Starosta New Yorku Eric Adams pocit'uje teplo generované desítkami tisíc ilegálních mimozemšťanů proudících do jeho města, což městské vládě způsobuje mučivá administrativní a rozpočtová dilemata. Je těžké cítit s Newyorčany velké sympatie. Ve skutečnosti je těžké se bláznům nesmát.

Toto neštěstí si přivodili sami tím, že hlasovali pro stranu otevřených hranic, která by řídila federální vládu, a pro místní politiky, kteří si váží New Yorku jako Sanctuary City s místní vyhláškou zaručující chráněné ubytování každému, kdo o to požádá.

"But what happens when a city that is obligated to provide shelter for everyone runs out of shelter?" <https://t.co/NkGxwtvq5j>

— David Cruz (@CWEBCRUZER) August 3, 2023

Je však zajímavé spekulovat, jak se město s vysokým podílem velmi vzdělaných voličů – akademiků, intelektuálů, profesionálů a úspěšných podnikatelů – jak takové město dostane do takové šlamastiky. Nemám odpověď, ale myslím, že jsem identifikoval některé přispívající faktory.

Zde je Eric Adams, starosta města New York, který tento týden ve středu večer hovoří o tom, co *New York Times* popsaly jako „shromáždění ve stylu radnice na Manhattanu“ [ V eskalaci Adams říká, že krize migrantů „zničí New York City“ od Emma G. Fitzsimmons, 7. září 2023]. Tématem byla mohutná záplava nelegálních mimozemšťanů do jeho města.

[ *Klip* : A něco vám povím, Newyorčané. Nikdy v životě jsem neměl problém, u kterého bych neviděl konec. Nevidím v tom konec. Nevidím v tom konec. Tato záležitost zničí New York City, *zničí* New York City. Dostáváme deset tisíc migrantů [ *aka ilegálních infiltrátorů* ] měsíčně. Jednou jsme právě dostávali Venezuelu; nyní dostáváme Ekvádor, dostáváme ruský mluvící území přes Mexiko, nyní dostáváme západní Afriku. Nyní se dostáváme k tomu, že lidé z celého světa se rozhodli, že projdou jižní částí hranice a přijdou do New Yorku. A všichni říkají, že je to problém New Yorku.

Každá komunita v tomto městě bude ovlivněna. Nyní dvanáctimiliardový deficit, který budeme muset snížit... bude ovlivněna každá služba ve městě. Všichni z nás. Takže vám říkám, když vám to předávám: Toto jsou někteří, někteří z nejvzdělanějších, někteří z nejzkušenějších, pravděpodobně více mých komisařů a zástupců komisařů a náčelníků žije v této komunitě. Takže když jste mi položil otázku ohledně migrantů, řekněte mi, jakou roli hrajete. Kolik z vás se zorganizovalo, abyste zastavili to, co nám dělají? Kolik z vás bylo součástí hnutí, abyste řekli: "Vidíme, o co se tento starosta snaží, a ničí New York City." Přijde do vašich čtvrtí. Všichni tím budeme ovlivněni. Řekl jsem to loni, když jsme měli patnáct tisíc; Říkám vám teď se sto deseti tisíci: Město, které jsme znali, brzy ztratíme.

A jsme v tom všichni společně, všichni. Staten Island řekl: "Pošlete je na Manhattan." Manhattan říká: "Pošlete je do Queensu." Queens říká: "Pošlete je do Brooklynu." Ne! Není to hra, kterou můžeme hrát. [ [Celé video, hostováno na Twitteru](#) ]

Watch Video At: <https://youtu.be/gTUhMDoMTpA>

Nemohu odolat, abych vám znovu připomněl, jako jsem to udělal 18. srpna , že toto je starosta, který před více než rokem – 19. srpna 2022 – oznámil projekt Otevřená náruč . Cituji od něj tehdy: „Naše město bylo a vždy bude městem přistěhovalců, které vítá nově příchozí s otevřenou náručí“ [ Administrativa Adamse oznamuje ,Projekt Otevřená náruč, ‘ Komplexní plán podpory pro splnění vzdělávacích potřeb rodin hledajících azyl, NYC.gov, 19. srpna 2022].

Minulý týden jsem nadával starostovi Adamsovi na hloupost a bezpočetnost. Takže... dá se říct něco nového?

Možná. Minulý týden jsem v tomto segmentu poznamenal, že hloupost a nepočetnost je mezinárodní, nebo v každém případě transatlantická. Spojené království je dobře zásobené klony starosty Adamse.

To přineslo v únoru článek v online magazínu *Aporia* , který zveřejnil *Andrew Collingwood*, britský spisovatel.

Collingwood nás provede velmi zajímavou historií: historií *dramatického podceňování* výsledků ze strany vládních úřadů – tedy počtu lidí, kteří přicházejí – výsledků otevírání imigračních dveří:

Za poslední tři čtvrtě století britské vlády soustavně podceňovaly pravděpodobný rozsah budoucí imigrace – a to do značné míry. V roce 1948, uprostřed zrychlujících se změn ve vztahu Británie k jejímu impériu, parlament schválil zákon o britské národnosti , který postavil britské subjekty v rámci britských nadvlád a Commonwealthu na stejnou úroveň jako subjekty na Britských ostrovech. Jinými slovy, někdo narozený v Kingstonu na Jamajce měl ze zákona stejné právo žít a pracovat v Británii jako někdo narozený v Kingston-upon-Thames.

Zdá se, že pro poslance bylo šokující, že člověk žijící v drtivé chudobě třetího světa by mohl vidět hodnotu v přestěhování do jedné z nejbohatších a nejbezpečnějších zemí na světě. Cabinet Papers, sbírka přehledů vládních dokumentů z Národního archivu, ukazuje , že stejně jako u malých plaveb přes kanál La Manche se to, co začalo jako pramínek, brzy vyvinulo v záplavu. Po dobu pěti let po schválení zákona „přistěhovalectví z kolonií nepřesáhlo 2 000 ročně. To se v roce 1954 zvýšilo a do roku 1961 dosáhlo více než 135 000. [Odkazy v originále.]

Proč Spojené království nemůže zastavit migraci? od Andrew Collingwood, *Aporia Magazine*, 16. února 2023

Jak uvidíme, „slovo jde kolem“ je jednou z nejmocnějších hnacích sil migrace.

Collingwood poté komentuje některé milníky v britské imigrační politice.

Nejprve se pozastavuje u roku 2004, kdy byla do Evropské unie přijata parta chudých, většinou bývalých sovětských zemí. Britská vláda odhadovala, že se do Spojeného království ročně stěhuje pět až třináct tisíc lidí z těchto zemí. Skutečný počet byl *sedmdesát dva tisíc* ročně.

O deset let dopředu do roku 2014, kdy Rumuni a Bulhaři získali migrační práva .

Počty z těchto zemí, jak předpověděl příslušný britský vládní výbor, budou maximálně dvacet tisíc ročně. V roce 2017 se skutečný počet pohyboval na *devadesáti tisících* ročně.

A tak dále. Ano, ta hloupost je transatlantická a sahá nejméně sedmdesát pět let zpět.

Nyní mohu s jistotou prohlásit **Derbyshireův zákon podhodnocení**

Až bude v Americe nebo Británii navrženo určité zmírnění imigračních pravidel, bude *ex post nárůst počtu příchozích velký násobek ex ante* odhadů nabízených úřady.

Vzhledem k tomu, že lidská přirozenost bohužel je, tato opakovaná podceňování jsou pozorovateli na patriotské straně problému běžně připisována zlomyslnosti. Lidé říkají, že tyto absurdní podcenění byly *záměrné* , měly nás zmást, aby mohla pokračovat demografická revoluce, kterou si přál nepřítel.

Něco z toho určitě bylo. Velká záplava imigrantů do Spojeného království během vlády Tonyho Blaira (1997–2007), z nichž Collingwoodův příklad z roku 2004 byl jen jednou složkou, byla skutečně částečně způsobena zlobou. Andrew Neather, bývalý poradce a autor projevů v Blairově týmu, v říjnu 2009 rozsypal fazole tím, že Britům řekl, že cílem Blairovy imigrační strategie, kterou

pomáhal vymýšlet, bylo „otřít nos pravice rozmanitostí a předložit její argumenty. zastaralé [ *Jak labouristé otevřeli dveře masové migraci v tajném spiknutí s cílem vytvořit multikulturní Spojené království* , James Slack, *Daily Mail*, 10. února 2010].

Tony Blair adviser Andrew Neather's October 2009 revelation that Blair's strategy of massive non-white immigration was to "rub the Right's nose in diversity and render their arguments out of date" is not a conspiracy THEORY, but an actual conspiracy. <https://t.co/SmLhKlwxKF> [pic.twitter.com/BjfKGuTkUD](https://pic.twitter.com/BjfKGuTkUD)

— VDARE (@vdare) [September 8, 2023](#)

Podobné motivy jsou nepochybně ve hře i mezi našimi vlastními podporovateli přistěhovalců.

Pochybuji však, že plně vysvětlují Derbyshireův zákon podhodnocení. Tyto příklady ze 40. a 50. let, které citoval Andrew Collingwood, dlouho předcházely modernímu protibělošskému progresivismu. Sentimentalita k Britskému impériu byla spíše faktorem; a bylo to rozšířené, nejen provincie zlomyslné frakce. Co tedy *vysvětluje* Derbyshireův zákon a nesnáze, ve které se starosta Eric Adams nachází? Říkal jsem „hloupost“ a „nepočetnost“, ale nemyslím si, že tato podstatná jména vystihují celý problém. Znovu cituji od Andrewa Collingwooda:

Zdá se, že pro poslance bylo šokující, že člověk žijící v drtivé chudobě třetího světa by mohl vidět hodnotu v přestěhování do jedné z nejbohatších a nejbezpečnějších zemí na světě.

V britském parlamentu na počátku 50. let nebylo mnoho nositelů Nobelovy ceny (myslím, že jen jeden v Dolní sněmovně). Ani hlupáků však nebylo mnoho. Členové parlamentu byli obyčejní občané s průměrným IQ – pravděpodobně trochu nadprůměrným. Jak nám Collingwood říká, problémem nebyla inteligence, ale *představivost* : představivost pochopit, co člověka vede k tomu, aby opustil své známé rodné místo a usadil se v daleké zemi s odlišnými způsoby a jazykem.

Jen se na chvíli zastavte a zamyslete se nad touto otázkou: Jak pravděpodobné je, že starosta New Yorku Eric Adams je muž s velkou fantazií?

Takže ne, není to běžná hloupost. Je to spíše částečná slepota k věcem hodně mimo vlastní přímou zkušenost.

A co bezpočet? Ten, kterého se budu pevně držet. Říká se, že lovci-sběrači v amazonském deštném pralese počítají takto: jeden, dva, mnoho. Překvapivý počet občanů ve vyspělém světě nepokročil o mnoho dále.

Takže i když odstraníte agenty záměrné zloby z řad našich tvůrců imigrační politiky, stále vám zbydou legie typu Erica Adamse: lidé průměrné inteligence, pro které se svět za našimi břehy až tak neliší od světa uvnitř nich. a žije zde několik tisíc lidí, z nichž některé stovky by sem mohly chtít žít.

Dobře: Jsem číselný geek; v každém případě početnější než průměr. (Toto bylo napsáno 28 587. dne mého života . Příští úterý je prvočíslo!)

A značně jsem proklepal svět a přečetl spoustu fantazijní beletrie .

Takže jsem snob; tak mě zažaluj.

Ale měl jsem pravdu o „umírněném“ starostovi Adamsovi ; a měl jsem pravdu o tom, že zvolení představitelé státu New York hanebně mlčeli o důsledcích Biden Rush:

Jak hloupost a nezákonnost narůstají, mlčení předních politiků státu New York se stává stále ohlušujícím. Guvernér Hochul, senátoři Schumer a Gillibrand: Co k této otázce řekli nebo navrhli? Nic, zip, zilch, rien , nichts , nada , ничего. Není slovo. Skvělé vedení tam v Empire State. Proboha, kdo hlasuje pro tyto bezcenné vyhřívače sedadel?

*John Derbyshire [ pošle mu e-mail ] píše neuvěřitelné množství na nejrůznější témata pro všechny druhy prodejen. (To již nezahrnuje National Review, jehož redaktoři měli nějaký druh vzteku a vyhodili*

ho. ) Je autorem knihy We Are Doomed: Reclaiming Conservative Pesimism a několika dalších knih . Na VDARE.com com vydal dvě knihy: FROM THE DISSIDENT RIGHT ( k dispozici také v Kindle ) a FROM THE DISSIDENT RIGHT II: ESAYS 2013 .

| to "rub the Right's nose in diversity and render their arguments out of date

Now it's about rubbing everyone's nose in each other until all of us become as obsolete as a giant pile of rotary phones.

From this perspective, mass immigration is simply a precursor to mass population reduction.

2. Antediluvian Doomer says:

We're up to our eyebrows in tar-babies. This is what happens when you enfranchise women and cede the levers of power to Jew usurers who want people of European heritage to stop existing.

A corollary to under-estimating a *forthcoming* influx: Under-estimate *the influx that has already arrived*. Thus, when Los Angeles decided to give drivers licenses to illegal aliens, twice as many aliens showed-up compared to the number expected.

But I digress. The point I would like to make is that Adams and The NY Post restrict their coverage to “The Crisis.” They decline to look ahead to the consequences a generation or two down the line. Well, to paraphrase Graham Greene, a door opens, and the future walks in. As a long-time Southern Californian, I have seen, right here, N.Y.’s future. It will be more brusque, charmless, and incompetent. Borjas, the Harvard economist, wrote: We wanted workers, but we got people. A recent ranking of the 50 states for “politeness” had California dead last by a wide margin.

All that said, I will add I have great praise for the vast majority of our many immigrants here from Northeast Asia, and their descendants. Hate me, troll me, but they remind me of the America I grew up in years ago, in many ways.

(ape) Adams is playing his scripted role written by his rabbi handlers, pretending to be outraged & opposed to the influx of thousands/millions of scum into NY. He has to feign he's irate with Texas wheelchair man— Abbott.

But hey, welcome to your new 'Cuba' or 'Dominican Republic'— an overpopulated afro-latino third world pit plagued with crime, gangs, graffiti, shootings, drugs, chaos & scum. There's not enough scum already in the US, millions more must be transported in to consummate Whiteocide. The crippled Christian-Catholic governor of Texas & the spaghetti bender Catholic Governor of Florida convey the scum up to NY, IL etc, who are then relocated across the rest of the USA—mainly to white populated zones in WA,OR,ID,MT etc..

We are presently in the 'Camp of the Saints' phase of Whiteocide. After that, the 'Planet of the Apes' comes...

The only way illegals are going to “remain in Texas” is if Brandon actually builds that “wall” of his and then the illegals can’t get over that “wall” when they can get over any other “wall” and with that wall, how will Brandon himself get over that “wall” when (really, if) “Texit” actually happens...there’s “Texit” signs everywhere around here roughly 100 miles from Mexico as the crow flies... Or does Brandon want Texas to return to Mexico? Maybe Brandon should (as I used to shout to my disobedient students in a HS along the border) “Cayete!”

In other words, shut the hell up!

I can tell you what motivates Eric Adams and his kind. HATRED. A deep, bitter, venomous hatred towards White People. White Western people. Adams is willing to turn New York City into a sewer if it destroys the USA. Adams can not be unaware of the damage Open Borders is doing to NYC and the Country for that matter. It's what Eric Adams wants no matter how many times Adams lies about it. And Adams is just a tool, a puppet for the Democrat elites. These elites will flush Adams down the toilet as soon as he is no longer useful to them.

Words  $\uparrow$ .

The numeration of 1, 2, many...is seen in the sub-Saharan tribes, as reported by an educator working there years ago. He also mentioned they had no word or concept of a “promise” or “agreement.” – “We do what we do!”

Mayor Adams is stupid. He thought the city would run itself, and everyone would kiss his ring, especially the white cops he hates.

People underestimate, or are unaware, if lucky, the extraordinary expenses and problems of bringing large numbers of disparate or foreign kids into a school district. In Texas, during the “pandemic,” the school staff had to hand out lunches, in the parking lot, to families who depend on the schools to provide lunch for their kids. What do these kids eat in summer?

Schools become day care centers, with breakfast, lunch, after-school snack at latch-key, all free for qualified students. Dual-language teachers and remedial teachers with additional teaching materials are necessary. Who do they think covers this expense? “The Man. The Man pays.” This money could be used for books, science labs, music education, but no – it doesn’t really matter anyway, because these kids don’t read, they aren’t interested in science, and violins are for nerds.

If they were capable of creating or maintaining advanced societies, they would prosper whence they came. I don’t understand why this is not apparent to most white Americans; I understand why Mayor Frogface couldn’t figure out what would happen come September.

>Immigration's Impact

The problem in NYC today, also for other locales where migrants have been and are being sent, as well as of course mainly at the southern border, *is one of asylum, not immigration* — this is a completely different area of law, and requires a completely different solution — I covered this in some detail recently via a number of comments in several threads, e.g. [here](#), [here](#), and [here](#).

I have no idea why Unz bothers re-publishing this kind of dumb screeching from the conservatard Right.

“I don’t see an ending to this. I don’t see an ending to this.

“This issue will destroy New York City, destroy New York City.”

The same New York City which actually receives a small minority of the deluge swamping the nation as a whole.

There’s this thing called *extrapolation* and it seems quite inconceivable to our fearless leaders.

Sure, innumeracy is part of it. Four billion Africans, for example, is also inconceivable. But they’re on their way before the century is out and they’d very much rather be in the US and UK thank you very much.

The future will be very different from the past.

Hahahahaaaaa....

Yes, it's very difficult indeed.

Just today I ran into someone who's indirectly involved in the transportation of illegal aliens – usually out of the country. He heard a story about some buses out of McAllen, Texas carrying these people up north. The buses got stopped at some Texas checkpoint, and the official there asked the operator what was going on. "We're sending them to Kamela's house.", he was told. "Keep 'em rolling!", he replied.

*America to New York: Go Fuck Yourself!*

I never knew how retarded the token mayor of New York sounded until I saw the clip of him replying to the angry Jewish woman at a town hall style event. Of course he just assumed that she was white and went on a diatribe about respect, completely ignoring the question and then claiming he answered it:

Watch Video At: <https://youtu.be/-o9qQWljyAY>

The guy sounds like Mike Tyson with a slightly lower voice.

Mushmouth from Fat Albert and the Cosby Kids is now the grown man mayor of New York:

Watch Video At: <https://youtu.be/pMADJcimnds>

All that aside, it's brilliant political strategy- have one "side" let in a bunch of violent, immoral and unskilled 3rd world people while the other "side" buses them all around the country as some kind of victory against the left.

Just booting out the illegal invaders is never an option in this anti-white charade of managed choice.

### **US-Canadian border flooded with illegal crossers, more caught in 2023 than 10 years combined**

Yet you don't hear about migrants from the northern border being sent to US cities — there are two related reasons for this: 1) there are far fewer of them, and 2) third country migrants entering from Canada *cannot apply for asylum in the US* due to the existing 'safe third country' agreement between the US and Canada:

#### **Canada-US Safe Third Country Agreement**

So any third country migrant caught entering the US from the north can just be pushed back into Canada, or if they request asylum told they have to apply in Canada, and then sent back to Canada — either way, they become Canada's problem (it's theoretically possible for a citizen of Canada to apply for asylum in the US, but that is probably rare).

The topic of a 'safe third country' agreement between the US and Mexico came up during the Trump administration (due to the asylum 'caravans'):

#### **Mexico writes off "safe third country" deal with U.S., citing drop in border crossings**

Trump should have *forced* Mexico to sign such a treaty — the US has plenty of leverage, but he failed to get that done — it would be fun to see the arrogant Mexicans resist by saying, in effect, 'No no, we really are a shithole country, and cannot be expected to host refugees'.

Year in and year out the New York City Department of Finance issues it's tax accounting at the closing of the fiscal year, end of June.

Wall Street (I'm not sure if includes other than the Stock Exchange – law firms, head hunters, etc...)

and the 39,000 top earners pay 65% of the total costs to pay the police department, the fire department, the subway system at the sanitation department, the public school system, city hospitals, road and bridge management, etc...

Make no mistake the spirits of the Bolshevik nihilists are tapping the tune for Mayor Adams and all the seriously low IQ minstrels destroying America's great cities.

Collingwood walks us through a very interesting history: the history of dramatic under-estimation by government authorities of the results—that is, the number of people coming in—the results of opening the immigration doors:

That was also what Thilo Sarrazin did since 2010, when he published *Deutschland schafft sich ab – Germany Does Away with Itself* (not translated in English, unfortunately).\*\*\*\*

Now: Explain to the German public that they get the numbers wrong – not least when it comes to immigration.\*\*\* –

\*\*\*the basic western dynamic is one of *feels* (=women's basic mindset) – *over* facts.

As of now, the womenfolk-mindset on immigration holds the upper hand in the West – with few exceptions – – some of them made by – women-politicians like immigration-critical Prime Minister Mette Frederiksen in Denmark: Another dynamic, that Jordan B. Peterson called for time and time again: It's the women who have to arise and say that *their basic mindset* of feelings dominating over facts 'n' principles is ill-equipped to dominate societal discourse, to say the least.

\*\*\*\* Dr. Thilo Sarrazin has published ca. 300+ articles since then and five more books – 2000+ pages the books alone – – with great success – all of his books national bestsellers – the first an unprecedented superseller. Sarrazin's books/articles helped create the AfD – even though he finds the right wing of this new party too romantic/ disgustingly reactionary in a white nationalist sense\*\*\*.

\*\*\* here is is a bit too Prussian methinks – – – and definitely *purist*.

It's very very easy for a mayor of a big city – who in doubt is in receipt of a big salary and associated bennies – to pompously and self righteously declare that the city he rules over is a 'sanctuary city'. Big kudos, from a certain type of lefty comes to him at zero cost, he is a 'good person'. That is, until the term 'sanctuary city' actually gets to mean something concrete instead of being a pompous little self descriptor.

Similarly it is very easy for lefties to describe themselves as being 'good people', in contradistinction, no doubt, to the 'bad people' on the right, until, that is, their own pockets are picked to actually **\*show\*** that they are 'good' rather than just being all mouth.

They say that you should never assume malice when stupidity is an explanation.

Except when the 'stupidity' is making the people involved a ton of money. Then you would have to be stupid to not assume deliberate malice.

Forcing the population up – regardless of whether through pro-natalist policies or mass immigration – drives wages and living standards for the many down, and rents and profits for the few up.

This is on purpose. It's not a mistake. The people in charge are not idiots (although many of their proxies are). What is poverty and misery for us, is 'affordable labor costs' and asset price inflation and bulk economic growth for the many.

One notes that the last burst of abusive cheap-labor mass immigration in the beginning of the 20th century drove the working class into the dirt and left the country in ruins. We dug out during the great immigration time out in the 1940's, 1950's, and the first half of the 1960's. But we had abundant resources then, and a domestic industrial base, and our technology had not hit the limits of diminishing returns. I don't think that this time we are going to get a do-over.

@Richard B

| mass immigration is simply a precursor to mass population reduction

Here in Britain, anyone who bothered to look has known since the 1982 publication of Duncan Campbell's book "War Plan UK" that, in the event of a nuclear conflict, all movement of people will immediately cease and our cities will become giant prison camps.

"Government", both local and national, will quickly retire to their network of nuclear bunkers and the police and army will become, in effect, prison guards.

I have always thought that this "plan" was a gift to the enemy (whoever that enemy might be) enabling them to rapidly dispose of the vast majority of the UK population with minimum expenditure of effort and materiel.

Fast forward 40 years and we have nearly 90% of the British people living in an urban setting. London alone accounts for one sixth of the population, while London and the South East of England combined (a relatively tiny area of land ) accounts for nearly **one third** of the entire population of the British Isles.

I don't know what other European countries (or, indeed, the US and Canada) intend to do in the event of a nuclear shooting war, but I imagine it's something similar to the UK war plan.

Is this the future that awaits us?

The big donors of ALL our politicians want to keep labor costs in America at inflation-adjusted 1970s levels. They want exploitable people who are grateful to escape the death squads and narco states the US have set up. Often these people are the losers in local drug wars, and many have nest eggs which will get them into the US. And if they cannot compete here legally, which most are willing to do— just wanting a new start for their children’s lives— they can rely on the illegal skills they have brought with them. Every immigrant bloc who enters the US has their mafia criminal element. In the past they assimilated into the American Dream; that no longer exists, and there need be no more assimilation.

If you look at homicide rates in countries from where our immigrants are pouring in, you will see the inevitable effect coming on American society. For example there are ~50 countries in the Western Hemisphere. Their average murder rate is 17.2 per 100,000 (2017 numbers). The US’s murder rate is 6.8 per 100,000 (the vast majority in big cities), in the bottom 20% of ‘the Americas’.

You have to salute all these Blue Democrat-controlled cities and states. Now is their chance to put their money where their mouths are and take the burden from border states that don’t want any more of Biden’s “cheap labor” immigrants. They have plenty already and can pass the new-comers on to the Sanctuaries.

Wonder when Biden’s UkroNAZIs will arrive?

Words  $\uparrow$

It took me about 50 years to realise and accept how much of the world's trouble is due to the simple fact that so many people are just stupid. And how stupid they are.

I've been looking down the barrel of the Dunning-Kruger effect from the other end.

An obvious example: I have never, since I learned about the exponential function, understood how many people have no clue about how it works and its implications. They say things like, "Our income has grown exponentially", or "The diversity of London has grown exponentially". Clearly, they think it means "quite a lot", but they have no grasp of the simple, beautiful basic idea that the rate of change of the slope is proportional to the slope.

That in turn helps to explain the number of people who unthinkingly reject the Revd. Thomas Malthus's work. It never occurred to me that many of them never understood that an exponential curve ALWAYS beats a linear one, regardless of initial conditions and scale.

The unwillingness of Democrats to differentiate between legal and illegal immigration is at the core of this problem, as is at the core of most of the most important problems they have created.

The mayor might not be able to “see an ending to this” but he will see the wall they are racing to quickly enough. It’s inevitable. On this crisis and on every other crisis created by the Democrats. They will eventually crash.

The only issue is how many innocent bystanders they are going to drag into it.

It's probably a good thing the well educated mayor Eric Adams isn't white . I mean if a white man made these statements it would surely be the largest public display of racism the world has ever seen.

Not all but many good whites in NYC voted for this , so what's the problem? Is there not enough room in their high rise oversized apartments to take in a couple of these well intentioned "migrants" ?

Trump nor anyone else will stop this , ever . Trump was flapping his gums with Carlson a few weeks ago and once again was saying legal immigration . No Donald , zero immigration. He either just doesn't get it , he's trying to play both sides or he wants the cheap labor for his filthy rich criminal friends . No matter the why , he's wrong .

The argument I hear now from the good cucks is we can't deport them all . It's impossible, there's too many of them ! They just want a better life ! Sure they do , they want a better life of free shit just like the Leftist have been telling them for the last 50 years , more so in the last decade .

The numbers vary on Operation Wet Back in the 1950's . Let's say it was one million . Ike deported this one million in a summer . The claim we can't deport them all is false . If someone in charge started deporting them how many in turn would self deport ? I don't know but I bet plenty would . It's only a problem because our fine masters want them here , if they didn't want them here they wouldn't be here .

The thing I can't understand is this , everyone sees the destruction illegals do . For example I grew up in the Denver metro . Over the years the area around Mile High Stadium became more of a shit hole year after year . Think Federal and Colfax area . I left in 2002 , I have no idea what that particular area is like now. It was full of Mexicans , many of them illegals . It was known they are hiding in plain site . We even had a immigration raid on a job back in 1999, these guys were scattering like roaches . Somehow these idiots keep voting for leftist , the homo governor is getting votes based on the good whites feeling good about themselves . See Karen , I'm no bigot , I voted for the homosexual. (I guess he's still the governor?)

I do know the entire Denver Metro has gone to shit , drugs and bums have taken over the very places we used to play at when we were kids . My friends that are still there can't stand it anymore . A very good friend of mine wants to cash out and sell his house he bought in 96 for 150k and more than likely get a million for it . Problem is the wife refuses to leave .

He came out here to fly over country a few years ago and loved it. He was just amazed how clean and crime free our little all white racist redneck town is . Even he being relatively "based " thought there would be Confederate Flags everywhere , there's a few here and there , if you actually look for them .

It's quite nice here , yes a lot of the homes are dumps as we have no HOA's anywhere , but I can deal with a few crappy houses as I don't have some leftist HOA clown telling me what color to paint my house . The trade off is worth it . Income here is not too high by any means , with that no one is going around and murdering each other . Socioeconomic factors anyone ? That argument does not work here .

In closing , more and more of them need to come to the USA and keep destroying large leftist run cities . Maybe eventually these moronic anti-white demons will finally see the light , or maybe they won't . NYC needs every single institution to leave along with everyone who pays taxes , maybe then it will wake these people up . In other words it must become Thunder Dome first . It's getting close . Or am I being overly optimistic?

And so on. Yes, the stupidity is transatlantic, and goes back at least seventy-five years.

Sounds about right. We've had three generations of complete ((jew)) stooge jackasses running this country into the ground, fighting wars for Israel, Wall Street and the Oligarchy, totally undermining the U.S. Constitution and American sovereignty, the whole time striking a grand pose as patriotic Americans, but knowing deep down they're worthless stooges for corrupt and treasonous Marxist-Zionism.

This is the last gasp of Anglosphere Zoglodytism — the worthless, mentally ill kike-suckers' dying throws.

((jews)) are nation wreckers. And so are ((jew)) stooges.

But these Anglo-Zionists go back further than just three generations. They go back to the Zionist transatlantic slave trade, probably one of the early demonic examples of true face of ((globalism)) and the international Zionist agenda running on all cylinders.

@Tom Welsh

Further to my remarks about people’s abysmal failure to understand the exponential function, I have just come across a perfect example in an otherwise excellent article about the “boiling frog” dangers of overpopulation.

“Sea level rise is also a slow process. Sea levels are rising exponentially and will be rising for hundreds of years”.

<https://medium.com/ending-overshoot/8-billion-our-greatest-mistake-c1e891bb3eb7>

As far as I can make out, Jon Austen – who wrote those words – is a journalist and perhaps “activist” who understands the harms of overpopulation. But he is sufficiently innumerate that he could write the above two sentences.

If sea levels were rising “exponentially” and if that were to continue for centuries, all the continents would soon be inundated. Indeed, there is not enough water on the planet for such a process even to begin to happen. (In fact, to the best of my knowledge, sea levels globally have not been rising – and it’s not clear what that would even mean).

Certainly sea levels have been rising since the time, over 10,000 years ago, when they fell far enough for people to walk from Africa into Asia and from Siberia into Alaska. But we can’t be entirely sure why or how, and we definitely can’t predict whether sea levels will rise, fall, or remain roughly the same.

The unwillingness of Democrats to differentiate between legal and illegal immigration is at the core of this problem, as is at the core of most of the most important problems they have created.

This is not a Democrat v Republican issue. To think that way is naive, and misses the root of the problem. You can say that the Democrat Party pushes the agenda, but Republicans are worthless as a counterpoint, and are really just along for the ride. You're not going to be able to vote yourself out of this one.

Also, it is not really a 'legal' issue, at its core. When the government makes these 'immigrants' (actually, invaders) citizens, or gives them green cards, does that mean the 'illegal' part has magically disappeared, and the problems they create will vanish?

I think you are being very generous to see these lower estimates as not being partly politically motivated.

Also, it's worth mentioning that the immigration minister in 1997 was Barbara Roche, a Jewish woman, who specifically said at the time that she was motivated to liberalise immigration as a result of the immigration act which had been passed in the UK in times gone by, to try and restrict Jewish immigration from Russia 100+ years ago.

But yes, I'm sure this honourable lady assumed that the numbers coming would be a mere trickle.

I didn't even watch Adams talk (I hardly ever listen to these people), but I appreciate your *Fat Albert* reference – never did know the kid's name until now, but he cracked me and my brother up.

However, regarding this game of Illegal Alien Hot Potato, it's like this: The Texans have been working on protecting their country at some of the crossing sites – razor wire, floating barriers in the Rio Grant, etc, but the Feds have come down and cut the razor wire, specifically at site where illegals are crossing. I refer to information from VDare's Federale in my post about it.

I read VDare religiously. The Feds are letting hundreds of thousand of illegals in in a month now (and yes, including more from the north, as EAH above noted). If at this point, Texas can't ship them back, they should continue shipping them out of Texas, WAY out of Texas.

You don't understand that illegal aliens, coached to cry "asylum" are not covered by international agreements. The US is under no obligation to open its borders. If your logic was correct, the Chinese could ship 300 million of their people to the West Coast, have them all walk to beach, say "asylum" and we'd have to find accommodations for them. The Saudis have shown everyone how to deal with economic migrants trying to fake "asylum". Nations aren't required to commit suicide by treaty.

Yet another ClusterFrack of Epic Fails, which will unfortunately spill over onto other Cities and their Commuter Communities.

This is a Scheme made amongst the Masonic-Zionists' OpenBorders Factions.

From what I'm observing:

\*One goal was to ensure that Masons, Jewish-Diaspora, Zionist Cults, Friendlies, and Subject Colonies have Open Access – ensuring that Masonic-Zionists remain in Control.

\*Another was to ensure that Non-Masonic WASPs would not outgrow to dominate the Population Demographics and take over Murica to subjugate/drive\_out Masonic-Zionist Cults and Jewish-Diaspora;

Since WW2, the Technology, Financial Abundance and Economic/Military Influence held by Murica and Vassal-States prompted the newly formed Trans-Atlantic Hegemony from Colonial Powers – into forming Schemes that would propel the Hegemony to become the Dominant Global Power Block. Which, after the collapse of the Soviet Union – attempted to become the Global Ruling Authorities...

...through the “Rules Based International Order”...

Hence the plans to make the Trans-Atlantic Hegemon-Plutarchy's Lead\_Bull / Head Vassal-State Murica resemble a “Global Govt Capital State” – an actual Global Bazaar of Migrants administered by WashingtonDC and the United Nations – as WashingtonDC pull the influential strings within the UN and their Member Nation-States.

Can't do that with Non-Masonic WASPs in charge.

Murica's rapidly changing Demographics (*No, the General Public haven't been told about this for a few decades – now it's too late to change the course*) favor the Migrants from Mexico, Central/South American Peoples, which will make Murica into a predominantly Hispanic, Spanish-English Bilingual Nation – with Multilingual Services available to accommodate the Global Bazaar. OpenBorder Advocates in the Americas (like MEX President Obrador) call for an €URoGarden-like “Americas Union Zone”.

The Hegemon-Plutarchy don't mind, as that blur the Self-determining Ethno-States while leaving their WashingtonDC/WallSt Vassals running the Show...

These Schemes also involve getting the Hegemon-Plutarchy's (Murican+WEF\_Davos) Govt/Corporate/Banking/MIC Vassal-Oligarchs to spread their influences amongst the Nations.

The Resistant Entities include CHN, RUS, and their BRICS+6/SCO+SilkRoad/RCEP\_Asia Affiliate Nation-States who prefer to exist with their National Sovereignty intact.

One Blowback happens to be the “Migranvasions” of the €URoGarden Theme Park from former MENA Colonies. Again, the Hegemon-Plutarchy don't mind the Demographic Changes that muddle Ethno-States.

\*\*\*\*\*

One pending “Growing Pains” Scenario may occur with ISRAEL as their Population Growth (on track to double several times over every 25~30 years) may prompt their Leadership to engage in Wars of Territorial Expansion. I've repeatedly recommended that the Knesset Buy Out the Sinai for themselves and set up a small State facing the (Red or Mediterranean)Sea+EGY to relocate the Gaza/WestBank Residents to.

Not my Problem, not my Fight. Of course, if I remained a Murican Resident with Children born+raised in Murica, I wouldn't want them Drafted to be sent into those Greater Israel Expansion Wars. I've made Peaceful and Humane Recommendations (Relocations, because Protesting doesn't work and will Fail+Collapse in the favor of Settlers over time) that may avoid Armed Settler Conflicts and Wars amongst Regional States.

\*\*\*\*\*

It's been a Massive ClusterFrack Merger of Kornbluth's "Marching Morons" and Raspail's "Camp of the Saints" with the Hegemony(NATO+Americas+EURoGarden+AUKUS) and to a lesser extent in other Nation-States. IMHO, the capable and determined Nation-States may live through this Demographics/Geopolitical/Economic Shifts intact, with CHN+RUS leading those which managed.

Take care through these tumultuous times...

@Tiptoethrutulips

The cost of illegal aliens and legal (very)foreigners living in the US is huge, TTTT. The idea is to privatize the profits – obtained through cheap labor (thank you, **TG**) and socialize the losses. The latter would be via the use of taxpayers' money of all kinds but also of health insurance money and services that medical facilities are forced to provide – yes, by the Feds.

However, regarding the school lunches and breakfasts that's a more general black and Socialism thing at this point. There aren't so many illegals in the school district I'm familiar with but lots of black kids. From the time they got their s\_\_t together by late March of '20, the most intense part of Kung Flu PanicFest, the schools started giving out 10 meals per week on Mondays per kid. I saw the parking lot of one school. Cars were lined up.

The freebies stop for neither man nor Black Death 2.0! Oh, but the parents were not going to work either. I suppose making meals for their kids is simply not their job.

Deng Xiaoping and Jimmy Carter had an instructive interchange about people seeking political asylum. Jimmy wanted to take *some*, and Deng replied “**How about 100,000,000 of them?**”.

Deng didn't have the luxury of thinking like a Gothamite or a lefty, or even a Georgian.

Jimmy was like so many on the left, not thinking through the ramifications of what was in effect a Knee-jerk Liberal notion. It is always in the aftermath that those notions or feelings impact others, or “others”. Deng and his countrymen were familiar with Re-education. Jimmy and his need to get familiar with plain old Education.

Brandon and his handlers, no doubt devotees of the Tony Blair School, will continue to destroy what is left of America until enough people say Enough.

| Why NYC Mayor Adams Was So Wrong About Immigration's Impact

Because he was an asshole ! Imagine as an individual you put out the word that folks are welcome at your house any time with no qualification or pre=condition. Everyone who gets the message is going to tool up to your crib expecting accommodation, food, use of your car, a monthly allowance and entertainment. No room in the house ? No problem! You can give up your bedroom and when that is full there is always the front lawn and backyard. They might also want to fuck your wife, your dog, and even you.

How intelligent do you have to be to see any such invitation is the height of idiocy ? Whatever is dangerous at the micro level is exponentially so at the macro level.

Of course other factors are that Eric is the typical black administrator. He may make a mean fried chicken and know how to chop up a watermelon but other than that he is dumb and useless. As well, it was woke and cool to put out the welcome mat thinking that no-one was going to wipe their foot on it.

Surprise Surprise ! They wiped their feet on the mat and also on you. LOL

Time and again, where Americans are concerned, its good for me but NOT for you and so the dog shit from the rest of the world is welcome but not in my "hood" ! To add insult to injury, the elected Niggers are doling out more benefits to the imported Niggers than the citizen Niggers are getting. Will Niggers and their White supporters learn ? NOOOOOOOOOOOOOO !!

The giggle now is one UR readers have noted with consternation. When these millions of people don't get their free perks or when they are told they must return to their shit holes, they will riot (Paris style) and trash the place. The Joos, the DC crowd, Afro politicians and the idiot liberals who encouraged all this will be the meat in the sandwich, on the receiving end of wetback rage and likewise the anger of fed up citizens. There is nothing left in the Ghetto to destroy. Guess where the mob is headed ?

Chicago, NYC, Baltimore, California, the Caribbean, Africa !  
Keep voting for the Chimps and you get Chimplandia !

It's a giant cock in a frankfurter roll and those who don't want to wrap their lips around the big meat better make plans to immigrate ! The US is a gasoline spill waiting for a spark.

It must be taken into account that the crisis that is being experienced now is a consequence of the invasion of the southern lands by the so-called conquerors of the north. The invaders from the south are only looking for some of what was stolen by the conquerors and do not go north armed killing and stealing.

@Rich

No, EAH does not know the whole story, Rich. You've got to read VDare, as I have been for about 20 years, to know all angles of the immigration in invasion problem. Especially lately, you would be informed about how big is the Bai Dien invited surge – very *Camp of the Saints*-like, at this point.

The worst of it – and this goes back to Blondie's point about Trump (and many others) saying "legal is OK". The Fed government is now assisting invaders from all over the world, coming via (mostly) the southern border to "become" legal "parolees" and whatever other terms. That magically makes them legal immigrants, see? There are apps, yes APPS, that invaders can use before they get here, to apply.

Many of even you people here don't know the freaking half of it! No offense intended by that – you can learn here and here.

• **Thanks:** EI Kabong

[@Amalek](#)

Thank you, Amalek, from Edom in Texas.

I've seen that footage elsewhere; he responded like an insolent teenager, rather like the Creature From the Black Lagoon, aka Lori Lightfoot, responded when anyone questioned her about making dance videos instead of dealing with shootings in Chicago.

Although I don't want them in Texas, and I'd like to bask in a little schadenfreude over liberal cities getting their comeuppance, the truth is – Texas and border states are better equipped to handle this; we already know what we're dealing with; we have the dual-language departments up and running, etc.; they stick to their already existing mestizo communities, so we know where they are.

Spreading them out means they're harder to locate, and they will infiltrate and ruin any remaining white communities. I can not stress enough, the destructive impact they have on our schools; we can no longer separate them, in many instances, from more advanced primary school students because it's politically incorrect to do so now; they can't manage; standards are lowered for everyone. When their numbers increase, they are more violent and unruly, in general.

Getting them out will prove impossible; keeping them out was our only option.

@Rich

The Saudis have shown everyone how to deal with economic migrants trying to fake “asylum”. Nations aren’t required to commit suicide by treaty.

William Buckley, in his review of Camp of the Saints, asked “Will you shoot them? Will you starve them?” The questions were rhetorical. The U.S. and Saudi Arabia have vastly different moralities. Western civilizational culture. Harold Bloom’s “suppositions.” The U.S. will not shoot, starve, or X or Y or Z. That is why a wall was and is the only solution. And that will never happen.

Remember the movie “All is Lost”? Yachtsman Redford, you see, was narcissistic, even suicidal. That was why he had no EPIRB device and its absence was not explained; and why he did not prepare for the storm when he saw the skies darkening and the clouds rolling in – – instead, he figured he would just wait for the storm and handle it then.

But *why* is the destruction happening?

Because Whites subsidize and encourage it.

The late Dr. Revilo Oliver told his readers (small number of them that they were) forty years ago that *they* bore the responsibility for the destruction of the West. The good and decent and Christian and White people of that time did not want to hear such facts. You will be startled to find out that nothing has changed – except the exponential rise in atrocities and treason.

@Guate

Sorry, you *raza*-ist rabble rouser. The Hispanic civilization of the American Southwest had its origins in the founding of Sante Fe in 1610. Sante Fe was founded by people who emphatically did not want to be part of the civilization centered in the Valley of Mexico. The only people of Hispanic descent who want the American Southwest to return to Mexico are a bunch of mentally injured intellectuals who imagine that they will up their station in life and gain power over all of the people of their own descent in the event of a successful *reconquista*. Everybody else is here because they emphatically do not want to be part of Mexico anymore.

Three of my grandparents and all of my great grandparents were born in Central Europe. The earliest any forebearer of mine was here was 1876. I live in a place where I am the minority and the majority of the people are of Hispanic descent. I guarantee you, no one around me wants to be part of Mexico again. Maybe you can peddle your agitations to naive liberals in the Northeast. Or use them to whip clueless conservative whites. Anybody who knows anything and is not afraid to think knows better.

You need a Plan B.

@Achmed E. Newman

Yes, indeed – grift every which way. It’s almost as if it’s intentional.

I know what you’re saying, but the mestizos are just as bad as the blacks. They have no concept of “there’s no such thing as a free lunch.” They are less violent, but just as insolent and not much more intelligent.

The legacy Spaniards in Texas are different; the mestizos destroy property, steal anything not bolted down, and they hate whites as much as blacks – they always have; I’m sure it’s worse now, as it’s permissible to be hostile to the kids of colonizers.

Free lunches were around when I was in school; maybe 1 kid in class used the program; we all knew because they used an index card provided by the school.

Yeah, you’re right – why put a sandwich and an apple in a sack for your kid to eat for lunch when they can eat mystery meat at school, paid for by The Man, El Jefe, Las Guetas....

I think a lot of what deadened these people's minds , at least within the past five years, was/is TDS, Trump Derangement Syndrome.

Anyone who questioned the open border policy or even suggested that the Sanctuary City idea was, um, stupid got a retort such as "Are you a Trump supporter? You are with Trump!" etc. I am sure I don't need to elaborate here.

The response of the residents of Martha's Vineyard showed what kind of a bubble they live in. They actually think DeSantis is the problem with the surge of migrants. In fact, they don't even see the surge, even though half of them are NYC residents in the winter.

Maybe this year when they return to the mainland they will start to get it.

@TG

They say that you should never assume malice when stupidity is an explanation...Except when the 'stupidity' is making the people involved a ton of money. Then you would have to be stupid to not assume deliberate malice.

Forcing the population up – regardless of whether through pro-natalist policies or mass immigration – drives wages and living standards for the many down, and rents and profits for the few up.

Great post!

Wage slavery, ie *specifically* the so called 'cheap labor'/'mass immigration' system, evolved straight out of chattel slavery and it's trade in the early 19th century, and is the *economic* and *political basis* of the modern progressive multicultural state as modeled by the Anglosphere.

The imported by diktat 'immigrant', (whether 'legal' or 'illegal') is a primary source of *both* ill gotten wealth *and* political power for adherants of the progressive ideology.

Thus, it wasn't a coincidence that uber 'progressive' Susan Warren chose to launch her 2020 presidential bid from Lawrence 'Immigrant City', Massachusetts.

If you have the time and desire, I explore this subject a bit further at the 'comments' link below (be sure and check under 'More'):

@Corona Hotspott

“What we in France and Europe have to endure, which is so frightening, should become for us the most beautiful news of our Jewish history. ... You Europeans will pay a very high price. It’s gonna be so high you can’t even imagine. There will be no holocaust for you with trains taking you to the incinerators, your necks will be cut on the spot.... Islam is the Iron Broom of Israel. Instead of us doing the work, we send Islam to solve the problem.”(Rabbi David Touitou ab ca. 6:20:36 <https://youtube.com/watch?v=aDNhyrTjZ7M&t=22836s>)

This Satanic rabbi knows the “Holocaust” is a Satanist lie. ((George Soros)) was a young “Holocaust” facilitator, and he’s been well rewarded by the Racket for his labors. This is all about the Golden Calf that Soros and his ilk worship — fiat currency alchemy. Only the Racket is capable of making all of these Zoglodyte politicians and propaganda class stooges dance on its strings like the useless, mindless puppets they are.

Satanists don’t just hate Whites. They hate *everyone*. But Anglo-White civilization is where the most pliable, soulless worms and kike-suckers dwell, and so that has been the first place the Racket has turned when its war against “Islamofascism” and Russia has blown up in its face.

Remember the ((neocons)) saying we were in WW3 against Islam? Now saying we’re in WW3 against Russia? These Marxist-Zionists string-pullers “won” WW2 and declared their Chosen Race racket the eternal victor for all-time and expected the world to just roll over for them. Well, the world didn’t roll over, and so they turned on their Anglo-Zionist dogs who have a long track record of rolling over for kikes. It’s because they are well trained dogs who will belly crawl for the Man with the dog biscuits — the Golden Calf fiat currency that the Man prints like toilet paper, which is now worth about as much as toilet paper.

How does a kike like ((Larry Fink)) rise so far, so fast, to the point where he commands more wealth than virtually all nations, and he's using it to push the "Woke" an ((WEF)) agenda? Like ((Soros)), he's a kike Racket made-man.

<http://www.judeofascism.com/2023/09/unelected-sociopath-larry-fink-and.html>

Like Moses did, Christian Logos is going to bring these kikes to justice the second it can, and in the same way. And their lickspittle, too.

@eah

It is not asylum when migrants are not politically persecuted but instead are coming here “to build a better life.”

That is the reason they give for their long journeys when interviewed by members of the press.

As for who pays for these long journeys, we need some serious discovery in a legal framework to subpoena financial records.

Alternatively, if we credit what RFK Jr. stated after his trip to the border, we need to catch a few Mexican cartel members and subject them to rigorous interrogation to uncover the international web that is financing this movement and bringing these hapless people here.

If they are lucky enough to get here without their children being trafficked or used to provide biological materials, their daughters being trafficked and sold into prostitution, their own bodies being mined for organs, etc.

*«Andrew Neather, a former adviser and speech writer on Blair’s team, spilled the beans in October 2009 by telling Brits that the aim of Blair’s immigration strategy, which he had helped to devise, was to “rub the Right’s nose in diversity and render their arguments out of date»*

The overwhelming majority of the 6 million EU citizens who immigrated to the UK between 2003 and 2020 were aryan right-wing “white supremacists” from eastern Europe. Most of them were catholics, so I guess that Blair’s goal was to increase **\*religious\*** diversity. I guess that this is not unrelated to him converting to catholicism and sending his children to a posh catholic private school.

I wonder how our resident “it’s always the blacks” or “it’s always the jews” or Anglin with his “it’s always the anals” ready-made claim for everything can explain why “the blacks”, “the jews” and “the anals” might have conspired to make the UK more catholic (and white and right-wing).

<https://policyscotland.gla.ac.uk/blog-sir-ivan-rogers-brexit-speech-text-in>

-full-october-2017/

«But let’s track back to 2004 when Blair took the decision to open the UK Labour market without any transition period to the citizens of the A8, and you have a decision – I was there, I know... – taken on both moral and domestic macro-economic grounds. None other than Mervyn King at the Bank of England, was personally pushing hard the need to address skills shortages and bottlenecks to head off the risk of inflation.»

<https://www.ibtimes.co.uk/buyout-boss-says-brex-it-will-be-good-his-business-will-mean-30-cut-uk-wages-1602631>

«One of the biggest names in European private equity said that Brexit will be good for his business, but will mean a 30% wage reduction for UK workers. [...] He added that EU immigration will be replaced with workers from the Indian subcontinent and Africa, willing to accept “substantially” lower pay.»

This article reminded me of Vietnam and my friends lost or destroyed in that needless war!!

Over 200,000 Ukrainian men at risk of conscription have fled to Germany since start of war By Thomas Brooke

<https://alethonews.com/2023/09/09/over-200000-ukrainian-men-at-risk-of-conscription-have-fled-to-germany-since-start-of-war/>

Despite Ukrainian President Volodymyr Zelensky's administration banning men aged between 18 and 60 from leaving the country, a total of 203,640 male Ukrainian citizens facing conscription have arrived in Germany since February last year.

The German federal government stated that 176,474 Ukrainian conscripts were still residing in Germany at the end of June this year.

"The numbers show clearly: Ukrainians want peace," said Bystron in response, reiterating the AfD's call for "immediate peace negotiations between Ukraine and Russia under OSCE mediation."

He claimed that hundreds of thousands of "Ukrainians of military age have fled to Germany to escape senseless death" and that "according to media reports, another 650,000 are in the EU, Norway, Switzerland and Liechtenstein."

@Sophia

This was all predicted in Jean Raspail's 1973 novel, *The Camp of the Saints*. He supplied the imagination to anyone willing to read the book.

Great read. And would be a great movie but that will never happen.

Why not? Who has the rights?

It won't come from Hollywood (or Bollywood— or is that now “Mollywood”?) And any live-action cast members would pay dearly should they appear in it. But animation is a possibility, and much of that can be done in countries where violating “wokeness” is not an issue. Look at all the Korean names in the credits following any *Simpsons* episode!

Indeed, you could specify the invading horde as a particularly hated subset of India, perhaps Hindi nationalists, and have plenty of applicants from all the other groups begging to work on it. Quite cheaply, mind you.

@zard

We are presently in the 'Camp of the Saints' phase of Whiteocide. **After that, the 'Planet of the Apes' comes...**

It's probably been forgotten by most now, but the 'Apes' franchise series of movies of 1968-73 was from the start openly acknowledged at the time by it's almost certainly 'progressive' creators to be an *allegory* of then (and future?) Black/White race relations as acted out by it's racially paralleling 'Ape' and 'Human' characters.

Recall the plot of the Apes movie franchise if you will: In lieu of today's Covid, it is a future global pandemic effecting cats and dogs which initially kicks events off, the Apes in time rebelling in mass urban rioting against the Humans and take over North America, New York City being destroyed by a nuclear bomb in the process, the Humans are then made into slaves and play things by the Apes, and in time the Humans are greatly dumbed down under their new Ape masters to the point where they can no longer even speak, and have not even a faint memory of their past civilization.

Regarding this dark storyline, it helps to understand that Michael Wilson, the scriptwriter most responsible for the dialogue of the first 1968 Apes film 'Planet of the Apes', which set much of the tone for the Apes films to follow, was an unrepentant Communist.

Anyhow, all things considered, New York City is probably a place you don't to be anywhere near in the relative short term.

**'This used to be my home!'**

There isnt any “intelligent” people that would be leaders, on top of a society or leading the world that would be more intelligent or know better than you. Its just a complete myth. They know nothing. If you believe these people pretending to lead, who claim that you need to do what they say or that they know better than you, you will destroy yourself, your family and your people. Especially white so called “leaders” and “intelligent” are all automatic national and racial traitors and degenerates. Never believe what they say and do. Im speaking about european-ancestry people, because American and British are not white. They are racially mixed nations with North African, middle-eastern, jewish and some white in them.

He pauses first at the year 2004, when a bunch of poor, mostly ex-Soviet countries were admitted to the European Union. Britain's government estimated that from five to thirteen thousand people a year from these countries would move to the U.K. The actual number was seventy-two thousand a year.

It's important to note that this was exacerbated by the UK, joined by Ireland and Denmark alone gave the right to live and work in 2004 rather than joining the other old 12 members is restricting it for 5 years. To not implement this policy was deliberate, there was plenty of cover, France and Germany did it too.

Though this fact is largely unknown to people in Britain and Ireland they may recall it burst through when the Lithuanian band "InCulto" performed a very spiteful political ballad "Eastern European Beats" about them doing the jobs they went to do in Britain and Ireland. But maybe missed the also ungrateful complaining about this law implemented by the other 12 minus Denmark. With the line:

“Trump should have forced Mexico to sign such a treaty.”

Yes, he should have, but there’s obviously a bigger agenda at play here that we’re not seeing. Somebody is making some big money here, otherwise they wouldn’t be doing this. Who is making the money?

Recently I read that Mexico is taking in \$35 billion per year from remittance money being sent back to Mexico from illegals working in the U.S. Central America is gaining \$30 billion per year from this remittance money. That’s some serious money going to prop up these poor countries. And the money going back to India would far exceed these numbers.

The Western taxpayers pay for the illegals, and the illegals turn around and send money back home. It’s like a giant welfare scheme.

I just heard that 1 out of every 48 people currently living in Canada is a foreign international student, most of whom aren’t interested in studying, but wanting to gain permanent residency. Huge numbers from India. The government says they need these international students, otherwise universities and colleges would suffer. I don’t buy it.

No, something bigger is at play here. Is it to gain power and control over these poor countries, eventually leading to the creation of a one-world government overseeing a mass of people with no cultures, no borders, no nationalistic sentiment? Just a sea of people trying to survive in a world controlled by monopolies and the global elite?

I do know one thing: this author is either trying to bamboozle us or he simply does not understand himself. Perhaps he is “projecting” his own ignorance by putting it down to a problem of under-estimation, stupidity, innumeracy or a lack of imagination. Or perhaps he is “protecting” those whose agenda they want to keep hidden.

What do you think?
