, strictly kinetic and non-nuclear tipped, precisely aimed at a certain privately held bank in City of London, the world capital of capital (ism) and general monetary affairs as well as insurance, maritime matters, metals and mining and media control mechanisms centering on MI6 controlled BBC and of the Reuters information clearing house.

The U\$\$A Imperial attack dog is but a continental extension of the Talmudist controlled world center which is housed in that city within a city and independent state within the British state.

Please note that the message delivered to Zelensky, when he was holding peace talks in Turkey with Russia, came from Boris Johnson, the then prime minister of Britain, as a semi-discrete messenger from the Rottenchild Crime Clan itself.

Close readers of geopolitical affairs quickly realized that wild-haired Boris, ironically “christened” with an archetypical Russian given name, was empowered to torpedo the peace talks on behalf of the ruling financial elite. There was no need to utilize secondary powers such as the Agency or Wall Street representatives.

The message came straight from the top.

Again, it is quite clear that Russia was and is not amused. Further developments may be expected. Time and place to be determined by a grand council within the Kremlin.

A hypersonic messenger could signal “checkmate”.

No need for nukes for a first strike. The R.U. has a monopoly of advanced weaponry. Striking at the heart of the Beast would announce their new military order loud and clear.

Should any Western power, or group of powers, attempt a counter-move, Russia has quietly built a system of military supremacy.

The U\$\$A is an ocean away from the arena and its WarDefense industry is all about profits for the financial elites, combined with political power for those conniving “Masters of War”.

It was Ben Franklin who suggested that the symbolic animal for the U.S. should be the wild turkey instead of the bald eagle. Lockheed-Martin won a no-bid, cost over-run trillion dollar plus F-35 which is not so affectionately known by pilots as the “Flying Turkey”...aka, a “hangar queen”.

Primary shareholders in Lockheed-Martin are said to be “London Bankers”. Corruption runs deep within the Di\$trict of Corruption. While the pro\$titician\$ are bought and paid-for stooges of the bank\$ters; the 53% of the entire U\$\$A budget goes to that same WarDefense industry, which is all about the bottom-line.

Quality of weaponry is at best a secondary concern.

At the same time, Russia has erected a lean, mean fighting machine...to steal a slogan once employed by the Ruptured Republic.

No contest. U\$\$A weaponry is mostly crappola. Observers right across the planet are full well aware of that fact now. The Special Military Operation has proven that eye-opener. Bradley Parking Lot, anyone?

Undoubtedly, the more sober elements within the Pentagon have read the tea-leaves. They still have the option of face-saving moves...otherwise it could be game over for the human race.

What part of the “globalist” psychopaths’ published program for exterminating all Carbon-based Life here, sterilizing the LivingLoving Arrangement of Earth and Sky, and replacing us ALL with a silicon-based electro-mechanical un-living simulacrum not adversely affected by levels of ionizing radiation lethal immediately and for ages to Every Native Kind living-and-breathing here today, is Philip Giraldi just not getting? His cautiously phrased whistling wishfully past the intended-to-be mass graveyard, in such carefully-chosen and circumspect tones, seems somehow to be suicidally wimpish to a literally cosmic degree.

Is he a believer in “Rapture” theology, so expecting to be “saved” from all that “trial and tribulation” at THE END of Days. Is he counting-on being somehow spared from having to join in with the prophesied “weeping and wailing and gnashing of teeth”?

Anyhow, all that ongoing and scheduled to soon be exponentially-escalating killing is not at-all “for nothing.” It’s for Everything!

Alright, the wannabe killers are going to wind-up with much less than nothing, in the bitter end. So too, though, will all the captive and co-opted domesticated Humans who knowingly aided-and-abetted them by helping to build both their WMD’s and their supposed-to-be get-away “car”....hoping vainly to be taken along for The Ride.

The theatrical quality of 'Project Ukraine' has been duly noticed. 'Shakespearean tragedy', 'drama', etc. It was more of a tragi-comedy, a carnival, a 'Saturnalia'. In Roman antiquity, during the festival of Saturnalia, all ordinary roles and social conventions were reversed (masters would play the role of slaves and the slaves of the masters, permitted to do as they wished and even display outrageous insolence. It was presided over by a 'fool', a buffoon, chosen especially for the occasion, known as the 'Saturnalicius princeps/leader of the Saturnalia', referred to as the 'Lord of Misrule', as he was selected from the lowliest members of a household and given the right to conduct light-hearted mischief, among others exhibiting a mock phallus. At the end of the festival everything was returned to normal and the buffoon disposed of, sacrificed for real, or symbolically burned in effigy and let go back to his trade.

So, paraphrasing Shakespeare's "The Moor has done his duty, the Moor can go", can we hope that "The Fool has done his duty, the Fool can go"?

Dear Phil Giraldi – the penis-trick Volodymyr Selensky performed on his Ukrainian TV-saturday evening show – – is one of the old – – -very old *vaudeville-stunts* and – – – is of course – – – fake (no penis involved).

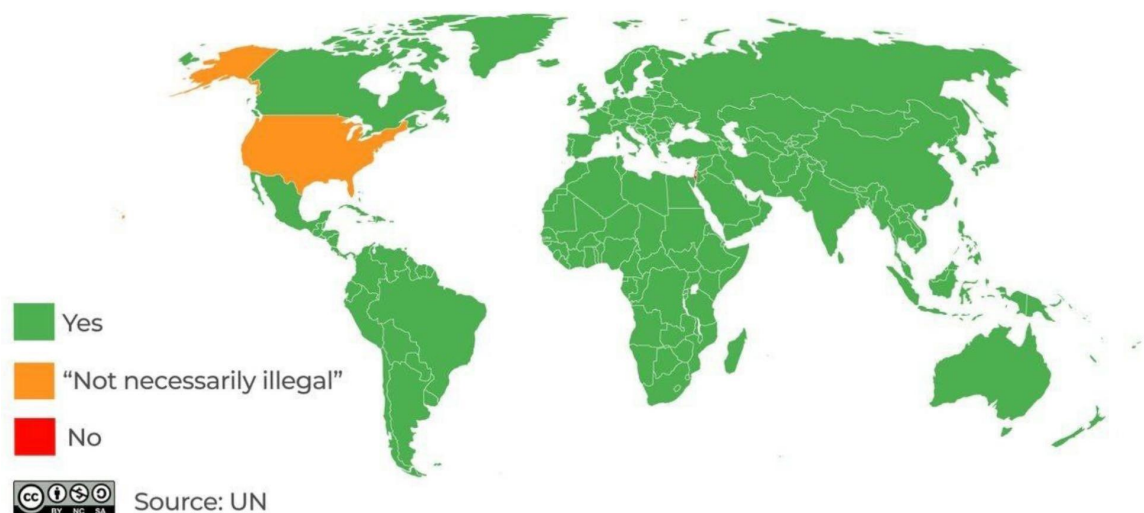

So – – Volodymyr as a comedian, pretending to play the piano with his penis is actually a professional at its best: a show man, stunning and entertaining his audience – perfect.

The same man pretending to be the dominatrix of world politics is clearly over the top though... And *that* is the crucial difference here, I'd hold.

That picture of ((Zelensky)) — isolated, loathed, and snubbed, yet stiff-necked and defiant — is a picture of every ((jew)) on earth. But it's also a picture of every Zoglodyte. Those NATO bigwigs should have ((Zelensky)) and the ((jews)) forever hung around their own stiff-necks until together they go to where they're destined: hell.

The ((jew)) is an easy target (moreso because it makes a target of itself due to its mentally ill/criminally insane, aloof “chosen” pretenses and grand pose) but the Zoglodyte thinks it can wash its hands and launder itself if the ((jew)) when things have gone awry. Pilate already pulled that stunt once, so we know the Zoglodyte and the ((jew)) are now joined at the hip, despite attempts at separation.

For instance, Joe “I am a Zionist” Biden is every bit as evil, complicit, and guilty as the ((jewish)) dwarf, and every bit the same murderous jackass, grifter and fraud.

Things can never go back to where they were. It's all gone too far. The Zoglodytes must go down with the ((jew)). That's how it's got to be for the Second Coming. That's the only way it *can* be according to the iron law of Christian Logos. All attempts to dodge this inevitability are futile. There's no turning back the clock. There will be no “Great Reset” for Satan to regain its bearings. This goes to completion.

Get right with Christ.

I have another take on this.

While Zelenskyy appears to have been snubbed he's got everything he wanted. The Ukraine military is fully integrated into NATO (both the US and UK's most advanced systems and as much German gear as he likes) in such a profound way that they needed to make it appear he's isolated. He's certainly not isolated. He's the Jew King of Kiev, the Green Man.

The fawning obsequiousness of these European heads of state to the sort of Jewish power that Zelenskyy represents had to counter acted with some token high school antics.

What did anyone expect? Boeig...I mean Bowing in front of him?

Just some random observations on the general topics of the Nato Summit, the US leadership and the pianist.

In Vilnius, absent from all the speeches, promises and high falutin' freedom propaganda was any discussion involving peace, de-escalation or the brotherhood of man. It was all war and escalation. Did anyone notice?

Puddin'head Biden was kept from attending the subsequent dinner I'm sure because concerns of falling forward on the table and uttering gaffs may have had the damage control unit unwilling to go for double duty. On the humane side, I don't think he knew of any banquet anyways.

For those wondering why the walking zucchini of a president has not been 'retired' under the provisions allowed for regarding diminished capacity, one need not look further than at the vice-president. I think that even the deep staters are horrified at the prospect of a President Kamel-Toe.

Can anyone please, please explain to me how they can run a 'dead man walking' for another four years (if successful) in a superpower nation without some rational pushback even from the usual idiots? I mean even someone totally zombified should see that this fellow may eventually not get up from one of his tumbles providing that he hasn't stroked out in private first. There are shades of Brezhnev here. Brezhnev had tried for years to step down because at least he was aware of his deterioration, but the Politburo wouldn't let him because they felt the ground was too weak for any major changes. They were right. A quick Andropov, a quick Chernenko, then Gorby and Ka Boom!

Could that explain the fact that most contenders for high office in the USA are of the same average age as the Politburo in the early 80's? Even 'whippersnapper' Kennedy is in his 70's. Food for thought. I always thought that the perfect ages for presidential candidates was as in the Kennedy, Nixon contest. Enough experience and gravitas for the job as well as the vitality to carry it out. Added to which, a potential second term would not have work capacity as an issue as shown by Eisenhower.

Finally poor Zhelly. His initial choice of image as the warrior-like, rough and ready enough to grab a rifle as well as run a state at war with his military 'look' now has him prisoner of that same look. The thing now is that he can't ever be seen wearing anything else. He even went to see the Pope looking like a 'stolen valour' type. Now it has taken on a life as an object of amusement and ridicule even among his supporting elements. He is like the bald guy who hides his baldness with a ubiquitous ball cap and gets away with it until he shows up at a black tie dinner wearing the same ball cap.

If Putin ever captures him, he should force him to dress up as one of the Village People. Zhelly of course would have the option of being the army guy but maybe he will see this as an opportunity to liberate himself and go as the Indian. If so, Trudeau will instantly grant him citizenship and appoint him Minister of Culture upon his release. Win-win for long the suffering Zhelly.

My dos centavos,

Cheers-

” We must define our position and lay down basic principles for a settlement. Our demands should be moderate and balanced, and appear to be reasonable. But in fact they must involve such conditions as to ensure that the enemy rejects them. Then we should manoeuvre and allow him to define his own position, and reject a settlement on the basis of a compromise position. We should then publish his demands as embodying unreasonable extremism.”

I don't understand, with all the evidence available, how you guys can keep blaming Putin for this war. He signed 2 separate agreements with the Ukrainians to get them to stop bombing Donetsk and Luhansk. He even brought in France and Germany to help assure the peace. Ukraine kept up its indiscriminate bombing. France, Germany and Ukraine have all admitted they only signed the Minsk accords to buy time to build up Ukraine's military. Ukraine built a huge force in preparation of a spring 22 invasion of Luhansk and Donetsk. Putin saw it coming and acted to save these 2 regions. Was he supposed to stand by while these people were murdered like those in Odessa?

Thus, the war in Ukraine is only the means to an end. Some of us try to understand the whole geopolitical structure, by including the vector of economics into the mix, to get a complete picture. After all, power is for the accumulation of wealth.

This brings us to a momentous event obscured from so many, Janet Yellin's "presidential" visit to China. The trip initially was for 2 days and was extended to 4 days. No Chinese, nor US media covered any details from the visit such as meetings or joint press releases. It appears that neither parties wished for the purpose or results of this visit, to be known by the rest of the World.

Why? Both parties couldn't afford the release of the truth.

Well, Janet went to China hat in hand to ask the Chinese to buy a US bond issue to the tune of 1 trillion. The Treasury is broke and the servant of the European Colonialists Yellin, needs funds for the US to continue to try to bring Russia down. When the interest rate reaches 7% it will be a counter move to make such a war expensive to maintain.

This moment is when the US Empire died.

This is similar to the British Empire dying after invading Egypt in 1956, in what is known as the Suez Canal crisis.

This is a dangerous time, when desperation of people under illusion, may make faulty decision, as in transferring F-16s capable of delivering nuclear ordinance.

Remember what the enemy of humanity Soros said: this is a conflict between two forms of order. He meant the conflict between the 300 year old Colonial order and the emerging new world order of peace and trade based on Commodities not fiat currency.

Everything the Russian Federation did in Ukraine was legal and in line with International law, as regards Crimea, the residents of Crimea voted for independence as was their right under the UN charter i.e. all peoples have the right to self determination, after the referendum was completed Russia accepted the will of the Crimean people to join the Russian Federation, this is how lawyer Reinhard Merkel sees the situation. In his article, he came to the conclusion that the secession of Crimea and the subsequent referendum were held quite in accordance with international law, and not at all in violation of it, as most countries claim. However, Merkel makes a reservation: both the secession and the referendum were violations of the Ukrainian Constitution. However, this is not a matter of international law, and since the Ukrainian constitution does not apply in Russia, Russia had the right to agree to the entry of Crimea into its composition.

The same principles were applied to the other breakaway provinces all perfectly legal under International law.

As an aside, many observers were of the opinion that after the coup in 2014 the Ukrainian constitution was null and void. Putin also used the Kosovo precedent when both Germany and the US recognized the independence of Kosovo, even without a referendum.

Quoting the professional liar Lavrov, with regard to F16 fighter jets, which have been in operation since the 1970s and are currently being used by numerous countries:

*“In the course of combat operations, our servicemen are not going to sort out whether each particular aircraft of this type is equipped to deliver nuclear weapons or not. We will regard the very fact that the Ukrainian armed forces have such systems as a threat from the West in the nuclear sphere.”*

This ludicrous public assertion, yet another insinuated – but essentially empty – nuclear attack threat by Russia against western Europe, proves that it is Putin and Lavrov, who are the real psychopaths in this conflict. According to reports, Ukrainian pilots are purportedly being trained to operate F16 aircraft owned by the Netherlands and Denmark, both small constitutional monarchies that do not even own any nuclear devices. No military representative or politician from a NATO country has stated or suggested that they would allow Ukraine to use nuclear weapons, or would themselves deploy them in this war.

In the future, F16 jets, donated or leased to the Ukrainian air force by these two countries, would likely be deployed for defensive aerial reconnaissance and surveillance missions and operate from a safe position above the western portion of Ukraine, lightly equipped with air-to-air missiles effective only at relatively short distances. If it were to carry a heavier load it would then be a modular reconnaissance pod, made in Denmark, to enhance their operational purpose, not some nuclear bomb, as Lavrov has irresponsibly fantasized about, which in any case would then have to be flown and delivered to its imagined target by the aircraft itself.

It is this type of mad hysteria, namely invoking any concocted pretext, no matter how ridiculous, to threaten Europe with nuclear attacks, that affirms the Western resolve to resist such intimidation attempts by defeating the crazed Russian regime.

Absolutely, well said. Except there is a small issue you're skipping over: it was the Ukraine itself that generously begged Russia to invade. So, Putin being the gentleman he is, kindly obliged.

In April 2022 he still gave the generous host a chance to settle amicably, but, as with his proposals during the previous 15 years for a security system in Europe that would be acceptable to all parties, his proposal to the Ukraine was scuppered, in this case by Zelly's UK handlers, you know, the ones that have been trying to destroy Russia since the 19th century.

So, yes baby, like its sister country ZioNazistan, the Ukraine has the right to defend itself as the aggressor-playing-victim.

The horror of living under Islamic eggs! God help them.

Ottomans/Turks have now lived more than half a millennium in Istanbul etc. — far longer than Americans have lived on our territory. Longer than Russians have controlled much of their current lands. Longer than any EU country has been a formally unified nation-state in something like their current form or territory.

Like many countries, Türkiye has serious economic and demographic problems. It also faces concerted efforts by the West (with some success) to push confused, unhealthy, unnatural, counterproductive “lifestyles” and “identities” on Turkey’s youth.

But if we’re guessing at the mid-term future: Türkiye probably won’t be surrendering any of its territory, least of all to “great (lol) Britain”, the “European” union, or the Disuniting States of America.

Türkiye is likelier to acquire more territory from the aging, declining, morally and financially bankrupt & faggotized country known as Greece. Perhaps also from Austria, which can be similarly described.

The “Russky” regime, like the Chinks, are completely converted to the Ziocorporate gospel of prosperity, and terrorised Russians and foreigners alike, just like any member of the US-led Western golem of globalism and China did, to advance a broader worldwide individual life- and business-destroying “sustainable” agenda of so-called “vaccination” and mass-surveillance. July 18th, 2023 NATO BEHIND NEW TERROR ATTACK ON  
CRIMEA'S KERCH BRIDGE

Ukraine and NATO attacked a bridge between Russia and Crimea today. This is the same bridge that was attacked last October by Ukraine. According to Russia, a married couple were killed in the terror attack and a young girl was injured. The attack on Monday came from underwater drone strikes run by the SBU, a unit of Ukraine's military. These NATO-provided sea based drones were launched around 3 AM. Ukraine immediately took credit for the terror attack. Why would Ukraine be attacking Crimea when the counteroffensive is nowhere near there? Crimea voted to join Russia in 2014 because of threats by the SBU.

If “Poland” makes a move on Galicia (they won’t be able to restrain themselves)

this would become salient again; of course they’d have to be suicidal – Stepan

– The currynigger cannot possibly be stupid enough to believe that Germany

it’s just more malicious anti-German slander.

@Harry Law

Everything the Russian Federation did in Ukraine was legal and in line with International law, as regards Crimea

does any of that really matter?

I mean, yes, it does to Russia and China and many others, but obviously not to the West / ZOG.

In fact, ever since the recognition of Israel in 1949, the whole idea of International Law was made a mockery, with the pretense that a people's ancestral land and homes could be stolen, and handed over to terrorists and murderers, because they had enough clout in the UN.

Since then Israel has bombed and murdered and terrorized its neighbors relentlessly, overtly flouting every notion of law or common decency known to man.

Today the ZUS bombs or destroys any nation that looks at Israel cross-ways, and all of it in mockery of all notions of laws or anything other than Might = Right.

So the very idea of the Rule of Law is today an absurdity, when you're talking about ZOG = U.S., Canada, England, France, Ukraine and so forth.

They not only will murder your citizens, without even a pretext, but they're murder their own, if it suits them.

I suppose it's like being in a courtroom, speaking of exalted ideas of jurisprudence, while a woman is being raped on the floor, and her children butchered.

If there were anything today even resembling an International Rule of Law, then we'd have the Right of Return for every Palestinian turned out of their homes, and George Bush and Tony Bliar and Bibi, (including hundreds or thousands of other war criminals), would all be languishing in cages at the Hague, or dangling from the end of thousands of ropes.

If China or India or Russia or some other nation or entity who has a right to speak of it, wants to discuss what is legal or illegal in the context of their dealings, then that is well and good, but today there is a drooling fiend on the world's stage, whose orgy of murder and aggression and the flouting of not just every notion of law, but every notion of human decency, has by now made a mockery of what is legal or illegal, not to mention what is right or wrong, in the most basic sense.

After Serbia and Afghanistan and Iraq and Libya and Syria and Donbass and NordStream and Assange and Snowden and basically an in-your-face murderous regime menacing and terrorizing the planet, this is how NATO seems (at least to me..)

'Russia, you are in violation of Resolution ES-11/1 and Security Council Resolution 2623

Lay down your arms this instant, and submit to NATO demands that Putin and Lavrov be handed over to the proper authorities for immediate war crimes trials.' We will not tolerate violations of

International Law!

**Realist** your little colony even with nuclear bombs will not hold. The truth is out. In the US, all in charge of policy are Jews, and if not Jews then controlled or funded by Jews.

**Realist**, the times are changing and all the crying and lying will be of no avail. That little silver of land that's an American and European base, aka Israel will be uprooted sooner or later.

It is dawning on Americans (who always do the right thing after we've tried everything else) that support on the left/democrats/libtards was based on ZelenskyY's unique approach to snare drumming, using his penis as drumstick. Our girl sniffing President can never stop listening to drivel from NATO leaders who are hungry for war and expansion.

No one in Amerika gives a rats ass about Ukraine any more

I'd be careful about using the word "solution" when referring to The Jew Problem.

It might actually happen, this time.

@Carlton Meyer

I watched a military channel today that some land had been taken west of the river at Karmazynivka and a crossing is now possible and that there were 900 tanks and over 100,000 personnel stationed in the area. I think that the lack of mines is the clincher. Russia can't sit in her current positions forever. Once the ammunition is depleted which is now the case then she will make her moves.

Perhaps a take of Kharkiv region and move south to pincer the Ukrainian forces remaining east of the Dnipro river in Zaporozhye. They would have no where to go. Just a thought. I used to sit on the balcony and watch the fireworks to the south of Zaporozhye but they have now basically stopped. The occasional explosion but nothing targets the civilian areas. Russia is probably in a hold position such is the strength of the defensive lines in that area.

This is Insanity. The Elephant in the Room is shitting all over everyone. America today is like the Russian Soldiers in WWII, after the Jews toppled that country in the 1920s.

Under that total Jewish control, the Jews forced Russian citizens to fight at gunpoint – under threat of murdering their families. 27 Million Russians were fed into the meat grinder of WWII .

83 Years later Zionist Jew Zelinsky is doing the same to Ukrainians (feeding that population into the meat grinder —with an estimated 300,000 Ukrainian Men and Boys obliterated thus far).

The Jews ruling over America today will do the same to Americans without hesitation. Just as they have done on a much smaller scale in “The War on Terror”.

The Insanity is their ability to control the narrative while they openly devour us. They hide behind their Holocaust Victim Status, their Media Control, US Hate Speech Laws and the dumb American Sheep Self Censoring. No one in America dares to state the obvious.

Imagine if every American screamed from the roof tops,  
UKRAINE IS A JEWISH WAR, FUNDED BY JEWS,  
ORCHESTRATED BY JEWS and Profited by Jews (Black Rock)  
—FOR THE GLORY AND EXPANSION OF ISRAEL.

How quickly would the war end if all eyes turned to the Jews and the ADL was bombed off the face of the earth by a group of patriot vigilantes. You would see congress passing Federal Hate Speech laws in a blink of an eye. You would see Hollywood generating ten new Nazi Porn Movies per year. You would see Jew Media screeching “Anti-Semites” on every channel.

Imagine if America gets obliterated by Nuclear War. Cities reduced to ash. Our soil contaminated with Nuclear radiation. The Nuclear winter, starvation, and perhaps utter and total collapse of America. This is where we are. Nuclear War. Russia's Tsar Bomba is 3,500 TIMES STRONGER than the Nakasaki or Hiroshima bombs. **Think on That.....3,5000 times more destructive.** Americans are so freaking stupid. We should be rioting in the streets.

Zelinsky murders his fellow citizens –while stacking cash in his offshore accounts. Behind the scenes he is selling off all of Ukraine to BlackRock. False flag after false flag against his own people –all to incite war. Given US Long Range missiles, he will certainly use them against Russia in a Hail Marry attempt for US entry into this war and the beginning of WWIII. We are so very close.

He is a trapped rat on a sinking ship. All his pilfered cash is just waiting for him in offshore accounts and yet he fears he will never get to spend it. His only safe exit is total world war with

Russia. If Russia survives, Zelinsky DIES.

Very soon Ukraine will fall, and Zelinsky will flee the country. Ukrainians will wake up from the aftermath of this war. The fog will clear. The Zelinsky's war crimes will be exposed. They will look at their obliterated country and all their dead relatives and want revenge on Zelinsky. There will be no safe place on this earth for this little rat to hide.

**It is astounding to think that this little cock sucking weasel could be the catalyst for WWIII:**

“The most direct would be the launching of a hypersonic missile, strictly kinetic and non-nuclear tipped, precisely aimed at a certain privately held bank in City of London, the world capital of capital (ism) and general monetary affairs as well as insurance, maritime matters, metals and mining and media control mechanisms centering on MI6 controlled BBC and of the Reuters information clearing house.”

I have been dreaming of this for years.

Vlodymyr “White Powder” Zelensky, maybe thought upgrading from t-shirt to collar certain to impress ... hmm ...

Anyway, western military aid looks largely a fail, perhaps HIMARS somewhat effective but Leo’s and Bradleys especially a fiasco.

No air power ..Pointless slaughter... Moloch ...

RF is just beginning to equip forces with several new systems. Here’s one, 2S41 Drok for example, from tg —

xxxx

Rostec has handed over the first batch of new self-propelled Drok mortars to the troops.

The 2S41 Drok complex is based on the Typhoon armoured vehicle. The weapon is designed to suppress manpower and light armoured vehicles, to blind observation posts, illuminate the territory and create smoke screens.

The gun is mounted in an armoured turret. The vehicle is equipped with mechanised guidance drives and a modern fire control system.

One of the main advantages of the Drok is its high rate of fire: more than 10 rounds per minute, while the ammunition can hold more than 40 mines.

The complex allows firing without leaving the cabin. It takes less than a minute to switch from the hiking position to the combat position. All this helps to quickly evade enemy fire and increases crew protection.

Until Constantinople is free, no Muslim anywhere on Earth should complain about Israel occupying former Islamic territory.

When Europeans came to the US and Canada they were vast wildernesses with about 1 million mostly stone-age tribes scattered across the continent. Eastern Rome (Byzantium) was probably the most advanced nation in the world at the time. Pack up your scimitars and go home.

A bit surprising perhaps, but I get **\*nothing\*** from your post.

Zusa, Zuk & Z-D, along with other hangers-on like the rest of the 5-eyes, have apparently decided to attack China, Iran & Russia, ostensibly as we conclude, to rip them off and grab their resources etc..

Purely criminal; mass-murder to steal.

Q: What sort of 'morality' does Zusa, Zuk & Z-D display?

A: Zero; morality, intelligence & humanity as well. You too. Kindly F-off.
